General Announcements

Quick Pick Packages are full machine packages, available on 4WD models only, designed to reduce complexity, offer additional discounts and speed up the ordering process by implementing the most popular options into the configuration. Once a package is selected, you can then select the required attachments to go along with your unit. For TL Quick Picks, additional "bolt on" options that are independent of other major components can also be selected/modified: Front/Rear Tires, Front Fenders, Box Scraper, Drawbar, Ballast/Weights, Operators Manual Language, Move to BIC. Keep in mind, it is not possible to add to, remove from, substitute for or otherwise modify the primary options in the packages once they are selected. This includes adding a Special Feature. Doing so will eliminate the discount and force you to order "A La Carte".

You will still have the option to order a machine with any configuration you'd like, however you will miss out on the additional discounts and may experience longer lead time. If a machine is being ordered for a government bid that doesn't match a Quick Pick, first try to convert to a quick pick package and if you're not able to, select "YGR Order" which will allow you to configure the order as needed without losing the discount except on 2WD orders, 2WD orders are not available to take the "YGR Order" code. All YGR orders will be audited for qualifications. Since character spacing is limited when creating the Price Books, the names of the Quick Pick packages are designed to offer insight as to which options are included. For example, CAB 3PT 1WO HC is a package that includes a cab, 3-point hitch, single tilt without holding valve and a hydraulic loader quick coupler. Additional options are also included in the packages but the title is designed so you can quickly decide where to start based on your preference to choose a ROPS/CAB, 3-point hitch, single/dual tilt etc.

Below is a chart describing the abbreviations:

ROPS	Rear Equipment	PTO	3-Point Equipment	Loader Bundle
Cab	3-Point	No PTO	Single Tilt Without Holding Valve	Hydraulic Bucket Coupler
ROPS Canopy	3,000 Counterweight	PTO Ready	Single Tilt With Holding Valve	
Low Profile			Dual Tilt With Holding Valve	

The Quick Picks offered are Only for 4WD models. There are no QP for 2WD.
