## BUY A BETTER CAGE

### Jaypro's swivel wheel allows for a more precise cage placement!

- (1) The addition of handle wheels controls the cage height over uneven surfaces, which allows for additional leverage to lift and raise the cage. Reduces cage drag and divots while in motion.
  - (2) Includes joint reinforcing clamps for added rigidity
  - (3) Through-bolts and locking nut connections only, no allen screws here!
  - (4) 18"W x 9"D swivel tires can be adjusted to two different heights that allow movement in multiple directions for easy installation and removal on the playing field
- Fully welded design and pre-assembled side frames make the cage strong and rigid for a long life span
  - Net attaches directly to the frame and has reinforced seams and an integrated baffle

Our sharp multi-color images will outlast other processes. Eliminates the historic problems of digital printing, like weathering, premature fading, scuffing, and unsightly white mesh backside color. Images will last outdoors as long as the fabric, something rarely true with digital imprinting. Also highly spike, cleat, and racquet resistant. Our thick, individually-applied, double coating process literally bonds the image into the vinyl and completely masks the underlying fabric color, so image colors are vivid and true.

**Chroma-Bond** imprinting is available on our vinyl-surfaced windscreens, cover, padding & sign products.

## Batting Practice - Batting Tunnel Frames & Nets

### PROFESSIONAL BATTING TUNNEL FRAMES & NETTING

With our **Professional Batting Tunnel Frame (#66214)** your poles can be set at your desired length (55' | 70' | 75') and can also be adjusted to fit custom net widths. This unique design allows for the tunnel's net to easily be adjusted at any time after the initial installation. This heavy-duty frame is constructed using six 4" square, heavy-duty steel poles. A black, baked on powder coat finish on the steel frame provides the ultimate weather resistance and protection. Frame is reinforced using 13-gauge galvanized steel crossbars to hang the net. Crossbars feature Allied's® zinc Flo-coat galvanization process for maximum protection. System includes everything needed to install and hang net: chain, cables, hooks, collars, ground sleeves and c-snaps. Tunnel net is sold separately. The Professional Batting Tunnel Frame has a 5 Year warranty.

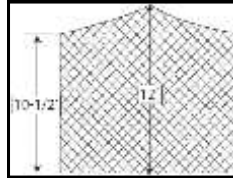

**Professional Double Batting Tunnel Frame (# 66214D)**  
Same high quality materials as the standard Professional Batting Tunnel Frames. These double frames share center poles to allow side-by-side installation, eliminating the need for extra poles and ground footings.

- #66214 55' | 70' | 75' Model, 868 lbs. **\$3,695**
- #66214D Double Model (side-by-side) **\$6,160**

5-Year warranty. System can be adjusted to fit custom net widths and lengths.

**BATTERS VIEW OF CAGE**  
Note: The "slope" of the net is important. The center of the net for it's entire length is 12' high. The sides of the net are 10-1/2' high, leaving 18" of net on the ground to keep batter balls inside the enclosed area.

**Have you considered starting up a JUGS Pitching Machine League™ in your community? Here's why you should:**

For youngsters just starting out in the game, nothing is better than repetition of fundamental skills.

By using the MVP® Combo Pitching Machine, young ball players get to hone their swings because pitches arrive in virtually the same location each time. That makes the challenge of hitting a little easier and a lot more fun.

Give your players a chance to focus on hitting, fielding and base running by replacing strong pitching with a JUGS Machine. Games played with JUGS machines are easy, safe, fast paced, and fun!

Pitching Machines—Iron Mike

**WHOLESALE PRICE LIST**  
EFFECTIVE: JANUARY 1, 2021

## Why Choose Arm-Style Pitching Machines?

Hitting is all about timing. You must have the proper timing to know when to start your swing and when to shift your weight. This is achieved by watching the pitcher's arm and release of the ball. An arm-style pitching machine is the only type of pitching machine that gives you that same sense of timing. With each pitch you see the machine's arm wind up and release the ball. It is the realistic nature of the machine that allows you to practice the same fundamentals in the batting cages as you use on the field. Because of this, the Iron MikeT arm-style pitching machines from Master Pitching Machine are the favorite machines of professional players and coaches worldwide.

The key to pitching is Speed and Location.

12 individual Hit-Your-Spot™ pockets isolate specific spots in the strike zone, and out. This will help pitchers work on their accuracy.

For the beginning pitcher, or for those more advanced.

### Perfect Pitch™ throwing balls are the key!

Becoming a great pitcher is the ability to recognize the relationship between “the count” and ball location, then mastering the execution of that pitch. PERFECT PITCH™ leather baseballs and softballs teach this very thing.

Batting Practice - Synthetic Turf for Batting Tunnels

## SYNTHETIC TURF FOR BASEBALL & SOFTBALL

Ideal for batting tunnels, dugouts, bullpens, walkways, coaching boxes and locker rooms. 100% polypropylene, with 1mm rubber backing (for a firmer feel, especially for loose lay applications), 5mm foam-rubber backing (for a softer cushion), SilverBack™ polyurethane backing. Can be installed outdoors or indoors on a compacted aggregate base or on concrete. Comes in 12' or 15' wide rolls. 10' minimum order length.

### TURF BY THE ROLL

<b>357245F12</b>	24 oz. polypropylene pile, 12' wide, pine green, 5mm foam	<b>\$3.25/SF</b>
<b>357245F1255</b>	12' W x 55' L Roll	<b>\$2,145/roll</b>
<b>357245F1270</b>	12' W x 70' L Roll	<b>\$2,730/roll</b>
<b>357243F12</b>	24 oz. polypropylene pile, 12' wide, pine green, 3mm foam	<b>\$2.85/SF</b>
<b>357243F1255</b>	12' W x 55' L Roll	<b>\$1,881/roll</b>
<b>357243F1270</b>	12' W x 70' L Roll	<b>\$2,394/roll</b>
<b>35724SB12</b>	24 oz. polypropylene pile, 12' wide, pine green, SilverBack™ polyurethane	<b>\$2.10/SF</b>
<b>35724SB1255</b>	12' W x 55' L Roll	<b>\$1,386/roll</b>
<b>35724SB1270</b>	12' W x 70' L Roll	<b>\$1,764/roll</b>
<b>177363F15</b>	36 oz. polyethylene/polypropylene blend 15' wide, field/lime green, 3 mm foam	<b>\$2.85/SF</b>
<b>177363F1555</b>	15' W x 55' L Roll	<b>\$2,351.25/roll</b>
<b>177363F1570</b>	15' W x 70' L Roll	<b>\$2,992.50/roll</b>

Blending polyethylene and polypropylene gives excellent durability and wear resistance. An ideal choice for batting tunnels and indoor facilities over concrete. Use of stance mats recommended for batting tunnels.

**PLEASE NOTE:** Synthetic Turf is normally rolled face out. No charge to "reverse roll" cut pieces with turf faced in—which makes it easier to install—doesn't need to be flipped over.

There is a charge per piece to cut the width (there is a 1/4" tolerance) and/or pre-trim the scrim fabric along edge and reverse roll so that each piece will unroll with turf side up. For full rolls, there is a charge for pre-trimming & reverse rolling.

If gluing to concrete, use Robert's 6700 glue from Home Depot if 65° or warmer, Turf Claw™ if 55°+, or Nordot 34-G if 50°+. If installing over compacted aggregate, you need to spike perimeter and tape (12" w) & glue seams. Turf Claw™ can be shipped with your turf order. Check current pricing for tape & glue per quantity needed. If installing over macadam, be sure glue is compatible with macadam or loose lay with 2-3 lbs. sand to weigh the turf down, plus tape & glue seams. If gluing SilverBack™ polyurethane backing, make sure glue is polyurethane compatible.

For Batting Tunnels, all the above with foam backing are heavy enough to not be glued or spiked, but adding 2-3 lbs. sand per square foot is recommended for more weight to prevent shifting.

<b>#CPTCUT1</b>	Pre-Trim or Splitting Rolls - 49' roll and under	<b>\$53/EA</b>
<b>#CPTCUT2</b>	Pre-Trim or Splitting Rolls - 50' roll and over	<b>\$106/EA</b>
<b>#RVRL</b>	Reverse Rolling Synthetic Turf	<b>\$53/EA</b>

Batting Practice Mats are **recommended** for batting tunnels to reduce wear from cleats. Please see pg. 18.

Please see our **Synthetic Turf Catalog** for more options and specifications.
