RELENTLESS DEDICATION TO THE PLAYER

2018 BASEBALL SOFTBALL CATALOG

RELENTLESS DEDICATION to the **PLAYER**

We believe in the value of sports, athleticism and the beauty of striving to be the best. We feel it and live it - every day. We know the athletes that look to us for their equipment feel it too.

We believe every athlete, male or female, deserves to wear equipment that helps them become the player he or she wants to be.

We make that equipment. Every day.

The Schutt logo is displayed in a stylized, italicized font with a white underline that tapers to a point on the left and right sides.

TPU Protection

The same cushioning that Schutt uses to protect athletes on the football field can be found in our AiR MAXX Helmets. TPU Cushioning absorbs more impact across a wider variety of temperatures than any other helmet on the field. TPU Cushioning is virtually impervious to mold, mildew, fungus and bacteria. TPU Cushioning offers superior heat management and won't take a compression set – even after thousands of impacts. TPU Cushioning is the game's most advanced impact-absorbing system.

#SCIENCEOFDOMINATION

TPU CUSHIONING

Helmets that feature our patented TPU Cushioning system have the added benefit of mechanically attached cushions. Mechanically attached cushions keep pads securely in place and allow for easy cleaning or replacement.

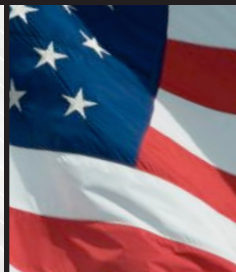

D30® CUSHIONING

Helmets that are powered by D30's Energy Lock Technology also contain mechanically attached cushions. Mechanically attached cushions keep pads securely in place and allow for easy cleaning or replacement.

ANTIMICROBIAL TREATMENT

Helmets that utilize D30 Cushioning Systems are treated with an antimicrobial system to resist the development of bacterial odors.

MADE IN THE USA

All of our helmets and face guards are proudly manufactured in the United States of America.

ABS PLASTIC

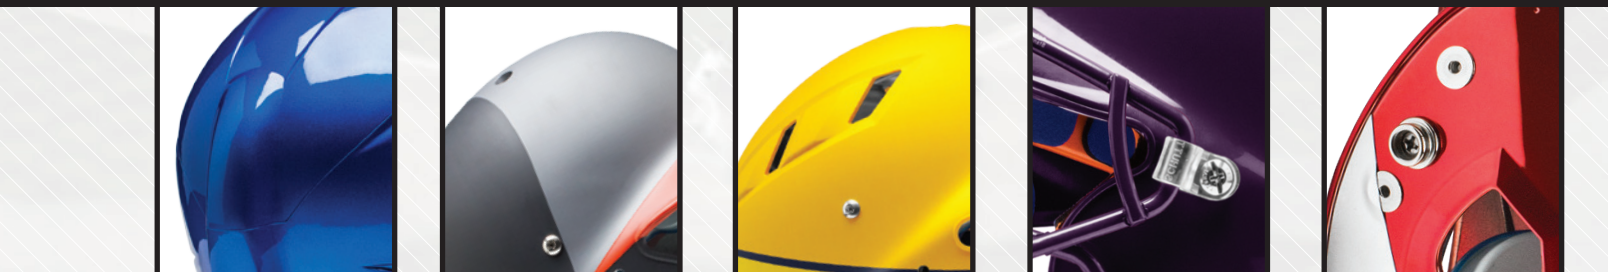

All of our batter's helmets are made from lightweight ABS plastic. Our helmets feature strategically placed ventilation holes. The result is an extremely durable helmet with maximum breathability and impact resistance.

D30 Protection

The Energy Lock Technology found in our helmets is powered by the patented protection and performance of D30[®]; a soft and flexible shock absorbing system featuring unique molecular properties. In its normal state, the molecules in the D30[®] flow freely, but on impact, lock together to disperse impact energy and reduce the force transmitted. The molecules instantly return to their flexible state after the impact. This uniquely engineered polymer offers a significant advantage over the traditional foam padding used by other helmet makers.

Featuring the same impact absorption technologies as our football helmets, Schutt batter's helmets are the fastest growing helmets on the field. We make America's best helmets for America's best teams with unlimited customization options, right here in the USA. Seven straight years of double-digit growth powered by unmatched innovation and technology. That's the Science of Domination.

PONYTAIL CHANNEL

Our AiR 5.6 and 4.2 PT helmets feature a unique channel in the back of the helmet to comfortably accommodate players who wear ponytails.

TRADITIONAL HELMET SHELL

The Schutt AiR-Pro helmets feature a traditional helmet shell design that's simple and classic, but still features state-of-the-art performance.

DYNAMIC HELMET SHELL

The AiR Maxx T 5.6 and 4.2, as well as the AiR 5.6 and 4.2 utilize the AiR-XE shell. A dynamic shell design, it's engineered for a truer fit and to maximize ventilation.

PRE-DRILLED HOLES

All of our softball model helmets have pre-drilled holes for attaching the AiR-Lite HR Softball Batter's Guard, featured on page 20.

CHINSTRAP SNAPS

All of our softball model helmets feature pre-installed snaps, allowing you to easily add a chinstrap to your helmet. Chin strap snaps accommodate any Schutt Chin/Throat Strap.

HELMET FITTING GUIDE

STEP 1

Measure the circumference of the player's head at its widest point, about 1" above the player's eyebrows.

STEP 2

The helmet bill should be parallel to the ground, 1" above the eyebrows. If a faceguard is attached, you should have an unobstructed view.

STEP 3

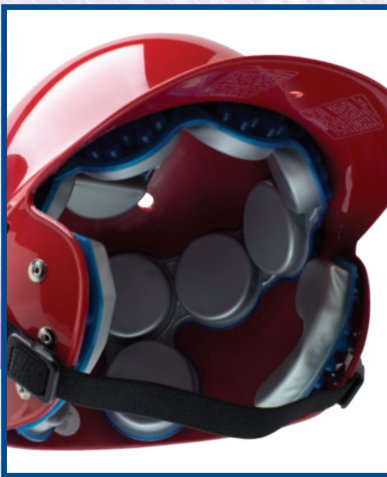

Helmet should fit snug, without pinching or feeling too tight. Helmet should NOT move independently of the player's head.

STEP 4

Give the bill of the helmet a solid tap while the player is wearing it. The helmet shouldn't move. If it does, the helmet is too big.

THOUSANDS OF COLORS

We strive every day to make the equipment that makes our athletes the best they can be. Performance is our top priority. But we also know, unless an athlete likes the way they look in our gear, it stays on a shelf somewhere.

So we've built a vast library of colors and finishes - hundreds of thousands of possible combinations: custom paint colors, Aquatech graphics, finishes and decal combinations. It's all part of the job description for being your Custom House for helmets.

We make America's best helmets for America's best teams.

FEATURES

REVERSIBLE

The S3.5 features a Schutt exclusive design that allows you wear the same protector with a home or away uniform.

BREATHABLE CONTOUR DESIGN

Breathable construction with optimal coverage for baseball and softball players that wraps around the ribs. Perforated cushion creates a "dead zone" in the blocking area

RANGE OF MOTION

Full coverage while allowing maximum range of motion

V-BACK HARNESS SYSTEM

Connects further down the back creating a more secure fit and less movement when throwing or blocking. New design is adjustable and flexible.

FEATURES

MAX VENTILATION/LIGHTWEIGHT

The S3 and S4 guards both feature hundreds of perforations, maximizing ventilation without sacrificing protection or performance. The optimized shin coverage and perforated padding creates a pad weighing 21% less than traditional leg guards.

ENERGY LOCK TECHNOLOGY

Powered by D30®, the knee pad is soft and comfortable but upon impact absorbs and disperses energy.

NEW S4.0 FEATURES

Patent Pending Quick-Clamp system with reduced straps for easier on/off. Tri-clip cap fastener means less bulk behind the knee. Lightweight and ventilated cushioning with optimized plate placement.

THE MOST CUSTOMIZABLE CATCHER'S GEAR ON THE DIAMOND

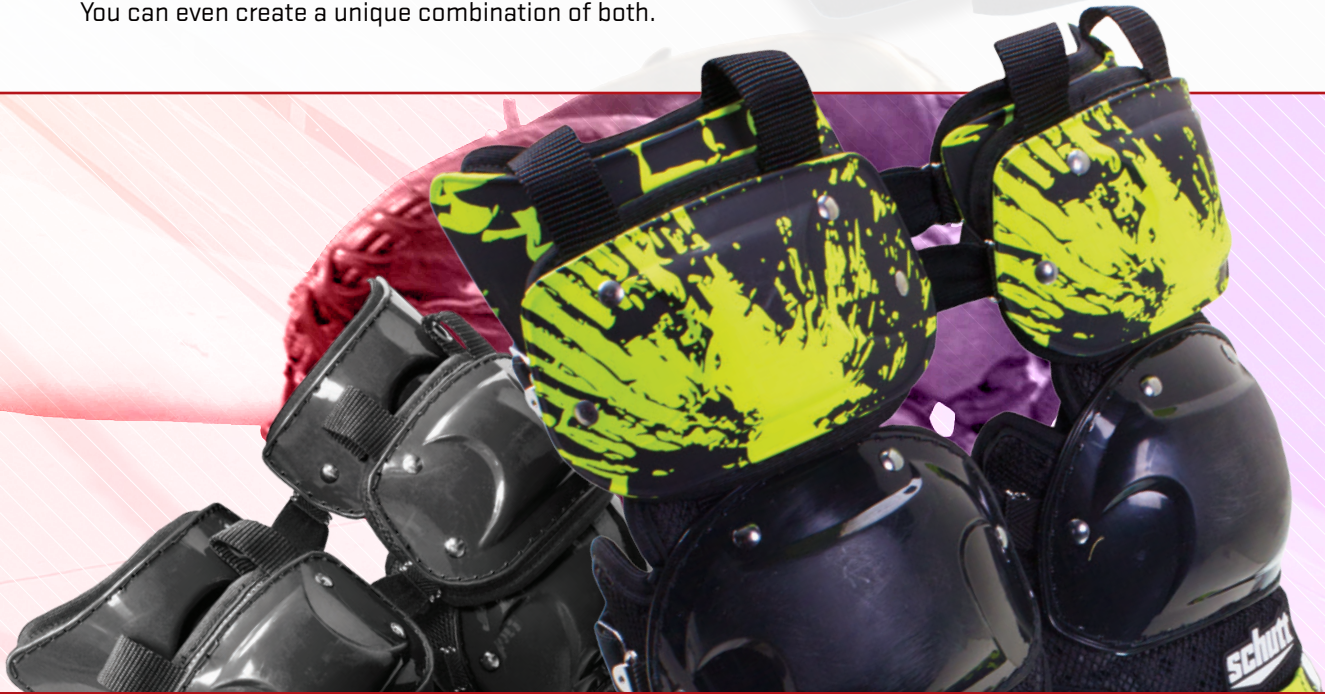

The interchange Catcher's Gear rounds out baseball and softball's most versatile and customizable set of catcher's gear. Along with the AiR MAXX 2966 catcher's helmet, the interchange gear allows you to create exactly what you want. Gone are the days of just a home and away set of gear. You can create gear with multiple configurations, colors and designs. Helmet. Chest Protector. Legs. We can do all of it or any of it. If you can imagine it, we can make it.

CHEST PROTECTORS

Features a series of three customizable inserts, as well as a removable neck roll. It's made from synthetic leather and comes in three basic colors: scarlet, royal blue and black. After that, it's all up to you.

You can paint the base or inserts with any of the thousands of colors found in our paint library (see page 22 for just a few samples of what we offer). You can apply Aqua Tech water graphics to the base or the inserts, found on page 26. You can even create a unique combination of both.

S3i LEG GUARDS

Features customizable knee caps, shin guard and toe plate, with a black cushion to provide wrap-around protection for your leg. Comes in three standard combinations: scarlet/black, royal blue/black and black/black. After that it's all up to you.

You can paint the plates with any of the thousands of colors found in our paint library (see page 22 for just a few samples of what we offer). You can apply Aqua Tech water graphics, found on page 26. You can even create a unique combination of both.

DEADON STRIKE ZONE TRAINER

The DeadOn Target Training System is not only training the body but the mind as well. The patented design of DeadOn Sports Precision Targets gives a visual imprint unlike any other sports equipment. It goes beyond your regular training aspects by using mind mapping to increase accuracy and consistency. Most would agree that accuracy is built by increasing concentration and focus, and the small DeadOn targets encourage these.

- 12829307 DeadOn Strike Zone
- 12829301 Replacement Sheet
- 12829302 Target Sheet

- 12829309 Replacement Weight Bag
- 12829311 (2) Replacement Bungees

ACCURACY BUILDING TARGETS

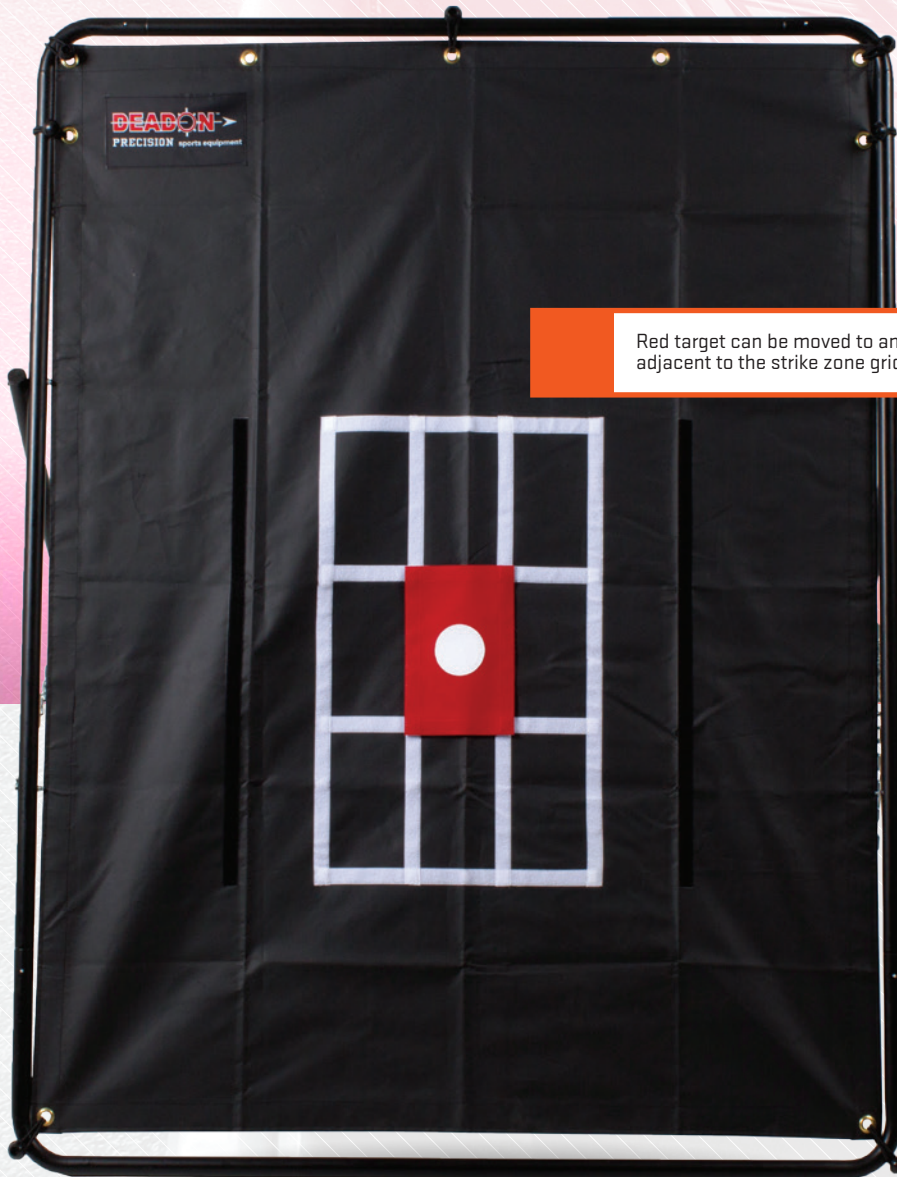

It could mean the difference between a narrow victory or heartbreaking defeat. DeadOn Sports Target Training System increases accuracy and consistency by giving you a precise point of impact while blocking out visual noise for maximum concentration.

VERSATILE DESIGNS

The versatility of the design makes it an ideal multi-sport training device. The frame can be outfitted with a strike zone for softball or baseball pitching and fielding practice. It's also ideal for football quarterbacks and long snappers, as well as volleyball setters and hitters.

DURABLE CONSTRUCTION

The frame is built from 16-gauge steel tubes and the target sheets are created from ultra-durable 18-oz vinyl. All the parts withstand the hardest impacts at all levels of play. You can expect years of use from your targets.

Red target can be moved to any location inside or adjacent to the strike zone grid.

MLB[®] Authentic Collection

As the Official Supplier to Major League Baseball™, Schutt offers Authentic Jack Corbett Bases as seen on the field. Represent your favorite team with their logo on full-size bases and authentic home plates. Collect the entire line of your favorite team, including mini bases, mini home plates, coasters and authentic pitching rubbers. Perfect for the ultimate fan.

The most popular item in the Schutt Officially Licensed Baseball Collection is the Exclusive Desk Caddy. Sport your favorite team with a genuine on-field helmet, scaled down to scale. The mini desk caddy has built in pockets for pens, pencils, and business cards. A must have for the office.
