

Americas Best Lift Investment...

Still proudly designed, welded and manufactured in the U.S.A.

# WHAT YOU NEED TO KNOW ABOUT LIFT SAFETY

There's one and only one nationally recognized standard for vehicle lifts:  
**ANSI-ALI/ALCTV**, administered by the **Automotive Lift Institute (ALI)**

## KEY CERTIFICATIONS CONSIDERATIONS FROM WWW.AUTOLIFT.ORG

- A lift must be certified.
- Certification extends to options and accessories.
- Use of a non-certified options or accessories voids the certification of the lift.
- Approved accessories are required to be listed for use by model number on ALI's Directory of Certified Products. Accessories not found on the Directory are not approved for use.

**Source:** Lift Certification FAQ, Health and Safety Tab  
<http://www.autolift.org/what-to-know-when-purchasing-a-car-lift/faq/>

**As important: Ask if an option is certified and adequately rated to lift the vehicle or perform the service intended or required for use (on the lift) with the specific accessory?**

**MOHAWK BELIEVES IN AN ADEQUATE CAPACITY RATING FOR ALL CERTIFIED OPTIONS.**

### 2 POST CERTIFIED LIFT ACCESSORY

95% of Mohawk 2 post lift adaptors are ALI certified. If adaptors aren't certified, this voids the certification of the lift.

Model LC-12

Model MP-18-030

Model TR-50

Model 50-26 S

## MOBILE COLUMN CERTIFIED ACCESSORY EXAMPLES

Shown: MP-18  
Accessory #MP-2500

### FRONT TO REAR BUMPER ADAPTOR (HMMWV Adaptors)

- Mohawk is certified to 24,000 lbs.
- Verify capacity is adequate for an F-450/F-650 pick-up truck. If not then other brands accessories are useless.

### 4 POST CERTIFIED ACCESSORY EXAMPLES

### ROLLING ELECTRIC/HYDRAULIC OR AIR/HYDRAULIC JACKS ▲

- Available for 4 post lift models from 19,000 through 75,000 lbs.
- Verify capacity is enough for your heaviest vehicles. Specifically the heavier rear end of all trucks.

Shown: TR-50  
Accessory #050-050-062

Available for models TR-33 - TR-75

### EXPLOSION/SHATTER PROOF FLUORESCENT TRACK LIGHTING ▲

Brightens up even the darkest vehicle undercarriage, allowing technicians to clearly see.

Shown: TR-50  
Accessory #050-050-038

Shown: MP-18  
Accessory #MP-2200

### FORK LIFT ADAPTORS

- Mohawk is certified to 28,000 lbs.
- Verify if capacity of alternate brands is adequate for your heaviest forklift.

### EXTENDED FORK LENGTH

- Mohawk offers 22" long forks to raise BOTH rear tires and not over pressurize the outer tire.
- **Ask:** How much do long forks de-rate certain lift brands?
- **Ask:** If the truck was engineered to go down the road on 4 tires on the rear axle, shouldn't it be lifted by all 4 tires?

## COMMON SENSE SAFETY DECALS

**! WARNING**

**DO NOT OVERLOAD CROSSRAIL CAPACITY**

**PLACE VEHICLE'S CENTER OF GRAVITY ON MIDDLE OF TRACKS**

⊕ = CENTER OF GRAVITY

**NOTE: MOST TRUCKS ARE REAR HEAVY!**

**VERIFY PER AXLE WEIGHT!**  
P/N: 601-800-433

**! WARNING**

**DO NOT EXCEED MAXIMUM CAPACITY PER SWING ARM WHEN LIFTING HEAVY ENDED VEHICLES.**

**VERIFY AXLE WEIGHT!**  
Part No. 601-800-206
