

**CATERPILLAR MACHINE PRICE LIST**

**D5**

D5 TRACK TYPE TRACTOR PIRACICABA, BRAZIL	Ship Weight lbs	LIST PRICE AT DEALER
---	--------------------	-------------------------

Standard Equipment:

**POWERTRAIN**

- C7.1 Caterpillar diesel engine
- Enhanced auto shift (EAS)
- Torque divider, lock up clutch
- Transmission, electronically controlled powershift, 3-Speed
- Shift management:
  - automatic directional and downshift
  - controlled throttle, load compensated
  - programmable/selectable bi-directional shifting
  - Infinite ground speed adjustment (GSA)
- Air cleaner, integrated pre-cleaner with dust ejector
- Aftercooler, air to air (ATAAC)
- Coolant, extended life
- Fuel priming pump, electric
- Radiator, aluminum bar plate
- Starting aid, ether ready, automatic

- Cupholders
- Electro-hydraulic implement steering controls
- Footpads, dash
- Glovebox
- Lunchbox storage
- Mirror, rear view
- Seatbelt, retractable, 76mm (3 inch)
- Wipers
- Mounts, cab, viscous

**TECHNOLOGY PRODUCTS**

RADIOS - Authorization varies by country please contact your Cat marketing representative with questions or click on the link below:<https://dealer.cat.com/en/products/technology.html>

PRODUCT LINK- Availability varies by country, please contact your Cat marketing representative with questions or click on the link below:  
<https://dealer.cat.com/pl/certification>

**UNDERCARRIAGE**

- Carrier rollers, lifetime lubricated
- Equalizer bar
- Idlers, sealed and lubricated
- Rollers, lifetime lubricated
- Track adjusters, hydraulic
- Track roller frames, tubular
- Track, sealed and lubricated
- Sprocket segments, replaceable

**OTHER STANDARD EQUIPMENT**

- Mounts, cab, viscous
- C-Frame, cylinders (VPAT) and lines
- Ecology drains (engine oil, engine coolant, powertrain case, hydraulic)
- Engine enclosures, perforated, lockable
- Extended service intervals (500 hrs engine, 1000 hrs powertrain)
- Front pull device
- Grill, radiator, heavy duty
- Ground level service center with remote electrical disconnect and secondary shutdown switch
- Guards, hinged bottom
- Pitch link, adjustable (VPAT)
- Pressure taps, centralized & remote mounted
- Scheduled Oil Sampling (SOS) ports
- Rear access ladder
- Shovel holder
- Drawbar

**HYDRAULICS**

- Independent steering and implement pumps
- Load sensing hydraulics
- Fan, hydraulic, cold weather

**ELECTRICAL**

- LED lights
- Alarm, backup
- Alternator, 105 A
- Batteries, two maintenance-free 12 V (950 cca) (24 V system)
- Converter, one 15A 12V outlets
- Horn, forward warning
- Starter, 24 V

**OPERATOR ENVIRONMENT**

- One-piece cab, sound suppressed:
  - Integrated rollover protection IROPS/FOPS
  - Cab-mounted modular HVAC system
- 8-inch (203 mm) gauge cluster display
- Cloth seat
- Machine Security System
- Lights - 4 LED
- Slope Indicate

**UNDERCARRIAGE**

Customers should carefully select between Cat Abrasion and Heavy Duty Extended life Undercarriage based on expected underfoot and application. Please refer to the Undercarriage Application Guide. [https://oneclick.cat.com/files/UAGuide\\_3\\_27\\_13/index.html](https://oneclick.cat.com/files/UAGuide_3_27_13/index.html) or PEBJ0024

**UNDERCARRIAGE SYSTEMS**

**Heavy Duty Extended Life (HDXL):** For use in all applications. Track bushings can be turned and re-sealed mid-life. Press-fit bushings and PPR2 pin retention are particularly well suited for impact applications such as forestry, waste, rock, or V-ditching. Heavy Duty Extended Life with Duralink.

**Cat Abrasion(ABR):** For use in low to moderate impact applications and moderate to high abrasion underfoot. A rotating bushing reduces bushing and sprocket wear rate. Relieved Tread Idlers provide longer link wear life and improve finish grading by reducing link scallop. Not for use in high impact or waste.

**Standard:** Has alternating Single Flange and Double Flange track rollers. For use in applications with side slopes up to 4:1; ground objects up to 1"; and little if any V-ditching. Recommended to order with Center Guides.

**Tall Double Flange:** Has Tall Double Flange track rollers in all positions except the end rollers. Provides improved track guiding in rough underfoot or side slope applications steeper than 4:1. Recommended to order with Partial Guides.

**Waste:** Includes Kevlar guarded, sealed idlers to help prevent debris such as wire, string or plastic bags from wrapping into seals. Has alternating Single Flange and Double Flange track rollers. Recommended to order with Center Guides.

**Fine Grading:** Uses 8 roller track frame from the LGP version that provides more tracks on the ground for increased fore/aft stability and improved grading

**GUIDING GUARDS**

No guide: No track guide guards. Only for use in flat underfoot, ground objects 2.5 cm (1") and smaller and no V-ditching.

Center guide: Light track guiding with single center track guide guards. Use in applications with side slopes up to 4:1; ground objects up to 2.5 cm (1"); and little if any, V-ditching.

Partial guide: Moderate track guiding with two center track guide guards per track frame. Use in applications with side slopes between 4:1 and 2:1; with ground objects 2.5 to 7.5 cm (1 to 3"); and low to moderate V-ditching.

Full guide: Heavy track guiding with full length track guide-guards. Use in applications with side slopes 2:1 and steeper; with ground objects greater than 7.5 cm (3"), and frequent V-ditching. Full length guards should not be used in applications with wet, heavy, packable underfoot material.

**GUIDING GUARDS FOR 40 SECTION TRACKS**

**TECHNOLOGY PRODUCTS**

**MACHINE CONTROLS**

A complete range of tools are available to match customer applications and dozing automation needs.

1) SLOPE INDICATE: Provides operator real time machine cross slope and mainfall information on the primary display.

2) BLADE LOAD MONITOR: Provides real time feedback of the current current load vs. the target machine load to fully utilize machine capacity. Feature not operational indoors or in areas where a GPS signal is not available.

3) STABLE BLADE: Complements the operators blade inputs to attain finish grades quicker with less effort.

4) SLOPE ASSIST: Helps operators reach cross slope and mainfall targets by automatically maintaining the dozer blades established blade angles. This feature does not require a base station, laser transmitter, design file, or additional hardware.

5) TRACTION CONTROL: Automatically prevents excessive track slip to improve efficiency and reduce burden on operator. Feature not operational indoors or in areas where a GPS signal is not available.

6) AUTOCARRY: Automates blade lift to maximize blade load, improve load consistency and reduce track slip. Feature not operational indoors or in areas where a GPS signal is not available.

7) ARO (Attachment Ready Option): Allows machine to easily be upgraded to Cat Grade with 3D integrated grade control systems or Accugrade GNSS, laser, or UTS blade mounted Grade Control Systems. ARO includes IMU sensors, EC520 controller, wiring, and mounting brackets. Upgrading to Cat Grade With 3D after build requires grade display, GNSS receivers and antennas, data corrections solutions, SITECH provided Grade license files, and Caterpillar provided SEA, part number 513-5980. Dealer to provide price for additional hardware and software.

8) GRADE W/3D: Cat Grade with 3D is a factory installed, integrated grade control system with chassis mounted sensors and GNSS antennas mounted to roof of cab. Includes grade display, GNSS receivers and antennas, GRADE license files, and Caterpillar provided SEA. Additional requirements via Cat/SITECH Dealer include data corrections solution and measure up calibration.

Note: Availability varies by country. Contact your Caterpillar Marketing representative with questions.

ARO w/ Assist: Includes G6:M6. Reference: <https://dealer.cat.com/en/products/technology/construction-technology> for certified countries.

GRADE 3D: Includes MS955 and RZ2. Reference: [Dealer.cat.com/en/products/technology/construction-technology/grade](https://dealer.cat.com/en/products/technology/construction-technology/grade) for certified countries.

**REAR ATTACHMENTS (Cont.)**

P	515-3711	<b>NO REAR ATTACHMENT</b> . . . . . 0		<b>NC</b>
		This reference must be selected only when the dealer wants to install their own rear attachments at the dealership or in the field. In any case, the machine must be sold to the final customer with an appropriate rear attachment (drawbar, ripper, winch, Striker box) to reach the optimum balance of the complete machine. Please check the global configuration of the machine is consistent with the intended rear equipment. Contact the Account Coordinator through DOCS to justify this order and obtain approval.
