

Far from the game, the lights, the fever.

Rockler

There is a company on a mission. Driven by a relentless dedication to the player.

At Schutt Sports, we build gear for performance. We build gear for protection. We build gear for players. It takes decades of constant technological advancement; in every helmet, in every shoulder pad, in every product.

It takes people in the lab committed to pushing the limits of engineering.

It takes an entire company committed to the Science of Domination.

Maybe that's why...

We have the Number one testing helmet in the new Virginia Tech Rotational Star Protocol & multiple helmets within the top 5.*

Nearly 40% of all NFL players wear Schutt Helmets.

Over 50% of all NFL Skill Players wear Schutt Helmets.

The highest ranked helmet in NFL helmet testing from 2010-2016

shine 8

On the field, domination doesn't happen overnight. **Domination** takes hard work. **Domination** takes desire. **Domination** takes guts. That's why we specialize in equipment with an extra helping of BADASS baked into every one; Built for the Science of Domination.

ALL NEW SCHUTT

A NEW AGE OF DOMINATION

The world's foremost designer, engineer and manufacturer of football helmets has pushed the boundaries of technology and performance yet again. Relentless dedication to the player has produced a football helmet that's more stunning in its performance and more inspiring in its design than anything on the field.

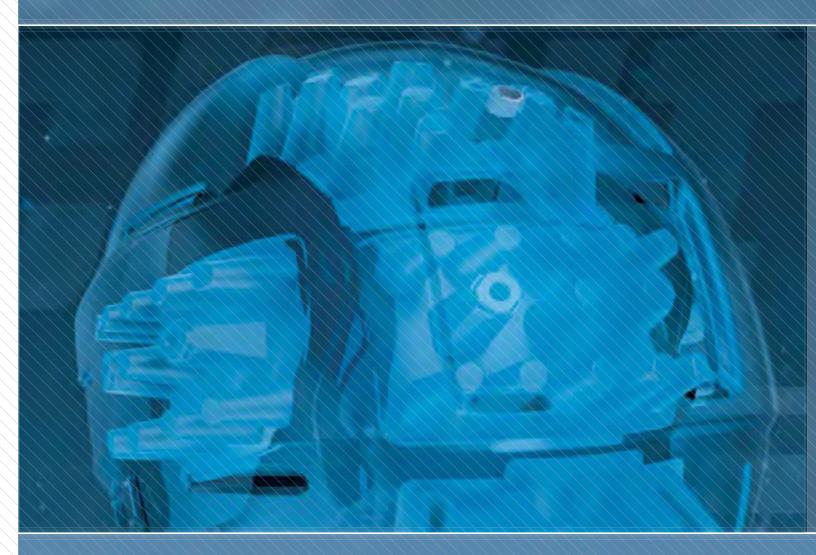

Metuchen/Garden State Apparel

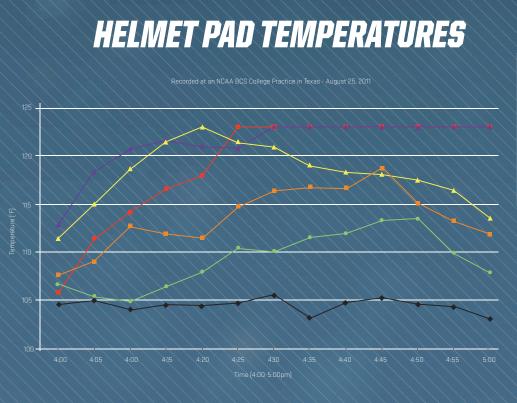

SCIENCE OF DOMINATION

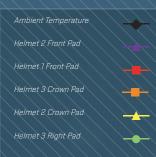

Thermoplastic Urethane (TPU) Cushioning is the most advanced impact absorption system on the field. TPU Cushioning absorbs more impact across a wider variety of temperatures than any other helmet. The science that goes into designing a system that dominates at the highest levels begins with a simple directive: relentless dedication to the player. An unwavering focus on helping every athlete become the player that he or she wants to be.

We introduced TPU Cushioning to football in 2003. Since then, our engineers have continuously challenged themselves to improve and invigorate the design and performance of TPU. Every new generation brings incredible steps forward. TPU Cushioning is a versatile and customizable powerhouse. It's better at managing heat and it doesn't take a compression set. "The Science of Domination" begins with TPU Cushioning.

The graph below contains football helmet temperature data gathered at an NCAA BCS college practice in Texas during August. The graph clearly shows that temperatures of multiple pads significantly exceeded ambient temperatures and, in some cases, reached as high or higher than 123°F (the maximum reading that the sensors would provide). Additional helmets experienced similar temperature trends to those shown on the graph, but the graph is simplified for presentation purposes.

*Data gathered by third party: Hot Heads Technologies, Inc. Temperature sensors recorded actual temperatures, but could only sense a maximum temperature of 123 ('F), as reflected above. Temperature sensors were embedded inside the padding of multiple helmets. All helmets shown in the above graph were black. Additional black and white helmets were tested, but were left out of the graph for clarity. The sensors in the white helmets recorded temperatures that ranged approximately from ambient to 110 ('F). All data from this study was provided to NDCSAE.

NO HELMET IS CONCUSSION PROOF. The information shown above is not an indication of the ability of the helmets to reduce or prevent concussions. There are too many variables that cause concussions for a formatule helmet to the above data of the new transmission is a some insight into the helmets. There are too many variables that cause concussions for a formatule helmets to semple as one insight into the helmets and attenuate in thread that different temperatures provides some insight into the helmets and attenuate interpact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets at a different temperatures provides some insight into the helmets and attenuate impact at different temperatures provides some insight into the helmets and the instruct and the impact at different temperatures at the provide some insight into the helmets and the instruct and the impact at different temperatures at the provide some insight into the helmets at the provide some instructions and the helmets and the provide some instructions at the helmets at the provide some instructions at the helmets at the provide some instructions at the provide some instructions at the helmets at the provide some instructions at the provide some instructinge

We design our helmets to perform well over a wide range of temperatures. To research the temperatures experienced inside helmet padding, Hotheads Technology, Inc. of Dallas, Texas gathered temperature data by installing sensors inside the pad systems of multiple football helmets and recorded the real-time temperatures of the pads during on-field play.

MIER.

ELEMENTS OF DOMINATION

Ready to discover which **Elements of Domination** are powering *your* Schutt Helmet? Head to page 62 to learn more about our full lineup of varsity and youth helmet features.

Domination is what we do. Science is how we do it. And it's built upon a foundation of advanced technology and innovation in every helmet. Tektonic Plate Technology, Helmet Stabilization System, RDS Liners, Flexural and temporal engineering. And, of course, TPU Cushioning, football's most advanced impact absorption system.

[A] Strategically incorporated into the areas of the helmet that receive the highest number of impacts, Tektonic Plates (and the new, external TPU Cushion) improve the helmet's performance against rotational forces and add an additional layer of impact absorption to the helmet. The Tektonic Plates move independently of the helmet shell, reacting in multiple directions to help better distribute the energy of an impact. **(B)** A larger, more comfortable jaw pad configuration - framing your face and creating a secure, "locked-in" fit inside the helmet. The HSS increases the surface contact area creating a more secure, comfortable fit. The high performance, impact foam is wrapped in soft, durable and comfortable synthetic leather. The internal and external stabilizers add strength and reinforce the ear flap. Each helmet ships with two different thicknesses of pad for a custom fit (see sizing matrix on next page). **[C]** Reduces to three the number of attachment points on the helmet. The Rapid Release System features our patented Twist Release Nose Bumper as well as two Quarter Turn Releases on the side. You can attach or take off a faceguard with two small turns of a screwdriver and a twist! **[D]** We've engineered Flexural Resistance areas into the F7 helmet shell. The back shelf and Temporal side wings improve the overall strength and durability of the shell in critical locations. These design features improve impact absorption and allow us to increase TPU Cushioning in those areas.

Athletic Equipment & Supplies

SCHUTT F7 VTD Includes Elite Hard Cup Chin Strap (Black) MSRP: \$975.00

Made in The USA

SEI Certifies Product Meets

Includes Elite Hard Cup Chin Strap (Black)

F7 FACEGUARDS

Made from Titanium. Up to 60% Lighter.

The F7 features a completely new line of titanium faceguards. The Raised Brow design deflects impacts away from the helmet. The tapered faceguard design increases range of motion and decreases the areas of potential impact.

MSRP:

T - \$150.00

Titaı

Titanium (T) Faceguards

Football's Most Advanced Faceguard

- Up to 60% Lighter than Traditional guards

SUREFIT Air Liner / RDS Liner Our Most Comfortable Helmet

The SUREFIT inflatable liners feature an increased number of inflatable pods, giving you a more secure, "locked-in" fit. In addition, the SUREFIT's under layer is the all-new Radian Diffusion System (RDS) Liner. Improves independent movement of the liner, TPU and the head, resulting in better performance against rotational forces.

WARNING

WARNING: Keep your head up. Do not butt, ram, spear, or strike an opponent with any part of this helmet or faceguard. This is a violation of football rules and may cause you to suffer severe brain or neck injury including paralysis or death and possible injury to your opponent. Contact in football may result in Concussion/Brain injury which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea, or confusion. If you have symptoms, immediately stop and report them to your coach, trainer, and parents. Do not return to a game or contact until all symptoms are gone and you receive medical clearance. Ignoring this warning may lead to another and more serious or fatal brain injury. ND HELMET SYSTEM CAN PROTECT YOU FROM SERIOUS BRAIN AND/OR NECK INJURIES INCLUDING PARALYSIS OR DEATH. TO AVDID THESE RISKS, DO NOT ENGAGE IN THE SPORT OF FOOTBALL, TO ACHIEVE THE MOST EFFECTIVE PERFORMANCE OF A Schutt HELMET, USE ONLY SCHUTT SPORTS REPLACEMENT DOMPONENTS, WARNING: Oo not attach any accessories that are not supplied by and/or approved to be worn with Schutt helmets. Attachment of accessories not supplied by or recommended for Schutt helmets will void the warranty and could adversely affect the protective capabilities of the helmet. [If you are unsire if an accessory, is approved, please visit echuttsports.com. Due to differences in head shipes and sizes adjustments may be needed to achieve proper fit and/or comfort. Please refer to the fitting instructions booklet included with each new Schutt helmet. Also available at schuttsports.com. Using jaw pads from suppliers other than Schutt Sports will void the warranty.

Athletic Equipment & Supplies

[A] The bold, high-powered Vengeance Z10 is a sleek, low-profile helmet that's lighter than any other premium varsity helmet. Built from a compact Vengeance helmet shell, the Z10 weighs just over three pounds. [B] A larger, more comfortable jaw pad configuration - framing your face and creating a secure, "locked-in" fit inside the helmet. The HSS increases the surface contact area creating a more secure, comfortable fit. The internal and external stabilizers add strength and reinforce the ear flap. [C] We've engineered Flexural Resistance areas into the Z10 helmet shell. The back shelf improves the overall strength and durability of the shell in a critical location. This design feature improves impact absorption. [D] The helmet that's best for any player is the helmet that fits him the best. The Z10 features a SUREFIT inflatable air liner along the back and sides. This system reduces the weight of the helmet but still gives you a great, custom fit.

The Educational Services Commission of New Jersey

Athletic Equipment & Supplies

[A] Strategically incorporated into the areas of the helmet that receive the highest number of impacts, Tektonic Plates (and the new, external TPU Cushion) improve the helmet's performance against rotational forces and add an additional layer of impact absorption to the helmet. The Tektonic Plates move independently of the helmet shell, reacting in multiple directions to help better distribute the energy of an impact.
[B] A larger, more comfortable jaw pad configuration - framing your face and creating a secure, "locked-in" fit inside the helmet. The HSS increases the surface contact area creating a more secure, comfortable fit. The high performance, impact foam is wrapped in soft, durable and comfortable fireman's leather. The internal and external stabilizers add strength and reinforce the ear flap. [C] Reduces the number of attachment points on the helmet to three. The Rapid Release System features our patented Twist Release Nose Bumper as well as two Quarter Turn Releases on the side. You can attach or take off a faceguard with two small turns of a screwdriver and a twist! [D] We've engineered Flexural Resistance areas into the F7 helmet shell. The back shelf and Temporal side wings improve the overall strength and durability of the shell in critical locations. These design features improve impact absorption and allow us to increase TPU Cushioning in those areas.

The Educational Services Commission of New Jersey

Athletic Equipment & Supplies

YOUTH SCHUTT F7 MSRP: \$850.00

Made in The USA

SEI Certifies Product Meets

Includes Elite Hard Cup Chin Strap (Black)

F7 FACEGUARDS

Made from Titanium. Up to 60% Lighter.

The F7 features a completely new line of titanium faceguards. The Raised Brow design deflects impacts away from the helmet. The tapered faceguard design increases range of motion and decreases the areas of potential impact.

MSRP:

T - \$150.00

Titanium (T) Faceguards

- Football's Most Advanced Faceguard

- Up to 60% Lighter than Traditional guards

SUREFIT Air Liner / RDS Liner

Our Most Comfortable Helmet with Improved Performance

The SUREFIT inflatable liners feature an increased number of inflatable pods, giving you a more secure, "locked-in" fit. In addition, the SUREFIT's under layer is the all-new Radian Diffusion System (RDS) Liner. Improves independent movement of the liner, TPU and the head, resulting in better performance against rotational forces.

If you have symptoms, immediately stop and report them to your coach, trainer, and parents. Do not return to a game or contact until all symptoms are gone and you receive medical clearance. Ignoring this warning may lead to another and more serious or fatal brain injury. ND HELMET SYSTEM CAN PROTECT YOU FROM SERIOUS BRAIN AND/OR NECK INJURIES INCLUDING PARALYSIS OR DEATH. TO AVDID THESE RISKS, DO NOT ENGAGE IN THE SPORT OF FOOTBALL, TO ACHIEVE THE MOST EFFECTIVE PERFORMANCE OF A Schutt HELMET, USE ONLY SCHUTT SPORTS REPLACEMENT DOMPONENTS, WARNING: Oo not attach any accessories that are not supplied by and/or approved to be worn with Schutt helmets. Attachment of accessories not supplied by or recommended for Schutt helmets will void the warranty and could adversely affect the protective capabilities of the helmet. [If you are unsire if an accessory, is approved, please visit echuttsports.com. Due to differences in head shipes and sizes adjustments may be needed to achieve proper fit and/or comfort. Please refer to the fitting instructions booklet included with each new Schutt helmet. Also available at schuttsports.com. Using jaw pads from suppliers other than Schutt Sports will void the warranty.

(A) The bold, high-powered Vengeance Z10 is a sleek, low-profile helmet that's lighter than any other premium youth helmet. Built from a compact Vengeance helmet shell, the Z10 weighs just over three pounds. **(B)** A larger, more comfortable jaw pad configuration - framing your face and creating a secure, "locked-in" fit inside the helmet. The HSS increases the surface contact area creating a more secure, comfortable fit. The high performance, impact foam is wrapped in soft, durable and comfortable fireman's leather. The internal and external stabilizers add strength and reinforce the ear flap. **(C)** We've engineered Flexural Resistance areas into the Z10 helmet shell. The back shelf improves the overall strength and durability of the shell in a critical location. This design feature improves impact absorption. **(D)** The helmet that's best for any player is the helmet that fits him the best. The Z10 features a SUREFIT inflatable air liner along the back and sides, along with an inflatable crown liner to achieve a proper fit. This system reduces the weight of the helmet but still gives you a great, custom fit.

HELMET FITTING GUIDE

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size ouideline.

Lubricate the pump needle generously and Insert needle as shown. Do not force the needle into the port; doing so may puncture the liner's opposite wall.

begin with doctom inflation port on back of helmet. Perform 1-3 pumps. Helmet should be snug against player's head but not overly tight. Excess air is released with valve.

When finished, repeat for top inflation port. Proper inflation will usually require 0-2 pumps, but that will vary.

Helmet's front edge and nose bumper should be approximately 1" above the player's eyebrows.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

Measure the player's head as shown, 1" above the eyebrows around the widest part of the head, using the chart on helmet pages for size guideline.

Attach chin strap to the helmet underneath the faceguard, never above it. Tighten chin strap to be snug and centered on the chin.

Jaw pads should be snug against the player's face, flush with his jaw, without pushing too forcefully into his cheeks.

NON-INFLATABLE

61

The helmet should fit snugly, without being too tight. There should be no independent movement of the helmet.

CUSTOM PAINT STYLES

Why limit yourself to just one color? Because Schutt does all of our custom painting in-house, we can mix and match any color in our library with Custom Paint Style options.

C

With Schutt Custom Paint Style options, getting a unique look for your team is as easy as A-B-C.

A

COLOR 1 B COLOR 2

COLOR 3

Choose from one of eight custom paint styles in our library. When paired with a set of custom decals, these paint styles are a great way to get a custom look for your team without breaking the bank.

HALF & HALF [A] represents a molded color.

WIDE STRIPE

CUSTOMIZED DESIGNS

After consulting with you, the initial design idea starts as a sketch. Basic concepts are created and the design story begins. Our designers are ready to help you establish a completely new look for your team from start to finish.

ARTWORK DEVELOPMENT

As the process moves forward, the work moves to the computer. The color palette begins to take shape. Our design team will produce different options for your team's logo/decal. An integrated style and color palette are used throughout each logo design.

DECAL PRODUCTION

Once you've decided which logo/decal you like most, we'll work with you to figure out the best way to produce the decals, as well as recommend paint styles to fully integrate your brand. Uniform Numbers, Award Decals, Accents, Mascots; You name it, we can make it.

-Use your traditional logo or have Schutt update your look.
-Digital Chrome, Two-tone Chrome, matte finish options available.
-Create an alternate look for away or special commemorative games.
-Transform your current look into a design sure to gain attention.
-Schutt offers every decal you can imagine. You think it, we create it.

Pro Gear Sports is the brand name in protective equipment that is trusted by pros, youth players and everyone in between. From the Pro Gear Collegiate line, to the custom Alpha Series, Pro Gear has been protecting football players on the field for over 25 years. Schutt Sports is proud to now offer the full line of Pro-Gear shoulder pads, made right here in the USA.

RC

88

Metuchen/Garden State Apparel

PRO DEAR The Educational Services Commission of New Jersey

ALPHA SERIES SHOULDER PADS STARTS ON PG. 90

HANDMADE CRAFTSMANSHIP

Our Alpha Series Shoulder Pads are painstakingly handcrafted, with exquisite attention to detail. Completely customizable for each individual player or team.

UNMATCHED TECHNOLOGY

Air management cushion technology throughout each Alpha shoulder pad, along with Poron® High Impact Protection Foam, as well as viscoelastic memory foam inserts.

PL SERIES SHOULDER PADS STARTS ON PG. 93

TOP OF THE LINE CUSTOM PADS

Each Shoulder Pad in the Professional Level series is built right here in the USA, just like every other pad in the Pro Gear Lineup. Just like our Alpha Series, each PL Series pad can be customized to match your team colors.

SUPERIOR FIT AND BREATHABILITY

The PL Series of shoulder pads feature air management cushioning system, as well as Performance Fit Technology in a low-profile, FLAT pad design.

CL SERIES SHOULDER PADS STARTS ON PG. 96

PRO LEVEL FEATURES

The CL Series of shoulder pads are ideal for all entry-level football players, with many of the same features found in our Prefessional Level Pads such as lightweight designs and FLAT pad technology.

PRO GEAR INSIDE LOOK

ALPHA SERIES

TOP TIER PERFORMANCE

90

The pads inside the Alpha Series are not just the most advanced you'll find in the Pro Gear lineup, they're also customizable. Removable Poron Pads and Memory Foam shoulder inserts, all available in your choice of team color body cushions and trim.

sey Athletic Equipment & Supplies

Every Pro Gear Shoulder pad is designed with Air Management technology. The utilization of Air Management cushion systems offers the very best in protective capability.

PL SERIES

PRO-LEVEL AIR MANAGEMENT

The FLAT pad designs of the Pro Gear PL series are enhanced with cool mesh liners and performance fit stitching. Just like the Alpha Series, Pro Gear PL series pads and trim are customizable to match your team's colors.

CL SERIES

PROTECTION AND COMFORT

High-performance FLAT pads designed with Air Management technology are built into each model in the CL Series. Whether you are a big hitter on the Defensive Line or making a run for the end zone, The CL series is built for protection and mobility.

Bid Term: 5/9/18 - 5/8/20

Athletic Equipment & Supplies

AIR MAXX SERIES STARTS ON PG. 106

AIR MANAGEMENT

The protective shoulder pad cushion is made of open cell foam with microscopic air chambers. The outside fabric is sealed to the foam trapping the air inside the cushion.

O2 MAXX SERIES STARTS ON PG. 108

MULTI-DENSITY PERFORMANCE

The O2 Maxx Shoulder Pad features upgraded padding protection for that heavy-hitting player who needs additional protection to both deliver and receive the hits.

XV HD SERIES STARTS ON PG. 110

HEAT MANAGEMENT

Features high-density EVA foam for greater impact absorption and durability. The moisture and heat management system of the XV HD allows airflow to and from the body which allows the skin to dry and the body to continue its natural cooling action.

FLEX SERIES STARTS ON PG. 112

QUALITY PERFORMANCE

Schutt also offers a wide range of shoulder pads designed to suit the needs of Varsity and Youth Players in whatever position they play.

SHOULDER PAD SCIENCE

AIR MAXX FLEX 2.0

Air Maxx TPU Cushioning that is used in our best performing helmets is featured in our Air Maxx Flex 2.0 Shoulder Pad Series. TPU Cushioning is positioned over the shoulders providing enhanced impact absorption. Energy Lock Technology powered by D30[®] is rate sensitive, so the harder the impact, the greater the resistance to the force. Our D30[®] technology is strategically positioned over the shoulder for optimal impact absorption.

TACKLES HEAT AND MOISTURE

Perforated body cushion combined with breathable mesh and arch vents makes this pad supremely breathable. Maximum air flow keeps you cooler and allows you to perform better.

T FLEX

HIGH DENSITY PADDING

An all-purpose Shoulder Pad featuring upgraded padding for heavy-hitting youth players who need additional protection to both deliver and receive big hits. Suitable for every player on the field.

Metuchen/Garden State Apparel

We have always said that when it comes to gear that protects our athletes, it's what's on the inside that counts. That's why every shoulder pad that Schutt offers has been specially designed so that players can equip themselves to play the game their way. Whether you need extra padding where it counts, or a slimmed down model for skill positions, we've got you covered.

CLAVICLE CHANNEL SYSTEM

This system absorbs impact specifically around the AC joint and provides maximum shoulder protection. The hook and loop pad attachments can be repositioned or removed to ensure a precise fit and coverage in the key hitting areas.

REDUNDANT PADDING

The same Energy Lock Technology found in the AiR Maxx Flex; featuring a molecular structure that locks together upon impact dispersing the impact and reducing the force applied to the pad.

ALL PURPOSE PERFORMANCE

A lightweight, all purpose design for the exceptional youth athlete. The extended body length adds extra protection for vulnerable areas.

MID FLEX

THREE POINT BELT SYSTEM

The adjustable elastic belt is attached to the arches at three points. The two points of attachment at the back arch provide a more snug fit pulling the arch to the body. This better fit means less movement and more consistent protection.

SHOULDER PAD FITTING GUIDE

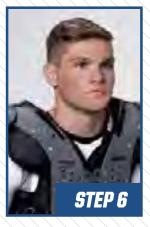

Identify player position, and select the corresponding Schutt Shoulder Pads.

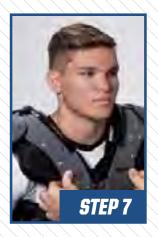

Measure shoulder span from right to left tips of the humerus.

Wrap measuring tape around player's torso to measure chest circumference

Carefully lower the pads over the player's head.

Buckle belts, and connect any straps that your shoulder pad uses. Ensure a good tight fit in chest and back areas. Ensure proper front coverage by confirming that shoulder pads cover the sternum, as well as front upper shoulders. Check to ensure that there is no pinching in collar area. In the back, pads should cover the scapula and rhomboid areas. Fitted properly, shoulder pads should allow player maximum motion.

DO 18 TARGET

The Dead-On Target Training System is not only training the body but the mind as well. The patented design of Dead-On Sports Precision Targets gives a visual imprint unlike any other sports equipment. It goes beyond your regular training aspects by using mind mapping to increase accuracy and consistency. Most would agree that accuracy is built by increasing concentration and focus, and the small Dead-On targets encourage these.

ACCURACY BUILDING TARGETS

It could mean the difference between a narrow victory or heartbreaking defeat. Dead-On Sports Target Training System increases accuracy and consistency by giving you a precise point of impact while blocking out visual noise for maximum concentration.

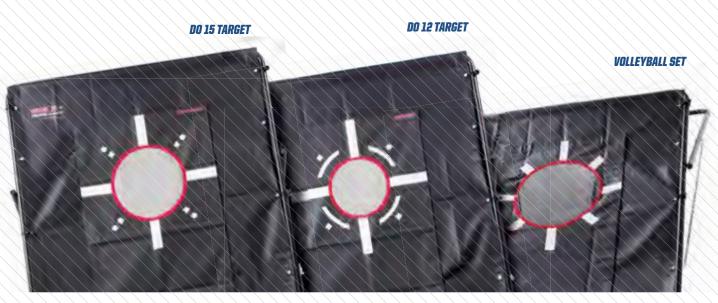

VERSATILE DESIGNS

The versatility of the design makes it ideal for long snappers and QBs, setters as well as hitters. The frame can be outfitted with a Strike Zone for softball/baseball pitching and field practice.

DURABLE CONSTRUCTION

The frame is built from 16-gauge steel tubes and the target sheets are created from ultra-durable 18-oz vinyl. All the parts withstand the hardest impacts at all levels of play. You can expect years of use from your targets.

THE SCIENCE OF RECONDITIONING

YOUR GEAR. YOUR PARTS. ANY BRAND.

YOUR GEAR. YOUR PARTS. ANY BRAND. The same parts that you send in with your helmets get sent back to you with your helmets.

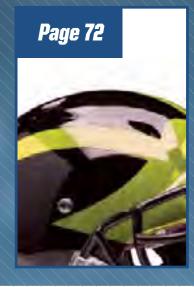

Send us all of your gear after a brutal season. We repair it and send it back, ready for the next. And we do it all right here in the USA.

RECONDITIONING

sales@schuttrecon.com 800.818.3892 schuttreconditioning.com

CUSTOM ORDERING INSTRUCTIONS

- Custom painting requires additional lead time.
- Custom paint orders cannot be canceled once helmets are painted.
- Additional charge for masked paint designs.
- Paint charges are added to the molded helmet cost.
- Expect some variation in paint style application.
- A clear coat is applied to Aqua Tech, to guard against wear and tear.
- Allow approximately three weeks for shipping on Aqua Tech orders.
- Lead time for custom shoulder pads is 9-12 weeks. Minimum order of 3 pieces (single location) required.
