MTP Field Paint

has the best and brightest paints for ALL of your Athletic Field needs.

We have the best and brightest paints for ALL of your Athletic Field needs... including New **REMOVABLE** paints for both Natural Grass and Artificial Turf! MTP (formerly Mautz®) paints have been seen on television for many years. They have provided products for 33 Super Bowls, numerous World Series games and most NCAA televised events.

Their range of customers includes:

- National Football League
- NCAA Championships
- Major League Baseball
- Major League Soccer
- College Bowl games
- Athletic Conferences
- High Schools
- Parks & Recreation Departments
- Collegiate
- NFL Europe
- Universities
- NASCAR Races

BEAM CLAY®

MTP Turf Paints

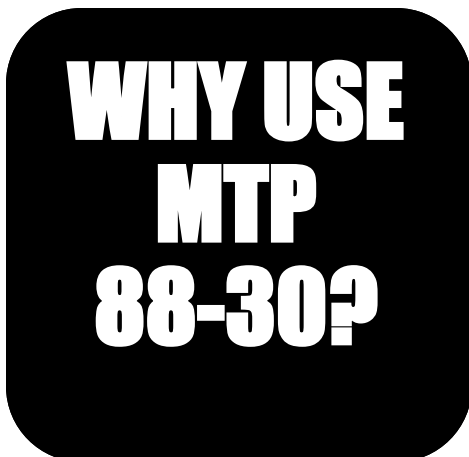

ATHLETIC FIELD MARKING PAINT 88-30

The BRIGHTEST "SUPER PAINT" of the "SUPER BOWLS"!
 Formerly Mautz® Paint

You have seen our Athletic Field Paints for many years on Super Bowls, Pro Bowls, numerous NFL stadiums and universities.

MTP athletic field marking paint is specifically designed for marking lines, numbers and logos on all types of athletic fields: football, baseball, soccer, and track & field events.

- ...88-30 has a special, proven, exclusive formula.
- ...Easily applied by brush, roller, airless spray or line marking machines.
- ...Absolutely safe to use, **WILL NOT HARM GRASS!!**
- ...**DOES NOT CONTAIN ANY LEAD OR MERCURY!!**
- ...Actually stimulates root growth and development.
- ...Allows photosynthesis and respiration to continue.
- ...Will not blur with rough usage; long lasting and inexpensive to use.
- ...Harmless to the eyes and skin. Will not stain uniforms.
- ...88-30 is in a **concentrated** paste form, for less storage space, lower shipping costs.
- ...Artificial Turf paints available.
- ...**Brightest white** and sharpest matches to team colors for vivid television appearance.
- ...Readily available in 5 gallon containers, in white and all team colors.

88-30 is concentrated and designed to be reduced with water prior to application. Generally, blending with electric drill and mixer is recommended.

- 1 gallon 88-30 to 1 gallon water...first application.
- 1 gallon 88-30 to up to 5 gallons...recoating.

Some paints have high levels of metal acetate salts or combinations of iodized carbamates, etc. which can kill turf. Other paints might be overruns or mistinted which are then modified for athletic turf. **MTP Athletic Field Marking Paints** are specifically designed for athletic fields and will not harm turf. They actually enhance root growth and permit photosynthesis to continue through the paint film.

Remember, the lowest cost product may not be the best. Plus, painting more frequently costs more than using the best paint. **MTP Athletic Field Marking Paints** being concentrated will save you money because the dilution ratios will lower your expense to mark and remark your fields.

For first field marking, mix on a one-to-one ratio (one part paint to one part water); but for remarking mix at up to a one-to-five ratio.

Newstripe Field Marking Machines - Ride On Airless

NewRider 1700 Airless Riding Field Line Striper

The **NewRider 1700 Airless Riding Field Line Striper** is a smaller version of our **NewRider 5000**, but shares many of the same great features, designed to produce the brightest, straightest lines available on natural or artificial turf. The airless pump with adjustable pressure lets you dial in the spray so you spray "just the turf" without wasting paint or injecting the soil or disturbing the rubber filling. The front swivel caster follows ground contours for consistent line width. Plus, the high back seat provides the operator comfort.

The **NewRider 1700 Airless Riding Field Line Striper** features:

Brighter Lines - Fully adjustable, 0-3000psi pump pressure. You control the perfect pressure to apply thinned or non-thinned paints. You get complete coverage of "just the turf" without injecting or smothering the soil. The result is healthier turf and brighter lines with any paint.

Consistent Line Width - The floating, front swivel caster allows the spray gun to follow ground contours while maintaining the line width for more consistent lines over rough terrain.

Easy to Use - Seat based operator controls for ignition, throttle and parking brake. Foot pedals control forward/reverse speed and spray gun activation.

Easy Clean Up - On-board 2.5 gallon purge tank lets you clean spray gun and hose *in the field*. In-line filter keeps you running without clogs.

Versatile - A quick release clamp allows you to remove the spray gun to spray stencils, small curves and hard to reach areas with a 25'length hose.

Powerful - A 10.5 HP Briggs & Stratton OHV engine with electric start powers the hydrostatic transaxle and airless spray pump.

Fewer Stops - The 25 gallon poly tank lets you stripe an entire football field or up to four full-size soccer fields with one filling.

36 Month Warranty - Every Newstripe machine is covered with our Equipment Protection plan for a full 36-months.

Part # 10004026

\$10,700

SPECIFICATIONS		NewRider™ 1700 Airless Riding Field Line Striper
Striper Type		Ride-on
Power Source		Engine, 10.5hp Briggs & Stratton

WHOLESALE PRICE LIST
 EFFECTIVE: JANUARY 1, 2021

Newstripe Field Marking Machines - Ride On Airless

NewRider™ 5000 Airless Riding Field Line Striper

The **NewRider™ 5000 Airless Riding Field Line Striper** is the first true ride-on airless paint striping machine designed to produce the brightest, straightest lines available on natural or artificial turf. Front wheel drive with rear steer produces straighter lines than comparable front steer machines. The airless pump with adjustable pressure lets you dial in the spray so you spray "just the turf" without wasting paint or injecting the soil or disturbing the rubber filling. The front swivel caster follows ground contours for consistent line width. Plus, an adjustable tilt steering column and high back seat provide operator comfort and let you enter and exit the machine with ease.

The **NewRider™ 5000 Airless Riding Field Line Striper** gives you:

Straighter Lines - The **NewRider™ 5000** has front wheel drive with rear steering. Placing the spray gun closer to the pivot point of the machine means less movement of the spray gun compared to movement of the steering wheel. The low seat height of just 30" and center spray head allow you to sight down existing lines or easily follow layout strings for the straightest lines possible.

Brighter Lines - Fully adjustable, 0-3000psi pump pressure. You control the perfect pressure to apply thinned or non-thinned paints. You get complete coverage of "just the turf" without injecting or smothering the soil. The result is healthier turf and brighter lines with any paint.

Consistent Line Width - The floating, front swivel caster allows the spray gun to follow ground contours while maintaining the line width for more consistent lines over rough terrain.

Easy to Use - The adjustable, tilt steering column allows easy enter and exit of machine. Seat based operator controls for ignition, throttle and parking brake. Foot pedals control forward/reverse, speed, spray gun activation, steering column lock and lifting or lowering the spray head.

Easy Clean Up - On-board 2.5 gallon purge tank lets you clean spray gun and hose *in the field*. In-line filter keeps you running without clogs.

Versatile - A quick release clamp allows you to remove the spray gun to spray stencils, small curves and hard to reach areas with a 25' length hose.

Powerful - A 14 hp Subaru-Robin OHC engine with electric start powers the hydrostatic transaxle and airless spray pump.

Fewer Stops - The 50 gallon poly tank lets you stripe up to four football fields or up to seven full-size soccer fields with one filling.

36 Month Warranty - Every Newstripe machine is covered with Newstripe's Equipment Protection plan for a full 36-months.

 EFFECTIVE: JANUARY 1, 2021

Newstripe Field Marking Machines - Airless Walk Behind - Self-Propelled

4250™ AIRLESS PAVEMENT & ATHLETIC FIELDS STRIPING MACHINE

The **All New Newstripe 4250™ Airless Striping Machine** is our most economical high pressure airless striper. It shares the great features of the **4400™ and 4600™ SP Self-Propelled Airless Striping Machines**. The lightweight design of 105 lbs. makes it easy to push across the roughest athletic fields while producing bright, straight 2"-6" wide lines. Plus, the 3000 psi adjustable pressure pump lets you spray perfect lines without wasting paint. Easy to use, handle mounted controls let you quickly and efficiently stripe without time consuming and costly set up.

The **4250™ Airless Striping Machine** features:

Straighter Lines - The 10" pneumatic tires and four wheel design, provides straighter lines when striping on both smooth and uneven surfaces.

Brighter Lines - Fully adjustable, 0-3000 psi pump pressure. You control the perfect pressure to apply thinned or non-thinned paints. The result is a higher quality line without wasting paint.

Easy To Use - Paint is pulled directly from any standard 5-gallon pail. A universal lid snaps on any pail to prevent spills.

Easy Cleanup - Color changes and clean up are a snap. Simply remove the pail with unused paint, place a pail with 1-2 gallons of water or solvent (depending on the paint being used) on the machine and flush the system. Run the liquid pump protector through the system and your machine is ready for the next striping job.

Versatile - Stripe Athletic fields or parking lots. Plus, a quick release clamp allows you to remove the spray gun to spray stencils, curbs, and hard to reach areas with a 25' length hose. An optional rear caster is also available to spray arcs and circles.

 EFFECTIVE: JANUARY 1, 2021

Newstripe Field Marking Machines - Airless Walk Behind - Self-Propelled

4600 SP Self-Propelled Airless Pavement & Field Striping Machine

The **Newstripe 4600™ SP Self-Propelled Airless Striping Machine** is the self-propelled striper that will out perform other paint striping machines costing thousands more. The fully adjustable pressure pump lets you spray without wasting paint. Easy to use, handle mounted controls let you quickly and efficiently stripe without time consuming and costly set up.

The **4600 SP Self-Propelled Airless Striping Machine** features:

Straighter Lines – The 10” pneumatic balloon tires and four wheel design provides straighter lines when striping all surfaces, from smooth concrete to rough athletic fields.

Brighter Lines - Fully adjustable, 0-3000 psi pump airless pressure. You control the perfect pressure to apply thinned or non-thinned paints. The result is a higher quality line without wasting paint. Plus, the hydraulic driven paint pump is non-pulsating so you get the best line edges possible. Say goodbye to ragged and scalloped edges common with pulsating piston pumps.

No More Pushing – Get more done with less fatigue. The simple friction drives pulls the striper over uneven surfaces and up inclines making the **4600 SP** the perfect paint striping machine to use all day. It's unique, simple design is easy and inexpensive to maintain.

Easy To Use – The airless pump pulls the paint directly from any standard 5-gallon pail. A universal lid snaps on any pail to prevent spills. A single lever easily engages the drive, and a locking spray trigger relieves operator fatigue when striping long lines on paved area or athletic fields.

Easy Cleanup - Color changes and clean up can be done in less than five minutes. Simply remove the pail with unused striping paint, place a half filled pail of water or solvent (depending on the paint being used) on the striping machine and flush the system. Run the liquid pump protector through the system, and your machine is ready for the next striping job.

Versatile - A quick release clamp allows you to remove the spray gun to paint stencils, curbs, and hard to reach areas with a 25' length hose. An optional rear caster is also available to easily spray arcs and circles.

36 Month Warranty - Like every Newstripe machine, the **4600SP Self-Propelled Airless Striper** is proudly **MADE IN THE USA** AND covered with our Newstripe Equipment Protection plan for a full 36-months.

Newstripe Field Marking Machines - Low Pressure Walk Behind

ECOLINER FIELD STRIPING MACHINE BATTERY POWERED

ECOLINER™ BATTERY POWERED FIELD STRIPING MACHINE - 10004483

The EcoLiner™ Battery Powered Field Striping Machine features a heavy duty, diaphragm pump powered by a 12-volt deep cycle battery. Quickly and easily paint professional quality lines for hours on a single battery charge. No expensive gasoline engines or compressors to maintain. Plus, the EcoLiner™ is proudly **MADE IN THE USA** giving you the trusted quality and durability you deserve.

The EcoLiner™ Battery Powered Field Striping Machine features:

No Messy Pouring and Easy to Use – Simply, place a 5-gallon pail of pre-mixed paint on the machine and you are ready to mark your field. Plus, changing colors is both fast and easy to do with the operator friendly design.

Safe Operation - No pressurized tanks. No need to release pressure to add paint or clean. No high-pressure pump output to prohibit operator injury.

Cleanup is a Snap - When finished painting, simply flush clean water through the spraying system and the machine is ready for your next field marking job.

Paint Fields in Half the Time – The efficient spray nozzle design paints high-quality lines the first time, eliminating the need for tedious touchup and repainting of lines for increased visibility. Plus, the line width is fully adjustable from 2"-6", allowing for greater flexibility to meet your field marking needs.

NeverFlat Tires – Perfect for use on athletic fields, the EcoLiner™ Field Striper is assembled with **NeverFlat Tires** with a knobby tread that meets the rigorous demands of uneven turf and will never go flat.

No More Clogged Tips and Drips - The EcoLiner™ Field Striper features a large mesh filter on the intake hose with an additional inline filter and check valve to eliminate clogged tips and messy dripping. Cleaning the filters and tips takes less than 30 seconds.

Built to Last – Made with all welded steel construction and quality components to provide you with years of trouble-free service.

12 Month Limited Warranty – Guaranteed protection against defects in materials and workmanship.

Newstripe Field Marking Machines - Low Pressure Walk Behind

ECOLINER™ PLUS FIELD STRIPING MACHINE BATTERY POWERED

Part # 10004484 (Battery Powered)

\$1,595

ECOLINER™ PLUS BATTERY POWERED FIELD STRIPING MACHINE - 10004484

The **EcoLiner™ Plus Battery Powered Field Striping Machine** features a heavy duty, diaphragm pump powered by a 12-volt deep cycle battery. Quickly and easily paint professional quality lines for hours on a single battery charge. No expensive gasoline engines or compressors to maintain. Also, the **EcoLiner™ Plus** is proudly **MADE IN THE USA** giving you the trusted quality and durability you deserve.

The **EcoLiner™ Plus Battery Powered Field Striping Machine** features:

No Messy Pouring and Easy to Use – Simply, place a 5-gallon pail of premixed paint on the machine and you are ready to mark your field. Plus, changing colors is both fast and easy to do with the operator friendly design.

Safe Operation - No pressurized tanks. No need to release pressure to add paint or clean. No high-pressure pump output to prohibit operator injury.

Cleanup is a Snap - When finished painting, simply flush clean water through the spraying system and the machine is ready for your next field marking job. Plus, the **EcoLiner™ Plus** has an onboard clean water reservoir that allows for instantaneous cleaning of the spraying system without the need of additional water buckets and containers.

Paint Fields in Half the Time – The efficient spray nozzle design paints high-quality lines the first time, eliminating the need for tedious touchup and repainting of lines for increased visibility. Plus, the line width is fully adjustable from 2"-6", allowing for greater flexibility to meet your field marking needs.

NeverFlat Tires – Perfect for use on athletic fields, the **EcoLiner™ Field Striper** is assembled with **NeverFlat Tires** with a knobby tread that meets the rigorous demands of uneven turf and will never go flat.

Convenience – The **EcoLiner™ Plus Field Striping Machine** comes equipped with a quick charge 120V plug in battery charger to provide the fastest charging time available. This rapid battery charger is a great time-savings addition for increased performance flexibility.

Versatile - A quick release clamp allows you to remove the spray gun for effortless painting of stencils with a 12' length hose.

No More Clogged Tips and Drips - The **EcoLiner™ Plus Field Striper** features a large mesh filter on the intake hose with an additional inline filter and check valve to eliminate clogged tips and messy dripping. Cleaning the filters and tips takes less than 30 seconds.

Built to Last – Made with all welded steel construction and quality components to provide you with years of trouble-free service.

12 Month Limited Warranty – Guaranteed protection against defects in materials and workmanship.

SPECIFICATIONS		ECOLINER PLUS FIELD STRIPING MACHINE BATTERY POWERED
Striper Type		Walk behind
Power Source		Battery, 12 volt, rechargeable (not included)
Pump Type		Diaphragm, 1.8 gpm, 35 psi internal by-pass

Newstripe Field Marking Machines - Low Pressure Walk Behind - Self-Propelled

ECOLINER SP SELF-PROPELLED FIELD STRIPING MACHINE

Part# 10004621

\$2,995

No more pushing!!! The **EcoLiner™ SP Self-Propelled Field Striping Machine** has all the great standard features of the **EcoLiner™ II Field Striper**, plus it is self-propelled. The **EcoLiner™ SP** outperforms striping machines costing hundreds more.

The **EcoLiner™ SP Self-Propelled Field Striping Machine** features:

No Messy Pouring and Easy to Use - Just place a standard 5-gallon pail of premixed paint on the machine and you are ready to paint your field. Plus, changing color could not be easier.

Safe - No hazardous pressurized tanks. No need to release pressure to add paint or clean.

Cleanup is a Snap - When the job is done just remove the pail, reseal it for future use, pump a little clear water through the system, and you are ready for the next field marking job.

Never Stop to Stir the Paint Again - Recirculating pump keeps the paint continually mixed with no settling. You no longer need to stop and stir.

No More Clogged Tip or Filter - The **EcoLiner™ SP** features a large replaceable foot filter on the intake hose. Cleaning the filter takes less than 30 seconds.

Power to Spare - The **EcoLiner™ SP** features a heavy duty, 45 psi diaphragm pump coupled directly to a 4.5 hp Subaru industrial gas engine. The simple friction drive system is foolproof and easy to maintain.

Versatile - Use the detachable spray gun with 12 foot hose to paint stencils or hard to reach areas. An optional rear caster is also available to spray arcs and circles.

Build to Last - American Made all welded steel construction and quality components mean the **EcoLiner™ SP** will give you years of service.

18 Month Limited Warranty - The longest available.

SPECIFICATIONS		ECOLINER SP SELF-PROPELLED FIELD STRIPING MACHINE
Striper Type		Self-propelled
Power Source		Engine, 126cc Subaru

Newstripe Field Marking Machines - Low Pressure Walk Behind

NEWSTRIPE ECOLINER, ECOLINER II, ECOLINER SP
Available Options

Hashmark Master 2 - Easily paint hash marks five times faster than other methods. Eliminates repeated measuring or using stencils and templates that require a two or three man crew.

The **Hashmark Master 2** quickly attaches to any Newstripe field marking machine. The operator follows the automatic line-up guide from one hash mark to the next, paints it and moves on. It is that simple. Your hash marks will be perfectly laid out and painted every time. The **Hashmark Master 2** will easily pay for itself during the first football season.

Part # 10004868**\$595**

Rear Swivel Caster - Fifth wheel swivel caster for arcs and circles. **Easily bolts on any Newstripe machine.** Simple drop down latch raises rear wheels to paint circles and arcs, lifts and locks in up position to paint straight lines.

MTP Athletic Field Stencils

WHOLESALE PRICE LIST
EFFECTIVE: JANUARY 1, 2021

**Athletic turf grass is an Artist's Canvas...
MTP is both art supply and art studio
—all in one.**

Athletic Field Stencils

**Time-tested, Coach-approved...
Our standard stencils let you DO-IT-YOURSELF!**

EZ FOLD
Hashmark Guide

\$185

EZ Fold™ NFL style Number Set #EZFOLDNFL

A new innovative and affordable side line number set for football fields. The set includes 0-1-2-3-4-5 and a direction arrow. The numbers have cut-out handles and fold into a small size making it easier to take to the field and store on the shelf in a box provided. What makes this most unique is the accordion fold and the stencils are cut in a fashion to permit one person to paint the numbers with two colors in minutes. Storage size, folded and boxed, measures 6"x22"x48" and is an AMAZING 25 POUNDS!

\$595

MTP's work has been seen on television for many years. They have provided products for 33 Super Bowls. MTP has proudly provided design, stencils, paint and labor for these and numerous World Series games, plus most NCAA televised events.

MTP invented the one piece field stencil design.

MTP also has an excellent Art Department that designs many of the NFL centerfield and end zone stencils and can produce custom stencils of ANY SIZE DESIRED.

How to get a Quote

1. Fax or e-mail us an existing version of your artwork. If you do not have finished artwork send us a sketch or copy of:

- an embroidered patch
- a business card
- a photograph
- stationery
- program guide
- letterhead

2. We will create black & white line art - at NO CHARGE - of the proposed logo and send it back to you for approval. We can discuss changes and create a final version of the stencil and give you a quote.

3. We then create the stencil in full size and ship it to you. We can also provide any paint and tools needed for you to do the job

4. Lead time for making a stencil is around two weeks, but call us if you need it quicker.

Some useful hints:

If you have a PC and are graphically proficient, you can provide us with a graphics file of this art. JPEGs are the most common, but we can open most file types.

If you have a camera, send us a photo of a pleasing graphic that you'd like us to adapt to a field stencil.

Also, stencils are available for wall logos, gymnasium walls and floors, building walls, - any hard surface logos—indoors or outdoors.

Athletic Field Stencils

Instruction for using MTP one-piece stencils:
A step-by-step guide

1. Fasten stencil to area desired, using weights or our stencil anchors.

2. Spray the stencil openings with our aerosol turf paint, then remove stencil.

3. Spray to connect the dots with an airless paint sprayer, our EZ sprayer or aerosol, then fill in large areas with our bulk field paint.

4. Finish the details, touch up and you're done!
