

Safety Product Guide

Wearable ID Products

Many of our kids will not wear jewelry but still need an ID. Or, your special person may need a wearable ID when wallet IDs aren't practical such as at the beach. These are good options.

My Precious Kid - www.mypreciouskid.com or 800-381-4577

Velcro ID bracelets, Velcro medical ID bracelets, shoe ID tags and more. Check out their website for many safety items.

If I need Hein <https://ifineedhelD.org>

Sells items that have all your info about your child on a QR code

Alert Me Bands www.alertmebands.com

Fully customizable allowing medical, special needs and allergy alerts to be added to any of our hundreds of designs. They guarantee that a child under 5 cannot take off the band.

Safety Product Guide

Medical ID Bracelets

MedicAlert - www.medicalert.com or 800-432-5378. The MedicAlert emblems are engraved with the individual's MedicAlert Member ID, primary medical conditions and MedicAlert's 24-Hour Emergency Response Center number. **Kid Smart®**: MedicAlert's Kid Smart service is a comprehensive suite of services that will connect to your child's personalized medical ID and guarantees that parents/guardians are communicated about their child's emergencies, should they occur. Membership cost Average \$25-\$50 a year.

US

ROAD ID- www.roadid.com

This is the interactive version of this item. Allows you to enter a comprehensive medical profile that first responders can access by calling the phone # on the band and providing the personal ID number engraved on the band. Cost is \$10 a year.

Chic Alert Medical IDwww.chicalertmedid.com

Company sells a host of medical alert jewelry that they engrave. Please only pick items that first responders would notice as medical alert jewelry.

Safety Product Guide

Project Lifesaver

This is a MUST for any child or adult who wanders. All the information on this program is located on www.poac.net under our downloadable section. It is basically lojack™ for our kids. The success rate is 100% nationwide.

Electronic Devices These products can help you identify the location of a person if they wander away. Some simply notify you when your child gets a certain distance from you. The other devices will actually help you locate a missing child.

Angel Alert is an early warning alarm system that detects when a child from adult supervision. Ideal for malls, busy urban areas, theme parks, airports, wherever you might lose track of a child. Cost is \$20- Has limitations.

strays too far

Buddy Tag [http: wvwww.mybuddytag.com](http://www.mybuddytag.com)

Buddy Tag is not a GPS tracking device but rather a safety device that uses Bluetooth technology and is affordable. It is worn around the child's wrist and works through an app compatible with both Apple and Android. Buddy Tag will alert you when your child has wandered out of your proximity through the smartphone application. Cost is \$40 and should last for a year. Great customer service and support. Only purchase from company.

Safety Product Guide

USB Thumb Drives

USB Medical Alert www.stickvi.com

This company has wallet cards, key chains, and dog tags all with built in USB thumb drive to store your child's medical information.

Digital Keypad Deadlocks

These products can be used on your exit doors to keep individuals that wander inside. Instead of using a key, you enter a code on a keypad. These systems start at about \$85. Check out the websites below. There are also available (smaller selection) from Lowes and Home Depot

www.kevlesspio.com

www.kevlessentrivlocks.com

www.nokev.com

Safety 1st- One of the largest carriers of child proofing items for the home. www.safetv1st.com These items are available at Lowes, Home Depot and baby stores.

Safety Product Guide

GizmoPal 2 www.verizonwireless.com

Available from Verizon- Cost \$80 then a \$5 monthly fee. Quickly make calls to and from the GizmoPal 2. Locate it from your phone, so you know where your child is, or get notifications if your child crosses set GPS boundaries.

ILOC www.ilotech.com A Canadian company- \$450 plus monthly fee. This is a good product- especially for older nonverbal individuals. GPS locator and phone that is allowed to call preset numbers.

Project Lifesaver's PAL (Protect And Locate) tracking system

Along with the digital watch/transmitter PAL also has a portable receiver which notifies the caregiver of a wandering event through the use of GSM & GPS technologies. If your loved one has wandered from the RF Perimeter you have set. PAL will generate an email alert and send an SMS (text message) with the date and location of the wandering event.

Safety Product Guide

Pocket Finder<http://pocketfinder.com>

Quickly locate, monitor, and track your kids with the push of a button. Using the PocketFinder online portal, or the FREE mobile app for select Android or Apple iOS devices, you will be able to see where your kids are at on Google Maps™ and receive alerts whenever they arrive and leave any of the unlimited number of custom geo-fence zones you create. Very mixed reviews-

Angelsensewww.angelsense.com

The Angelsense is a small device that functions as a GPS tracker and is attached to the child's clothing. The device operates via a mobile app which can be accessed through Android or a web browser. One of my favorites.

Traxwww.traxfamily.com

Trax is a tiny sized GPS tracking device that can be used both indoors and outdoors. It works with the mobile app which operates on both Apple and Android devices with easy setup, and also operates on their website. Has glitches- but still tracks great.
