WE are greater

than our individual limitations.

United we can push ourselves

beyond where, alone we would have stopped.

What we become tomorrow

depends on what we do today — so let's do this,

TOGETHER.

#TheStrengthInUs

OUR FIT AND FABRICS

Believe in the power of we.

Whether it's running, lifting, spinning or yoga - whatever you're doing, someone is always there with you. Athletes everywhere are pushing harder to raise the bar in competition and also in comfort.

We're raising the bar too. Our designers and developers are obsessed about fit and take pride in getting it right. With gear engineered specifically for Soffe's dedicated athletes, you can achieve greatness - in performance, comfort and style.

Together, we're ready for anything. Join us and find your strength.

MOISTURE MANAGEMENT

Our wicking moisture management pulls moisture away from the body and into the fabric so the drying process begins immediately, keeping your body cooler and drier.

COMPRESSION

Our compression fabric contains spandex that retains its shape and delivers graduated pressure to improve blood circulation for faster recovery.

MILITARY PREFERRED

Our Military gear is engineered to endure the grinding wear and tear of our troop's demanding training while offering the precise tailoring preferred by every branch of the US Military.
