COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. For more information on Cat Pin Grabber Couplers and hydraulics refer to media number GEJQ1298 or please refer to page 1 of this price list for contact information.

NOT FOR USE WITH: Mechanical Pulverizers or Mechanical Shears

GRAPPLES

Ensure that the host machine is configured with a Extreme Service Stick designed for hydro mechanical work tool applications. If the host machine is not configured with the heavier stick then install line relief valves that are typically used for Thumb applications such as 6E-5234 for the work tool (bucket) cylinder circuit. The lower pressure setting will reduce the amount of torsional force applied and greatly increase the reliability of the lighter stick.

**THUMBS, HYDRAULIC
 FOR 311F/D, 312E/D, 313F, 314F/E/D & 315F MACHINES
 MINIMUM STICK LENGTH OF 2.5M**

To have an operational thumb you will need to order one part number from each section:

- Section 1. Thumb Group
- Section 2. Bracket Group (if machine does not have Thumb Ready Stick)
- Section 3. Thumb hydraulic lines

Machines REQUIRE these Hydraulic Functions to Operate the Thumb:

- 1. Double or Combined Function Hydraulics

(FOR AVAILABILITY, PLEASE REFER TO PAGE 1 OF THIS PRICE LIST FOR CONTACT INFORMATION OR REFER TO MEDIA NUMBER GEJQ0215 FOR HYDRAULICS OR GEJQ2365 FOR THUMBS.

COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. For more information on Cat Pin Grabber Couplers and hydraulics refer to media number GEJQ1298 or refer to page 1 of this price list for contact information.

NOT FOR USE WITH: Mechanical Pulverizers or Mechanical Shears

---	----------	--	--	--------------------

GRAPPLES

Ensure that the host machine is configured with a Extreme Service Stick designed for hydro mechanical work tool applications. If the host machine is not configured with the heavier stick then install line relief valves that are typically used for Thumb applications such as 6E-5234 for the work tool (bucket) cylinder circuit. The lower pressure setting will reduce the amount of torsional force applied and greatly increase the reliability of the lighter stick.

THUMBS

**THUMBS, HYDRAULIC
 FOR 315D, 316E/F and 317 MACHINES
 MINIMUM STICK LENGTH OF 2.6M!**

To have an operational thumb you will need to order one part number from each section:

- Section 1. Thumb Group
- Section 2. Bracket Group (if machine does not have Thumb Ready Stick)
- Section 3. Thumb hydraulic lines

Machines REQUIRE these hydraulic functions to operate the thumb:

- 1. Double or combined function hydraulics

(FOR AVAILABILITY, PLEASE REFER TO PAGE 1 OF PRICE LIST FOR CONTACT INFORMATION OR REFER TO MEDIA NUMBER GEJQ0215 FOR HYDRAULICS OR GEJQ2365 FOR THUMBS.

COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. For more information on Cat Pin Grabber Couplers and hydraulics refer to media number GEJQ1298 or refer to page 1 of this price list for contact information.

GRAPPLES

Ensure that the host machine is configured with a Extreme Service Stick designed for hydro mechanical work tool applications. If the host machine is not configured with the heavier stick then install line relief valves that are typically used for Thumb applications such as 6E-5234 for the work tool (bucket) cylinder circuit. The lower pressure setting will reduce the amount of torsional force applied and greatly increase the reliability of the lighter stick.

CONTRACTOR GRAPPLES

G117 GRAPPLES

W	282-8316	GRAPPLE, CONTRACTOR 2,830 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services INCLUDES: Pin group and weld on stick bracket FOR USE WITH: Pin on or pin grabber coupler FOR USE WITH: 318E MACHINE Only!!! NOT FOR USE WITH: Thumb bracket		\$22,000 NI

THUMBS

**THUMBS, HYDRAULIC
 FOR 318F/E MACHINES
 MINIMUM STICK LENGTH OF 2.6M!**

To have an operational thumb you will need to order one part number from each section:

- Section 1. Thumb Group
- Section 2. Bracket Group (if machine does not have Thumb Ready Stick)
- Section 3. Thumb hydraulic lines

Machines REQUIRE these Hydraulic Functions to Operate the Thumb:

- 1. Double or Combined Function Hydraulics

(FOR AVAILABILITY, PLEASE REFER TO PAGE 1 OF THIS PRICE LIST FOR CONTACT INFORMATION OR REFER TO MEDIA NUMBER GEJQ0215 FOR HYDRAULICS OR GEJQ2365 FOR THUMBS.

SECTION 1. THUMB GROUP PRO PLUS (LINK WITH FULL ROTATION)
