POWERFLEX ECO

MISSY FRANKLIN
Hydro Amp Flyback

Speedo's PowerFLEX Eco is an innovative and earth-friendly fabric that is made using Econyl,[®] a nylon yarn that is 100% regenerated from other nylon products at the end of their lifecycle. Speedo has partnered with Aquafil, Econyl's parent company, to create a pilot program that regenerates all the waste scraps that are left over from our PowerFLEX Eco suit production. To date, we've prevented around one ton of Econyl scrap from going into a landfill or being incinerated.

A little less waste in the world is good for us all.

G.O. FIT™ SYSTEM

At Speedo, we understand that no two faces are alike, so why should your goggles be? We develop goggles that provide flexibility, comfort, and ease of adjustment. With the new Goggle Optics Fit system Speedo is going a step further and defining great fit and comfort, giving you optimal performance, regardless of your use.

Other Lenses

CLEAR SIGHT™ Lens

CLEAR SIGHT™ TECHNOLOGY

Provides zero distortion to eliminate eye fatigue.

SPEED FIT CLIP

Goggle straps are easy to adjust for your personal size.

LATEX FREE

Contains no latex; ideal for those with latex allergies.

SPEED SOCKET 2.0

VISION. EXPANDED.

The iconic Speed Socket goggle has evolved! Now part of the Fastskin family, this swim goggle retains the classic Speed Socket fit, but now offers increased peripheral vision so you can keep a closer eye on the competition. The mirrored lens reduces glare and brightness, while a double head strap ensures a secure fit, allowing you to concentrate on getting the most out your swim.

ADVANCED TECHNOLOGIES

HYDROSCOPIC CURVED LENS
Classic Speed Socket fit with increased peripheral vision.

MIRRORED LENS
The mirrored lens reduces glare and brightness.

HIGH NOSE BRIDGE
Choice of 3 nose-bridge sizes for optimized fit.

FABRIC TECHNOLOGY

The fastest aquatic creatures have one thing in common: sleek, durable skin that lets them slice through the water. Following their lead, we've developed revolutionary fabrics that feature exclusive Speedo innovations.

LZR PULSE+

LZR Pulse+ fabric featured in the LZR Racer X and LZR Racer Elite 2, offers a 40% increase in durability of water repellency as well as delivering powerful body compression, optimizing hydrodynamic form in the water for maximum speed and performance.

LZR PULSE LITE

LZR Pulse Lite is featured in the LZR Racer X, provides the most compression while allowing maximum range of movement. It is water repellent, chlorine resistant, and super-quick to dry.

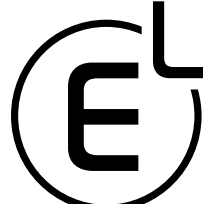

AQUABLADE

Aquablade features water-channeling stripes that reduce drag. Constructed of a durable poly-lycra blend that's great for team and competition use.

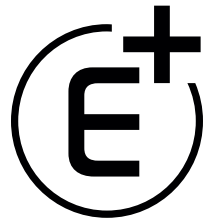

PRO LT

This poly spandex blend is the perfect choice for swimmers in the water 2-3 days a week, providing support and comfort at a great value.

SPEEDO ENDURANCE LITE

10% lighter weight than Endurance+, that won't weigh you down in the water. Resists sagging, bagging and fading – a great choice for practice and training.

SPEEDO ENDURANCE+

Maximum Chlorine-resistant fabric designed to last far longer than conventional swimwear. Endurance+ retains its color and shape.

POWERFLEX ECO

An innovative and earth-friendly fabric that is made using Econyl®, a nylon yarn that is 100% regenerated from other nylon products at the end of their lifecycle.

POWERPLUS

Lightweight and quick drying. PowerPLUS compression technology increases muscle support for additional power and decreased recovery times.

Fastskin

LZR Racer X

CARE AND USE INSTRUCTIONS

Fastskin suits are tight fitting due to compression and can take up to 20 minutes to put on.

Fold out the silicone grippers on the legs of the suit before you put it on to ensure it doesn't stick to your skin.

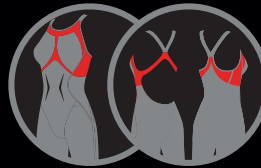

The hips are the biggest part of the body to get the suit over and should take the longest time.

Do not pull on the thinnest parts of the suit and try to use the seams where possible. The suit needs to fit like a second skin with no air pockets.

Once the suit is fitted correctly fold down the silicone grippers and you are ready to race.

Viewing the full fitting video by typing 'Speedo LZR Racer X fitting video' into any search engine.

To ensure your suit lasts as long as possible and performs at its very best we ask that you take note of the following care instructions.

When putting on your suit do not pull on areas on the thinner more flexible areas of the fabric (highlighted in red). Only pull on the strong seams or the double layered fabric.

Keep away from sharp objects and long nails.

When putting the suit on try to use the pads of the fingers.

Rinse immediately in clean cold water after use. Chlorine will damage the suit over time.

86° F hand wash only with no detergent.

Lay your suit out flat and reshape it after use.

Avoid contact with direct heat. Keep away from the radiator and do not iron.

Wearing the suit for racing only will prolong the lifespan of the suit.
