NEW!

Andover® PowerPro Synthetic Adhesive Tape

PowerPro Synthetic Adhesive Tape is Andover's latest innovation in taping systems. Stretching less than 1% and traditional, pressure sensitive adhesives are just some of the premium features of this sweat and water resistant tape. If you are an athletic trainer who likes working with premium adhesive tapes but doesn't like the unsupportive stretch of traditional cotton tape, look no further than PowerPro.

NEW!

Arrowhead® Arrow Flex

Arrow-Flex CO is a premium stretch cohesive tape designed and built in the USA by Arrowhead Athletics. Arrow Flex CO has smooth stretch and return, easy tear and outstanding self-grip, while being stronger than many other cohesive stretch tapes on the market. It breathes well and is water-resistant, able to repel moisture even when submerged. Can be used as a tape alone and is able to repel moisture as an underwrap for a secure tape job. This product contains dry natural rubber.

Arrowhead® Co-Tape & Co-Tape PLUS

Co-Tape is a rigid cohesive tape that tears cleanly by hand, unwinds consistently throughout the roll, and sticks tightly to itself without sticking to skin, clothing, pads or other surfaces. **Co-Tape PLUS** offers the same great features of Co-Tape but has a much higher tensile strength than most cohesive rigid tapes, and is designed to meet extreme tensile pressure. This product contains dry natural rubber.

KT Recovery+™

KT Recovery+ patches are specially designed to reduce swelling, inflammation, and bruising from muscle injuries and its accompanying pain. KT Recovery+ patches work by microscopically lifting the skin away from the muscle and fascia below which decompresses the area. This allows for improved circulation in the affected area while also allowing faster removal of lymphatic fluid buildup caused by the injury.

A. Mueller® ATF2 Ankle Brace

Patented inner straps extend over the Anterior Talofibular Ligament for superior lateral support. Comfort Windows—a single layer of fabric over ankle bones provides a more comfortable fit. Bi-directional stretch elastic over the Achilles tendon allows complete plantar and dorsal flexion. Flexible steel springs help support both sides of ankle. High strength 1000 denier polyester material eliminates the need for metal eyelets. Brace allows for unrestricted foot movement for jumping, speed, and agility. Fits either left or right.

C

A. ASO® EVO

The ASO EVO ankle stabilizer is an innovative approach to ankle protection. Its unique, stabilizing straps and cuffs incorporate the three main elements of an ankle taping application: stirrups, heel lock (figure-eight), and circumferential closure. This new design provides exceptional ankle support and stability in the treatment of ankle injuries and reduces the severity and frequency of future injuries.

Measure ankle circumference to determine size.			
Size		Black	White

All Sizes, Colors.....		\$40.75 ea.		

Zamst A2-DX Ankle Brace

The A2-DX Ankle Brace assists in preventing high ankle sprains by reducing the separation of the two lower leg bones where the ankle meets. The dual exterior molded support also prevents inward and outward rolling. Adjustable X-Strap stabilizers allow for maximum comfort while keeping the brace secure.

AIRCAST®

Aircast® Air-Stirrup Ankle Brace

Fits comfortably in the shoe. Pre-inflated, adjustable air cells conform and compress swollen tissue. When worn with a laced shoe, the brace limits inversion/eversion but permits dorsi and plantar flexion. Training Brace is for chronic instability and prophylactic athletic support. Small brace is for acute and chronic injuries in patients 5'2" and smaller.

Standard Model, Right	SV41243	\$52.95 ea.
Standard Model, Left	SV41244	\$52.95 ea.

Bauerfeind® AchilloTrain® Achilles Tendon Support

- Breathable knit remains cool and moves with the body for maximum comfort
- Anatomically contoured viscoelastic insert runs alongside the Achilles tendon to provide effective pressure-relief
- When active, provides an intermittent massage to help reduce pain and swelling
- Promotes proprioception, thus increasing stabilization
- Removable silicone heel-wedge support raises the heel for pain relief of the Achilles tendon
- Additional heel-wedge provided for the unaffected foot to prevent leg length discrepancy
- Provides peak shock load reduction to joints and back with both heel cushions in place
- Ideal for Achilles tendonitis, Achilles tendon strains, bursitis of the Achilles and post-Achilles tendon rupture

Thigh & Hip

LP Thigh Compression Sleeve

Power System improves lower extremity kinetic chain, from the thigh to the knee, to stabilize knee movement, and to prevent over twisting, it also increases proprioception, and enhances the effectiveness of reproduction and accuracy of knee movement.

Power System along thigh muscles decreases oscillation, accumulates energy and enhances sports performance for high speed activities, such as jumping or kicking.

Appropriate compression for thigh muscles helps increase blood flow circulation to not only improve endurance but also prevent thigh muscle strains.

Measure mid-thigh circumference.		
Size		Item #
Small	17"-18½"	SV1003488
Medium	18½"-20½"	SV1003489

NEW!

DonJoy® Bionic Elbow Brace

The DonJoy Performance Bionic Elbow Brace features industry leading support and protection from lateral forces that occur in everyday sport and activity. Stretch webbing closure system ensures the proper fit for un-matched comfort and controllable compression. The unique cross strap design allows the user to set the max angle of extension to keep an injured or healing elbow protected. Born from the number one brand in sports medicine worldwide, the bilateral polycentric hinges with hyperextension stops in this elbow brace are sure to keep unstable, ligament damaged, sprained elbows from getting in the way of performance.

Features:

- Bilateral polycentric hinges with hyper extension stops help to support unstable elbows
- Innovative cross strap design immobilizes the elbow joint for maximum protection
- Ergonomic construction improves fit and function
- Perforated neoprene for maximum breathability
- Anti-migration technology helps to eliminate slip
- Reflectivity for enhanced visibility in low light conditions

Large	11"-12"	SV41795
All Sizes.....\$49.00 ea.		

Cramer® Shoulder Stabilizer

Supports and stabilizes the shoulder muscles, ligaments and joints, as well as relieves the symptoms of moderate sprains and strains.

One Size **SV63779** \$45.37 ea.

Adjustable, anatomically contoured silicone insert.

Bauerfeind® OmoTrain® Active Shoulder Support

- Machine washable
- Titanium (gray) color
- Knitted shoulder support guides and centers the glenohumeral joint promoting mobility but inhibiting rotation for proper therapy
- Adjustable, anatomically contoured silicone insert lies on the shoulder provides intermittent compression of the soft tissue, leading to increased circulation and decreased pain, swelling and subluxation
- Anatomical knit with graduated compression at the edges prevents constriction of circulation
- Lightweight, breathable knit will not retain heat and sweat
- Ideal for shoulder pain, rotator cuff rehab, shoulder subluxation, post surgery, osteoarthritis, and hemiparesis
- Universal - Can be used on either the Right or Left Shoulder

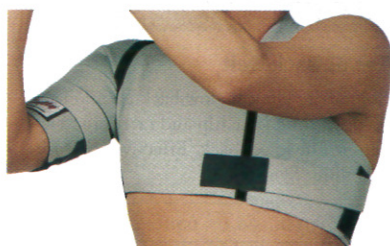

Loose circumference in inches of the thickest part of the upper arm.
