# BEAM CLAY®

Portable Pitching Mounds—True Pitch

**WHOLESALE PRICE LIST**  
EFFECTIVE: JULY 1, 2021

## TRUE PITCH® GAME MOUNDS

*All True Pitch® Mounds have a reinforced fiberglass base covered with green or clay color AstroTurf®.*

**TRUE PITCH®** Portable Pitcher's Mounds are approved for official game use for Senior League, Babe Ruth, Pony, Bronco, Little League, Dixie Youth, and Cal Ripken. The **TRUE PITCH®** Portable Mounds have been used, tested and approved at the National Little League headquarters in Williamsport, Pennsylvania and are the only portable mounds approved for use in official games.

**TRUE PITCH®** Portable Pitcher's Mounds have patented tapered edges - no lip or edge around perimeter - for smooth mound to field transition. Made to official dimensions, they are manufactured with reinforced fiberglass base and heavy-duty green or clay 60 oz. knitted nylon AstroTurf®. All types of cleats can be used on these mounds; however plastic or rubber cleats are recommended, since metal cleats will cause faster turf wear. If using metal cleats, optional ice hockey grade rubber is available underneath turf to prevent damage to fiberglass. Ice hockey grade rubber is standard on all 10" and 8" game mounds between the fiberglass surface and the AstroTurf® extending from 6" behind pitcher's plate to front lip. Pitcher's plates are bolted to reinforced fiberglass frame with three 5/8" bolts, except 318-G includes 4-way pitcher's rubber that fits into box in frame.

Using **TRUE PITCH®** Portable Pitcher's Mounds makes it easy to convert your field from softball to baseball in minutes and cleanup is a snap! Just hose it down after the game.

**TRUE PITCH®** Portable Pitcher's Mounds allow for batting practice pitching, bullpen pitching and actual game pitching from the same identical mound and because **True Pitch®** portable pitcher mounds are made to official dimensions and are wider than other portable mounds, they make pick off moves comparable to these from a regulation clay mound.

**TRUE PITCH®** Portable Pitcher's Mounds provide

- mounds at the right distance from home plate (for all age groups organized league baseball)
- the exact regulation pitching mound height (6", 8", 10")
- a mound for both games AND practice (approved and recommended by trainers)
- easy movement from diamond to diamond, park to park
- an ideal pitching mound in (or after) any weather
- no sand or rubber infill needed or recommended.
- 10-year limited warranty for fiberglass shell.

MODEL	DESCRIPTION	EACH
#600-G	<b>10" High, 10' Wide, 12'6" Long, 340 lbs.—High School Portable Game Mound</b> Approved for Little League Baseball Senior League Division and Babe Ruth League games. Covered with turf. Ice Hockey grade rubber under turf included.	\$4,395

 EFFECTIVE: JULY 1, 2021

## 318-G

The 318-G is a full regulation 18' fiberglass pitching mound. It can be ordered with or without AstroTurf. The 318-G mound meets all NCAA requirements. The mound features four individual interlocking sections which make assembly and portability easy. Three or four athletes is all it takes to carry the sections.

### Features

- 18' Diameter x 10" High (meets NCAA dimension requirements) 900 lbs. in 4 sections: middle @ 360 lbs., 2 side wings @ 200 lbs. each, back @ 140 lbs.
- Durable fiberglass shell construction with green or clay 60 oz. knitted nylon AstroTurf
- Pitching platform meets all requirements presented in NCAA rule book
- Patented pitching lane technology increases fiberglass shell longevity
- Includes 4-way pitching rubber that fits into box in frame
- Patented tapered edge for smooth transition to playing field
- Features interlocking section design for portability
- 10 year manufacturer's warranty

*\*True Pitch Inc. 10-year warranty is exclusive to the fiberglass shell and does not cover the AstroTurf®. Use of metal cleats or spikes is not recommended on any True Pitch Inc. mound product. Use of metal cleats or spikes will void warranty. True Pitch Inc. reserves the right to determine warranty eligibility on all sales.*

EFFECTIVE: JANUARY 1, 2021

## Portable Fiberglass Pitching Mounds

### The Truth About Turf and Metal Cleats

While we hope that metal cleats can one day be used on our mounds, a turf designed for metal cleats, suitable for sustained use in a high traffic area has yet to be invented. We checked. We called turf manufacturers, turf councils and turf testing companies. Hundreds of years of combined experience have repeatedly told us that there is not a metal cleat friendly turf available. Each response came with a recommendation: "Use rubber cleats, turf shoes or even tennis shoes. Metal cleats will cut the fibers that hold the turf together". The surface area of a metal cleat is much smaller than plastic or rubber. In addition, steel is a much harder material than the turf. The result is metal cleats that cut through the bottom fibers of the turf. All mound manufacturers have the same warranty for their turf, NONE. They all refer to the turf manufacturer's warranty. Why is that? Since the turf manufacturers do not recommend using metal cleats, no warranty conditions exist.

#### FACTS:

All artificial turf will be damaged by metal cleats.  
All turf manufacturers recommend plastic or rubber cleats.  
Mound life with metal cleats; 1 season  
Mound life with plastic cleats; 6-8 seasons or more

All Pitch Pro Portable Pitching Mounds have tan or burnt orange color 60 oz. knitted nylon turf (the strongest synthetic turf available) and weather UV resistant, gel coated fiberglass frames. For outdoor or indoor use.

**Pitch Pro only recommends plastic or rubber cleats for all mounds.**

Portable Pitching Mounds—Pitch Pro

Portable Fiberglass Pitching Mounds

## Pitch Pro Model 465 Portable Pitching Mound

The 465 is designed for ages 8-12 but can be used for most any age. It is the NUMBER ONE choice for tournament directors across the US. Easy to move, extremely durable, light-weight and versatile best describes the 465. Perfect for game day but all will also serve well for bullpen work and practice for older pitchers. The 465 is built and designed the same as our larger mounds with correct MLB recommended slope toward home and a gradual drop-off for pick-off moves to other bases. The regulation rubber and launch pad are removable and can be easily replaced if worn or damaged.

- 4' wide x 6' long x 6" high\*
- The light weight, size, and partial nesting capability of this model make it the NUMBER 1 choice for tournament directors. Transporting many mounds over several fields is easy with this model.
- Great mound for ages 8-12 to transition from machine pitch to kid pitch. Many teams currently use this mound for ages up to 14.
- Launch Pad included on all game mounds / Replaceable Pitching Rubber
- Weight: 65 lbs.
- Tan or burnt orange 60 oz. nylon turf
- TEN YEAR warranty on fiberglass core!
- Made in U.S.A.

**#101465 \$895**

Replacement Rubber with Spikes 6" x 24" **#101622 \$35**

### Replacement Launch Pad

The front of the pitching rubber has been a pain on most portable mounds. The carpet always wears quickly in this area. Now you can replace the carpet with a Pitch Pro Launch Pad™. The Launch Pad includes 15 x 24 launch Pad and installation instructions. *Pitcher's rubber not included.*

Portable Pitching Mounds—Pitch Pro

## Portable Fiberglass Pitching Mounds

### Pitch Pro Model 486 Portable Pitching Mound

**#101486 \$1,250**

The size up from the 465, you will still find the same versatility in the 486. Older kids will be able to take a full stride and still land on the superior mound support structure which provides the rigid feel of the mound, especially in the landing area..

So you want your pitcher to take a full stride? Don't like your pitcher landing in a hole on the dirt? The 486 is your mound. This mound is designed to allow pitchers to take their big stride without landing on flat ground and digging a hole after a few pitches. Manufactured with the MLB recommended slope toward home.

The 486 will provide a perfect landing location with every pitch. A pitcher will comfortably be able to make pick-off moves without a jarring follow-thru, with our tapered drop-off on the sides and rear. The regulation rubber and launch pad are removable and can be easily replaced if worn or damaged.

Tan or burnt orange 60 oz. nylon turf

- 4' wide x 8' long x 6" high\*
- The light weight, size, and partial nesting capability of this model make it a top choice for tournament directors. Transporting many mounds over many fields is made easy and can fit in a pickup or field cart.
- Great mound for ages 8-12 to transition from machine pitch to kid pitch. Many teams currently use this mound for ages up to 14.
- Launch Pad included on all game mounds / Replaceable Pitching Rubber
- Weight: 115 lbs.
- TEN YEAR warranty on fiberglass core!
- Made in U.S.A

Portable Pitching Mounds—Pitch Pro

## Portable Fiberglass Pitching Mounds

### Pitch Pro Model 796 Portable Pitching Mound

**#101796 \$2,350**

The 796 is a fuller version of the 486. It's longer and wider than the 486 with a wider slope on sides and back. Great for age's 14 years old and down, this mound is very capable of holding the games' bigger youth pitcher. Bigger kids, more pronounced pick-off moves, a real game mound feel are the main reason behind the 796. Our mound support structure proves to be essential when dealing with mounds of this size. Pitch Pro has made the mound(s) where pitchers can concentrate on pitching and not worry about poor footing, landing area or feel. As the 465 and 486 are very popular with tournament directors, the 796 has become a popular choice for Rec Department and Complex Managers that provide mounds for games.

So you want your pitcher to take a full stride? Don't like your pitcher landing in a hole on the dirt? The 796 is your mound. This mound is designed to allow pitchers to take their big stride without landing on flat ground and digging a hole after a few pitches. While manufactured with the MLB recommended slope toward home, the Pitch Pro Model 796 portable pitching mound will provide a perfect landing location with every pitch. A pitcher will comfortably be able to make pick-off moves, without a jarring follow-thru, with our tapered drop-off on the sides and rear. The regulation rubber and launch pad are removable and can be easily replaced if worn or damaged.

- 7' wide x 9' long x 6" high\*
- Commonly used on fields where the mound is owned by the community (Rec Centers), league or group who mainly utilize a single complex
- Great mound for ages 9-14
- Launch Pad included on all game mounds / Replaceable Pitching Rubber
- Weight: 220 lbs.
- TEN YEAR warranty on fiberglass core!
- Made in U.S.A

# MODEL 898

## Junior Game Mound

Mound 898 is an 8" mound that features a landing area 78" long to provide bigger players with enough room for longer strides. The mound support structure gives the landing area enough rigidity to give players a safe and sturdy spot to plant their foot. Great mound for players transitioning from a 6" to 10" mound.

- Most rigid fiberglass mound offered anywhere.
- Optimal size for 54' pitching distance.
- Unique gel coat-down design is weather and UV resistant.
- Portable (4 person).
- Launch Pad included.
- **10 Year Warranty on mound core!**
- Freight quote needed.
- Great choice for Rec. Departments.

Portable Pitching Mounds—Pitch Pro

## Portable Fiberglass Pitching Mounds

### Pitch Pro Model 898 Fiberglass Mound

**#101898 \$2,995**

The 898 is the newest edition to our game mounds. This is an 8" mound designed for the 12-14 age group but certainly is suitable for most ages under 14. With a longer landing area in front of the rubber, bigger kids will not reach the end of the mound with a long stride - about 78" from front of rubber to edge of mound. The mound support structure plays a key role in maintaining a solid surface where the pitcher can comfortably land. A superior mound for the transition to a full 10" mound.

- 7' wide x 10' long x 8" high\*
- Commonly used on fields where the mound is owned by the community (Rec Centers), league or group who mainly utilize a single complex
- Great mound for ages 10-14
- Launch Pad included on all game mounds / Replaceable Pitching Rubber
- Weight: 275 lbs.
- TEN YEAR warranty on fiberglass core
- Made in U.S.A.

Portable Pitching Mounds—Pitch Pro

## Portable Fiberglass Pitching Mounds

### Pitch Pro Model 8121 Fiberglass Mound

#108121 \$3,850

A full 10" mound designed for the big boys. The 8121 is the most rigid and portable 10" mound on the market today. As with all of Pitch Pro mounds, our mound support structure is designed to prevent surface deflection and dead spots. These characteristics are the main culprits of a mound breaking down and becoming weak and flimsy. This is why we are able to provide a five year warranty on the mound core to ensure that these mounds are worth every penny and longevity is guaranteed.

- 8' wide x 12' long x 10" High
- Most stable and rigid 10" portable mound available
- Used for 60'6" distance
- Commonly used on fields where the mound is owned by the community, league or group who mainly utilize a single complex
- Launch Pad included on all game mounds / Replaceable Pitching Rubber
- Used for ages 14+
- Weight: 325 lbs.
- TEN YEAR warranty on fiberglass core
- Made in U.S.A

## Pitch Pro Model 504 BP Platform

#101504 \$1,050

### 504 Batting Practice (BP) Platform

The 504 brings a more economical option to getting a Batting Practice (BP) platform. Not as big as the 508, it provides an excellent opportunity to toss BP from an elevated position so the hitters see the ball coming downhill.

- 42" wide x 84" long x 8" high – easily stored and portable
- Platform has up to a 8" height that hitting coaches prefer to simulate game perspective
- Air Flow venting on all 4 sides – prevent grass from wilting if in place for extended period
- Used indoors and outdoors for throwing batting practice in front of game mounds or in hitting tunnels
- Weight: Under 100 lbs.
- TEN YEAR warranty on platform core!
- Optional Wheel Kit. Wide turf tires will not rut playing surface.
- Gel coated fiberglass sides available in green (G), blue (B), black (BK), red (R) or white (W).
- Age: Any

Add a wheel kit to your platform. This kit makes it easy for one person to move your platform around. Easy 5 minute bolt-on installation. Our platforms are pre-drilled for this kit.

Portable Pitching Mounds—Pitch Pro

Portable Fiberglass Pitching Mounds

## Pitch Pro Model 516 Training/Bullpen Mound

#101516 \$1,750

### 516 Bullpen Platform

Bad weather? Not much extra room? Simulate game condition? The 516 can answer all those questions and more. This bullpen platform was absolutely designed with a pitcher in mind. This EXTRA-WIDE platform will allow a pitcher to cut loose without worrying where his trail leg lands. Long enough that even the biggest stride can't reach the end. PLENTY of room behind the rubber for either side step or rocker step pitchers... wind-up or stretch. Use in a gym or outside next to the field (or on the field), the 516 will get your pitcher the work he needs - Perfect for indoor practice facilities as well.

- 54"wide x 110" long x 10" high – easily stored and portable
- Pitching Rubber with launch pad included
- Air Flow venting on all 4 sides – prevent grass from wilting if in place for extended period
- Used indoors and outdoors for working your pitching staff
- Weight: 140 lbs.
- TEN YEAR warranty on mound core!
- Optional Wheel Kit. Wide turf tires will not rut playing surface.
- Gel coated fiberglass sides available in green (G), blue (B), black (BK), red (R) or white (W).
- Age: Any

Portable Pitching Mounds—Portolite Game Mounds

WHOLESALE PRICE LIST  
 EFFECTIVE: JULY 1, 2021

### 10" Game Mound #9550

The Portolite 9550 is the lightest 10" game mound on the market today. This mound gives the pitcher the feel of a regulation mound, while also allowing field crews the ability to move it with ease. All of Portolite's large game mounds are built with Portolite's NEW reinforced foam technology giving the pitcher a cushioned landing.

- Dimensions: 10" H x 11'3" L x 7'7" W
- One Piece Weighs 220 lbs., two piece weighs 230 total lbs.
- Smooth, tapered edges - No "Lips"
- Gentle slopes for pick-offs, no more falling off the pitching mound
- Built with Portolite's reinforced foam technology
- Rigid fiberglass base, encapsulated foam core, with highest quality nylon AstroTurf® or poly Field Turf®
- Portolite's NEW rubbers will last 10 times longer than industry standards
- Hidden "Wear Pad" located in front of pitching rubber
- Available in Green, Clay, or Red color turf
- 10-Year Limited Warranty on core of mound

## ProMounds 5070 Game Mound

### ProMounds® 5070 Game Mound

3'9"L x 44"W x 6"H, 36 lbs.

ProMounds® new 5070 Game Mound brings the newest in mound technology to your game or practice. Built with a durable, light weight memory foam, the 5070 Game Mound will hold up to the most demanding schedules for many seasons to come. The pitching rubber is built down into the mound, level with the top to give a smooth slope behind. Steep back and sides give more area to the top to help pitchers keep their hips level. Grooves on the bottom of the mound give extra traction to reduce slipping. Designed with a handle to help lift the mound off the dirt. Built for ages 12 & under. Great for indoors or outdoors. Ships ground, no freight needed! Available in Clay Turf

## WHOLESALE PRICE LIST EFFECTIVE: July 1, 2021

### Portable Pitching Mounds—Porta-Pitch

#### Porta-Pitch Portable Pitcher’s Mounds

Porta-Pitch Portable Pitcher’s Mounds have been completely redesigned and now offer our customers an official size, truly portable baseball and little league pitcher’s mound; allowing for maximum design flexibility when constructing multi-use synthetic turf or natural grass baseball fields and/or bullpen areas.

The Porta-Pitch unit is manufactured out of structural aluminum sections covered with an aluminum sheathing, a 1/4” thick rubber impact pad and factory installed red clay colored or green colored synthetic turf with a thatch layer. The main center section includes factory installed Hilltopper® Mound Clay or synthetic turf that allow for complete pitcher follow through and an official professional size 6”W x 24”L or youth size 4”W x 18”L, four (4) sided removable and rotatable pitcher’s rubber, as well as an external attachable mobility wheel kit with jack and an attachable transport tow hitch, allowing for quick and easy movement of the Porta-Pitch unit on and off the field.

The surrounding sections can be stacked on top of an optional transport cart providing for faster setup and breakdown of the Porta-Pitch and more compact storage. When fully assembled for baseball, the Porta-Pitch mimics an official size, 18’ diameter portable baseball pitcher’s mound, meeting both the 10” height and slope to finished grade requirements and when fully assembled for little league, the Porta-Pitch mimics an official size, 10’ diameter portable little league pitcher’s mound, meeting both the 6” height and slope to finished grade requirements.

The new Porta-Pitch product design features allow for it to be set directly on the synthetic turf or natural grass field, as well as be installed and removed with only two to three (2 - 3) people in under 15 minutes and all without the use of foundation anchors and/or heavy equipment. This allows for quick changeovers of the field with minimal maintenance, personnel and ground rework required. More importantly, it eliminates the need for time consuming and messy all clay built mounds that must be fully constructed and removed into the field by hand. The Porta-Pitch provides a durable and cost effective alternative for all multi-use baseball and little league facilities looking to maximize the use of their playing surface for alternate sports and/or other events that require removal of their pitchers mound.

**PPB WITH CLAY:**

Portable Pitching Mounds—RFP Mounds

## THE DIRT MAKES THE DIFFERENCE

### Introducing Most Realistic And Advanced Portable Pitching Mound Available

The only mound that allows players to wear spikes! Our patented mounds are manufactured to MLB specifications, with removable trays that hold real pitching mound clay so they feel just like the real thing.

**RFP mounds are:**

- Cost effective
- Truly portable, two people can hand carry
- Set up quickly and tear down quickly
- Designed to MLB specifications
- Engineered using patented technology

**Best of all, players can wear spikes!**

- Push off of clay and land in clay to promote proper pitching mechanics
- Prevent slipping during a pitch and promotes a stable landing to reduce risk of arm injuries
- Simulates a true game experience

*"The RFP Mound helps you practice the right way, so you can perform your best when it counts. It's the only portable mound that simulates the game experience."*

Terry Francona, MLB Manager & Athalonz Spokesperson

**BEAM CLAY®**

Portable Pitching Mounds—RFP Mounds

5ft. x 11.5 ft. x 10 in. fully assembled | 3 ft. x 4 ft. landing tray | 3 ft. x 2.5 ft. drive tray

RFP Mounds are available in two colors: Green and Red

**F.A.Q****How is a mound going to make me a better pitcher?**

On a real dirt mound, the feet have the right amount of grip, give, and freedom to drive, land, and pivot. Players cannot achieve proper pitching mechanics on conventional portable mounds because the drive foot cannot dig in, and the landing foot sticks or slips. This prevents the front leg from being the proper pivot point for the pitch, causing the arm to experience undue stress.

**How difficult is it to put together?**

With two people, our mounds assemble in 60 seconds with no tools or hardware.

**What are the dimensions of the mound?**

5ft. x 11.5 ft. x 10 in. fully assembled. The drive tray is 3ft. x 2.5ft., and the landing tray is 3ft x 4ft. Fully assembled and filled with clay, the mound weighs approximately 800 lbs.

**How does this mound perform indoors?**

The mound is ideal for indoor use. Place a tarp or a piece of turf on the floor under the mound to catch the minimal overspill, set the mound up and pitch on a real clay mound, in spikes - just like in a game.

**How long does it take to maintain the mound?**

It takes just a couple minutes - add a handful of clay, tamp it down, cover it up, and your mound is perfect for the next day.

**Is it suitable for players with different stride lengths?**

Our mounds are designed to meet Major League specifications with 3' x 4' landing trays that are perfect for players of all ages and strides - from little league to professional ranks.
