WOLVERINE PERFORMANCE.

Choose your gear wisely. Count on the technology of Wolverine boots, shoes, apparel, and gear from head to toe. Wolverine is built for the toughest jobs, the longest days and the harshest conditions.

The Wolverine heritage of comfort, quality, and durability is present in every product that bears the Wolverine name.

RELENTLESS BY NATURE.

CARE FOR WOLVERINE BOOTS AND SHOES.

Our premium quality full-grain leather uppers may have natural markings or imperfections; these add to the boots' rugged appeal and in no way affect their durability or performance.

CARE INSTRUCTIONS: Little is required. Clean with a damp cloth using a solution of water and mild soap. Use a stiff brush for sueded leathers. Dry away from direct heat. Apply the following products to ensure a long life and maintain the suppleness of leather.

SMOOTH LEATHER: Apply Wolverine® Boot Dressing or Wolverine® Silicone Spray for water repellency.

SUEDE LEATHER: Use the Wolverine® Boot Brush to remove dirt and stains.

WOLVERINE®

PREMIUM FOOTWEAR TECHNOLOGIES

PERFORMANCE

WOLVERINE® DURA SHOCKS® COMFORT TECHNOLOGY

The new Wolverine DuraShocks is a fully integrated Energy Return System adding comfort into every step. Engineered for performance. Built to last. Wolverine DuraShocks.

TARGETED CUSHIONING AND FLEXIBILITY

A unique cushioning design optimizes comfort with cushioning in the heel and flexibility through the step

EFFORT-MAXIMIZING ENERGY RETURN SYSTEM

Wolverine H-Plate™ suspension system stabilizes your foot while creating four independently responsive quadrants to harness the energy of your step and propel you forward

INNOVATIVE OUTSOLE DESIGN

New outsole design works seamlessly with the groundbreaking Wolverine H-Plate™ for maximum energy return in every step

ANTI-FATIGUE

EPX® ANTI-FATIGUE

Tapping into your energy potential is as simple as lacing up a pair of Wolverine work boots. By bringing comfort closer to the foot, new EPX technology conserves and returns energy to fight fatigue.

HIGH DENSITY BASE LAYER
distributes weight evenly and enhances stability

HONEYCOMB HEEL
expands to absorb impact with each step

LOW DENSITY EVA FOAM
cushions from heel to toe

RIBBED SPINE
designed with a ribbed spine for flexibility

FLEXIBILITY

CONTOUR WELT® ENGINEERED FOR FLEXIBILITY

Designed to move with you in your environment, Wolverine Contour Welt™ provides the flexibility and comfort of an athletic shoe with the support and durability of a work boot.

CONTOUR WELT
Revolutionary welt design allows the boot to bend and flex at essential points for maximum performance

TECHNOLOGIES

30 DAY

COMFORT GUARANTEE

Try a pair of Wolverine® Contour Welt®, Wolverine MultiShox®, Wolverine DuraShocks®, EPX, Wolverine® Fusion® 180, Wolverine Fusion® or Wolverine ICS™ for 30 days. If you're not completely satisfied that they're the most comfortable boots or shoes you've ever worn, send them back for a full refund. Please call Customer Service at 1-866-699-7369. You must provide a dated sales receipt with return.

FUSION 180

WOLVERINE
FUSION 180

Wolverine Fusion® Means Extreme durability in heavy-duty Work Boots.
Fusion® 180° provides all day comfort on the toughest of job sites.

Nylon counter pocket at heel provides enhanced fit, reduces abrasion and extends life of the boot

Wolverine Extreme-R outsole is heat resistant up to 932° F – meets NFPA standard 1971

Wolverine MultiShox® compression pads absorb shock and return energy

Wolverine Fusion® 180° security stitch locks in the failsafe durability from arch to arch

30 DAY
COMFORT GUARANTEE

CARBONMAX

NANOTECHNOLOGY SAFETY TOE

CarbonMAX® is an advanced protection and performance safety-toe. CarbonMAX is lightweight, non-conductive to electricity and resists extreme cold and heat.

LIGHTER LOAD

It's lighter to reduce strain on your legs and feet all day long.

BETTER FIT

A thinner toe cap wall provides more toe room and added comfort.

STRONG STRUCTURE

Designed to meet ASTM standards and give protection from dangerous falling objects.

Get a perfect fit with the simple turn of a knob, free of the stretch, weight, and hassles of old-fashioned closures. Enjoy a significantly improved level of comfort along with durability, light weight, fast and convenient operation and on-the-fly adjustment.

Boa® lacing system guarantees a secure fit

Waterproof leather and Diesel mesh

1000 Denier Nylon upper is extremely durable and oil resistant

Armortek® Abrasion Protection

Vibram® Rubber Lug

GORE-TEX® – Renowned as the very best, GORE-TEX has set the industry standard for waterproof breathable membranes. Wolverine GORE-TEX boots and shoes are waterproof and completely breathable; perspiration easily escapes through the membrane and water never gets in, guaranteeing your feet stay dry in more ways than one. GORE-TEX is recommended for use in the harshest environments.

Waterproof+ – Wolverine Waterproof+ is a highly breathable waterproof membrane that guarantees feet stay dry by keeping water out and allowing excess heat and moisture to escape.

Waterproof – Wolverine waterproof features keep your feet dry and comfortable in a variety of environments.

3M™ THINSULATE INSULATION

Less bulky, more warmth – and dries quickly, too. Efficient 3M™ Thinsulate® offers low bulk insulation and dries quickly. Made up of thousands of tiny microfibers that trap insulating air. 3M™ Thinsulate® Insulation provides increased protection from the cold and retains its insulating characteristics even when wet.

WORKING FROM THE BOTTOM UP.

Whether walking to the job site or heading into unpredictable territory, Vibram® soles are built from the bottom up and are designed to overcome very specific obstacles on a variety of terrains.

Vibram invests heavily in the research and development of products, never overlooking even the most minute detail. Literally dozens of variables are taken into account during the creation of a Vibram sole. Two of these are fundamental: Foot movement and final use.

PRIMALOFT®

An innovative breakthrough that offers unprecedented performance in the face of extreme conditions: deadening cold and stifling heat. Millions of air pockets form a thermal blockade, locking out the discomfort of punishing temperatures. Optimally designed for footwear and handwear applications, PrimaLoft® Gold Insulation Aerogel retains on average 96% of its original thermal performance when faced with the pressure caused by active hands and feet

SECURITY FRIENDLY

Wolverine non-metallic Safety-toe footwear is rated ASTM F2413-11 1/75 C/75 and is undetectable in electronic security environments.

COMBATS ODOR, NATURALLY

Miles on the trail. Hours on the job. Days on the hunt.

If you work hard and play hard, sweat is a part of everyday life. But that doesn't mean you have to surrender to stinky, smelly, leave 'em outside boots. CLEANSPORT NXT breaks down sweat with powerful enzymes to help prevent odor before it starts. It's 100% natural and 24/7 odor control. You can defeat odor with CLEANSPORT NXT.

PORON EXTREME IMPACT PROTECTION

Protection so flexible, you have to feel it to believe it.

Believe it. PORON XRD Met Guards are soft and flexible for comfortable everyday wear, but form a hard, protective barrier upon impact. Protecting your feet and meeting ASTM standard F2413-11 MT/75 EH for Met Guards, PORON XRD combined with Wolverine DuraShocks will change the way you wear your boots.
