988K WHEEL LOADER DECATUR, IL, USA	Ship Weight lbs	LIST PRICE AT DEALER
---------------------------------------	--------------------	-------------------------

Standard Equipment:

POWERTRAIN

- Advanced Productivity Electronic Control Shifting (APECS)
- Air to air aftercooler
- Brakes, full hydraulic, enclosed, wet multiple disc service brakes
- Electro hydraulic parking brake
- Engine, Cat C18 w/ACERT technology
- Fuel priming pump (electric)
- Fuel to air cooler
- Ground level engine shutoff
- Guard, transmission
- Hydraulically driven demand fan
- Integrated braking
- Radiator, Next Generation Modular (NGMR)
- Separated cooling system
- Starting aid (ether) automatic
- Throttle lock
- Torque converter, impeller clutch with lock-up clutch & rimpull control system
- Turbine precleaner, engine air intake
- Transmission, planetary powershift, 4F/3R electronic control

- Fuel level
- Hydraulic oil temperature
- Speedometer/Tachometer
- Torque convertor temperature
- Instrumentation, warning indicators:
 - Action alert system, three category
 - Axle/Brake oil temperature (front/rear)
 - Brake oil pressure
 - Electrical system, low voltage
 - Engine failure malfunction alert and action lamp
- Mirrors, rearview (externally mounted)
- Parking brake status
- Rimpull select switch
- Seat, Cat Comfort (cloth) air suspension
- STIC control system with steering lock
- Tinted glass
- Transmission gear (indicator)
- Product Link Elite:
 - VIMS
 - Graphical information display
 - External data port
 - Customizable operator profiles
- Wet-arm wipers/washers (front and rear), intermittent wipers (front and rear)

ELECTRICAL

- Alarm, back-up
- Alternator, 150-amp
- Batteries, maintenance-free, 4-1000 CCA
- Converter, 10/15-amp, 24V to 12V
- Lights, front & rear, access stairway, turn signals
- Starter, electric (heavy duty)
- Starter lockout in bumper
- Starting receptacle for emergency start
- Transmission lockout in bumper

OTHER STANDARD EQUIPMENT

- Automatic bucket tilt/lift kickouts electronically adjustable from cab
- Counterweight
- Doors, service access (locking)
- Ecology drains for engine, radiator, hydraulic tank
- Economy mode with on demand throttle
- Emergency platform egress
- Engine, crankcase, 250 hour interval with CJ-4 oil
- Engine idle management features:
 - Auto idle kickdown
 - Delayed engine shutdown
 - Engine idle shutdown
- Fuel tank, 731 L (188 gal)
- Ground level fuel fill
- Ground level transmission electronic clutch pressure control access
- Hitch, drawbar with pin
- Hoses, Cat XT(TM)
- Hydraulic oil cooler
- Hydraulic, steering and brake filtration/screening system
- Oil sampling valves
- Stairway, left and right rear access
- Steering, load sensing
- Toe kicks
- Vandalism protection caplocks

OPERATOR ENVIRONMENT

- Air conditioner
- Cab, sound-suppressed, pressurized, internal four-post rollover protective structure (ROPS/FOPS), radio ready for entertainment includes antenna, speakers, converter (12-volt 10/15-amp) and power port
- Coat and hard hat hooks
- E/H tilt & lift controls (seat mounted)
- Flip-up armrest
- Heater and defroster
- Horn, electric
- Implement hydraulic lockout
- Laminated glass
- Light, dome (cab)
- Lunchbox and beverage holders
- Instrumentation, gauges:
 - Engine coolant temperature

LUBRICATION ARRANGEMENTS

The autolube option provides a LINCOLN INDUSTRIAL CORP. "CENTROMATIC" automatic greasing system for 18 lube locations requiring lubrication on the Lift Ar. This arrangement is powered using hydraulic oil for trouble free performance and includes a 60 lb. reservoir. Special guarding is added when needed to protect lines or valve components. Tank or reservoir can be filled from a remote location at ground level or at the tank port.

Please pay attention to compatibility, it is dependent on Lift selection.

L	367-5610	LUBRICATION, STANDARD 0 ONLY FOR USE WITH: LIFT, STANDARD or LIFT, HIGH	0	NC
L	367-5580	AUTOLUBE, CENTROMATIC 393 ONLY FOR USE WITH: LIFT, STANDARD	393	\$15,960

SUSPENSION SYSTEMS

RIDE CONTROL

The ride control option provides a suspension system by placing two accumulators in the lift circuit. Manual off and automatic mode selection. In auto mode the suspension system engages when reaching preset value. It reduces bounce caused by bucket-induced loads when traveling loaded or unloaded. For use in high speed roading, load and carry, and any other application in which load retention, bucket spillage, or operator ride may be a problem. This option is ideal for government bid specifications.

L	347-4973	NO RIDE CONTROL	0	NC
L	478-3882	RIDE CONTROL Axle oil cooler is recommended with ride control attachment and any high braking applications. CANNOT BE USED WITH: 552-0032 or 552-0034 LOADER, STEEL MILL AVAILABLE FOR: ALL REGIONS EXCEPT EU	252	\$9,980

TECHNOLOGY PRODUCTS

PRODUCT LINK

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet.

Authorization varies by country, please reference <https://Dealer.cat.com/PL/Certification> for certified countries. Please contact your Caterpillar marketing representative with questions.

L	509-4155	PRODUCT LINK, CELLULAR PLE641 0 Product Link Elite series PLE641 offers expanded coverage including 3G UMTS and CDMA2000 as well as 2G GSM and CDMA cellular networks to transmit location, utilization and condition information for viewing in Product Link's remote monitoring web interface. Cellular technology provides capabilities for frequent transmission and larger volumes of data.		NC
L	509-4150	PRODUCT LINK, SATELLITE PLE631 0 Product Link Elite series PLE631 uses a satellite network to transmit location, utilization and condition information for viewing in Product Link's remote monitoring web interface. For use in areas with poor or no cellular coverage.		\$432

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice. However, if the tire type cannot be supplied we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

NOTE: All tires are tubeless, include heavy duty rims and come in a set of 4.

NOTE: 42PR tires may be used to improve lateral stability. Recommended for use with uneven floors and/or high truck loading heights with dense materials.

NOTE: Tires with HLA rims have tires mounted on rims for Heavy Load Applications. These are required for machines in block handler and millyard applications and any other application where higher loads may be encountered.

NOTE: Block Handler and Millyard orders require 42PR or ** tires with HLA rims.

TECHNOLOGY PRODUCTS

SOFTWARE ENABLED ATTACHMENTS (SEA) INSTRUCTIONS

Technology apps are activated by Software Enabled Attachments (SEA). SEAs are available factory installed or can be purchased for dealer installation.

Refer to Information Release Memo (IRM) EES03 -01 (media number PELJ0138) in the Caterpillar Media Information Center for further explanation of SEAs. Select the Product Support tab and search for number PELJ0138. Refer to REHS1238 & REHS8401 for how to obtain a Factory Level Password. Contact FPS: Internet with Corporate Web Security (CWS) ([https:// fps.cat.com/](https://fps.cat.com/)).

CAT PRODUCTION MEASUREMENT (CPM) PAYLOAD WEIGHING SYSTEM

Cat Production Measurement (CPM) includes an integrated onboard payload weighing scale. This measures and/or records:

- Payload weight, material ID, truck ID, cycle (bucket dumps) count and fuel consumption
- Allows on-the-go weighing of the bucket payload during the lift cycle
- Daily payload total (tonnes/tons), productivity (tonnes/hour or tons/hour) and efficiency (tonnes/liter or tons/gal) data is reported wirelessly via Product Link to the VisionLink fleet management web portal (Cat Essentials Product Link subscription required).
- Detailed payload, productivity & efficiency data can be downloaded to a laptop computer for analysis in the optional VIMSpC software (VIMSpC & VIMS data cable are required, but VIMS is NOT required.)
- Payload tickets can be printed with an optional printer

Refer to the Cat Connect Payload Technologies intranet page (<https://dealer.cat.com/payload>) for complete technical specifications; operation, sales, marketing and technical support publications.

NOTES:

- 1) Demo and permanent software are available from the factory.
- 2) For field installation, permanent software can be purchased through the Caterpillar Feature Protection System and enabled by a dealer technician with Cat ET and an SEA password. SEA p/n 433-2014. Consult ANTARES parts distribution system for latest SEA price.
- 3) Both demo and permanent software require calibration prior to customer use.

CALIBRATION INSTRUCTIONS

This app requires calibration and set-up by either the dealer or customer. Refer to the Systems Operation Test & Adjust manual UENR7119 for system calibration, material and truck ID lists set-up and operation instructions.

BUCKETS

For questions on buckets intended for Machine Orders please contact your Marketing Subsidiary Machine Coordinator.

Loose buckets should be ordered on a MISC Order through Caterpillar Work Tools - Wamego using source code OP-0672. For availability of loose buckets please email worktools@cat.com.

If you are going to order a loose bucket from CWTS and a machine from Aurora and if you need them shipped at the same time then you need to cross-reference the MSO's with each other.

"GET" is NOT automatically included on bucket orders. "GET" must be entered on the order with your bucket selection, unless text for bucket states otherwise. Please make the "GET" selection from the "GET" listed immediately following the bucket listing. Rock bucket selections list "GET" for spade or straight edge.

Material density will determine the appropriate capacity bucket. Refer to the Specalog. Exceeding maximum payload may cause loader instability.

All listed Maximum Recommended Material Densities are based on the maximum gross weight that the 988K is rated for minus the weight of the bucket and all required G.E.T. at 100% fill factor.

EXPORT ORDERS - If you are ordering a LOADER, STANDARD & BUCKET, then you must order your BUCKET as Not Installed (NI).

GENERAL PURPOSE BUCKETS

Use for excavating and bank loading material requiring breakout force as well as stockpile / rehandling applications. Includes casted corner in sidebar for Corner Guard System GET.

IRON ORE BUCKETS

P	498-9998	BUCKET-ROCK, 154" 6.20YD3	12,767 12,767	\$69,969 \$69,969 NI
---	----------	-------------------------------------	------------------	-------------------------

Iron ore design w/ lower capacity
 SPADE EDGE
 Maximum Recommended Material Density: 2412 kg/m3 (4065 lb/yd3)
 INCLUDES: (7) weld-on Advansys 130 double strap adapters on a 64mm thick cutting edge with weld-on base edge end protection floor liner, radius liner, inside and outside wear plates, (1) 75mm bolt-on half arrow segment group, 22mm bolt-on base edge bottom wear plates, 35mm weld-on heel plates, (2) sets of sidebar protectors
 REQUIRES: (7) Advansys 130 tips

GET for HD ROCK / HD GRANITE / IRON ORE BUCKETS

(includes mounting hardware)

P	381-4095	TIP, HEAVY PENETRATION	65	\$350
---	----------	----------------------------------	----	-------

Recommended for high abrasive and impact conditions, especially shot rock. Excellent penetration and wear material.

ONLY FOR USE WITH: Advansys 130 adapters

P	381-4096	TIP, HEAVY ABRASION	68	\$379
---	----------	-------------------------------	----	-------

Recommended for high abrasive, moderate impact, easier-to-penetrate materials. Excellent wear material, less penetration.

ONLY FOR USE WITH: Advansys 130 Adapters

RETRO-FIT KITS for CURRENT 988K

If ordering on a MISC MSO, you need to use OP-4742 for TOP LEVEL and OP-0812 for PACKING.

Kits must be ordered as NOT-INSTALLED.

No returns on Kit components or for parts removed.

C	557-9861	KIT, AXLE OSCILLATION STOP 0 988K Ser# TWX00001 & up, T8E00001 & up, LWX00001 & up, L8X00001 & up Provides clearance to accommodate L5 slick tires or machines equipped with tire chains. Limits rear axle oscillation to +/- 6 degrees. REQUIRED BY: 552-0032 or 552-0034 LOADER, STEEL MILL		\$367 NI
C	560-2915	KIT, TIRE PRESSURE MONITORING 0 988K Ser# TWX01247 & up, T8E00001 & up, LWX00756 & up, L8X00001 & up Provides four sensors that mount to the valve stem of each tire along with a receiver module that monitors both pressure and temperature in each tire. Tire pressure and temperature information is shared with the operator via the primary display. Warnings are provided through Unified Fleet if pressure is outside of a configurable target range. Software license for Cat Tire Pressure Monitoring (TPM) will be a separate charge. Requires SEA for permanent activation.		\$3,125 NI
C	563-3197	KIT, WHEEL CHOCKS 0 988K Ser# TWX00001 & up, T8E00001 & up, LWX00001 & up, L8X00001 & up Provides all parts for field installation of wheel chocks and an integrated storage system.		\$1,980 NI
C	516-3925	KIT, TIRE HANDLER (SL) 0 988K Ser# TWX00001 & up, T8E00001 & up, LWX00001 & up, L8X00001 & up Provides additional counterweight for tire handler applications. CANNOT BE USED WITH: BUCKETS		\$32,890 NI
C	513-5313	KIT, AGGREGATE HANDLER (SL) 0 988K Ser# TWX00001 & up, T8E00001 & up, LWX00001 & up, L8X00001 & up Provides additional counterweight for the Aggregate Handler, which allows customers to maximize machine payload in re-handling applications. Reference salesgram TEKQ1223-01. ONLY FOR USE WITH: Standard Lift, 2 Star or 42PR Tires, & GP Bucket		\$13,772 NI
C	513-5314	KIT, AGGREGATE HANDLER (HL) 0 988K Ser# TWX00001 & up, T8E00001 & up, LWX00001 & up, L8X00001 & up Provides additional counterweight for the Aggregate Handler, which allows customers to maximize machine payload in re-handling applications. Reference salesgram TEKQ1223-01. ONLY FOR USE WITH: High Lift, 2 Star or 42PR Tires, & GP Bucket		\$21,206 NI
C	498-9814	KIT, RIDE CONTROL (STANDARD) 0 988K Ser# TWX00001 & up, T8E00001 & up, LWX00001 & up, L8X00001 & up Provides all parts for field installation of the ride control system. Accumulators meet Canadian pressure vessel requirements.		\$10,600 NI

COMMAND FOR LOADING KIT

Command for loading enables remote operation of the Cat 988K. In order to promote safety with minimal impact to productivity, Command for loading removes the operator from the cab of a machine. The Command for loading Operator Console utilizes seamless integration of new on-board hardware with familiar controls to allow the operator to have full functionality of the machine from a safe distance. Command for loading is currently compatible with 988K. The Operator Console is extremely portable and is carried using a shoulder harness.

SOFTWARE ENABLED ATTACHMENT (SEA)

When quoting always include the price of the Software Enabled Attachment (SEA) even though it is not ordered at the same time as the installation kits. The on-board systems will not function until the SEA is activated. Once the system is installed, activation requires dealer support through Caterpillar Electronic Technician (Dealer Version), communication adapter, and authority to request factory passwords form the Caterpillar Factory Password System (FPS).

When the factory password is generated at the request of the service technician, a purchase order will automatically be generated in the ANTARES system by FPS.

Refer to Information Release Memo (IRM) EES03-01 (PELJ0138) in the Global Sales Library (GSL) for further explanation of SEA's. Refer to RESH1238 for how to obtain a Factory Level Password from <https://fps.cat.com/>.

SEA's cannot be ordered directly in ANTARES. They can only be ordered using the Factory Password System (see instructions above).
 WARNING: If you order directly in ANTARES, you may get invoiced twice.

P		SEA, COMMAND LOADING LP 0		\$42,760 NET
		Required to enable the remote operation Command for Loading on-board system. One is required per machine installation.		

BASE ON BOARD INSTALLATION KIT

The following field retrofit kit includes: on-cab lighting, electronics bay, wiring harness, bumper lockout service panel, and mounting hardware.

OPERATOR CONTROL KITS

The new Gen 3 console is designed to easily transfer control between machines that are equipped with Command for loading. In addition, the Gen 3 console has improved ergonomics, battery life, and serviceability. Gen 3 consoles are available in two frequency ranges: 900 MHz (902-928 MHz) or 2.4 GHz (2403.1-2478.6 MHz) to provide site and/or country specific requirement.

Approved countries:

900 MHz: United States and Canada.
 2.4 GHz: United States Canada, Australia, New Zealand, Peru, Chile, Columbia, Mongolia, Brazil, Mexico, Indonesia, Russia, European Union, Japan, China, Ukraine, South Africa, Democratic Republic of the Congo, and Saudi Arabia.

For the latest approved country listing, please visit:
<https://dealer.cat.com/cda/layout?m=423015&x=7&id=2678888>

The following Generation 3 Console kits contain one operator console, two rechargeable Lithium Ion console batteries, one DC battery charger, one AC battery charger, shoulder harness, 3 smart cards with pouch, system carrying case, Operations and Maintenance Manual, Quick Reference Guide, Trouble Shooting Guide, and Special Instructions.

NOTE:
 The ON-BOARD INSTALLTION KIT is available from the factory only.
 The CONSOLE INSTALL KITS are available from parts department only.
