### Ankle Aid

The first water submersion device designed specifically for ankle and foot therapy. There is nothing on the market that compares to it.

- Therapeutic - AnkleAid is designed specifically as a therapeutic device for people with ankle and foot injuries/conditions.
- Toes Out - Toes are less tolerant to extreme temperatures, so AnkleAid keeps the majority of the foot in the water while keeping the toes out. The result is more effective and more comfortable therapy.
- Functional - AnkleAid can be used for both cryo/cold and thermal therapy. For cold therapy just add the appropriate amount of water and ice. For heat therapy, use the desired water temperature with or without Epsom salt.
- Comfortable - AnkleAid is designed to put the foot at the optimal angle for maximum comfort while submersed in the water.
- Portable - AnkleAid is small and light enough to be used anywhere in the house, or it can easily be taken to the gym, work, school, or therapy.
- Easy-to-use. - It is as simple as filling AnkleAid with the appropriate amounts of ice water or hot water. However, always consult a doctor for the temperature and duration that is right for the specific injury or condition.
- Affordable - Compared to other therapies that involve compression, AnkleAid is a fraction of the cost.

## Ice-O-Matic Ice Machines

Since 1952, Ice-O-Matic has worked tirelessly on developing, enhancing and perfecting the way ice is made. Founder Dave Smith's mission was to offer the best ice machines in the business with a single-minded focus on top-quality ice. To this day, Ice-O-Matic is dedicated to providing simple, reliable and easy-to-use commercial ice machines.

Harvest Assist provides consistent ice production for the life of the ice maker while reducing energy consumption and increasing capacity.

Pure Ice® exclusively by Ice-O-Matic. Built-in antimicrobial protection for the life of the ice maker inhibits bacteria growth on ice maker surfaces. Ice-O-Matic's optional water filtration system provides protection against unpleasant tastes, odors and scale formation.

Durable, electroless nickel plating on all evaporator plates ensures reliability.

Constructed from corrosion-resistant stainless steel and fingerprint-proof plastic.

**NEW!**

### HIVAMAT 200 Evident

Your athletes will most certainly also benefit from the reduction of inflammation, pain relief, and increased circulation that results from deep oscillation therapy with the HIVAMAT 200 Evident. Deep oscillation therapy is a new therapeutic treatment that directly addresses contusions, edema, hematomas, and other effects of trauma often associated with sports injuries by activating the lymphatic system.

#### Muscle Relaxation

Deep oscillation therapy is felt as a vibration within the tissue, relaxing the underlying muscles.

#### Pain Relief

Activating the lymphatic system and increasing blood flow, pressure upon the nerves is reduced; with the pain subsided, mobility can be reintroduced earlier.

#### Features:

- Full-Color Display with Simple-to-Use Interface
- Pre-Populated Treatment Programs
- Area-Specific Instructional Application Animations
- User-Controlled Parameters
- Save Treatment Programs to Device or Card
- 3 Year Warranty

# Stimulator & Ultrasound Accessories

**NEW!**

## Richmar MultiStim Electrodes

MultiStim Electrodes are constructed of a premium hydrogel for comfort and uniform stimulation. All of Richmar's stim electrodes are manufactured to have high tensile-strength lead wires, thanks to Leadstay. Leadstay, a proprietary bonding and moisture barrier layer used in all Richmar stim electrodes, also protects each electrode from delamination when used in conjunction with moist heat therapy.

### Features:

- MultiStim Stim Electrodes are available in cloth or foam, in a variety of shapes and sizes
- Economical stim electrodes that do not sacrifice adhesion or performance
- Gel formulation produces electrodes with maximum dry-out resistance
- Optimum distribution of electrical current throughout electrode surface
- All Richmar electrodes are made in the USA

Sold in cases of Ten 4-packs / 40 electrodes.
