

HT66

SUGGESTED SELLING PRICE LIST

HT66 SERIES CRANE SERVICE BODIES

Available only with Venturo Cranes up to the HT66KX

STANDARD FEATURES

- LIGHTING WIRING HARNESS
- ELECTRICAL JUNCTION BOX
- PRE-DRILLED CRANE COMPARTMENT TOP PLATE
- DRAIN HOLES AND PLUGS IN ALL COMPARTMENTS

DESCRIPTION	WEIGHT	SELLING PRICE
HT66-163-DTF-WBB: 120" CA, 54" X 163". Integral crane reinforcement up to 66,000 FT. LBS., 62" tall compartments: SS1, SS2, SS3, CS1, CS2 and CS3, pre-stamped louvered doors for bottle compartment, 50" flat cargo floor, 22" compartment depth, adjustable uni-strut shelf strips (see accessories for shelving packages), eight (8) HD tie downs, three point keyed-alike premium ergonomic compression door handles with built-in key cylinder covers, automotive weather-tight door seals, 1/8" tread-plate floor, 1/8" tread-plate on all sides of cargo area and top of compartments, full undercoating, epoxy primer, mud flaps, all D.O.T. lighting. Rear outrigger: pre-installed double crosstube for 100% stability in all rotation zones, (see PHX pricing on crane price list) front outrigger: pre-installed 6" x 4" single cross tube. 32" WorkBench bumper with vise plate, pass through storage area and hinged doors. Includes lighting wiring harness, junction box, pre-drilled crane compartment top plate and drain holes and plugs in all compartments.	6,350	\$31,344.00
HT66-132-DTF-WBB: 84" CA, 54" X 132". All specifications are the same as HT66-163-DTF-WBB except: 62" tall compartments: SS1 and CS1 only and six (6) HD tie downs.	5,940	\$30,592.00

Consult factory for additional compartment configurations.

Note: Minimum chassis requirements: 33,000 lbs. GVWR; 34" frame rail width and heavy duty reinforced frame.

Actual chassis requirements should be determined by adding the weight of the body, crane, accessories and anticipated cargo. It is the sole responsibility of the installer to insure that the total structure of crane, truck, and outriggers are structurally sound and that the completed vehicle has sufficient stability against overturning. It is the responsibility of the crane installer to comply with the OSHA Truck Crane stability requirements as specified by 29CFR Part 1910-180 (c) (1).
