993K SERRATED EDGE BUCKETS

Serrated Edge Rock Buckets are based on the Standard Rock Bucket design and can be used for face loading rehandling low abrasion materials where greater penetration is required, such as limestone or coal applications. These buckets feature a serrated base edge design that does not require any additional GET.

994 WHEEL LOADER

994K BUCKETS

All 994K buckets need to be ordered through a MISC CMOPS Order, even if required for a new machine order. All 994K bucket orders need to be submitted to CWTS Wamego.

When ordering a 994K bucket intended for a new machine, please reference BOTH the Machine Order and Bucket Order on one another. For example, please reference the bucket order on the machine order and vice versa.
