

Pricing

For each component offered, present valid pricing for the required term.

ESCNJ expects that each provider will offer co-op discounts from retail pricing. Our objective is to provide the best pricing in New Jersey for the components offered by responding providers.

If pricing is proposed as a package deal, detail what is included.

If pricing is based on hourly rates, be clear about the quantity and type of labor required to perform the work in question. If required, present a matrix of tasks and hours to complete various tasks.

Providers are encouraged to offer bundled services as part of a better deal, but providers also MUST allow for the separate purchase of each category, gear or indicator listed below.

Pricing must identify and include any additional taxes and fees, surcharges or additional costs. Identify any non-recurring fees or additional expenses. In other words, pricing must be all inclusive. Acknowledge and verify.

Present pricing for solutions, services and software as applicable:

Present any additional pricing information required to clearly communicate the costs for service.

SiLAS is a subscription based platform. The following image shows the pricing breakdown as well as the multi-year purchasing discounts we provide. We are open and interested in doing a volume discount, however; typically we work individually with districts of various sizes. We welcome ideas from ESCNJ on bulk pricing. Our team would be interested in collaborating on multiple district pricing.

 * District Wide Site Licences Available

Here is how you purchase SiLAS.

1. Identify the number of schools or students and the teachers in each school that would use SiLAS to teach social skills and social emotional learning to your students. Use the simple breakdowns above to identify the subscription cost.
2. Send the SiLAS Tech Requirements sheet to your tech department to confirm that your district can be set up to run SiLAS or ask us for help.
3. Once we receive your payment information we will send out the hardware and organize a virtual or on-site training.
4. Submit the list of teachers (first names, last names, email addresses and school name) that you'd like to add to your subscription. The SiLAS team will use the info to create accounts for your users.
5. Congratulations! Your district will be running the most engaging and innovative social skills and social emotional learning program on the market today. Your students will thank you!

SiLAS is a patent-pending software funded by the National Science Foundation.
