Ve
Velvets

SYNTHETIC PLUSH VELVETS

Our Synthetic Velvets are engineered with micro-denier IFR polyester to provide a greater fabric density, a smooth lustrous surface, rich colors and plush pile. To provide even greater diversity to these velvets, we work with mills from all over the world to develop fabrics that create unusual aesthetics and exciting visual statements by applying unique mechanical and chemical technologies that change the fabric surface. Our Synthetic Velvets provide the perfect base fabric for a number of innovative effects and they're washable and stand up to the weather in humid conditions while retaining their flame retardant properties. Ideal for Special Event and Theatrical curtains.

	Approx. Piece Size	Price/Cut	Price/Piece		
ANGELO	45 yds.	\$28.95/yd.	\$25.95/yd.

SYNTHETIC VELVETS

	Approx. Piece Size	Price/Cut	Price/Piece
VENETIAN VELVET II	100 yds.	\$10.95/yd.	\$7.95/yd.

An elegant mid-weight Inherently Flame Resistant velvet in vibrant colors with a plush hand. Ideal for entertainment and special effect curtains. Warp velvets should always be cut with the pile facing up. Available Summer 2014.

100% Polyester, IFR, 60" wide, 8.5 oz. Machine Wash.

Stocked in: 1-Black, 2-White, 3-Dune, 4-Marine, 5-Rouge, 6-Granite.

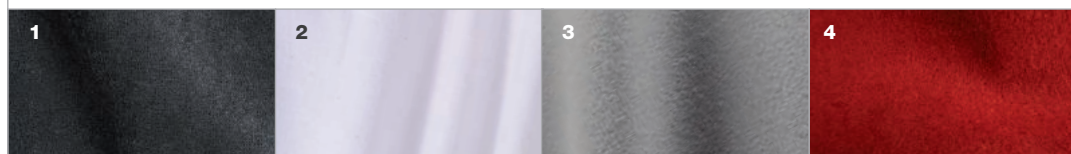

ROYAL VELVET	100 yds.	\$8.75/yd.	\$5.75/yd.
---------------------	-----------------	-------------------	-------------------

A lightweight, Inherently Flame Resistant velvet with a suede-like appearance, offered in standard colors. Ideal for backdrops, pipe and drape curtains, party and event decorating, panels and wall coverings and merchandising displays.

100% Polyester, IFR, 7.75 oz., 60" wide. Machine Wash. Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.

Stocked in: 1-Black, 2-White, 3-Silver, 4-Rouge. Additional colors available, 500 yards minimum. Call for price and delivery.

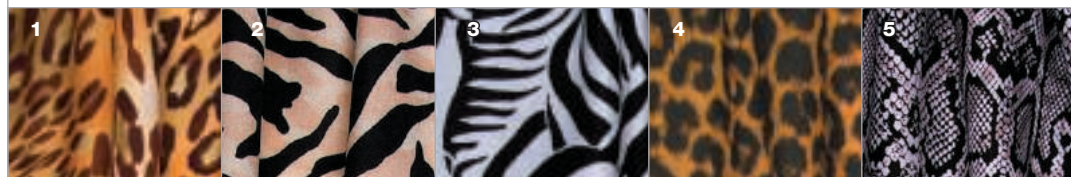

ANIMAL SKINS COLLECTION	100 yds.	N/A	\$7.95/yd.
--------------------------------	-----------------	------------	-------------------

Animal skins continue to be a popular trend and we've updated our patterns to make them more modern. We show these patterns printed on our Royal Velvet, but they can be printed on our NuVoile Plus or any of our 100% polyester fabrics. Fabulous accent for table coverings, overlays, swags and merchandising displays.

100% Polyester, IFR, 60" Wide. Machine Wash. Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.

Patterns as printed on Royal Velvet: 1-Lynx, 2-Siberian Tiger, 3-New Zebra, 4-New Leopard, 5-Snakeskin 100 yards minimum and allow 2 weeks lead-time. Patterns not shown at actual size. Call for fabric swatch prior to ordering.

VELOURS

Our Cotton Velours add visual elegance to any stage. They absorb light and sound because of their rich deep pile, thus making them the traditional fabrics for theatrical draperies.

	Approx. Piece Size	Price/Cut	Price/Piece
ALLURE	50 yds.	\$19.75/yd.	\$16.75/yd.

Deep pile, heavyweight velour. The most popular product for theatres and schools. European quality with outstanding masking properties and excellent drape.

100% Cotton, FR, 21 oz., 54" wide. Dry Clean Only. Fabric passes NFPA 701 Small Scale testing.

Stocked in Black.

Other colors available. 200 yards minimum. Call for pricing and delivery.

SYMPHONY	50 yds.	\$22.15/yd.	\$19.15/yd.
-----------------	----------------	--------------------	--------------------

Extra heavyweight velour with deep pile. Beautiful European quality that's used in professional theatres and major arenas. Outstanding masking properties.

100% Cotton, FR, 25 oz., 54" wide. Dry Clean Only.

Stocked in Black.

Other colors available. 200 yards minimum. Call for pricing and delivery.

MASKING, BLACKOUT & LINING

Dazian has developed a unique line of fabrics specifically designed to block out light in both indoor and outdoor settings. Durable and designed for long-term use, our FR fabrics are used extensively in TV, Motion Picture, Theatre, Event and Arena applications. Our cotton masking Duvetyne is available in sizes up to 118". If a

synthetic is preferred, our exclusive IFR Carbonight Plus, PD Cloth and Blackout Satin are used extensively. For lining purposes, many of our customers use our exclusive Janus and Celtic Cloth. We also fabricate all our masking fabrics into cost effective, high quality pipe pocket and pleated curtains, panels and skirting.

Light plays a leading role in stagecraft, and these Dazian fabrics shape it, direct it, and perfect it, beautifully. Opaque when lit from an angle, our essential, open-weave scrims become invisible when the lights are off, revealing the scene behind it. Add our Bobinette weave and other light-diffusing nettings to calibrate just the right light trans-

mission, reduce glare and devise intriguing visual effects. When more coverage is called for, especially outdoors, our coated and uncoated mesh fabrics offer a finer weave while permitting light, sound, and water to pass through. For all the elements of atmosphere, Dazian is your one-stop source.

GAUZE, LINEN & BURLAP

Photo Courtesy of Visual Elements, Nashville, TN.

Dazian's Gauze, Linen and Burlap fabrics are famous around the world. We offer the largest selection of weaves, textures and colors for lighting, staging, special events and visual merchandising. Designed to create textural and organic effects, this innovative line has unlimited applications for theater, television and film,

interior design, retail stores and corporate/social events. Our richly textured fabrics epitomizes the trend to natural fibers and fabrics but with the FR and care properties of polyester. Ideal for curtains, table coverings, canopies, swags and digitally printed panels and signage.

Gz GAUZE
Gauze

Coarse and fine weaves to allow “bleed through” and softening effects in lighting, staging and as natural covering materials for event decorating and visual merchandising.

	Approx. Piece Size	Price/Cut	Price/Piece
BURLO GAUZE	125 yds.	\$5.95/yd.	\$2.95/yd.

Medium weight, coarse open weave gauze. Allows “bleed though” and softening effects in lighting and staging.

100% Jute, 40” wide, CFP.

Stocked in Natural.

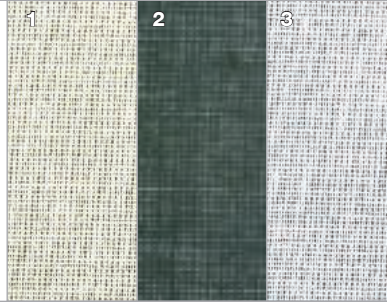

COTTON GAUZE - NATURAL SPECIAL ORDER	65 yds.	N/A	\$12.00/yd.
COTTON GAUZE - BLACK SPECIAL ORDER	65 yds.	N/A	\$13.80/yd.
COTTON GAUZE - WHITE SPECIAL ORDER	65 yds.	N/A	\$12.90/yd.

Fine, light weight cotton gauze in wide-width. Stable construction. Ideal for party and event decorating and interior and themed environments.

100% Cotton, 118” wide, FR. Dry Clean Only.

Available in: 1-Natural, 2-Black, 3-White

LINEN GAUZE	75 yds.	\$19.95/yd.	\$14.95/yd.
--------------------	----------------	--------------------	--------------------

Washable wide-width, semi-sheer textured gauze. Fine, but slightly coarse linen-like weave gauze. Designed for screens, curtains, swags, themed environments and printed banners and panels.

100% Polyester, IFR, 118” wide. (Open width). Spot Clean.

Fabric passes CAN/ULC S109-03, CSFM Title 19 and NFPA 701 Small Scale testing.

Stocked in: Bone, White.

Li LINEN
Linen

Linen-like fabric that reflects the trend of natural fibers but with the easy-care of polyester.

	Approx. Piece Size	Price/Cut	Price/Piece
POLY FLAX	50 yds.	\$18.25/yd.	\$13.25/yd.

A wide-width coarse weave fabric with the organic appearance of natural Flax, but reproduced in 100% Polyester. This construction is coarser and more opaque than traditional linen fabrics, but provides a more textured appearance. Acoustically transparent. Designed for curtains, table coverings, swagging, wall panels and fabric graphics.

100% Polyester, IFR, 118” wide. Machine Wash.

Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.

Available in: 1-White, 2-Parchment, 3-Wheat, 4-Khaki, 5-Chocolate.

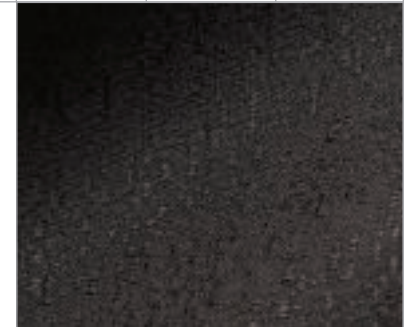

EXPO CLOTH	90 yds.	\$8.75/yd.	\$6.75/yd.
-------------------	----------------	-------------------	-------------------

Slub-weave fabric designed to replace “Bango” cloth used in convention halls and movie theatres. More sophisticated matte appearance that looks and feels more desirable. Ideal for pipe and drape curtains and skirting. Designed for extended use.

100% Polyester, IFR, 72” wide. Machine Wash. Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.

Stocked in Black.

Created from jute, our Burlaps are coarsely woven with a large weave pattern. Offered in natural colorings and bright colors, these are ideal for party and event decorating, scenery and set decorating, wall coverings, panels and visual merchandising.

	Approx. Piece Size	Price/Cut	Price/Piece
FINISHED BURLAP - COLORS	50 yds.	N/A	\$6.70/yd.

Heavyweight refined burlap. Ideal for party and event decorating, panels and wall coverings and merchandising display.

100% Jute, 59" wide, CFP. Spot Clean.

Available in: 1-Black, 2-Corn, 3-Christmas Green, 4-Green Flash, 5-Hot Pink, 6-Hunter Green, 7-Lemon Yellow, 8-Lipstick Red, 9-Moss Green, 10-Royal Blue, 11-Tangerine, 12-Terracotta, 13-Turquoise, 14-Violet, 15-White, 16-Wine.

	Approx. Piece Size	Price/Cut	Price/Piece
FINISHED BURLAP	50 yds.	\$9.60/yd.	\$6.60/yd.
Heavyweight refined burlap. Ideal for party and event decorating, panels, wall coverings and merchandising display. 100% Jute, 59" wide, CFP. Spot Clean. Available in 1- Natural, 2-Light Natural			
RAW BURLAP	50 yds.	\$6.70/yd.	\$3.70/yd.
Traditional heavyweight Burlap construction. Used for scenery and set dressing, party and event decorating, panels and wall coverings and merchandising display. 100% Jute, 54" wide, CFP. Spot Clean. Stocked in: 1-Natural, 2-Light Natural.			
AEROS CLOTH	75 yds.	\$6.00/yd.	\$3.00/yd.
Heavyweight coarse open weave erosion cloth for staging and natural covering materials. 100% Jute, 48" wide, CFP. Dry Clean Only. Stocked in Natural.

Nothing pours on the glamour like Dazian's spectacular array of luminescent fabrics. No wonder we've reigned as the "King of Glitz" for over 165 years. Invoking precious metals, shimmering in gemstone shades, these fabrics deliver the opulence demanded by top designers in the entertainment and event industries. From subtly translucent to

highly reflective, mirror smooth or highly textured, they've got the drape, color and quality it takes to create extraordinary visual effects. Combine with our LED lighting, and this illustrious cast of fabrics produces environments of pulse-pounding drama. If luxury is the look you're after, Dazian makes your design shine.

Me METALLICS

Metallics

Everybody looks to Dazian for creating those one-of-a-kind innovative fabrics that have become our trademark. Our Metallic fabrics combined with high-tech lighting create an environment of excitement and spectacular effects.

	Approx. Piece Size	Price/Cut	Price/Piece
ALCHEMY	55 yds.	\$12.95/yd.	\$9.95/yd.

A very special double-sided blackout fabric with a metallic luster on the face and back and a very soft drape. Designed to be viewed from both sides as a space dividing curtain or as a luxurious Austrian or Tableau curtain. 100% Polyester, 60" wide, IFR. Dry Clean Only. Fabric passes NFPA 701 Small Scale and CSFM Title 19 testing. Stocked in: 1-Champagne Gold, 2-Gold, 3-Silver.

	Approx. Piece Size	Price/Cut	Price/Piece
INFINITY METALLIC	25-30 yds.	\$22.95/yd.	\$17.95/yd.

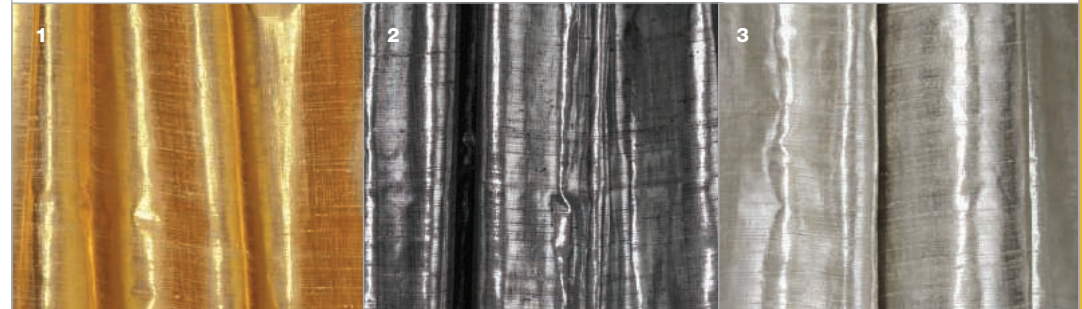

An incredibly unique fabric made by twisting dyed and metallic threads and crocheting them into a random open pattern without a beginning or an end. The fabric gives the appearance of a luminescent web. Ideal for curtains, panels, space dividers, swags, ceiling swags and overlays. 98% Polyester/2%Lurex®, 112" wide, FR. Dry Clean Only. Fabric passes NFPA 701 Small Scale testing. Stocked in: 1-Black/Silver, 2-Silver/Silver.

	Approx. Piece Size	Price/Cut	Price/Piece
JEWEL DUPIONI	30-40 yds.	\$23.85/yd.	\$20.85/yd.

Raw silk and Lurex® hand-woven in a Dupioni construction creates a shimmering, reflective metallic effect with a sophisticated texture and drape. A very luxurious and unique fabric made from irregular rough silk with a nubby texture. Designed for curtains and swags to dress up that very special event. Theatrical lighting brings out the unique textural effects and color shading of the fabric.

65% Silk/35% Lurex®, 54" wide, FR. Dry Clean Only. Fabric passes NFPA 701 Small Scale testing. Stocked in: 1-Gold, 2-Pewter, 3-Silver.

	Approx. Piece Size	Price/Cut	Price/Piece
JEWEL DUPIONI CRUSHED	30-35 yds.	\$27.95/yd.	\$24.95/yd.

Crushed Jewel Dupioni creates an extremely reflective fabric that captures light and color in amazing unexpected ways. The beautiful luster and texture of raw Silk and Lurex of our Jewel Dupioni, gets double crushed to give terrific dimension and light reflection. Use as a backdrop, draped or swagged, this fabric creates a big effect. LED lights provide a kaleidoscope of color and form to this fabric.

65% Silk /35% Lurex®, FR, 46" Wide. Dry Clean Only Available in Pewter (Shown), Gold and Silver. Fabric passes NFPA 701 Small Scale testing.

Based on fabric availability, minimum 200 yards. Other colors available, 200 yards minimum.

	Approx. Piece Size	Price/Cut	Price/Piece
METAL BOUCLE II	50 yds.	\$19.95/yd.	\$16.95/yd.

Tightly woven with grains of metallic sand, producing a shimmer effect. 68% Rayon/22% Metallic/10% Nylon, 46" wide, CFP. Dry Clean Only. Stocked in Silver. Special Order: Gold, 500 yds. minimum.

	Approx. Piece Size	Price/Cut	Price/Piece
NUGGET CLOTH LITE	50 yds.	\$11.65/yd.	\$8.65/yd.
<p>A lightweight foil-like reflective metallic fabric with a slightly matte luster. Use when flame proofing is not necessary.</p> <p>99% Nylon/1% Metallic, 44" wide, CNFP. Spot/Wipe Clean.</p> <p>Stocked in: 1-Gold and 2-Silver.</p>			
STILETTO	50 yds.	\$12.75/yd.	\$9.75/yd.
<p>The hot fashion trend of form fitting leather apparel and stiletto patent leather heels is a trademark of today's mod culture. Dazian re-interprets this timeless style by creating a faux patent leather stretch fabric designed to be used in contemporary life style applications. Use as flowing, shimmering curtains or fabric structures and curved panels. Stiletto is the new fabric for cutting edge design.</p> <p>72% Polyester/28% Polyurethane, 54" Wide, FR. Spot Clean. Passes NFPA 701 Small Scale and CSFM Title 19 testing.</p> <p>Stocked in: 1-White, 2-Black, 3-Silver.</p>			
TISSUE LAHM	100 yds.	\$6.70/yd.	\$3.70/yd.
<p>Lightweight version of French Lame.</p> <p>60% Metallic/40% Nylon, CNFP, 44" wide. Dry Clean Only.</p> <p>Stocked in: 1-Gold, 2-Silver. Other colors available, special order.</p>

GLASS TAFFETA	100 yds.	\$13.95/yd.	\$10.95/yd.

An innovative update to traditional iridescent taffeta. Dazian has engineered a unique fabric from a clear shiny fiber to give a bright mirror finish resulting in a glass-like appearance. When lit, it creates a real "wow" effect. Designed for use in theatrical and event drapery, as well as for use in interior hospitality venues.

100% Polyester, 58"- 60" Wide, IFR, Machine Wash. Fabric passes NFPA 701 Small Scale testing.

Stocked in: 1-Fuchsia/Black, 2-Sapphire/Black, 3-Copper/Black, 4-Peridot/Black, 5-Pewter/Black, 6-Turquoise/Black.

GLASS TAFFETA, BROOMSTICK **Approx. Piece Size: 50 yds.** **Piece Price: \$15.95/yd.**

A vertical pleat runs the length of our unique Glass Taffeta fabric to create dimension and reflective properties for this look. Ideal for draperies and backdrops. Available on all in stock Glass Taffeta colors.

100% Polyester, 44"wide, IFR, Washable.

50 yards minimum order. Allow 2 weeks for delivery.

Fabric passes NFPA 701 Small Scale testing.

GLASS TAFFETA, ORIGAMI **Approx. Piece Size: 50 yds.** **Piece Price: \$16.25/yd.**

An abstract cubist pleat on our unique Glass Taffeta fabric that creates dimension and reflective properties for an origami look. Available on all in stock Glass Taffeta colors.

100% Polyester, 53"-54"wide, IFR, Washable.

50 yards minimum order. Allow 2 weeks for delivery.

Fabric passes NFPA 701 Small Scale testing.

APPLIQUE SHEERS	Approx. Piece Size	Price/Cut	Price/Piece
1. JAGGED EDGE (BLACK/GREY/SILVER)	30-40 yds.	\$26.95/yd.	\$21.95/yd.
2. RIVER ROCKS (BLACK, WHITE)	30-40 yds.	\$32.95/yd.	\$27.95/yd.

Dazian continues to create fabrics with unique designs that create 3-dimensional effects. Our Applique Sheers are 3-dimensional patterns that are woven into sheer fabrics. When lit, the sheer fabric in the background dissolves and the viewer sees only the pattern. Fabrics can be front lit and look spectacular with gels and gobos. Applications include curtains, flat panels, ceiling covers and canopies.

100% Polyester, IFR, 118" Wide, Machine Wash.
Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.

Patterns: 1-Jagged Edge (Black/Grey/Silver), 2-River Rocks (Ivory/Ivory), 3-River Rocks (Black/Silver).
Other colors available 500 yds. minimum.

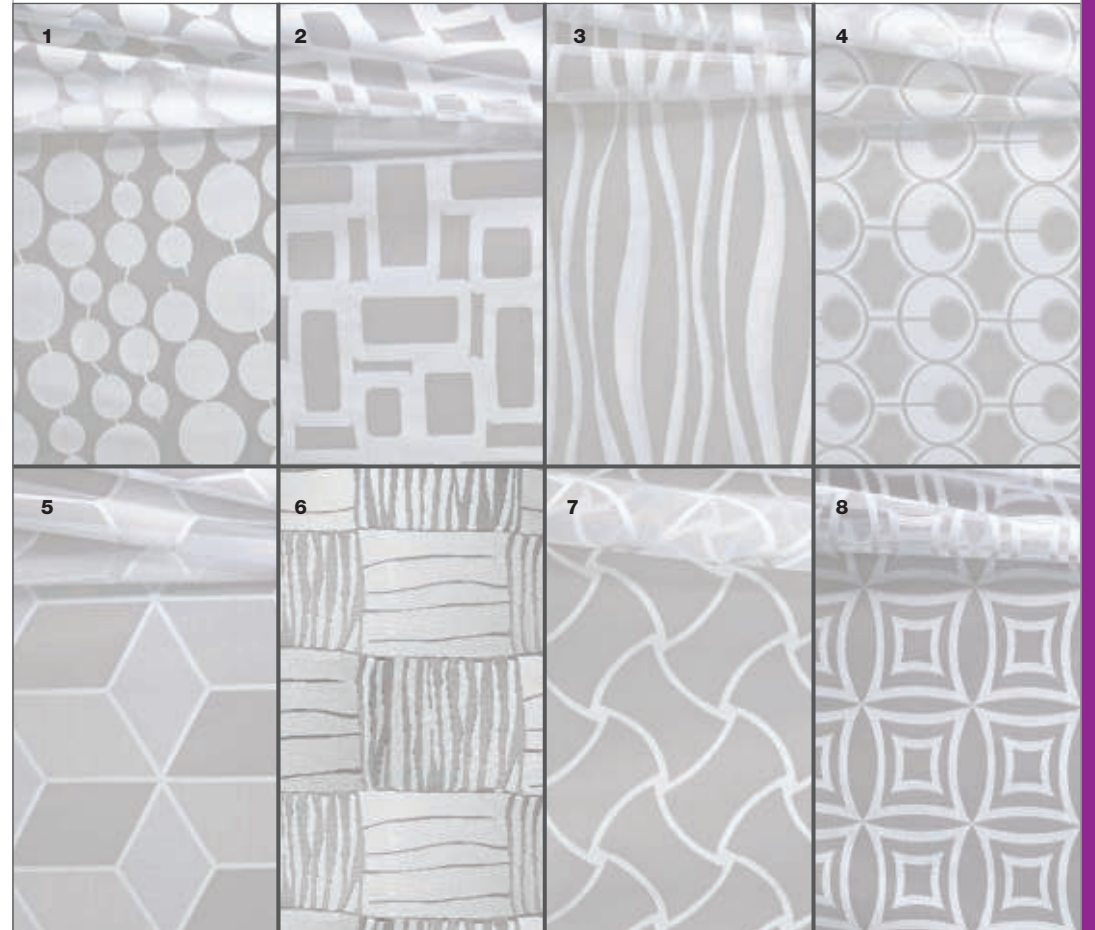

BURN-OUT KNITS	Approx. Piece Size	Price/Cut	Price/Piece
	30-75 yds.	\$24.95/yd.	\$19.95/yd.

Exciting burn-out effects are created in a wide-width fabric that has just the right amount of stretch to be used on frames or tension structure. Fabulous see-through effect allows the pattern to appear in total suspension from the sheer mesh ground. The use of front and rear lighting creates a scrim effect highlighting either the pattern and the reflective shadows or through to the background. Applications include overlays, tent & ceiling liners, space dividers, exhibit booth walls and 3-D structures.

100% Polyester, 112" Wide, IFR, Machine Wash.
Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.

Patterns: 1-Bubbles, 2-Cobblestone, 3-Grasses, 4-Happy Hour, 5-Cubist, 6-Parquet, 7-Ribbons, 8-Squares.
Color: White. Other colors available 500 yd. minimums.

Di DIMENSIONALS

Dimension

	Approx. Piece Size	Price/Cut	Price/Piece
CHIFFON RIBBON SWIRLS	30-40 yds.	\$15.95/yd.	\$12.95/yd.

Undulating 3-dimensional swirls of chiffon ribbon on a translucent chiffon ground, reminiscent of Van Gogh's Starry Night. When backlit, fabric dissolves into an incredible organic design. Perfect as backdrops, panels or overlays. Designed for creative event curtains, retail display or as a dynamic scenic backdrop.

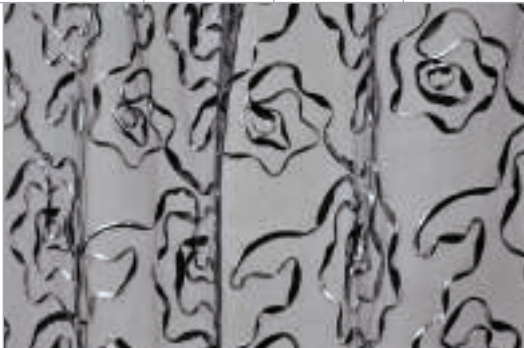

100% Polyester, FR, 52" Wide. Spot Clean.
Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.
Stocked in: 1-Black, 2-White.

	40 yds.	\$14.95/yd.	\$11.95/yd.
METALLIC RIBBON CURLIQUES			

Free-form metallic ribbon floating on an ultra-fine netting, creating a 3-dimensional, shimmering effect suspended in space. A real visual knockout for panels, temporary walls, space dividers and overlays. Should be front lit with LED's or theatrical lighting to dissolve the background.

98% Polyester/2% Mylar, FR, 52" Wide. Spot Clean.
Spot Clean. Fabric passes CSFM Title 19 and NFPA 701 Small Scale testing.
Stocked in Black/Silver.

	40 yds.	\$14.50/yd.	\$11.50/yd.
METALLIC RIBBON SPIRALS			

Concentric metallic spirals of ribbon on a stretch netting, creating a marvelous 3-dimensional effect. (Back with Silver Alchemy for an amazing reflective look.) Makes a wonderful backdrop, curtain, wall structure and accessorizing piece. Front light with LED's or theatrical lighting.

Stocked in: 1-Silver, 2-Gold.

TENSION FABRICS

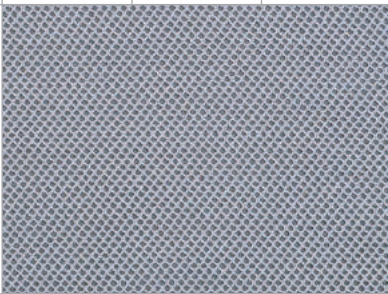

Frosted Pink Edge Marketing. Jim Gloster

Stretch your imagination! Dazian brings avante garde ideas to life with unique tension fabrics that have made us a favorite among designers in the special event, architectural and brand marketing worlds. We created the industry standard for washable IFR stretch spandex fabrics, and continue to innovate and inspire with products like the Trapeze® Plus Collection. A huge palette of exhilarating color and excellent stretch attributes make it perfect for creating ingenious walls, entryways, tents, structures and shapes.

Add front and rear lighting and projection for astounding visual chemistry. For tension structures requiring less stretch, our expanded line of Celtic Cloth is the solution. Available in a variety of weights and constructions, it's suitable for graphics, blackout, and backlit applications. Create dimension and see-through effects with one of our stretch meshes, and expand the impact exponentially.

HARKNESS SCREENS

Harkness Screens, the world's leading manufacturer of front and rear projection screen surfaces for live events (such as concerts, theatre productions, art exhibitions, theme park rides and TV studios) has joined with Dazian as sole distribution partner for its US event screen business. Combining over 240 years of experience and expertise, we're now able to offer the best projection screen surfaces to the events industry, enhancing our product offering and providing a significant benefit to our customers.

	Price/Cut
STAGELITE MATTE WHITE 100	\$2.08/sq. ft. or \$41.00/linear yd. (at 79" Wide)
<p>Stagelite Matte White 100 event screens are flexible PVC front projection surfaces available as made up screens or off the roll. Ideal for live events, exhibition, conference and theme park attraction screens. 100% PVC, 79" wide, IFR. Spot Clean. Meets NFPA 701 Small Scale and CSFM Title 19 testing. Please call your Dazian Sales Representative for shipping charges.</p>	
TRANSLITE WHITE	\$2.08/sq. ft. or \$41.00/linear yd. (at 79" Wide)
<p>Translite White is a flexible projection surface designed for mixed front and rear projection. It has built-in diffusion to overcome hot spotting and gives a wide viewing angle under both front and rear projection conditions. Translite White can be used for combined front and rear projection. It has an excellent color rendition and contrast. It has a lower transmittance and is useful when front projection is more important than rear projection performance. Ideal for events, 4D theme ride, cinema, film production and conference room screens. 100% PVC, 79" wide, IFR. Spot Clean. Meets NFPA 701 Small Scale and CSFM Title 19 testing. Please call your Dazian Sales Representative for shipping charges.</p>	
TRANSLITE GREY 65	\$2.08/sq. ft. or \$41.00/linear yd. (at 79" Wide)
<p>Translite Grey 65 is a flexible rear projection surface. It has built-in diffusion to overcome hot spotting and gives a wide viewing angle. Translite Grey 65 has excellent color rendition and contrast. Ideal for live theatre, event, TV studio, exhibition, conference and theme park attraction screens. 100% PVC, 79" wide, IFR. Spot Clean. Meets NFPA 701 Small Scale and CSFM Title 19 testing. Please call your Dazian Sales Representative for shipping charges.</p>	

IMAGENE PRODUCTS			
Specialty, wide-width coated technical fabrics for lighting, masking, projection and graphic applications. Designed for the professional demands of scenic, lighting and A/V designers to meet the technical and aesthetic demands of today's most sophisticated production requirements.			
	Approx. Piece Size	Price/Cut	Price/Piece
IMAGENE BACKLIT	50 yds.	\$25.75/yd.	\$20.75/yd.
Lightweight coated Polyester fabric for diffusing. Designed for rear projection and backlit, direct printing applications. Very soft and supple with some stretch. 100% Polyester with acrylic coating, 126" wide, IFR. Spot Clean. Fabrics pass CSFM Title 19, NFPA 701 Small Scale and M1 testing. Stocked in White.			
IMAGENE BLACKOUT	50 yds.	\$27.95/yd.	\$22.95/yd.
Feather weight blackout material that is water repellant and can be used on both sides, one coated matte black, the other woven black. Very easy to use and store with excellent drapeability. Ideal for a wide range of masking applications and as a lining. 100% Polyester with an acrylic coating. 120" wide, IFR. Spot Clean. Fabrics pass CSFM Title 19, NFPA 701 Small Scale and M1 testing. Stocked in Black.			
IMAGENE WHITEOUT	50 yds.	\$34.50/yd.	\$29.50/yd.
A white double-sided fabric. One side is non-reflective flocked; the other is coated for transfer printing. The fabric is very dense, creating almost no light shadowing, yet very supple. Can be used as blackout drapery or panels, white masking, blackout graphics and other decorative options requiring white fabric with some stretch. 100% Polyester with an Acrylic coating. 122' wide, IFR. Spot Clean. Passes NFPA 701 Small Scale, CSFM Title 19 and M1 testing. Stocked in White.			
IMAGENE DUET	50 yds.	\$32.25/yd.	\$27.25/yd.
A true double-sided blackout fabric with a black side for masking and scenic uses and a white side to reflect light and serve as a projection screen. This product has excellent light reflection coefficient on both the black and white sides, along with thermal insulation and soundproofing properties. 100% Polyester with an Acrylic coating. 122' wide, IFR. Spot Clean. Passes NFPA 701 Small Scale, CSFM Title 19 and M1 testing. Stocked in White/Black.			

	Approx. Piece Size	Price/Cut	Price/Piece
CELTIC CLOTH	100 yds.	\$14.90/yd.	\$9.90/yd.
The industry standard for tension structures, printed banners, contemporary trade show booths and projection screens. This flat weave fabric with slight stretch is an ideal all-around workhorse fabric. 100% Polyester, 122" wide, IFR. Machine Wash. Fabric passes ASTM E84, CAN/ULC S109-03, CSFM Title 19, NFPA 701 Small Scale and NYC 44 testing. Stocked in: 1-Black, 2-White, 3-Optic White.	1	2	3
3D CELTIC CLOTH	75 yds.	\$20.95/yd.	\$15.95/yd.
Our 3-D Celtic Cloth is a revolutionary 3-layered version of our industry standard, Celtic Cloth. The first layer is identical to its standard, with a tight, clean face. The second layer is a diffuser which provides light blocking properties. The third layer is sueded to afford an overall uniformity and density for illumination in single ply applications, and light and sound blocking in double ply applications. All three layers have been constructed to provide the same stretch properties as our Celtic Cloth. This innovative fabric is ideal for backlit applications, single ply, and for tension structures. It effectively eliminates the need for a third layer of a blackout liner. 100% Polyester, 120" wide, IFR. Machine Wash. Fabric passes CAN/ULC S109-03, CSFM Title 19 and NFPA 701 Small Scale testing. Stocked in White.			
CELTIC CLOTH - HEAVYWEIGHT	100 yds.	\$19.95/yd.	\$14.95/yd.
This is a heavyweight version of our very popular Celtic Cloth. It provides a flat weave and moderate stretch. It's ideal for projection screens. 100% Polyester, 122" wide, IFR. Machine Wash. Fabric passes CAN/ULC S109-03, CSFM Title 19 and NFPA 701 Small Scale testing. Stocked in White.			
GALATAE	70 yds.	\$17.95/yd.	\$12.95/yd.
Galatae is the next generation of Celtic Cloth. It was developed based upon customer requests for a denser and heavier product with some stretch to provide more opacity for their multi-purpose applications. Galatae's tightly knit construction provides a remarkably clean face with stellar opacity. It has the similar stretch properties of traditional Celtic Cloth. Whether it's used for light blocking applications in double-walled tension structures, backlit graphics, exhibit booths, scenic applications, or keying screens, Galatae raises the bar on new applications for Celtic Cloth. 100% Polyester, 120" wide, IFR. Machine Wash. Fabric passes CAN/ULC S109-03, CSFM Title 19 and NFP 701 Small Scale testing. Stocked in White.

Dazian offers a wide range of fabrics for Keying. Our innovative fabrics for keying process and traveling matte extraction are tested and matched for outstanding color response and minimal contamination.

	Approx. Piece Size	Price/Cut	Price/Piece	
KEYING PRO	65 yds.	\$13.15/yd.	\$10.15/yd.	
A dense, synthetic brushed flat pile IFR velvet having a matte appearance. Very durable and designed for long-term use. Fabric passes NFPA 701 Small Scale and CSFM Title 19 testing. 100% Polyester, 16 oz., IFR, 62" wide. Machine Wash. Stocked in 1-CK Blue, 2-CK Green, 3-DP Blue, 4-DP Green.	1	2	3	4
GALATAE	70 yds.	\$18.95/yd.	\$13.95/yd.	
The next generation of Celtic Cloth developed based on our customers' requests for a denser and heavier product with some stretch. Galatae is made from a unique tightly knit construction that provides a remarkably clean face with both terrific opacity and similar stretch properties. Fabric passes NFPA 701 Small Scale, CAN/ULC S109-03 and CSFM Title 19 testing. 100% Polyester, IFR, 120" wide. Machine Wash. Stocked in CK Blue, CK Green.				
JANUS	60 yds.	\$9.95/yd.	\$6.95/yd.	
11 oz. poplin construction ideal for keying screens. Fabric passes NFPA 701 Small Scale, ASTM E 84, CAN/ULC S109-03 testing. 100% Polyester, IFR, 72" wide. Machine Wash. Stocked in CK Blue, CK Green.				
POLY SPUN	75 yds.	\$15.95/yd.	\$10.95/yd.	
The next generation of polyester muslin engineered for superior drape and FR properties. The softer cotton-like hand is achieved by adding spun yarns into the construction, resulting in improved, anti-wrinkling properties. Ideal for drops and keying screens. 100% IFR Polyester, 124" wide. Machine Wash. Fabric passes CAN/ULC S109-03, NFPA 701 Small Scale and CSFM Title 19 testing. Stocked in: 1-CK Blue, 2-DP Blue, 3-CK Green.	1	2	3

FOSSHAPE®

Often called the “Buckram replacement”, this unique substrate is heat activated to achieve rigidity, stiffness and surface enhancement without the use of water or messy adhesives. FOSSHAPE™ can be cut with scissors, will not fray like conventional woven fabrics and can be sewn to itself or other fabrics as a hidden stiffener or support for costuming. Fabric/costume steamers are the preferred method for forming the desired amount of rigidity and stiffness, but an industrial hot air gun may be used. Applications include: costuming, lightweight props, theatre and set design work, scenic craftwork, puppetry, millinery headpieces and masks.

	Thickness	Size	Price 1-9 yds.	Price 10-49 yds.	Price 50+ yds.
White Fosshape® 300	.150”	45”	\$13.25/yd.	\$11.25/yd.	\$8.25/yd.
White Fosshape® 600	.180”	45”	\$26.00/yd.	\$22.00/yd.	\$18.00/yd.

WONDERFLEX™

Often referred to as the “Celastic replacement”, WONDERFLEX™ is a heat activated formable composite that contains its own adhesive and can be readily shaped and molded without the use of messy or hazardous solvents. An industrial hot air gun is most often preferred to activate WONDERFLEX™. With heat and pressure WONDERFLEX™ will easily bond to itself and to many other materials such as leather, wood and fabric. Ideal for repairs. Applications include: masks, long-lasting sturdy props, animatronics, modeling and prototypes, theatre and set design work, 3-D displays and one-of-a-kind creations for Special Events.

	Size	Price 1-5 Sheets	Price 6-9 Sheets	Price 10+ Sheets
WONDERFLEX™ Super White	43” x 55”	\$43.95/sheet	\$40.95/sheet	\$34.95/sheet

COATED FABRIC

	Approx. Piece Size	Price/Cut	Price/Piece
RIPSTOP 1/2	100 yds.	\$10.50/yd.	\$7.50/yd.
<p>Medium coated Ripstop, providing more translucency. Half stop diffusion. 100% Nylon, 65" wide, NFR. Machine Wash. Stocked in White.</p>			
RIPSTOP	100 yds.	\$9.50/yd.	\$6.50/yd.
<p>Heavy coated parachute cloth. Ideal for backdrops, banners and screens. 100% Nylon, 60" wide, IFR. Machine Wash. Fabric passes CSFM Title 19 testing. Stocked in: 1-Black, 2-White. Other colors available.</p>			
			
COATED RIPSTOP	100 yds.	\$11.50/yd.	\$8.50/yd.
<p>Black Ripstop with White Urethane coating to block out all light from penetrating and to bounce back. 100% Nylon/Urethane Coating, 59" wide, FR. Spot Clean. Stocked in: White/Black.</p>			

	Approx. Piece Size	Price/Cut	Price/Piece
BANNER CLOTH SPECIAL ORDER	100 yds.	\$11.20/yd.	\$8.20/yd.
<p>Special Order: 15 yards minimum. Bright, semi-opaque and firm. Heavy coated taffeta fabric to be used outdoors. 100% Nylon, 60" wide, FR. Machine Wash. Fabric passes NFPA 701 Small Scale testing. Available in: 1-Canada Red, 2- Royal, 3-Aqua, 4-White, 5-Spanish Yellow, 6-Silver, 7-Emerald, 8-Charcoal, 9-Orange, 10-Black, 11-Turquoise. Other colors available.</p>			
			

	Approx. Piece Size	Price/Cut	Price/Piece
MELTING POINT KNIT™ WHITE	100 yds.	\$29.95/yd.	\$24.95/yd.
MELTING POINT KNIT™ BLACK	100 yds.	\$34.95/yd.	\$29.95/yd.

Dazian's domestic version of Smoke-Out® ceiling fabric made from Trevira CS®. Melting Point Knit™ is the same construction as Smoke-Out® with melting lines every 12" allowing air and smoke to activate sprinkler systems in case of fire. The 102" width with melting lines 2" from each selvedge is also designed for 8 ft. wide frames. Available in colors at 1700 yard minimums. Passes NFPA 701 Small Scale, CSMF Title 19 and CAN/ULC 5109-03 testing.

100% Trevira CS®, 102" wide, IFR. Machine Wash.

Stocked in: White, Black.

MELTING POINT MESH™	55 yds.	\$20.95/yd.	\$15.95/yd.
----------------------------	----------------	--------------------	--------------------

Engineered mesh construction with melting lines every 12" that allows air and smoke to activate sprinkler system in case of fire. The 100" width with melting lines 2" from each selvedge is also designed for 8 ft. wide frames.

100% IFR Polyester, 100" wide. Machine Wash.

Fabric passes NFPA 701 Small Scale, ASTM E84 and CSFM Title 19 testing.

Stocked in: White.

HONEYCOMB STRETCH NET	50 yds.	\$18.95/yd.	\$13.95/yd.
------------------------------	----------------	--------------------	--------------------

Large holed (1/4") net in a honeycomb pattern. Ideal for ceilings and soft walls.

100% Polyester, 120" wide, IFR. Machine Wash.

Fabric passes NFPA 701 Small Scale and CSFM Title 19 testing.

Stocked in White.

	Approx. Piece Size	Price/Piece
SAFETY NET™ - 3D CEILING FABRIC - WHITE	60-70 yds.	\$36.95/yd.
SAFETY NET™ - 3D CEILING FABRIC - BLACK	60-70 yds.	\$42.95/yd.

Dazian has been the industry leader in the development of ceiling fabrics for the Exhibit Industry with its Smoke Out®, Melting Point Knit™ and Melting Point Mesh heat separating fabrics.

Dazian has worked for 2 years in developing a new technology to make a fabric that both satisfies the public safety needs and meets the aesthetic demands of the exhibitor.

Safety Net™ is a unique ceiling fabric engineered to meet the standards of fire protection in public venues by providing continuous water flow from ceiling sprinkler systems to the floor in the event of a fire. The fabric has been designed with a 1/4" hole, creating an opening of approximately 65%, in a 3D construction.

This new technology creates a diagonal channel appearance, which from a 45 degree viewing angle from the floor gives the appearance of a solid ceiling cover while allowing both fire protection and interior environmental systems to function as designed.

A water repellent coating has been applied to Safety Net™ to assist in water transport from the sprinkler system through the hole openings, for the purpose of minimizing water absorption by the fabric fibers. This unique design results in minimizing excessive weight load on the fabric and framing structure. Safety Net™ can be printed. Custom colors available – 500 yards minimum.

100% Polyester, 110" Wide, IFR. Machine Wash.

This fabric passes NFPA 701 Small Scale, ASTM E84, CSFM Title 19, and CAN/ULC-S109.

Stocked in: White, Black.

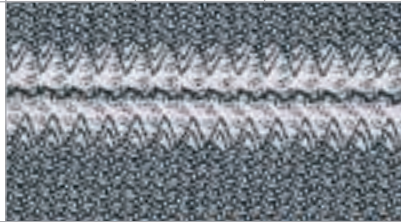

Ce CEILING FABRICS

Ceiling

	Approx. Piece Size	Price/Cut	Price/Piece
SMOKE-OUT® WHITE SPECIAL ORDER	55 yds.	\$39.95/yd.	\$34.95/yd.
SMOKE-OUT® TRUE BLACK SPECIAL ORDER	55 yds.	\$43.00/yd.	\$38.00/yd.

A unique ceiling fabric with heat sensitive seams every 12 inches that melt and separate, allowing water from sprinklers to pass through to extinguish flames.

100% Trevira CS® Polyester, 110" wide, IFR.
Fabric passes NFPA 701 Small Scale testing.

HOW IT WORKS:

When a fire starts, the fusible lines melt and drop, ceiling opens directly over the heat source.

The openings of the fabric enable the smoke to dissipate and the automatic sprinklers will activate.

The openings in the hung ceiling allow water from the sprinklers system to fall on the fire. Smoke-Out® is water permeable and will allow water to pass through it.

Im IMAGENE PRODUCTS

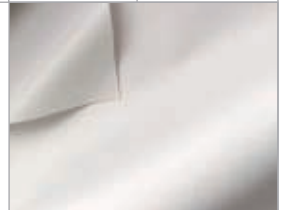

Imagene

Specialty, wide-width coated technical fabrics for lighting, masking, projection and graphic applications. Designed for the professional demands of scenic, lighting and AV designers to meet the technical and aesthetic demands of today's most sophisticated production requirements.

	Approx. Piece Size	Price/Cut	Price/Piece
IMAGENE BACKLIT	50 yds.	\$25.75/yd.	\$20.75/yd.

Lightweight coated Polyester fabric for diffusing. Designed for rear projection and backlit, direct printing applications. Very soft and supple with some stretch.

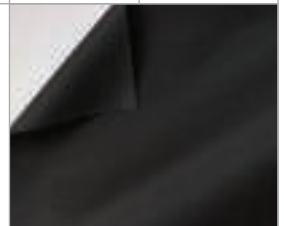

Passes NFPA 701 Small Scale, CSFM Title 19 and M1 testing.
100% Polyester with acrylic coating. 126" wide, IFR. Spot Clean.

IMAGENE BLACKOUT	50 yds.	\$27.95/yd.	\$22.95/yd.
-------------------------	----------------	--------------------	--------------------

Feather weight blackout material that is water repellent and can be used on both sides, one coated matte black, the other woven black. Very easy to use and store with excellent drapeability. Ideal for a wide range of masking applications and as a lining.

Passes NFPA 701 Small Scale, CSFM Title 19 and M1 testing.
100% Polyester with an acrylic coating. 120" wide, IFR. Spot Clean.
Stocked in Black.

IMAGENE WHITEOUT	50 yds.	\$34.50/yd.	\$29.50/yd.
-------------------------	----------------	--------------------	--------------------

A white double-sided fabric. One side is non-reflective flocked, the other is coated for transfer printing. The fabric is very dense, creating almost no light shadowing, yet very supple. Can be used as blackout drapery or panels, white masking, blackout graphics and other decorative options requiring white fabric with some stretch.

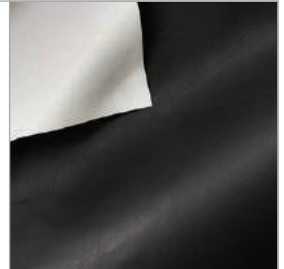

Passes NFPA 701 Small Scale, CSFM Title 19 and M1 testing.
100% Polyester with an acrylic coating. 122" wide, IFR. Spot Clean.
Stocked in White.

IMAGENE DUET	50 yds.	\$32.25/yd.	\$27.25/yd.
---------------------	----------------	--------------------	--------------------

A true double-sided blackout fabric with a black side for masking and scenic uses and a white side to reflect light and serve as a projection screen. This product has excellent light reflection coefficient on both the black and white sides, along with thermal insulation and soundproofing properties.

Passes NFPA 701 Small Scale, CSFM Title 19 and M1 testing.
100% Polyester with an acrylic coating. 122" wide, IFR. Spot Clean.
Stocked in Black/White.

FABRICS FOR DIGITAL PRINTING

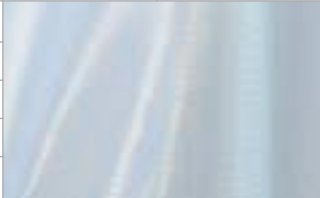

As a pioneering force in the development of fabrics for digital printing, Dazian offers the most extensive selection of wide-width FR fabrics for grand format Dye Sublimation printing in the industry. In addition, we also have a wide range of coated and non-coated fabrics for Solvent, UV, Aqueous, and Latex Direct Digital printing. We have taken great care to develop fabrics that meet manufacturer's machinery

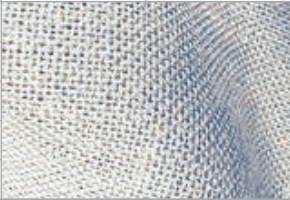

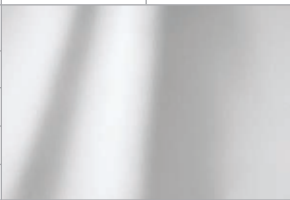

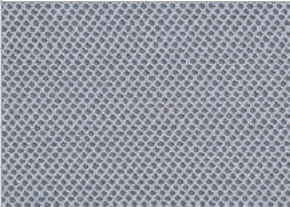

requirements and offer our customers the best selection of wide-width FR fabrics for all their printing needs. Need a graphic finished into a custom design? Our custom sewing departments on both coasts expertly finishes each custom printed piece. You can now add LED and Fiber Optic lighting to accent and provide extra sparkle to your graphics.

Fr FLAME RETARDANT

FR Policies

THE DAZIAN FR POLICY

Dazian has been the pioneer for over 50 years in the development of specialty FR fabrics for the Entertainment, Event, Exhibit and Hospitality Industries. All Dazian fabrics meet the NFPA 701 Small Scale, NFPA 705 Field test and CSFM Title 19 test standards, as well as being approved by both the CA and NY Fire Marshals. We believe that this is only a minimum standard that everyone must comply with. Dazian knows what it takes, in the laboratory and on location therefore, we develop and test our products to more rigorous test procedures and engineer all our new fabrics for maximum Flame Retardant performance.

Dazian sets the standard in the industry for high performance FR products that will meet local ordinances and provide superior protection at your venues.

FLAME RETARDANT STANDARDS

Fire prevention in public spaces has received increased attention in recent years. As a result, the Flame Retardant or Flame Resistant properties of fabric has become an integral part of the design and manufacturing decision-making process. **Dazian's fabrics are, unless otherwise specified, Flame Resistant and meet the standards set forth by NFPA 701 Small Scale, NFPA 705 Field Test and CA Title 19 test, the Industry Standards for Flame Resistant Fabrics.** They are treated with Flame Retardant chemicals either in fiber form, at the mill, or afterwards at a Flameproofers.

Many conditions affect the flame resistance of a fabric: how the fabric is used; what other fabric or non-fabric components are added to the base fabric; environmental conditions such as sunlight, dust, humidity, etc., length of time in service, sewing, printing, painting or any other added processing steps. It's the customer's responsibility to verify that the completed design passes the appropriate Federal, State and Local Fire Codes. Dazian can assist you with our experience and knowledge, but cannot assume responsibility how our customers use and maintain their finished product.

**CARE INSTRUCTIONS**

1. Dry Clean Only - Professional Dry Cleaner Only. Recheck for flame retardancy.
2. Hand Wash - Wash darks separately. Do not bleach. Cold water setting using mild detergent. Dry flat. Use warm iron if necessary.
3. Machine Wash - Wash darks separately. Do not bleach. Cold water setting using a commercial home laundry detergent. Tumble dry on synthetic setting and remove immediately. Use warm iron if necessary.
4. Spot or Wipe Clean - Use a commercial cleaner or soap and water. Do test spot first on corner to check for discoloration. Blot dry.

Fr FR TERMINOLOGY

FR Terms

INHERENTLY FLAME RETARDANT (IFR)

Traditionally, IFR fabrics have been defined as fabrics constructed with yarns manufactured with FR additives. This process imparts Permanent Flame Retardant properties to a fabric over its service life. Over the past 10 years Dazian, and its worldwide network of Fabric manufacturing facilities, have pioneered the development of a new type of FR fabric technology, which permanently bonds FR additives to Polyester fibers in the dyeing and finishing process of fabric formation. Dazian has previously labeled products made with this technology as PFR Polyester fabrics. This process creates Permanent Flame Retardant properties to the fabric over its service life, often with superior FR performance than fabrics manufactured only with FR fibers.

All Permanent Flame Retardant fabrics are now labeled as IFR, regardless of the technology used, to minimize customer and Fire Marshal confusion.

FLAME PROOFED (FR)

Fabric has been treated with a non-permanent, registered, FR chemical at the Mill or Flameproofers. This is a topical treatment, usually water soluble, and has limited service life. 100% FR cotton fabrics cannot stand up to high humidity, or washing. Flameproofed polyester fabrics have greater durability and longevity, but in many cases still require subsequent re-treatment.

All flameproofed fabrics should be periodically retested and re-flameproofed as required to maintain their FR certification. The typical timeframe is 1-3 years depending upon method and chemicals used in flameproofing, environmental, maintenance, and after-processing factors.

CANNOT BE FLAMEPROOFED (CFP)

Fabric cannot be flameproofed with any treatment methodology without compromising the structural integrity, fabric hand, or visual aesthetic.

For more information and our full FR Fabric Guide please visit www.dazian.com/fabric/fr-guide.

Re REFERENCE

Reference

FABRIC BINDER

Fabric Binder \$125.00

For the designer or department that wants to reference Dazian's complete product and color offering, this is a must. Includes fabrics for: Theatre, Lighting, Film, Theme and Event Entertainment, Exhibit, Display and Architecture.

RENTAL BINDER

Rental Binder \$100.00

Dazian's complete rental offering for the designer or department that needs quick access to a full selection of Rental products and color offerings.

PRINT BINDER

Reference Binder \$125.00

Dazian's complete line of wide-width FR Dye Sublimation and Direct Print substrates.

Or ORDER INFORMATION, TERMS AND CONDITIONS

Order Terms

CUT ORDERS

For less than a Full Roll, we will cut to your exact requirements.

FULL PIECE ORDERS

We reserve the right to ship and invoice up to 10% over your requirements.

ORDERS OVER 500 YDS.

Call for special pricing. We offer discounts on large quantity purchases.

CUSTOM ORDERS

We require a 50% non-refundable deposit on all special orders not shown in catalogue or website.

TELEPHONE & FAX ORDERS

We accept telephone, email and fax orders; subject to confirmation by us.

TRADE CREDIT

Open account orders will be accepted after receiving a completed credit application and establishing a credit line.

STOCK ORDERS

All stock orders for same day shipment should be received by 12 Noon.

AVAILABILITY

All stock items are subject to availability, and may be discontinued without notice. Please check our website for current availability.

PRICING

Prices subject to change without notice. Prices are F.O.B ship point.

PRICE AND SPECIFICATION CHANGES

All prices and specifications are subject to change. Check our website, www.dazian.com, for up-to-date pricing and specifications.

PAYMENT TERMS

Terms: Net 30 Days with prior credit established.

Credit Cards: American Express, Discover, MasterCard and Visa are accepted. Credit cards will be charged at time of shipment.

Check: There will be a \$30.00 service charge on all returned checks.

Late Payment Charges: 1.5% (annual percentage rate of 18%) will be charged on all invoices 30 days past due.

Custom Orders & Fabrication: We require a non-refundable 50% deposit with the order.

Sales Tax: Applicable sales tax will be charged unless a valid resale or tax exempt certificate is received or on file when your order is placed.

RETURNS

Returns are not accepted after 30 days of shipping date. Returns are not accepted without an RA#.

Returns are not accepted for cut merchandise, custom orders or fabrication orders.

Restocking Charge: A 25% restocking charge will be levied on all authorized returns.

SHIPPING

F.O.B. Point: Our F.O.B. point is our warehouses in NJ, FL and CA, unless otherwise specified.

Shipping Charges: Our selling prices do not include freight. We will either ship collect or in case of U.P.S., add shipping charges on the merchandise invoice.

FREIGHT CARRIERS

Unless otherwise specified we will ship your order UPS ground. We will make every effort to accommodate the carrier of your choice but cannot be responsible for their delivery or performance.

FLAME RESISTANCE CERTIFICATES

We will provide you with Flame Resistance Certificates as applicable, indicating test method and level of compliance. Many municipalities require special information, so please indicate the location with your request.

FLAME RESISTANCE WARRANTIES

Dazian only warrants that its fabrics, if so specified pass the NFPA 701 Small Scale and CSFM Title 19 test when shipped from our facilities. This is not a guarantee of flame resistance, as Dazian cannot be responsible for how a customer utilizes the fabric, environmental conditions at place of use, any physical alteration, change or added processing to the fabric, including, but not exclusively printing, sewing, painting, backing, spraying, coating or any other similar application. Flame Resistance is also not a guarantee that a fabric will not ignite into flame and burn. Our products, when so specified, meet the standards set forth by NFPA 701 Small Scale and CSFM Title 19 tests which define the parameters of flammability.

LOCAL ORDINANCES

It should be noted that Fire prevention regulations are often covered by local ordinances and are enforced by either the local Fire Marshal or Building Inspector. Criteria for acceptability can be different than the standards set for by NFPA 701 Small Scale and CSFM Title 19 tests and will supersede this standard. Please check with your local Fire Prevention authority on your design and fabrics to be used prior to purchasing, as Dazian cannot be held responsible for any rejections by local authorities. Continuing Guarantee under the Textile Products Identification Act has been filed with the Federal Trade Commission. We guarantee that the textile fiber products specified herein are not misbranded nor falsely nor deceptively advertised or invoiced under the provisions of the Textile Identification Act and rules and regulations there-under.

TYPOGRAPHICAL ERRORS

Typographical errors occur from time to time in both pricing and product information. Dazian has the right to refuse any order placed for product(s) listed at the incorrect price, availability or specification.
