INSTALLATIONS

Functional storage and display of magazines! With the acrylic display on the cabinet door, it is easy to find the specific magazine you want to read. Open the cabinet door, and you will find older versions of the magazines easily and logically stored. There is also room for vertical storage boxes inside the cabinet.

ORDRUP DISPLAY

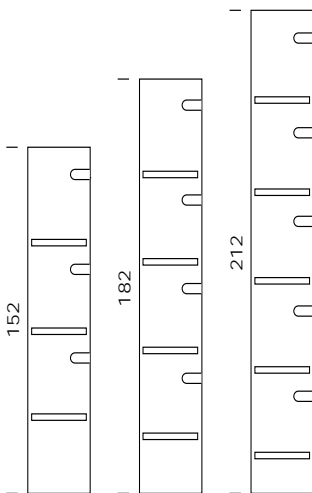

Ordrup Display is a combined magazine display and storage unit based on Slimline upright panels with painted end panels, painted cabinet doors and acrylic display. The end panel comes with a flat front edge. The full back and kickplate are painted. The height of the kickplate is different for all three shelving heights to cover the space between the bottom shelf and the floor in the best way for each height.

Behind the cabinet doors with acrylic display are compartments providing vertical storage boxes for older versions of the magazines.

The Ordrup display is made of painted MDF.

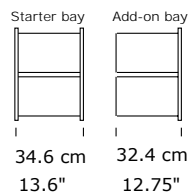

HEIGHTS

Ordrup Display comes in 3 heights; 152 (59.8"), 182 (71.7") and 212 (83.5")cm. Heights include adjustable feet (max. 2 cm).

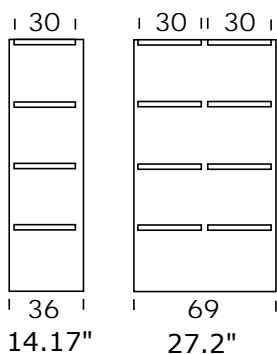

WIDTHS

The bays are available as starter and add-on bays. A starter bay has two outside end panels while an add-on bay has one intermediate end panel.

DEPTHS

The end panels come in 2 depths; 36 cm (14.17") for 30 cm deep shelves (single-sided) 69 cm (27.2") for 2 x 30 cm deep shelves (double-sided)

The ORDRUP MAGAZINE display is available in 3 different heights. This elegant and streamlined display fits in nicely with several of our main products: Slimline, Radius, our Box browsers and 60/30 shelving with London panels. Use the display as a piece of furniture on its own or as a room divider to help create just the right atmosphere.

INSTALLATIONS

The magazine display and storage shelving systems become more and more popular, not only in the library but also in various public areas where magazines need to be exposed and stored in a user friendly way. With our two different systems you can organize your magazines in an easy-to-find way and at the same time logically store older versions of the magazines.
