OCCUPATIONAL WEAR

ASI #49675 PPAI #231277

### TRUSTED.

As the global leader in performance workwear, 96% of American workers recognize the Dickies brand for quality, durability, and value.

### INNOVATIVE FEATURES.

Unique fabrics, features, and fits that will improve your comfort and performance.

### DURABILITY.

Garments that work as hard as you do. Dickies garments last longer and retain their color better than any other work wear uniforms on the market.

### IMAGE.

Uniquely designed for today's workforce, Dickies garments look as great as they perform.

### SATISFACTION GUARANTEED.

Since 1922, Dickies quality has been built into every product. We will gladly replace a garment if you are not satisfied for any reason.

Walls® Outdoor Goods is the brand of workwear for men that work hard and play hard outdoors.

Since 1938, Walls has been making rugged workwear that has been adopted as a favorite by workers in the railroad, oil and gas, construction and ranching industries.

Today, Walls is leading the workwear industry with innovative new fabrics and designs to help workers be more comfortable and productive: stay dry, stay warm, stay cool, stay safe. Walls is the only brand of rugged outerwear approved by DuPont to use Kevlar, the fiber that is known around the world for strength and durability. Our Modern Work and Storm Protector collections offer workers lighter, more flexible and more water repellent outerwear than traditional duck garments.

### WALLS GUARANTEED.

Since 1938, making customers happy and satisfied has been our focus. We will gladly replace a Walls Outdoor Goods garment with an equal or better item or refund your money (with original retailer's receipt) if you are not satisfied for any reason.

### A SATISFACTION GUARANTEE.

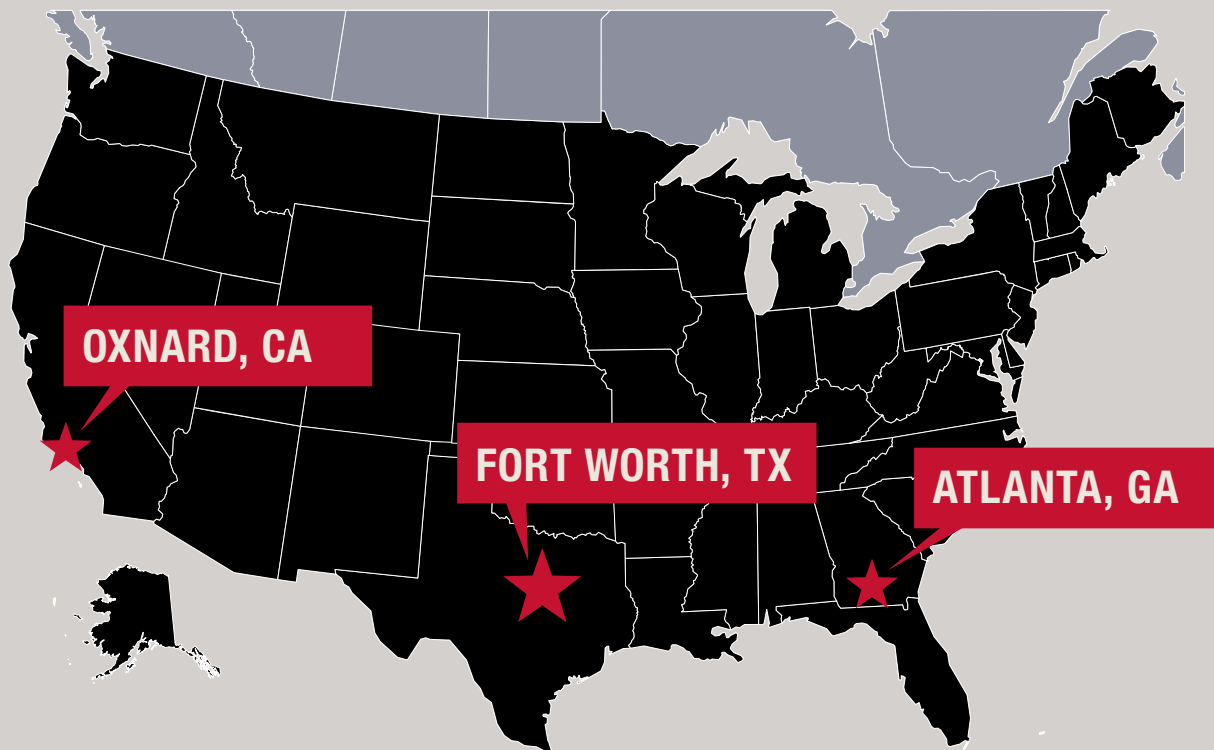

Since 1922, Dickies quality has been built into every product. We proudly stand behind our garments for 100% refund if you are not satisfied for any reason.

# THE POWER OF THE DICKIES BRAND.

Dickies is the leading global brand of innovative and trusted workwear. We have a proud heritage of providing tough, quality apparel to workers for 95 years. In that time, Dickies has evolved from a bib overall to both a full range of workwear uniforms and a world-class consumer brand.

The Dickies Delivered program exemplifies our commitment to meeting the demands of today's workforce. By maintaining deep inventories of our best-selling items and providing quick delivery from multiple warehouses - this program offers industry-leading fill rates and on-time deliveries. Embraced by workers everywhere, Dickies is defined by the people who wear our products.

# WorkTech Ventilated Shirt

with Cooling Performance Mesh Technology

## Evaporation Plus Airflow

Evaporation is our most effective way to lose heat, representing 75% of heat transport. To maximize cooling, we need a continual supply of fresh air. The Dickies® WorkTech shirt offers ventilation in key areas with breathable performance mesh, designed to bring in air and move heat away from the body.

### 1 Moisture wicking fabrics move sweat and heat away

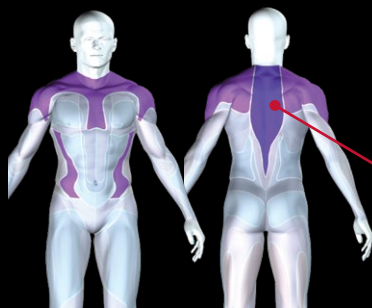

### 2 Airflow vents key areas

Breathable performance mesh

### 3 Evaporation Zones

The Purple and Blue colors indicate the body's high heat zone areas where your body naturally produces sweat to help cool the body temperature.

Easy care stain release

Comfort mesh lined collar

## 3RD PARTY ECOMMERCE MARKETPLACE POLICY

In order to maintain the integrity of our brands (Dickies, Walls, Liberty, and Big Smith), Williamson-Dickie Mfg. Co has established the following policy. Customers may not sell our products as a third party on any ecommerce/marketplace sites. At this time, the policy described is effective for our corporately produced brands. Our licensed brand extensions (i.e.: belts, socks, headwear, footwear, etc.) maintain their own policy regarding marketplace selling, and we encourage you to contact them if you are not clear about those permissions. Please note: This policy does not prevent our customers from selling Dickies on their own company website.

## NOTICE TO ALL RETAILERS OF WILLIAMSON-DICKIE PRODUCTS

Williamson-Dickie Mfg. Co. has entered into exclusive distribution agreements for numerous overseas markets. These designated distributors are the only authorized dealers of DICKIES brand goods in those markets. In order to support our agreements with these distributors and protect our investment in the growth of the brand, we have adopted a policy of selling DICKIES brand goods domestically only to those companies who purchase such goods for resale to consumers within the U.S. borders. Accordingly, any company which purchases DICKIES brand goods for export, or for sale to parties intending to export the same, is engaging in conduct which violates this established policy.

Exporting DICKIES brand goods sold to you in the United States, or the sale of DICKIES brands goods to third parties you know, or have reason to believe, intend to export such goods, will result in the Company's termination of its relationship with you and its refusal to supply you with any further DICKIES brand goods.

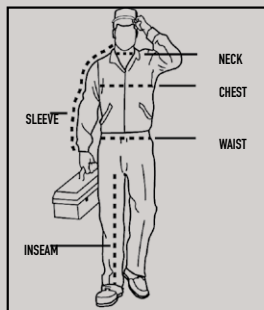

We value our customers' contribution to the growth of the DICKIES brand. We are committed to preserving a "win-win" relationship with all domestic accounts which abide by this policy. However, we are equally determined to honor our contractual obligations to our international distributors and we will take vigorous action to defend these markets from "gray market" exports. Sales to any account knowingly involved in or connected with the unauthorized export of DICKIES brand goods will be discontinued.

# MEASURING FOR PROPER FIT

The following guidelines are important in measuring for proper fit.

- Give all measurements in inches.
- If the person's measurements are between sizes, order the larger size. For example: if a man's neck measures 15¾" you should order size large in a short sleeve shirt or a 16-16½" in a long sleeve shirt.

- For greatest accuracy, have someone take measurements rather than allowing customers to measure themselves.
- The tape measure should be pulled snug, not tight.
- Check the size scale of all garments being ordered to ensure that all measurements were taken at the proper points.

## MEN'S SHIRTS

- **NECK:** Measurement is the circumference of the neck as illustrated.
- **SLEEVE LENGTH:** Measured by placing one end of the tape at bottom of the collar at the center of the back and marking the distance around the elbow to bottom of the wrist. It is often helpful to have the arm slightly bent.
- **CHEST:** Taken at the fullest point of the chest, keeping tape under arms and around shoulder blades. Hold tape level and firmly but not tight.

## MEN'S TROUSERS, JEANS AND BIB OVERALLS

- **WAIST:** Measurement is taken at the top of the hipbone over shirt (not over pants). Tape should be held snug not tight.
- **INSEAM:** Measurement taken from base of the crotch to top of the shoe or boot. For jeans, add 1".
- It is advisable to ask the person being measured how he or she wears their trousers. Not everyone wears their trousers or jeans the same length or height on their hips.

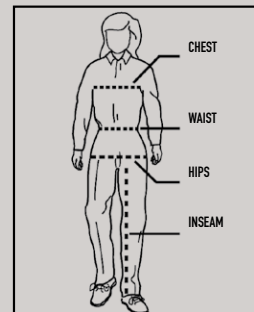

## JACKETS

- **CHEST SIZE:** Taken at the fullest point of the chest, keeping tape under arms and around shoulder blades. Measurement should be taken over clothing, preferably over same garment or types of garments to be worn with the jacket.
- **SLEEVE LENGTH:** Measured by placing one end of the tape at the bottom of the collar at the center of the back and marking the distance around the elbow to the outer edge of the wrist.

## WOMEN'S WEAR

- **CHEST:** Measurement is taken at the fullest point of the bust. Measure across shoulder blades with arms relaxed down at sides, keeping tape parallel to the floor. Hold tape level and firmly but not tight.
- **WAIST:** Measurement is taken around the natural waistline. Keep the measuring tape comfortably loose.
- **HIP:** Measurement is taken by standing with heels together. Keep tape straight and parallel to the floor, measure around the fullest part.
