Custom Made in USA

Meets ANSI/ISEA color standards

Meets ANSI/ISEA standards: Class 1, Class 2 or Class 3

Choosing the right high-visibility safety apparel creates a safer work environment for your workers. Learn about the various types of safety classes, requirements and garment options below.

	Definition	Background Material	Reflective Tape	Minimum Width of Reflective Tape
PERFORMANCE CLASS E 	<ul style="list-style-type: none"> Class E apparel applies to trousers and shorts and creates a high-visibility ensemble. When Class E bottoms are worn with a Class 2 or 3 garment, the overall classification for the ensemble is Class 3. 	465 in ² (0.30m ²)	108 in ² (0.07m ²)	2in (50mm)
PERFORMANCE CLASS 1 	<ul style="list-style-type: none"> Intended for use in activities that permit the wearer's full and undivided attention to approaching traffic. There should be ample separation of the worker from traffic, which should be traveling no faster than 25 miles per hour. 	217 in ² (0.14m ²)	155 in ² (0.10m ²)	2 x1 in. (25mm) or 2in (50mm)
PERFORMANCE CLASS 2 	<ul style="list-style-type: none"> Intended for use in activities where greater visibility is necessary during inclement weather conditions or in work environments with risks that exceed those for Class 1. Also covers workers who perform tasks that divert their attention from approaching traffic or that put them in close proximity to passing vehicles traveling at 25 miles per hour or higher. 	775 in ² (0.50m ²)	201 in ² (0.13m ²)	1.375in (35mm)
PERFORMANCE CLASS 3 	<ul style="list-style-type: none"> Provides the highest level of visibility and is intended for workers who face serious hazards and often have high task loads that require attention away from their work. Garments for these workers should provide enhanced visibility to more of the body, such as the arms and legs. 	1240 in ² (0.80m ²) (0.20m ²)	310 in ²	2in (50mm)
PUBLIC SAFETY VEST 207-2015 	<ul style="list-style-type: none"> Based on an ANSI/ISEA 107-2015 with modifications for public safety officials. Design criteria allows public safety vests to provide access to belt-mounted equipment (such as guns and radios) and allow vests to have the ability tear away from the body. Allows for shorter vests that offer users access to their tactical equipment. 	450in ² (0.29m ²)	201 in ² (0.13m ²)	2in (50mm)

GAME certifies that all of its ANSI/ISEA 107-2015 garments still provide the same level of protection and visibility and are certified to meet the new ANSI/ISEA-2015 standards. Changes in the revised standard only affect categorization and labeling. GAME proudly offers over 30 ANSI/ISEA certified styles.

LOGO ALLOWANCES HAVE BEEN AMENDED

Logo allowances have been incorporated into the ANSI/ISEA 107-2015 standard, which allows for a company logo of limited size to be added without being required to deduct the background area of the logo.

Identification panels, lettering and logos of contrasting non-compliant material shall not exceed a total of 465 cm² (72in²) on the front and/or rear of the HVSA and such total amount may contribute to the minimum amount of visible background material.

FLAME RESISTANT (FR) LABELING

ANSI/ISEA 107-2015 rated garments made from polyester or any non-inherently flame resistant fabric will require the following statement: None of our garments are flame resistant as defined by ANSI/ISEA 107-2015 Section 10.5.

Bigger Just Got Easier.

It's easy to place big orders with the help of our new Large Bid Support Department.

Big Order, Big Help.

We will help you with every facet of your large order (min. 500 pieces), including guiding you through the state and federal municipality bid process.

We'll Hold It.

We are now able to pack and hold large orders – FREE of charge.

GAME Gets To The Source.

Our new Large Bid Support Department will help with product sourcing and custom designs.

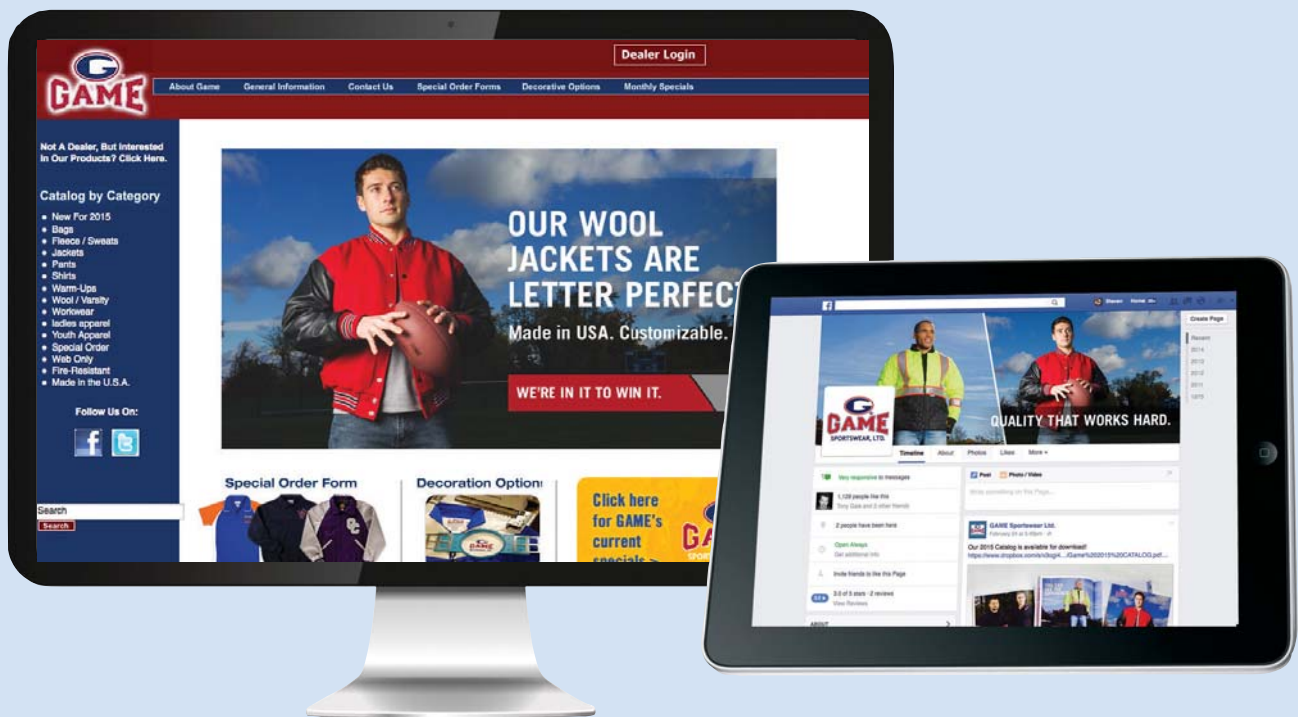

For more information, please contact us at bids@gamesportswear.com or call 1.800.688.GAME, ext 156.

Let us help you with your next order!

Renewing GAME's Commitment to Our Customers

2018 is an exciting year for us and we look forward to making it a prosperous year for you, our customers. We are raising our GAME in all areas of our business structure to enhance your GAME experience:

IMPROVED PERFORMANCE & FASTER DELIVERY

We've moved all production to our HQ in Yorktown Heights, NY, for improved communication and efficiency.

HAVE IT WHEN YOU NEED IT

Our newly upgraded Purchasing Department will provide a deep inventory of key styles to get you what you need when you need it.

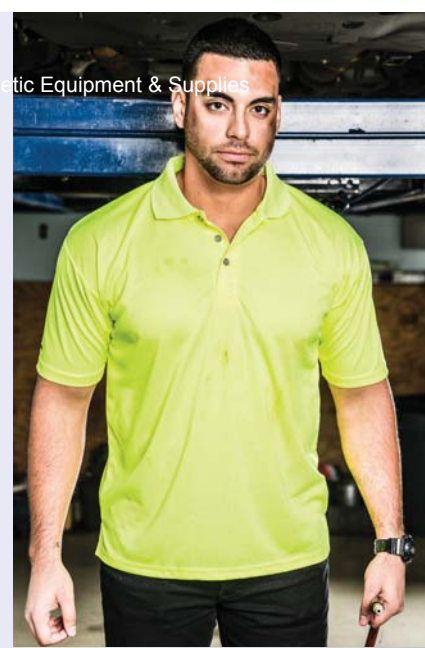

FASTER TURNAROUND ON CUSTOM ORDERS

Our Proudly Made in the USA stock/custom Varsity Jackets and custom Work Shirts, are competitively priced, with the fastest turnaround on custom orders in the industry.

ONE STOP DECORATION

Our Design and Embellishment Department has added Heat Transfer and Screen Printing to our Chenille, Embroidery, Tackle Twill and custom design services. With new equipment and an expanded department, we are ready to service ALL your decoration needs.

Thank you for your business. We are proud to be your partner and look forward to a continued relationship in the years ahead.
