General Announcements

Pre-Configured Packages are full model packages for Short Arm or Long Arm configurations. Once a package is selected, you can then select the required Buckets/Attachments to go along with your unit. Keep in mind, it is not possible to modify (add/remove) any other vehicle options when you select a Pre-Configured package. If a Pre-Configured unit is ordered, it will help reduce lead-time. Independent option ordering is still available if the package is not desired, however you may experience a longer lead-time.

The new C Series CASE Mini-Excavator's have a different dipper ear geometry, and therefore are not directly compatible with the previous B Series buckets. However, there are new couplers that have been developed for the C Series models to provide the ability to utilize both the B and C Series buckets. See reference table for each model:

C-Series Mini Excavator BUCKET COMPATIBILITY

General Information

Prices shown herein are suggested prices only and in no way are they to be construed as limiting or restricting the dealer in his determination of the ultimate retail selling price. It is understood that the dealers are free to determine their selling price. Subject to any Federal, State or local laws.

Where shown herein liquid capacities are U.S. measure unless otherwise noted.

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

Prices and specifications are subject to change without notice.

CONTENTS OF ORGANIZATION

Case Construction Equipment Inc issues price lists and revisions covering each Case contract. U.S. Price List is published in U.S. funds. Canadian Price List is published in Canadian funds. Assure that you are using the correct price list. The Canadian price lists are denoted by a Maple Leaf on the price list cover page and the symbol "(CDN)" is printed at the head of the Factory Supplied Attachments List columns.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory" and "Factory Supplied Attachments".

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory", "Factory Supplied Attachments", or "Third Party Supplied Attachments" pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" or "Third Party Supplied Attachments" heading are available for installation in the field.

ATTACHMENTS

Expect Attachments to be shipped within 2 -3 weeks from order entry.

General Information

DISTRIBUTION OF PRICE LISTS / REQUESTS FOR ADDITIONAL COPIES

Price lists will be provided electronically via that Dealer Portal.

Contact information for additional copies of Case Construction Equipment Price Lists

Additional price lists, divider tabs and binders may be ordered at the Document Management Center. From Dealer Portal click on Tools then Document Management Center link. Any questions you can call the Document Management Center at 262-636-7540

You will only receive price lists for contracts covered by your current Dealer Agreement with the Company.

The revisions are dated and are effective as of that date. However, PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

SD_10181 CRAWLER TYPE

	9552711	Rubber Tracks 400MM One-piece molded rubber belt track with a steel cable core. The entire track must be replaced at time of service. Select this track for general use on soils and hard surfaces.		No Charge
	9552710	Rubber Link Tracks 400MM Steel track chain with molded rubber grousers/shoes. These are also called hybrid tracks or roadliner tracks. Each Grouser/shoe has a steel core completely molded in rubber and can be individually replaced since they are bolted to a steel chain. This track will offer the stability of a steel track with the surface protection of a rubber track pad.		\$11,986.00
	9552612	Steel w/Pads 400 MM Steel track chain with steel grousers/shoes and bolt on rubber track pads. Each rubber track pad can be individually replaced or removed independently from the steel grouser/shoe. Select this option to gain traction on hard surfaces such as asphalt or concrete and to help protect their surface finish with the rubber track pads attached. All of the rubber track pads can be removed to perform as an all steel track as desired.		\$4,241.00
	9552613	Steel w/Pad Hole 400MM Steel track chain with steel grousers/shoes that have holes to accept bolt on rubber track pads. Select this track for the most aggressive traction in soils and if there is no concern for disrupting the appearance of ground conditions such as grass, asphalt or concrete. For added traction on hard surfaces such as asphalt or concrete and to help protect their surface finish it is recommended to use bolt on rubber track pads.		\$2,200.00

Pre-Configured Packages are full model packages for Short Arm or Long Arm configurations. Once a package is selected, you can then select the required Buckets/Attachments to go along with your unit. Keep in mind, it is not possible to modify (add/remove) any other vehicle options when you select a Pre-Configured package. If a Pre-Configured unit is ordered, it will be matched to one that is already built and ready to ship, which will reduce the lead-time by several months. Independent Option ordering is still available if the package is not desired, however you may experience a longer lead-time.

VERSION

SD_10181 CRAWLER TYPE

	9552711 Rubber Tracks 400MM One-piece molded rubber belt track with a steel cable core. The entire track must be replaced at time of service. Select this track for general use on soils and hard surfaces.			No Charge
	9552710 Rubber Link Tracks 400MM Steel track chain with molded rubber grousers/shoes. These are also called hybrid tracks or roadliner tracks. Each Grouser/shoe has a steel core completely molded in rubber and can be individually replaced since they are bolted to a steel chain. This track will offer the stability of a steel track with the surface protection of a rubber track pad.			\$12,502.00
	9552612 Steel w/Pads 400 MM Steel track chain with steel grousers/shoes and bolt on rubber track pads. Each rubber track pad can be individually replaced or removed independently from the steel grouser/shoe. Select this option to gain traction on hard surfaces such as asphalt or concrete and to help protect their surface finish with the rubber track pads attached. All of the rubber track pads can be removed to perform as an all steel track as desired.			\$4,424.00
	9552613 Steel w/Pad Hole 400MM Steel track chain with steel grousers/shoes that have holes to accept bolt on rubber track pads. Select this track for the most aggressive traction in soils and if there is no concern for disrupting the appearance of ground conditions such as grass, asphalt or concrete. For added traction on hard surfaces such as asphalt or concrete and to help protect their surface finish it is recommended to use bolt on rubber track pads.			\$2,200.00
