PRODUCT AND PRICING BULLETIN

NEW HOLLAND BRAND PRODUCTS, U.S. NO. 18-60A

NEW HOLLAND DEALERS WITH LIGHT CE AGREEMENT

SUBJECT: **TRACTOR LOADER BACKHOES: EFFECTIVE MARCH 2019 PRODUCTION**

At New Holland Construction, we understand that the construction equipment market is highly competitive and fast paced. Timing and pricing are of the utmost importance, and our Dealer Network wants the process and product to be simple, easy to order and priced to compete. One way we can help improve the Dealer experience is with the introduction of Packages.

As part of the process of continuous improvement, we are pleased to announce the introduction of EasyPick packages for the **B95C 4WD** model. Dealer feedback showed that the product offering and ordering process was unnecessarily complex. Based on this feedback, EasyPick packages were designed to streamline the ordering process as well as encourage standard configurations within our dealer network. EasyPick packages will not only simplify configuration selection, but will also make transfers between dealers easier due to common configurations.

Dealers will have their choice of four Packages which include two Cab options and two Canopy options. Both the Cab and Canopy options will have a Basic and Deluxe package option. All packages include an incentive (see Price and Data pages for details). Also, as a large portion of New Holland TLB's are retailed to municipalities through the bid process, each Package has a selection of add-on options to help satisfy bid specs such as tires, buckets, and seats. A la carte ordering will still be available for customers with specific needs.

In addition to the packages, the following product update will be introduced on **ALL** models effective March 2019:

- Combo-Aux hydraulic option for Pilot Control machines
 - With 1-Way/2-Way switch in Cab
 - Extended 8-spool valve

The new combo-aux hydraulic option will allow operators to choose between a 1-way (hammer) circuit or a 2-way (thumb/auger) circuit with the flip of a switch.

In addition to product updates, all units produced in March 2019 or after will receive a 2% price adjustment.

Finally, we are simplifying our bucket offering for our **B95C Tool Carrier** model. The hydraulic quick coupler will become a stand-alone factory installed option with no bucket attached. Only standard pin-on buckets will be available as a factory installed bucket option. Buckets requiring a hydraulic quick coupler will instead be offered through Parts and can be found in the CE Attachments Catalog.

Action Required:

- Please carefully read through this Product & Pricing Bulletin.
- Review this bulletin with the appropriate people in your organization to ensure they understand the new pricing structure.
- Update business systems as required.
- File this bulletin under your Tractor Loader Backhoes tab for easy reference.
- Refer to your Dealer Policy Manual for details or contact Dealer Sales Support for assistance.

This bulletin and the price pages may also be accessed via the Dealer Portal if you have the Light CE agreement with New Holland. Log on to the Dealer Portal, with the "Wholegoods" button displayed, click on "Pricing," and then click on "Tractor Loader Backhoes." The latest published items will appear.

Please replace your current P&D pages with those attached to this bulletin.
