Stackhouse Line Marking Equipment—Dry

WHOLESALE PRICE LIST
 EFFECTIVE: JANUARY 1, 2021

STACKHOUSE LINERS

All Stackhouse four-wheel liners (except LPFP50) use a heavy duty, 20 gauge steel body with an attractive powder coated blue finish. The liner body has been designed so that its wedge shape ensures a constant flow of chalk to the bottom of the liner. Our liner gut, which is driven by the liner wheels, has an auger at each end that forces the chalk into a six-bar expulsion wheel which ensures a consistent flow of chalk. A fingertip control allows you to adjust the thickness of your line and control shut-off of chalk. The liners ride on rubber diamond-tread wheels that use steel hubs and bearings for minimum rolling resistance. The liners offer both a 2" and 4" line for baseball, football, and soccer fields. These features, combined with the 5 models we offer, allow you to pick the best liner for your purpose - within your budget.
