D6 XE TRACK-TYPE TRACTOR
EAST PEORIA, IL, USA (SAP)

Ship Weight
lbs

LIST PRICE
AT DEALER

Standard Equipment:

POWERTRAIN

Electric drive, high efficiency
continuously variable speed
Travel speed control and brake pedals
C9.3B diesel engine
EPA/ARB Tier 4 final
certified engine with aftertreatment
Air cleaner, Strata tube precleaner
with dust ejection
Air filter w/electronic service
indicator
Aftercooler, air to air (ATAAC)
Coolant, extended life
Fan, hydraulic reversing, cold weather
Final drives, double reduction
planetary
Radiator, aluminum bar plate
Fuel priming pump, electric
Parking brake, electronic
Starting aid, ether ready, automatic
Turbocharger
Fuel water separator
Ecology drain

UNDERCARRIAGE

Carrier rollers
Equalizer bar, maintenance free
Rollers, lifetime lubricated
Track, lifetime lubricated
Track roller frames, tubular
Track adjusters, hydraulic
Sprocket rim segments, replaceable

ELECTRICAL

LED lights, 6 standard
Alarm, backup
Alternator, 150 AMP
Batteries, 2 maintenance free 12V
(1400 cca) (24V system), heavy duty
Converter, two 10 amp 12V outlets
Starter, heavy duty, 24V
Horn, forward warning
Light, work, underhood

OPERATOR ENVIRONMENT

One piece cab, sound suppressed,
Integrated roll over protection(IROPS),
adjustable operator controls and
armrests, cab mounted modular HVAC
system, and screen ready.
Cup holders
Lunchbox storage
Electro-hydraulic implement
steering controls
Full color LCD display, 254mm(10in)

integrated with rear camera
Foot pads, dash
Mirror, rearview
Seatbelt, retractable 76mm(3 in)
Wipers
Glove box

OTHER STANDARD EQUIPMENT

Ripper ready rear hydraulics
Winch ready rear hydraulics
Fast fill ready fueling
30 minute cab removal
Ladder, rear access
Mounting provision for grease gun,
shovel and fire extinguisher
CD ROM parts book
Engine enclosures, perforated
hinged, removable
Bottom guards, hinged, removable
Ground level service center with
remote electrical disconnect,
secondary shutdown switch & hour meter
Hood, perforated
Hydraulics, independent steering
and implement
Hydraulics, load sensing, dozer lift
and tilt
Product link, Cellular PLE641
Radiator doors, perforated, hinged,
louvered
S.O.S sampling ports
Vandalism protection for fluid
compartments and battery box

L	460-4580	OIL CHANGE SYSTEM, HIGH SPEED 0		\$890
		Easy access Wiggins connectors and remote engine and powertrain drain lines for quick, and easy oil changes without having to use gravity drains.		

UNDERCARRIAGE

Customers should carefully select between SystemOne and Heavy Duty Extended Life (HDXL) undercarriage based on expected application. Please refer to the undercarriage selection and application Guide.

UNDERCARRIAGE SYSTEMS

- 1) HDXL: Heavy Duty Extended Life with Duralink. Well suited to aggressive, high impact applications such as logging, side-slopes, or working in rocky or uneven terrain.
- 2) SYSTEMONE: Undercarriage designed to work and wear as a system for longer life and lower costs in many applications.

UNDERCARRIAGE (CONT.)

TRACK GUIDING

Guards and guides track for optimal performance. Protects sealing system, reduces undesired loads, and reduces packing. Guiding discourages derailing.

- 1) **CENTER GUIDE:** Light track guiding with single center track guard. For use up to 4:1 side slopes, with ground objects up to 1", and little, if any, v-ditching.
- 2) **PART GUIDE:** Moderate track guiding with two center track guards. For use in 4:1 to 2:1 side slopes, with ground objects 1" to 3", and low to moderate v-ditching.

OPTIONAL ARRANGEMENTS

- 1) **WASTE:** Includes Kevlar guarded, sealed idlers to help prevent wire wrap and keep debris out. Includes part guides.
- 2) **FINE GRADING:** Includes 10 bottom rollers for smoother grades at higher speeds, even in difficult surfaces like sand and gravel. Moderate service track shoes recommended.

TRACK GROUPS

- 1) **MODERATE SERVICE(MS):** Moderate Service shoe is the best shoe for low to medium impact and abrasive conditions. It gives the best penetration and traction, resists wear and bending and is available in various widths and modifications.
- 2) **EXTREME SERVICE(ES):** Extreme Service shoes should be used wherever the Moderate Service shoe bends or breaks, or when links outlast shoes. Extreme Service shoes are both stronger to resist bending and breaking and have more allowable wear and material than the Moderate Service shoe.
- 3) **CENTER(CTR):** SystemOne track includes center holes which reduce extrudable packing between the shoe and the bushing since the holes allow the sprocket to punch out dirt and debris. Recommended for applications where debris tends to pack in the track causing the track to tighten and accelerate bushing wear.
- 4) **TRAPEZOIDAL(TRAP):** HDXL track includes trapezoidal holes which reduce extrudable packing between the shoe and the bushing since the holes allow the sprocket to punch out dirt and debris. Recommended for applications where debris tends to pack in the track causing the track to tighten and accelerate bushing wear.

OPERATOR ENVIRONMENT (CONT.)

VISIBILITY ARRANGMENT

L	565-0836	VISIBILITY ARR, SINGLE CAMERA 0		NC
<p>The camera system can be used to enhance operator visibility of surroundings, or provide a better view of the work tool. The camera display is viewed thru the primary display while machine is in reverse. It is compact, rugged, reliable and simple to use. It is designed to be operated in the "automatic" mode where the display remains in standard mode until the machine is placed in reverse gear.</p>				

TECHNOLOGY PRODUCTS

A complete range of tools are available to match customer applications and dozing automation needs.

1) SLOPE INDICATE: Provides operator real time machine cross slope and and mainfall information on the primary display.

2) STABLE BLADE: Compliments the operators blade inputs to attain finish grades quicker with less effort.

3) SLOPE ASSIST: Helps operators reach cross slope and mainfall targets by automatically maintaining the dozer blades established blade angles. This feature does not require a base station, laser transmitter, design file, or additional hardware.

4) ARO (Attachment Ready Option): Allows machine to easily be equipped with Earthworks integrated grade control system or Accugrade GNSS, laser, or UTS blade mounted Grade Control System. Includes IMU sensors, wiring, and mounting brackets. Earthworks and Accugrade are Dealer installed.

5) Grade w/3D: Cat Grade with 3D is a factory installed, integrated grade control system with chassis mounted sensors and GPS antennas mounted to roof of cab. Includes touchscreen grade display, dual mounted receivers, dual mounted GNSS antennas, and factory enabled SEA. Cell based Product Link provides capability to wirelessly update grade design plans or connect to VRS networks (Subscriptions required for wireless services. Work with local Cat Dealer to enable.) Additional requirements via CAT/SITECH Dealer include correction radio and measure up calibration.
