Pulse Oximeters

SMARTHEART ECONOMY FINGER PULSE OXIMETER

The SmartHeart Pulse Oximeter is the smart, accurate way to measure oxygen saturation of arterial hemoglobin and pulse rate. Accommodates a wide range of finger sizes and includes nylon lanyard, batteries and English/Spanish instructions.

Effective Measuring Range:

- Saturation 0 to 100%
- Heart Pulse Rate 30-250 bpm

Accuracy:

- Saturation (70%-100%) +/-2% or +/-2 Digits
- Heart Pulse Rate +/-2% or +/-2 Digits

LED Display:

- Large display with red backlight
- Saturation Rate (%)
- Heart Pulse Rate (bpm)
- Pulse Bar
- Battery Status Indicator

Power Requirements:

- 2 AAA batteries (included)

Dimensions:

- 2.6" x 1.3" x 1.3"
- Weighs 2.0 oz

ALLERGY EMERGENCY KIT

This kit includes everything needed, except the medication itself, for the setup of an allergy emergency kit. This wall-mounted cabinet (hardware included) is intended to be installed in the school lunch room close to the nut-free table, in corridors near where children eat in their classroom, or could experience bee stings during recess and gym class. Kit includes 3D signage to mount above the cabinet and all needed Velcro. Break-away emergency glass with hammer or optional vandalism alarm are available for the unit. Dimensions: 13"L x 13"W x 4"D.

- Epinephrine Cabinet with Lock and Emergency Access Hammer**
 #12780..... \$299.00 ea
Non-Locking Epinephrine Cabinet with Alarm
 #12781..... \$299.00 ea

EPINEPHRINE STORAGE CABINETS

This cabinet is intended to be installed on the wall of the school nurse's office and holds either 16 or 32 well organized Epinephrine Auto Injectors. This cabinet locks securely but can be accessed in an emergency by breaking the safety glass material with an attached hammer. Kit includes hammer/chain, installation anchors, evacuation tote bag, 3D signage to mount above the cabinet and both clear and privacy glass options.

- Dimensions: 17"L x 17"W x 4"D
 #12784 16-Unit Epinephrine \$379.00 ea
 Dimensions: 24"L x 17"W x 4"D
 #12785 32-Unit Epinephrine \$429.00 ea

EPINEPHRINE STORAGE PANELS

These panels provide a more affordable alternative if you do not need a locking cabinet. The combination of the Velcro backing and photo labeling system is an awesome way to store up to either 16 or 32 auto-injectors, so that they are organized and self-containing of important student information. When exiting your building during an emergency, the panels can be taken off the wall and slid effortlessly into evacuation bags for easy transport (sold separately).

- Dimensions: 17"L x 17"W
 #12770 16-Unit Epinephrine \$89.00 ea

DIABETES CARE AT SCHOOL: BRIDGING THE GAP MULTIMEDIA TRAINING COURSE FOR NON-MEDICAL PERSONNEL

This interactive, multimedia course is designed to provide school personnel who have limited medical training with the knowledge required to assist with the care of a child with Type 1 diabetes while participating in school-related activities.

Includes a pre-test and post-test to objectively assess knowledge levels before and after viewing the 12 multimedia presentations. Step-by-step videos allow learners to observe important tasks such as measuring blood glucose, performing insulin injections, glucagon injections, checking urine ketones, checking blood ketones, etc.

#34648.....\$34.95 ea

EMERGENCY GLUCAGON ADMINISTRATION TRAINING KIT

Instruct individuals or groups to properly administer a glucagon injection in a school setting. An 8-minute presentation delivers concise guidance on when and how to administer glucagon while the complimentary glucagon training aide allows hands-on demonstrations and practice.

Because many school nurses and other qualified trainers use expired Glucagon Emergency Kits to train non-licensed school personnel, this training kit also includes a high-quality injection pad for safety and convenience.

#34647.....\$37.95 ea

DIABETES SKILLS TRAINING KIT

This comprehensive kit makes it easy for staff to practice typical diabetes related care tasks. Kit includes: Blood Glucose Meter, 50 Blood Glucose Test Strips, 100 Lancets, 50 Urine Ketone Test Strips, Glucagon Demonstration Kit, 10 ml Vial of Simulated Insulin, 20 Insulin Syringes, Injection Pad, Alcohol Swabs, Sharps Container, Latex Free Gloves, Sample Pack of Glucose Tablets, and Laminated Guide to Insulin Pumps.

#34646.....\$149.00 ea

LIFE/FORM DIABETIC INJECTION PAD

This pad looks and feels like human skin and is ideal for diabetic instruction and injection practice. Worn on the body in specific locations (stomach, thigh, upper arm), the pad allows patients to inject fluid, to practice giving themselves an injection. A hard plastic backing prevents the needle from poking through the pad.

#54301 Injection Pad with Strap.....\$52.25 ea

HEMOCUE HB 201+ SYSTEM

The Hb201+ System is a point of care In-vitro analyzer used for quantitative, determination of hemoglobin in capillary, venous and arterial whole blood. The system consists of an analyzer together with microcuvettes. The microcuvette serves both as a pipette and as a measuring cuvette and is for single-use only. A blood sample of approximately 10uL is drawn into the cavity by capillary action. The analyzer measures at two wavelengths in order to compensate for turbidity, and the hemoglobin level is calculated and presented.

Instructions for Use:

1. Fill microcuvette.
2. Place microcuvette into analyzer.
3. View results.

*#20137 HemoCue HB201+ System.....\$595.00 ea
