FIT GUIDE

COMPRESSION

Compression products hug the body for an ultra-tight fit. The compression fabrics have 4-way stretch, allowing these garments to achieve their snug fit and maintain their shape.

SIDE

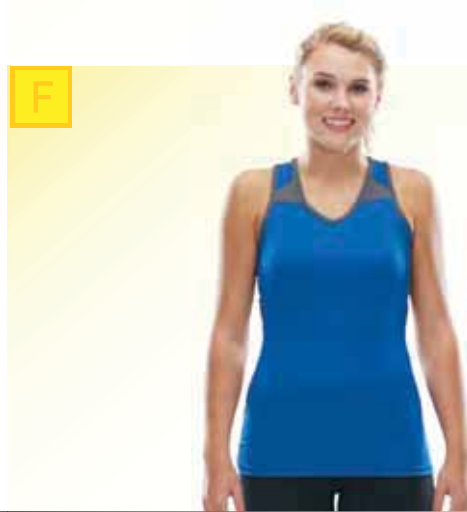

FITTED

Fitted products stretch to fit the body, but they do not show the same degree of body definition as the compression-fit styles. These products conform to the body's shape.

SIDE

ADULT | YOUTH

LADIES | GIRLS

This Fit Guide allows you to see how you can expect a product to fit, before you order it. Each product in the catalog features a fit icon as part of its description. If you need more specific measurement information, you can refer to page 348 in the back of the catalog for sizes and their coordinating measurements.

STEP 1: Start with the top chart for general size information. Not all of our products are represented by the size chart at the top.

STEP 2: For the best fit, click on the size spec button on the product page online at augustasportswear.com for specific style garment measurements. Some Ladies styles have a specific fit. Look for one of the icons near the product description to see the type of fit. Then check the garment measurements online for specific styles.

STEP 3: Not sure how the garment will fit or what size is best? Order samples so your customer can ensure all members of the group are in the right size. Sample Policy on next page.

FIT ICONS

See page 10-11 for a visual guide on our different fits

C **Compression** products hug the body for an ultra-tight fit. The compression fabrics have 4-way stretch, allowing these garments to achieve their snug fit and maintain their shape.

F **Fitted** products stretch to fit the body, but they do not show the same degree of body definition as the compression-fit styles. These products conform to the body's shape.

SF **Semi-fit** products flow over the contours of the body, showing some body definition.

R **Relaxed fit** products do not hug the body. These products fit loosely on the body, not showing body definition.
