## **Buying Aluminum Bleachers — Things & Terms You Need to Know**

### **System Types**

"*Non-Elevated Bleachers*" is a term used to describe a type of bleacher that when seated on the first row, your feet are at ground level. Available in Standard, Preferred, Deluxe and ADA Models.

"*Low-Rise Bleachers*" have a first seat height under 12" and a 6" rise per row. They have a 12" anodized aluminum seat plank as opposed to the standard 10" seat plank. This system is designed to meet most building codes without an aisle or rear guardrail. This type system provides more bleacher seats at affordable prices. These systems are available up to 4 rows without a guardrail system. A 5 row Low-Rise is available with the same features and includes a unique vertical picket guardrail that wraps around the ends of the top seat.

"*Tip N' Roll Bleachers*" have the ability to be tipped up onto their attached caster wheels and rolled away for easy storage. They feature an extension arm for easy tipping, 5" non-marring caster wheels (rear wheels have a brake for securing movement when stored), rubber foot pads to prevent marring of indoor flooring and secure movement when in use and cross bracing on all understructure frame bays. A NRS exclusive outrigger is standard on all 4 row Tip and Roll bleachers for added stability when in an upright position. Tip N' Roll bleaches are also available in a Low-Rise system.

"*Transportable Bleachers*" can be moved from one area of the grounds to the next (5 m.p.h. max). This versatile system, available with 5 rows or 10 rows, is the perfect solution for adding seating where permanent year round bleacher seating is not required. Sharing Transportable Bleachers is an affordable multi-area solution. The Transportable Bleacher are available with an extra heavy aluminum understructure or a galvanized steel understructure. There is additional cross-bracing and added galvanized steel horizontal lifting braces on the front and rear of the understructure for added stability when moving the system. Transportable Bleachers require a Transport Kit (sold separately) that includes a jack for lifting the system to insert the wheel assembly, the wheel assembly with attached axle, tongue assembly and removable tongue assembly brackets to secure the tongue assembly. A heavy duty Transport Kit (with built-in hydraulic jack and larger 14" wheels) is required for all 10 row and elevated systems.

"*Elevated Bleachers*" is a term used to describe a type of bleacher that when seated on the first row, your feet are at the height of the elevated front walkway. Several elevation heights are available. These elevations require entry stairs and front guardrail. A handicap ramp may also be required with ADA seating.

### **Basic Bleacher Terms**

"*Single Foot Plank*" is a term used to describe (1) 2"x10" mill finish aluminum foot plank per row to rest your feet on when seated.

"*Double Foot Plank*" is a term used to describe (2) 2"x10" mill finish aluminum foot planks per row to rest your feet on when seated.

"*Riser Plank*" is a term used to describe a "mill finish" aluminum plank that is mounted vertically under the seat and behind your feet to close the opening to meet building and safety codes.

"*Rise*" The vertical measure from the top of a bleacher seat to the top of the bleacher seat in the next row.

"*Run*" The horizontal measure from the front of a bleacher seat to the front of the bleacher seat in the next row.

**NATIONAL RECREATION SYSTEMS—Tip N' Roll Bleachers**

Our "Tip N' Roll" bleachers tip and roll away for easy storage and are the ideal solution to your auxiliary seating needs. This bleacher is easily tipped up onto its swivel casters for movement and caster brakes keep the bleacher from rolling when stored. All "Tip N' Roll" bleachers include 5 casters with non-marring wheels and non-marring rubber foot pads to protect wood floors. Powder-coated color seat planks are additional. The aluminum understructure (frame) reduces weight for easier lifting. Photos below show our exclusive 4 row outrigger for added safety and stability. Always take extra care when you tip up bleachers.

Our "Preferred" Tip N' Roll bleachers include (2) 2"x10" foot planks. Since all 2 and 3 row Tip N' Roll models and 3 and 4 row Low Rise Tip N' Roll models are under 30" high, most codes do not require guardrail. 5-Year Limited Warranty. Assembly required.

**BWARE OF PHONY BLEACHER BIDS**

We build our benches & bleachers to the highest standards. Listed below are some of the differences by others who may be listing their benches & bleachers as comparable to ours.

- FRAMES** - Ours is 100% aluminum angle. Be careful of those quoting "galvanized steel as equal iron" as equal.
- SEAT PLANKS** - Ours is 100% anodized aluminum with a minimum wall thickness of .078. A thinner walled unit does not have the strength or support. Be careful of anyone offering powder coated steel planks which will rust out when powder coating wears off.
- FOOT PLANKS** - Ours is 100% Mill Finish Aluminum. Be careful of those quoting steel foot planks. They could rust out & will need to be replaced.
- END CAPS** - Ours are constructed of fiber reinforced polypropylene. There are no holes to drill to complete installation. No sharp edges to snag clothing or skin.

5. **INDOOR USE** - Our Tip N' Roll units come with rubber leg protectors so they can be used indoors or out. Be careful of those units using steel vs. aluminum as the total body weight is nearly 400 lbs. and attempting to use these in a "tip-over" fashion could damage your gym floor or cause personal injuries.

6. **FRONT ROWS** - Be very careful of knowing the exact height of each seat section and the overall units. We are seeing as much as 6" being cut off every seat height by other makers trying to save money and lower their bids. This puts the first row nearly at 11" above ground level.

7. **BACK & SIDE FENCING** - We use 9 gauge wire and heavy duty fence pipe, and attached to bleacher using heavy duty aluminum angle and channel. Anything less is asking for mechanical and safety problems.

*Don't be fooled by a low price. Our manufacturing team has been in this business for 30 years. If you see bids or quotes that "seem too good to be true" - they are. Respectable manufacturers purchase aluminum at the same prices. Anyone offering to deliver product at 30% less is not matching specs.*
