 KIRSCH®

ARCHITRAC® HARDWARE | ASSEMBLED SETS

Why specify Architrac®

Beauty. Selection. Versatility. The Architrac heading system supports three drapery designs, Ripplefold™, Pleated, and Cubicle Draperies, which pair with a variety of pleating methods to create five custom Architrac styles! Architrac Ripplefold™ is bold and modern. Unlike Conventional Pleated, Ripplefold™ offers soft, ripple-like folds flowing smoothly from one end of the track to the other, achieving a gently-tailored appearance. All assembled sets come complete and ready-to-install, and are available in baton and cord draw systems.

Ripplefold™ benefits

- Panels can be pressed flat, yet fall into folds
 - Headings are suspended under the track
 - No hooks or pins to install
 - Stack back space is less than conventional Pleated draperies
 - Draperies snap on and off carriers for easy installation
 - Interior drapery appearance is identical to exterior-facing drapery appearance
-

Pleated benefits

- Can be used with most track systems using slip-in or pin-on hooks
- Headings can be suspended under the track or over the face of the track to conceal hardware
- Most popular drapery heading style
