## Gain 3 Times the Purchasing Power of Your Equipment Budget! Improve Productivity and Lower Labor Costs!

Using a 36 month lease strategy allows your organization to gain three times the purchasing power of your equipment budget. Three times the purchasing power to help you control your number one cost - labor - by increasing productivity through more mechanization. After 3 years, there is a \$1 buyout for ownership where you can then use that asset to lower your costs on continuously leasing the best equipment for your organization!

### Preserve Your Cash Flow

With lease financing, you need only minimal initial investment to get the equipment you need, and you can comfortably spread your payments out over time. This allows you to preserve your working capital for the operation.

### Increase Flexibility

Your equipment needs will grow and change. With equipment lease financing, you have the option to take on additional equipment or upgrade the equipment you currently possess.

### Special 0% Municipal Lease Programs
