# About Baltix

What makes Baltix *abnormally green*? We make *responsible* commercial furniture solutions using carefully selected *sustainable* materials.

Sustainability is not just a part of our business, it's the core of our business. For the past decade, Baltix has been a leader & innovator as a manufacturer of authentically green commercial furniture that can contribute to your sustainable or LEED® project. We believe that our principles and core values will meet or exceed your expectations.

- **Green, healthy materials that are competitive & affordable**
  - Good, better, best green material price points
  - Wide choice of material combinations
- **Broad scope of products for every commercial application**
- **Solutions that are functional & durable**
  - Backed by a 10 year warranty
- **State of the art manufacturing and design tools**
  - Photo realistic renderings, CAD templates
- **Capability to ship small projects or large national programs**
- **Proudly manufactured in the U.S.A.**

Made in the USA

## Baltix Green Materials

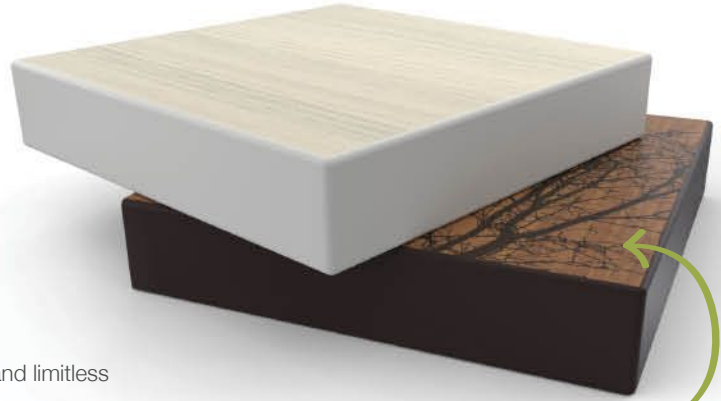

Our materials are a big deal to us. We strive to make our furniture the greenest on the market, and materials play a huge role in that. We have researched and tested dozens of different materials throughout the years, some of them trusty classics, and some cutting edge. Green criteria is very complicated, and every material is going to have green benefits and drawbacks. We aim to be totally transparent with our materials and have an open discussion on not only what makes them green, but also what makes them not so green. Have a look at the following pages and if you would like to learn more about a material (we salute you!) please give us a call.

# Wilsonart® Standard Laminate (F2) or Wilsonart® Custom Laminate (F2C) on Green Particle Board With BioEdge™

## What we love about this material:

1. Wilsonart laminate is GREENGUARD certified.
2. Particle board core is 100% recycled and CARB II compliant.
3. PolyBak backer material is GREENGUARD certified and contains no added formaldehyde.
4. Non-PVC BioEdge edge band is made from corn polymer.
5. Hundreds of colors and styles available in standard palette and limitless possibilities with custom graphics.
6. Custom laminates (created with customer supplied graphics) have short lead times and come with a proof print to ensure satisfaction.
7. Laminate provides a low maintenance and highly durable surface at a low price point.

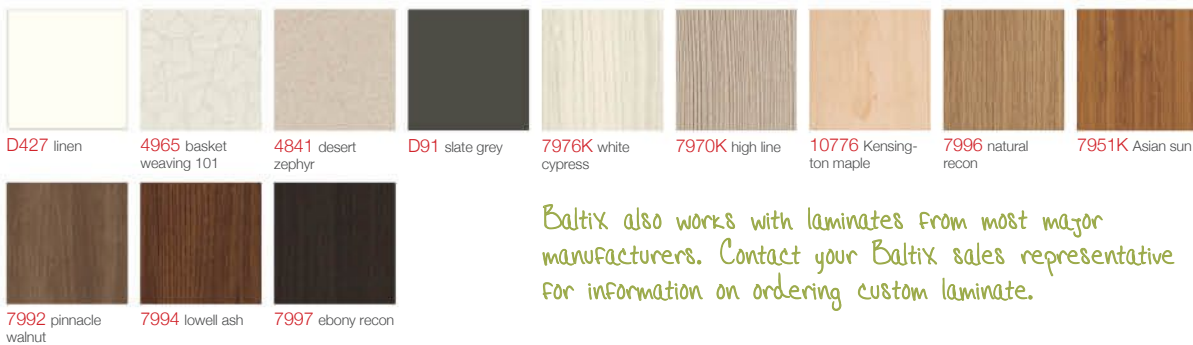

Let your imagination run wild! Our custom laminate program allows you to put your own imagery onto your table surface. Minimum quantity and set-up fees will apply.

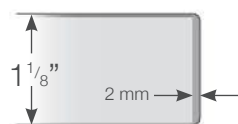

## What we're not so crazy about (because no material is perfect):

1. The laminate is petroleum-based (plastic).
2. This type of fused material makes end-of-life disassembly virtually impossible.

## Wilsonart Laminate Color Sampling (many more standard color options available)

## Edge Profile and Edge Band Color Selection

Corner radius: 3/32"

# Wilsonart® Standard Laminate (F4) or Wilsonart® Custom Laminate (F4C) on Birch Multiply with Exposed Edge

## What we love about this material:

1. Wilsonart laminate is GREENGUARD certified.
2. Multiply substrate is CARB II compliant and very durable.
3. PolyBak backer material is GREENGUARD certified and contains no added formaldehyde.
4. Exposed edge is finished with a low VOC (Volatile Organic Compounds) clearcoat finish.
5. Hundreds of colors and styles available in standard palette and limitless possibilities with custom graphics.
6. Custom laminates (created with customer supplied graphics) have short lead times and come with a proof print to ensure satisfaction.
7. Laminate provides a low-maintenance and highly durable surface at a low price point.

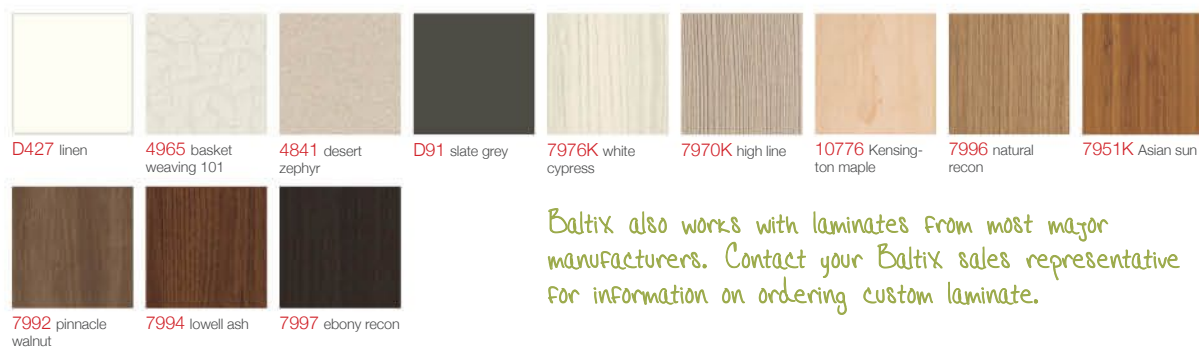

*Need something specific? Custom laminate allows you to use your own graphics to create the perfect look for your space. Minimum quantity and set-up fees will apply.*

## What we're not so crazy about (because no material is perfect):

1. The laminate is petroleum-based (plastic).
2. This type of fused material makes end-of-life disassembly virtually impossible.
3. Some of our multiply sources are shipping out of Europe.

## Wilsonart Laminate Color Sampling (many more standard color options available)

## Edge Profile Selection

Corner radius: 3/4"

Corner radius: 1/8"

# Forbo Linoleum on Green Particle Board With BioEdge™ (F6)

## What we love about this material:

1. Forbo is USDA Certified 100% biobased; made from pine rosin, wood flour, linseed oil, limestone, jute, and pigments.
2. Forbo is warm to the touch, easy to clean, and features naturally inherent antimicrobial and antistatic properties.
3. Forbo's sustainable, water-based Topshield 2 finish provides exceptional performance against soiling, staining, scratching, and scuffing.
4. Particle board core uses 100% recycled fiber and is CARB II compliant.
5. Edge band is non-PVC BioEdge made from corn polymer.
6. Hundreds of colors and styles available.

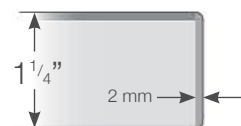

## What we're not so crazy about (because no material is perfect):

1. This type of fused material makes end-of-life disassembly virtually impossible.
2. Although it is widely distributed in the U.S., Forbo is originally manufactured in Europe.

## Forbo Color Sampling (many more color options available)

## Edge Profile and Edge Band Color Selection

Corner radius: 3/32"

# Forbo Linoleum on Birch Multiply with Exposed Edge (F7)

### What we love about this material:

- 1. Forbo is USDA Certified 100% biobased; made from pine rosin, wood flour, linseed oil, limestone, jute, and pigments.
- 2. Forbo is warm to the touch, easy to clean, and features naturally inherent antimicrobial and antistatic properties.
- 3. Forbo's sustainable, water-based Topshield 2 finish provides exceptional performance against soiling, staining, scratching, and scuffing.
- 4. Multiply substrate is CARB II compliant and very durable.
- 3. Exposed edge and bottom is finished with a low VOC (Volatile Organic Compounds) clearcoat finish.
- 5. Hundreds of colors and styles available.

### What we're not so crazy about (because no material is perfect):

- 1. This type of fused material makes end-of-life disassembly virtually impossible.
- 2. Although it is widely distributed in the U.S., Forbo is originally manufactured in Europe.
- 3. Some of our multiply sources are shipping out of Europe.

### Forbo Color Sampling (many more color options available)

### Edge Profile Selection

Corner radius: 3/4"

Corner radius: 1/8"

---

# Powder Coat on Green MDF (F8)

## What we love about this material:

1. Powder coated tops emit zero VOC's (Volatile Organic Compounds).
2. MDF core has a minimum of 86% recycled content with wood fiber from certified sustainable forests and is CARB II compliant.
3. Our powder coated tops are manufactured in Minnesota.
4. Seamless edges are moisture resistant and easy to clean.
5. Powder coating is electrostatically adhered (no solvents) and baked to final finish. Overspray is reused, not wasted.
6. Custom colors are possible...contact Baltix for more information.

## What we're not so crazy about (because no material is perfect):

1. The powder coating is petroleum-based (plastic).
2. This type of fused material makes end-of-life disassembly virtually impossible.
3. Due to the smoothness of the material, it may show some surface wear in high-use areas.

---

## Material Color Selection

Custom colors are available; minimum quantity and set-up fees will apply. Contact your Baltix sales representative for information.

## Edge Profile Selection

Corner radius: 3/4"

Corner radius: 1/8"

Corner radius: 1 1/4"

# PaperStone® (F15)

### What we love about this material:

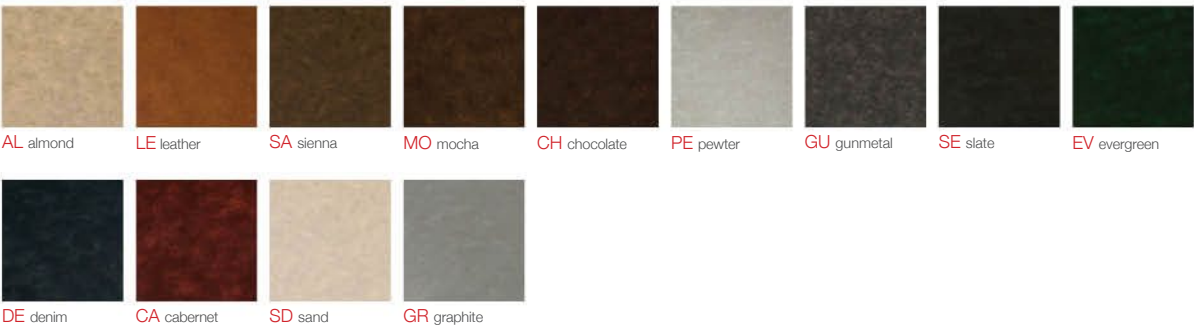

- 1. PaperStone is made from FSC-certified 100% post-consumer recycled paper.
- 2. PaperStone's durable, non-porous surface provides a lifetime of stain resistance and the product absorbs virtually no water.
- 5. PaperStone is saturated with proprietary PetroFree™ phenolic resin containing ingredients like cashew nut shell liquid. Created specifically to meet strict green requirements.
- 4. GREENGUARD certified, contains no VOC's (Volatile Organic Compounds).
- 3. Made in America.

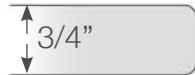

### What we're not so crazy about (because no material is perfect):

- 1. Heavier weight means more fuel for shipping.
- 2. Limited color palette and develops a patina over time (which isn't necessarily bad... just something to be aware of).
- 3. Not totally maintenance-free; an occasional application of Bee's Wax is recommended.

### Material Color Selection

### Edge Profile

Corner radius: 3/4"

---

# Nuxite (F16)

## What we love about this material:

1. Nuxite is made and manufactured in Minneapolis.
2. Made from crushed walnut shells, which are a sustainable, renewable by-product of annual walnut food crop harvests.
3. Solid surface is seamless, with high density and low absorption.
4. Resin binder is inert, non toxic, and contains zero VOC's (Volatile Organic Compounds).

## What we're not so crazy about (because no material is perfect):

1. The resin binder is made from petroleum, a non-renewable resource.
2. Heavier weight means more fuel for shipping.
3. Not totally maintenance-free; an occasional application of Bee's Wax is recommended.

---

## Material Color

---

## Edge Profile

Corner radius: 3/4"

# Steel Bases

### What we love about them:

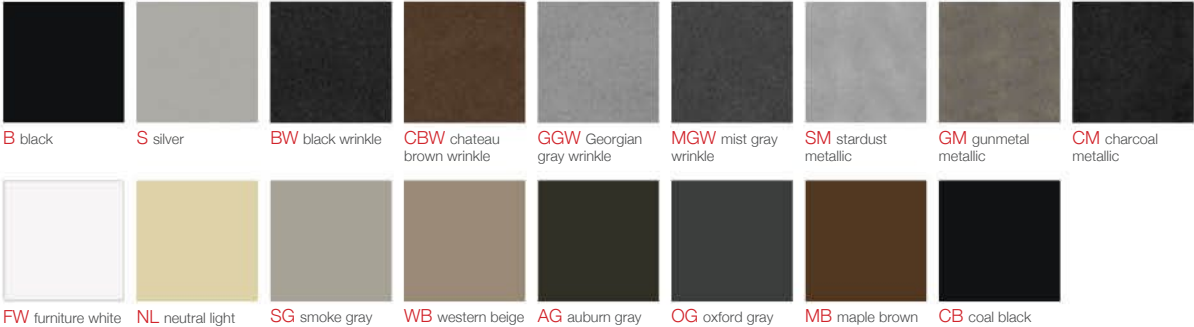

- 1. Supports BIFMA standards and recyclable.
- 2. Manufactured in Minnesota.
- 3. Powder coat finish emits zero VOC's (Volatile Organic Compounds).
- 4. Powder coating is electrostatically adhered (no solvents) and baked to final finish. Overspray is reused, not wasted.

### What we're not so crazy about (because no material is perfect):

- 1. Although the steel bases contain some recycled content (about 31%), they are not 100% recycled.

### Material Color Selection

# Cast Iron Bases

### What we love about them:

- 1. Made from recycled engine blocks (98% recycled grey iron) and are recyclable, durable, and dent resistant.
- 2. Powder coat finish emits zero VOC's (Volatile Organic Compounds).
- 4. Powder coating is electrostatically adhered (no solvents) and baked to final finish. Overspray is reused, not wasted.

### What we're not so crazy about (because no material is perfect):

- 1. The cast iron bases are made in Mexico, not the United States.
- 2. Black wrinkle is the only color option.
- 3. Cast iron bases may have longer lead times.

### Material Color

# Add-ons for Dining & Multi-use Tables

## Standard 2" Locking Casters **+LC**

**+NLC** Non-Locking casters also available at the same price

Dual wheel locking casters, black (4 per table) .....Add \$75 per table

## Premium Silver Locking Casters **+PLC**

Dual wheel locking casters, black and silver (4 per table) .....Add \$100 per table

## Premium Gray Locking Casters **+PGC**

Dual wheel locking casters, light gray/dark gray (4 per table) .....Add \$100 per table

## Custom Height **CH**

To replace standard "X" base .....Add \$60 per table (specify table height in inches)  
To replace standard "T" base .....Add \$120 per table (specify table height in inches)

## Ratchet Height Adjustability for Toob "T" Base **RH**

Available on our Toob T base only. Simply grab the edge of the table top and lift to raise. Ratchet will click incrementally until it reaches the top, then it will lower back down.

Base height (with standard levelers): 23" to 32.5" (9.5" range)

To replace standard Toob "T" base .....Add \$368 per table

## Flip-Top Mechanism for Nested Storage "T" Base **FFT**

Easy trigger mechanism can be operated from either end of the table! Includes locking casters.

To replace standard "T" base .....Add \$440 per table

## Flip-Top Mechanism for "X" Base **FFX**

Includes locking casters.

To replace standard "X" base (max. table top 36") .....Add \$240 per table

## Double Column Flip-Top Mechanism for Nested Storage **FFN**

Available for a 60" diameter and 48" square. Includes locking casters.

To replace 4 col. "X" base .....Add \$725 per table

**Folding Mechanism for Stacking “T” Base FT**

To replace standard “T” base .....Add \$290 per table

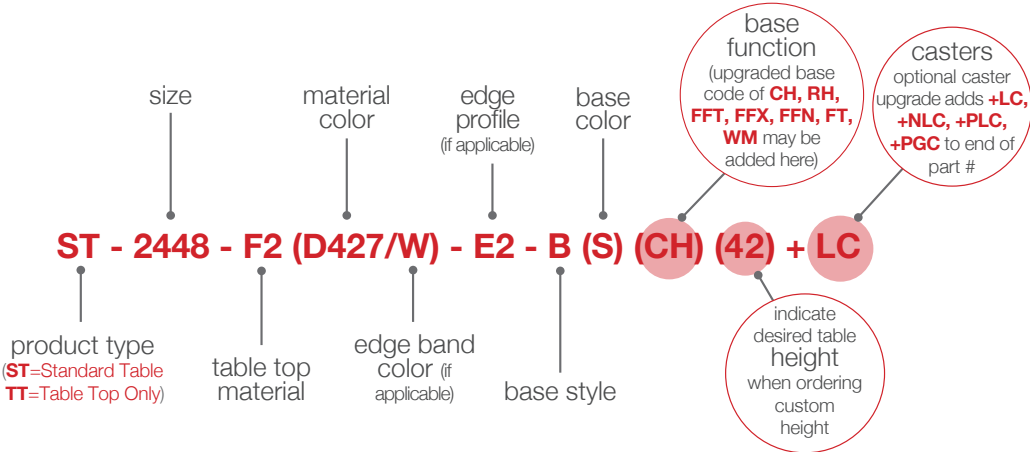

Note: 48” L table requires short-fold mechanism to allow legs to overlap and lay flat..... Add additional \$50 per table

**Wall Mount Cantilever Table Support WM**

To replace standard base (max. table top 36”x60”)..... Add \$180 to “table top only” price

**Part # Assessment**

---

## Classroom & Training Tables

Turn your table into a multitasker! Our classroom and training tables have oodles of optional features that will turn your space into a functional learning environment.

Pages are arranged by base style price, lowest to highest.

---

## Toob Base (BT)

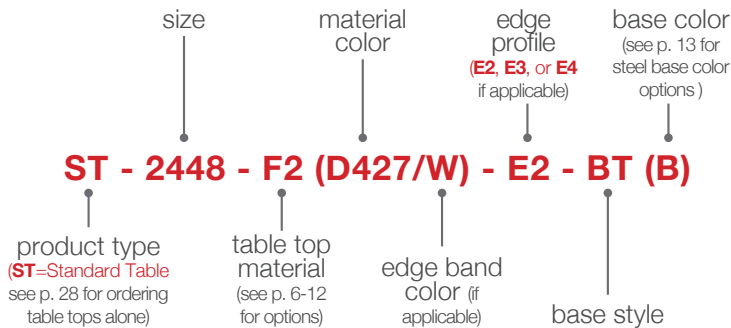

*This Table:* The training table shown here has add-on casters, modesty panel, and power/data grommet (see p.40-41 for these and other add-on features.)

**Part # Assessment**

Customize your table with additional features and add-ons! (see p.40-41)  
 Also, if you don't see the size or shape you need, please contact us for a custom quote.

**Note:** Standard table height is 29".

# Add-ons for Classroom & Training Tables

## Custom Height **CH**

To replace standard "X" base .....Add \$60 per table (specify table height in inches)  
 To replace standard "T" base .....Add \$120 per table (specify table height in inches)

## Ratchet Height Adjustability for Toob "T" Base **RH**

Available on our Toob base only. Simply grab the edge of the table top and lift to raise. Ratchet will click incrementally until it reaches the top, then it will lower back down.

Base height (with standard levelers): 23" to 32.5" (9.5" range)

To replace standard Toob "T" bases.....Add \$368 per table

## Asymmetrical (Offset) Base **A**

Maximum table width=36"

To replace standard centered "T" base .....Add \$60 per table

## Flip-Top Mechanism for Nested Storage **FFT**

Easy trigger mechanism can be operated from either end of the table! Includes locking casters.

To replace standard "T" base .....Add \$440 per table

## Folding Mechanism for Stacking **FT**

To replace standard "T" base .....Add \$290 per table

Note: 48" L table requires short-fold mechanism to allow legs to overlap and lay flat..... Add additional \$50 per table

## Standard 2" Locking Casters **+LC**

**+NLC** Non-Locking casters also available at the same price

Dual wheel locking casters, black (4 per table).....Add \$75 per table

## Premium Silver Locking Casters **+PLC**

Dual wheel locking casters, black and silver (4 per table) .....Add \$100 per table

## Premium Gray Locking Casters **+PGC**

Dual wheel locking casters, light gray/dark gray (4 per table) .....Add \$100 per table

## Table Connector **+TC**

Comes in sets of two and requires simple field installation. Durable rubber construction gives plenty of flexibility while keeping your tables securely joined together. Easy to attach and remove.

Black rubber .....\$65 for pair

**Modesty Panel +MP**

18 Gauge steel with slotted front, wire channel runs through the bottom of panel, can be added to any rectangular table up to 72" long. Will not work in conjunction with flip-top or folding mechanisms (previous page).

Comes in powder coat colors Black (B), White (W), or Silver (S)

L=47" for 48" long table.....Add \$210 per table  
 L=59" for 60" long table.....Add \$245 per table  
 L=71" for 72" long table.....Add \$280 per table

**Wireway Grommet +WG**

Grommet cutout with insert and cover. Hole size= 2", Overall diameter= 2 3/8"

Black (B), White (W), or Gray (G) ..... \$50 each

**Power & Data Grommet (inset version) +EG**

With two power outlets, two single data ports. Sits flat within the work surface for a high end finish. Contains recycled content that can contribute toward LEED points. 3 3/8" d x 5 11/16" w

Note: Number of data ports and power outlets is customizable...call for pricing.

Silver (S), Black (B), or White (W) .....\$300 each  
 Clear Anodized Aluminum (AA) or Stainless Steel (SS) .....\$350 each

**Square Tabletop Power Module +SDP**

A power station anywhere you need it! Simply sits on your table surface and plugs in anywhere. 2 power/2 active USB ports; 72" cord. 3 7/8" d x 3 7/8" w x 2" h

Black (B), or White (W) .....\$234 each

Edge clamp module shown here; tabletop module also available

**Rectangle Tabletop or Edge Clamp Power Module +RDP or +RDPC**

A power station anywhere you need it! Simply sits on your table surface or clamps to the edge and plugs in anywhere. 4 power or 3 power/2 USB or 2 power/4 USB; 72" cord. 2 3/4" d x 7 3/8" w x 2" h

+RDP Tabletop module; Black (B), or White (W) .....\$264 each  
 +RDPC Edge clamp module; Black (B), or White (W) .....\$264 each

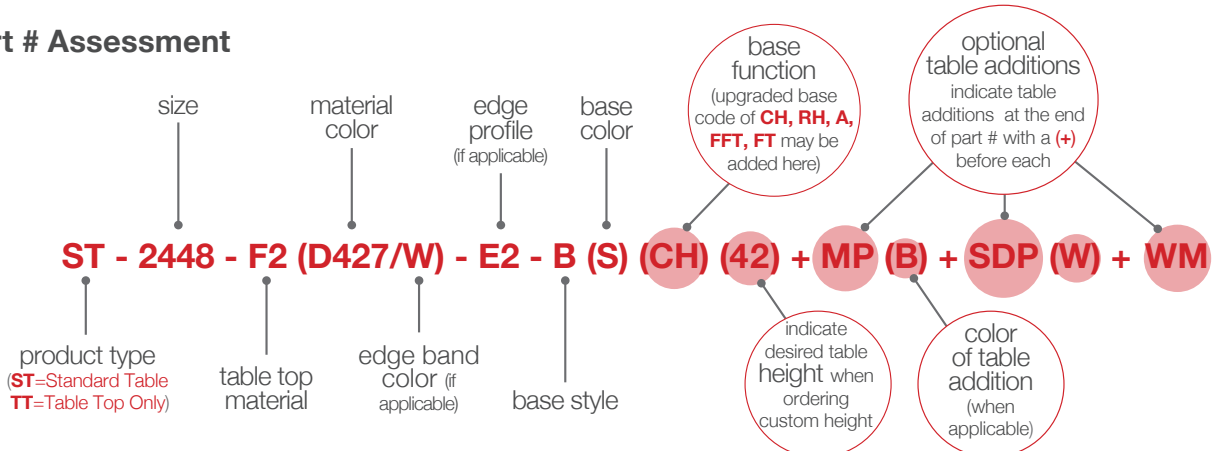

**4 Loop Wire Manager +WM**

Screws to underside of the table surface. Just slip wires through the loops! 2 19/32" d x 3 5/8" w x 1 5/8" h

Black only..... \$24 each

**Part # Assessment**

## Height Adjustable Tables

Gone are the days when you have to choose between a tall table and a short one...now you can have both (and everything in between)! Baltix offers several types of height adjustable bases at a variety of price points and height ranges. Our Motor and Pneumatic Lift mechanisms can even ergonomically support a full sit-to-stand. These mechanisms were designed in Germany and are made in the USA. What's not to love?

# Height Adjustable Tables

Range of height varies depending on mechanism used. See next page for information on the four mechanisms available and their height ranges.

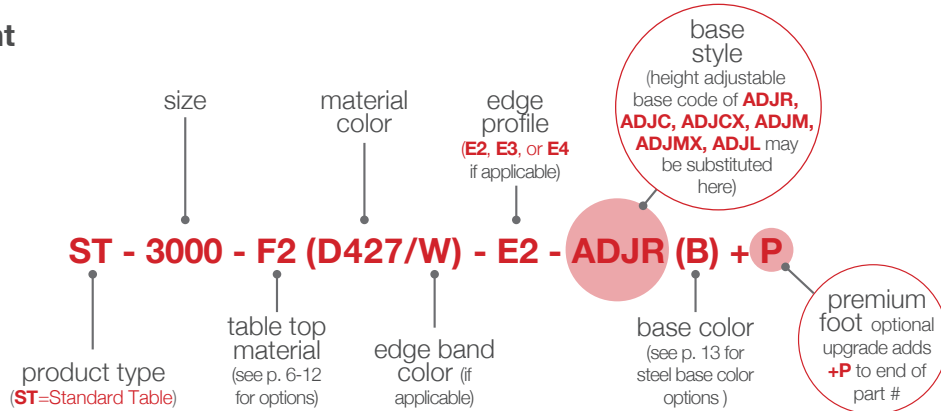

## Premium Foot for Height Adjustable Bases +P

To replace standard Foot .....Add \$170 per table

---

## Assemble™

Our new line of straightforward office furniture is one that all your colleagues will want to assemble around!

# Two Desk Options...

## Freestanding Desk

- Greatest flexibility for creating different layouts and configurations. Since each unit is totally self-sufficient, you can arrange and rearrange however you want, whenever you want!
- Can be left as a stand-alone, strung in a line, or clustered back-to-back without the commitment of shared components. Returns can be added to the left or right side of the top (at a 90° or 112° angle), or “split” between two side-by-side desks.
- Power units easily connect to the bottom of the wire trough. Power can be daisy-chained from one desk to another.
- Upper privacy panel is optional. When arranging freestanding desks back-to-back, privacy is only needed on one desk; the other desk can butt up to the backside with no gaps or extra parts.

Freestanding desks can be clustered together in a variety of ways, giving you the functionality of bench desking without the restrictions of shared components. This is a great option for anyone looking for modular furniture that can adapt to the needs of their space now and in the future. (Any configuration shown to the right--and many more--can be created with freestanding desks.)

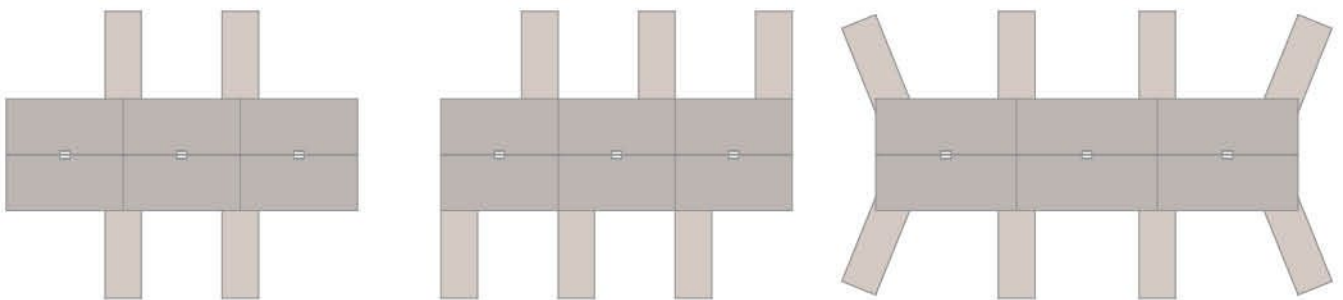

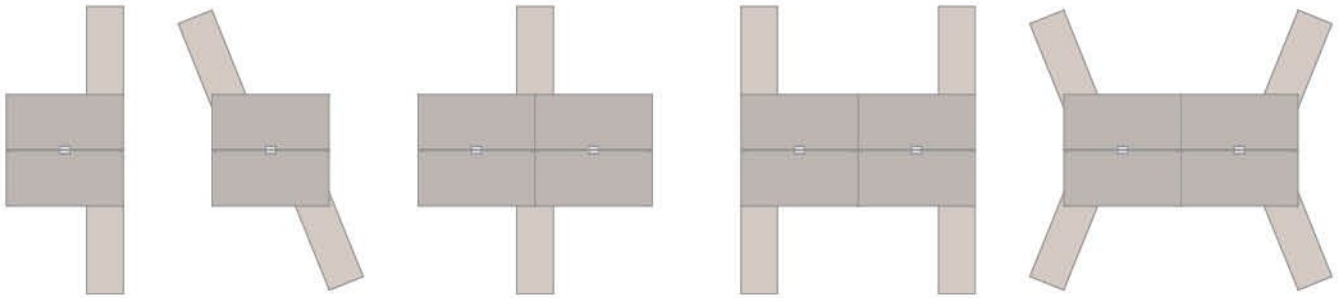

## 2, 4, or 6 Seat Shared-Leg Bench Desks

- By sharing components such as legs and wire troughs, the cost per seat is lower and there are fewer parts to assemble. The understructure is also more open.
- Returns can be added to the left or right side of each top (at a 90° or 112° angle), or “split” between two tops.
- Power units easily connect to the bottom of the wire trough. Power can be daisy-chained from one desk to another, so only one infeed cord is needed for the cluster.
- Upper privacy panels are optional.

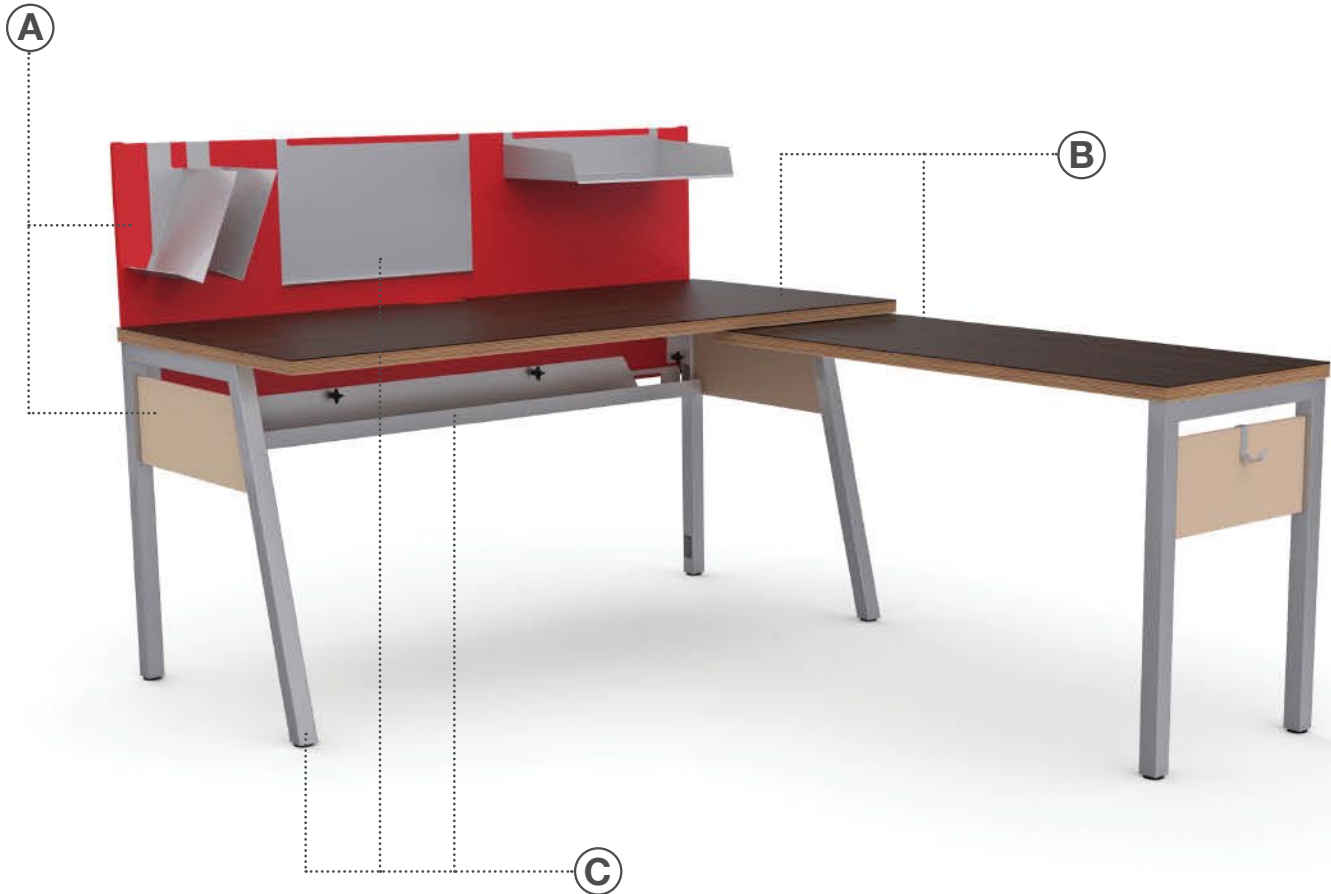

If a clustered bench works for your space and modularity isn't a concern, then shared-leg bench is the way to go. Fewer legs give a nice uncluttered appearance, and you'll save yourself some dough.

# ...Lots of Possibilities

---

# Assemble™ Materials

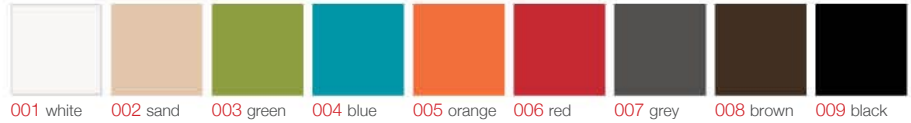

-  **Locally Sourced** ..... Sourcing locally helps our neighbors, cuts on shipping, and gets our materials to us quickly. It's a win-win-win!
-  **Recycled Content** ..... Do you ever get that warm fuzzy feeling when you rescue something from the trash? We do too!
-  **Bio-Based** ..... Products deemed bio-based can be returned to the earth at the end of their useful life. You're welcome, worms.
-  **Rapidly Renewable** ..... These materials are harvested responsibly and have quick growth rates. We think Mother Nature would approve.
-  **I.A.Q. Friendly** ..... (IAQ=Indoor Air Quality) You might miss that "new paint smell"...but trust us, your lungs will be thanking you!

**A Metem Recycled HDPE Plastic** 

Metem is made from 100% recycled HDPE plastic that has been discarded and recovered from the waste stream. It is durable, recyclable, maintenance-free and has no VOC off gassing. Metem comes in 9 vibrant colors.

**B Forbo® Linoleum over Birch Multiply** 

Made from natural raw materials, including linseed oil, pine rosins, and wood flour, Forbo linoleum is biodegradable and environmentally friendly. Additionally, Forbo is warm to the touch, easy to clean, naturally anti-microbial and anti-static. The birch multiply substrate is extremely strong and durable and is CARB II compliant. Edges and back side are finished with a low VOC water-based clear coat finish. (18 standard color options available; hundreds of additional options available, contact Baltix for more information.)

**C 100% Recycled Steel with Powder Coat Finish** 

We are proud to announce that all metal components for Assemble desks are made from 100% recycled steel. Our supplier incorporates sustainability concepts into their processes, recycling their scrap steel and their wash water. They have stopped using a phosphorus chemical that is often used in the industry to prepare steel for finishing, and they produce NO hazardous waste. Also, the powder coat finish is durable and VOC-free.

# Assemble™ Desks

Shown here with add-on return option (sold separately, see next page)

## Single Seat Freestanding Desk **FD**

Allows you to create open floor plans with the ultimate freedom of modularity. Available with or without upper privacy panel. Can be arranged independently or clustered together. 28”d x 60” or 72”w x 29”h

60” wide with no upper privacy panel (example: FD-60-3576-W-007).....	List Price \$2,204
60” wide with upper privacy panel (example: FD-60-3576-W-007+UP-005) .....	List Price \$2,512
72” wide with no upper privacy panel (example: FD-72-3576-W-007).....	List Price \$2,409
72” wide with upper privacy panel (example: FD-72-3576-W-007+UP-005) .....	List Price \$2,726

## 2 Seat Shared-Leg Bench Desks **BCH2**

If back-to-back desks are what you are looking for, shared-leg bench desks are the way to go. Shown here as a 2 seat option. 56”d x 60” or 72”w x 29”h

60” wide with no upper privacy panel (example: BCH2-60-3576-W-007) .....	List Price \$3,712
60” wide with upper privacy panel (example: BCH2-60-3576-W-007+UP-005) .....	List Price \$4,074
72” wide with no upper privacy panel (example: BCH2-72-3576-W-007) .....	List Price \$4,010
72” wide with upper privacy panel (example: BCH2-72-3576-W-007+UP-005) .....	List Price \$4,423

## 4 Seat Shared-Leg Bench Desks **BCH4**

If back-to-back desks are what you are looking for, shared-leg bench desks are the way to go. Shown here as a 4 seat option. 56”d x 120” or 144”w x 29”h

60” width per seat with no upper privacy panels (example: BCH4-60-3576-W-007) .....	List Price \$6,780
60” width per seat with upper privacy panels (example: BCH4-60-3576-W-007+UP-005) .....	List Price \$7,503
72” width per seat with no upper privacy panels (example: BCH4-72-3576-W-007) .....	List Price \$7,375
72” width per seat with upper privacy panels (example: BCH4-72-3576-W-007+UP-005) .....	List Price \$8,202

### 6 Seat Shared-Leg Bench Desks **BCH6**

If back-to-back desks are what you are looking for, shared-leg bench desks are the way to go. Shown here as a 6 seat option.  
56”d x 180” or 216”w x 29”h

- 60” wide with no upper privacy panels (example: **BCH6-60-3576-W-007**)..... List Price \$9,847
- 60” wide with upper privacy panels (example: **BCH6-60-3576-W-007+UP-005**) ..... List Price \$10,933
- 72” wide with no upper privacy panels (example: **BCH6-72-3576-W-007**)..... List Price \$10,740
- 72” wide with upper privacy panels (example: **BCH6-72-3576-W-007+UP-005**) ..... List Price \$11,981

### Add-On Return **RET**

Returns can be added to the left or right side of the top (at a 90° or 112° angle), or “split” between two side-by-side desks. See p. 55 for layout ideas. Comes with attachment hardware. No tools necessary for attaching a return to a desk; easily move from one position to another with two simple thumbscrews. 44.5”d x 18.5”w x 27.75”h (depth represents usable surface measured from edge of desk when return is attached)

(example: **RET-5223-W-001**) ..... List Price \$791

# Assemble™ Tables

## Rectangle Table **REC**

A great all-purpose table with a fresh updated look. Even though our bases are sleek and slim, we have designed them to be extremely rigid. Table-top dance party, anyone? 24”d x 60”w x 29”h

(example: REC-5223-W-001) ..... List Price \$1,536

## Round Meeting Table **RND**

Whether in an office or open floor plan, these great little meeting tables are the perfect spot to gather. 30,” 36,” or 48” diameter x 29”h

30” diameter (example: RND-30-3574-W) ..... List Price \$1,082

36” diameter (example: RND-36-5218-B) ..... List Price \$1,368

48” diameter (example: RND-48-3576-S) ..... List Price \$1,634

### Collaboration Table **COL**

Either standing up or with stools, this table provides a great spot to drop in and work. Angled struts help make this tall table extra sturdy. 28”d x 72”w x 40”h

(example: COL-3575-S-006) ..... List Price \$2,202

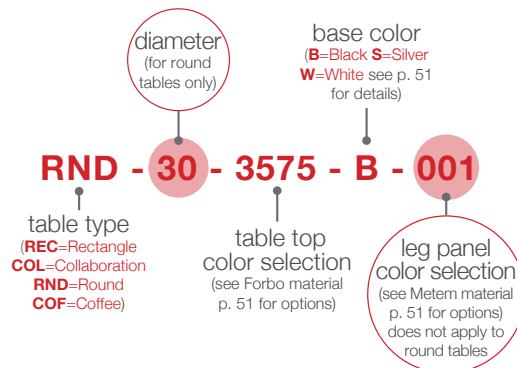

### Coffee Table **COF**

You can really put your feet up and relax knowing that this great little table is durable, stylish, AND green. 38.7”d x 38.7”w x 16.5”h (top size 36”x36”)

(example: COF-5229-S-003) ..... List Price \$1,302

### Part # Assessment

---

# Assemble™ Accessories

## Hanging Shelf **SH**

Holds all your stuff off the surface of the desk so you don't have to anymore. Think of all the work you'll be able to get done!  
11.8"d x 17.5"w x 4.2"h

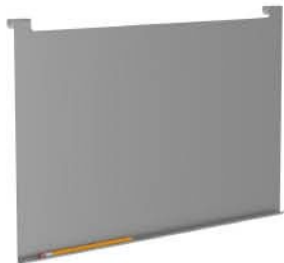

Powder coated steel; Black (B), Silver (S), White (W) see p. 51 for details (example: SH-S) ..... List Price \$112

## Hanging File **FL**

Tidy up even the most messy desk with these great organizers for books, folders, paper...whatever! 9.8"d x 5.6"w x 10.5"h

Powder coated steel; Black (B), Silver (S), White (W) see p. 51 for details (example: FL-S) ..... List Price \$76

## Hanging Magnetic Board with Pencil Rest **MB**

Use this magnetic board for hanging up anything you want! There are tons of great off-the-shelf magnetic accessories available these days, and we wanted to provide you with a place to put them! Handy "lip" at the bottom creates a rest for pencils, pens, and papers. Great for transcription typing. 1.2"d x 19"w x 12.2"h

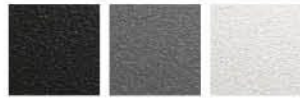

Powder coated steel; Black (B), Silver (S), White (W) see p. 51 for details (example: MB-S) ..... List Price \$60

## Hanging Hook **HK**

Hook this onto lower panels for hanging small bags or purses, or on upper panels for hanging other goodies. 2.4"d x 0.75"w x 2.4"h

Powder coated steel; Black (B), Silver (S), White (W) see p. 51 for details (example: HK-S) ..... List Price \$18

**BX**  
black  
textured

**MX**  
medium  
gray  
textured

**AR**  
arctic white  
textured

### Mobile Box/File Pedestal File **MBF**

Roll this handy little pedestal under the desk or the return. Comes standard with a lock, so all your knick-knacks are safe and sound. Front locking casters and anti-tipping counterweight included. Meets ANSI-BIFMA standards. 18”d x 15”w x 22 .375”h

Textured Powder Coated Steel\*; Black (BX), Med. Gray (MX), Arctic White (AR) (example: MBF-MX)..... List Price \$409

**BX**  
black  
textured

**MX**  
medium  
gray  
textured

**AR**  
arctic white  
textured

### Fixed Box/Box/File Pedestal File **BBF**

This standing pedestal file fits under the desk only (will not fit under return). If the desk has a return attached, ped. file should be placed on side of desk opposite the return. Comes standard with a lock and levelers. Meets ANSI-BIFMA standards. 22”d x 15”w x 26.75”h

Textured Powder Coated Steel\*; Black (BX), Med. Gray (MX), Arctic White (AR) (example: BBF-AR)..... List Price \$480

**BX**  
black  
textured

**MX**  
medium  
gray  
textured

**AR**  
arctic white  
textured

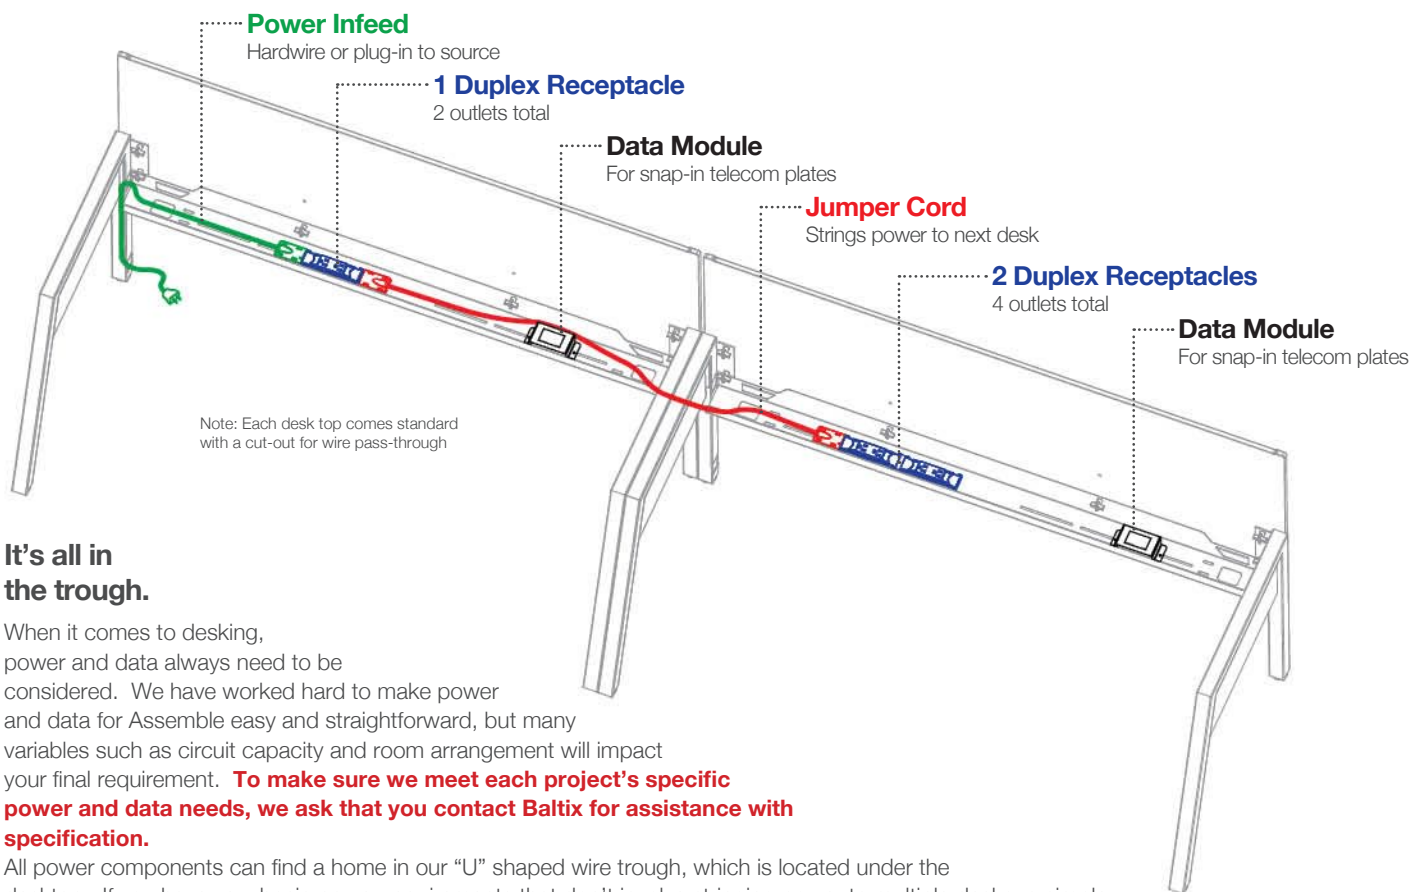

### Fixed File/File Pedestal File **FF**

This standing pedestal file fits under the desk only (will not fit under return). If the desk has a return attached, ped. file should be placed on side of desk opposite the return. Comes standard with a lock and levelers. Meets ANSI-BIFMA standards. 22”d x 15”w x 26.75”h

Textured Powder Coated Steel\*; Black (BX), Med. Gray (MX), Arctic White (AR) (example: FF-BX)..... List Price \$448

\*The steel used to make the pedestal files does not come from the same source as other Assemble steel components described on p. 51. However, it does contain recycled content, has a VOC-free powder coat finish, and is recyclable. Our supplier makes the files in the USA and recycles 100% of their steel scrap.

# Assemble™ Power & Data Options

## It's all in the trough.

When it comes to desking, power and data always need to be considered. We have worked hard to make power and data for Assemble easy and straightforward, but many variables such as circuit capacity and room arrangement will impact your final requirement. **To make sure we meet each project's specific power and data needs, we ask that you contact Baltix for assistance with specification.**

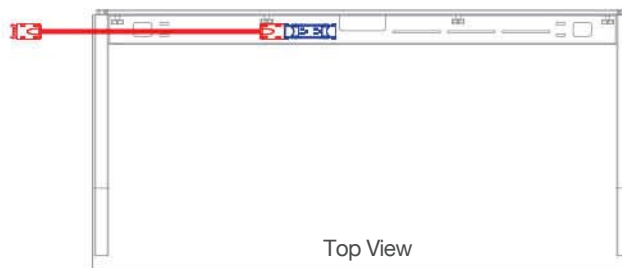

All power components can find a home in our "U" shaped wire trough, which is located under the desktop. If you have very basic power requirements that don't involve stringing power to multiple desks, a simple off-the-shelf multiple outlet strip will fit nicely in the trough. If you are looking for something a bit more sophisticated, we have developed an integrated power system that easily mounts to the bottom of the wire trough. The system revolves around "duplex receptacles," which contain two outlets each (shown in blue). They can be connected directly to one another, giving a single desk more than two outlets, or they can jump from one desk to another using special jumper cords (shown in red). For data hook-up, we can provide you with a simple metal "housing" unit that any standard telecom plate can snap into. Data should be installed by an IT provider. Data housing units also attach to the bottom of the wire management trough.

### Desk connected to power source

Includes one power infeed (hardwire or plug; length to be specified) and at least one duplex power receptacle (two outlets). Power infeed can be run through desk leg via wire management holes. 20 AMP corded infeeds are UL recognized.

- duplex receptacle ..... \$35 ea. (one pictured)
- power infeed..... approx. \$85 (length will affect price)

### Desk jumpered to another desk

Includes one jumper cord (length to be specified) and at least one duplex power receptacle (two outlets). Jumpers can connect power amongst shared leg bench desks or freestanding desks arranged side-to-side or back-to-back.

- duplex receptacle ..... \$35 ea. (one pictured)
- jumper cord ..... approx. \$55 (length will affect price)

**Data Module DATA**

Data always needs to be connected by an IT provider. This data module serves as a housing unit that holds any standard snap-in data telecom plate. Telecom plate not included. Connects to the wire management trough using two bolts and nuts. 2.25”d x 5”w x 1.5”h  
 Powder coated steel; Black (B), Silver (S), White (W) see p. 51 for details (example: DATA-W) ..... List Price \$26

**Power Options Beyond the Desk**

Clamp module shown here; freestanding module also available

**Small Tabletop Power/USB Modules; Square SDP, Rectangle RDP, and Triangle TDP**

These power “hubs” are so great looking, you no longer have to try to hide them. They simply sit on your desk surface and plug in anywhere. The rectangular module is also available as an edge-clamp mounting version, and the triangular module includes mounting hardware so you can leave it freestanding or affix it to the tabletop.

Square: 3.9”d x 3.9”w x 2”h; Rectangle: 2.75”d x 7.4”w x 2”h; Triangle: 10” at widest point x 2.85”h

Square Module (2 power/2 active USB ports, 72” cord); Black (B), White (W) (example: SDP-W) ..... List Price \$234  
 Rectangle Module (4 power; 3 power/2 USB; 2 power/4 USB, 72” cord); Black (B), White (W) (example: RDP-W) ..... List Price \$264  
 Rectangle Edge Clamp Module -C (3 power/2 USB ports, 72” cord); Black (B), White (W) (example: RDP-C-W) ..... List Price \$264  
 Triangle Module (3 power/6 active USB ports, 108” cord); Black (B), Silver (S), White (W) (example: TDP-W) ..... List Price \$634

**Large Floor Power/USB Module LPM**

The large Module is designed to sit right on the floor; simply pull it up next to any work space or lounge area. Now you can plug in all your devices anytime, anywhere...standard cord or USB! 18” at widest point x 25.5”h

(9 power, 6 active USB ports, 108” cord); Black (B), Silver (S), White (W) (example: LPM-W) ..... List Price \$1700

Part # Assessment

Customize your table with additional features and add-ons! (see p.66-67)

**Note:** Standard table height is 29". 120" and 144" tables have two bases; 168" - 240" tables have three bases; 264" and 288" tables have four bases.

# Add-ons for Conference Tables

## Pop-Up Power & Data Grommet **+M2X**

With two power outlets, two single data ports. Sits flat within the work surface for a high end finish, simply press on either side and it will pop up for use. Contains recycled content that can contribute toward LEED points. 8 1/16" d x 8 5/16" w

Note: Number of data ports and power outlets is customizable...call for pricing.

Silver Anodized Aluminum .....\$590 each

## Inset Power & Data Grommet **+E2X**

With two power outlets, two single data ports. Sits flat within the work surface for a high end finish. Lift lid for access; lid can be closed while cords are plugged in for a flush top. 10 1/8" d x 8 3/8" w

Note: Number of data ports and power outlets is customizable...call for pricing.

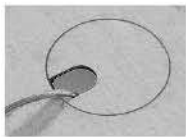

Silver Anodized Aluminum .....\$670 each

## 4 Loop Wire Manager **+WM**

Screws to underside of the table surface. Just slip wires through the loops! 2 19/32" d x 3 5/8" w x 1 5/8" h

Black only..... \$24 each

## Camouflage Grommet **+CG**

Round grommet cutout with insert and cover. The same table top material is applied to the grommet cover, which sits flush with table surface. Hole size= 3",

To match table surface..... \$75 each

## Wire Management Door for Ingot Base **+WD**

Hinged door with access holes on top and bottom.

Same color as leg.....\$120 each

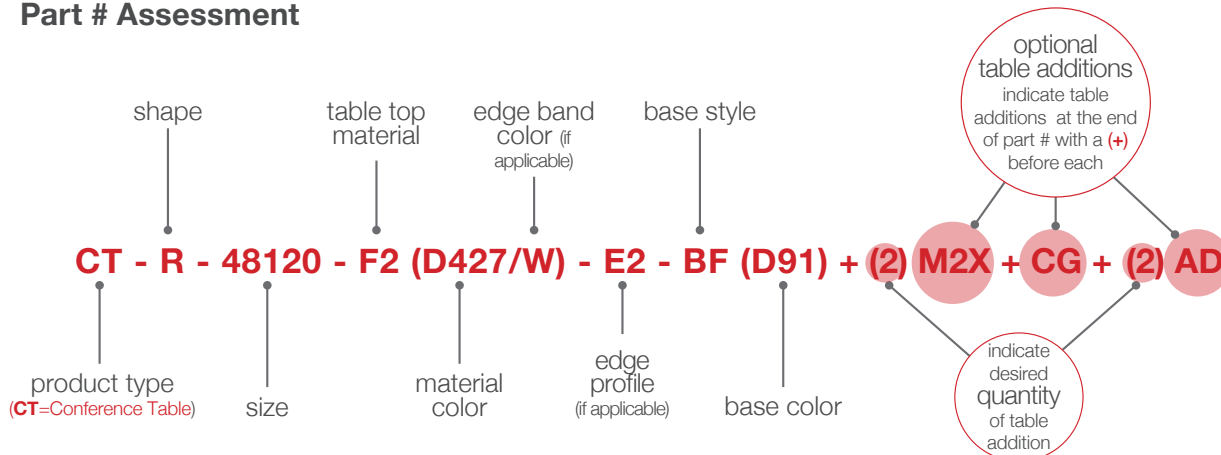

**Removable Access Door for Mono Base +AD**

Simply pulls off for easy access to inside of box leg.

Same color as leg ..... \$85 each

**Note:** If you have unique audio/visual requirements and don't see what you need on these pages, don't hesitate to call us. We have a comprehensive selection of power & data solutions that is sure to fit your needs

## Cartables™

Our caster-clad Cartables will guarantee your classroom or meeting space has everything it needs for any type of presentation. Made right here in Minnesota, Cartables are manufactured using a non-VOC powder coated steel that has post-industrial recycled content. In addition, our lecterns are offered with panels made of our Wilsonart laminate material that can be customized with logos and graphics. So even if you aren't the best speaker in the world, at least you will look the part!

# Cartables™

## Multimedia Cart **MMC**

Two to four shelves, five positions available for shelf connection, built-in wire management under shelves, 4 outlet electrical power strip in base (optional), 3" casters. 21.8"d x 26.5"w x 40.2"h

- Two shelves (shown) **MMC2**..... List Price \$830
- Three shelves **MMC3**..... List Price \$1,035
- Four shelves **MMC4**..... List Price \$1,240
- Add 4 outlet electrical power strip **+PD (example: MMC2+PD)**..... Add \$235 to List Price

## Double Sided Marker Board **MB**

One fixed height shelf, two reversible marker boards with marker board laminate, 3" casters. 21.5"d x 40.9"w x 74"h

- Marker board..... List Price \$1,620

**Flat Screen Cart FSC**

One adjustable height shelf, flat panel mount has adjustable tilt 0° to 20° down, 4 outlet electrical power strip in base (optional), 3" casters. Mounting patterns on televisions vary in size; make sure to order the correct size mounting bracket that corresponds with your monitor (60" maximum screen size). 28.3"d x 33.5"w x 69"h

- Mounting bracket up to 400 mm wide and 400 mm high **FSCS**.....List Price \$1,445
- Mounting bracket 400-900 mm wide and 400 mm high **FACL**.....List Price \$1,445
- Add 4 outlet electrical power strip **+PD (example: FSCS+PD)** ..... Add \$235 to List Price

**Note**

For table bases that match Cartables, see the Wedge bases on pages 22 and 36.

# Cartables™ Lecterns

(Power strip optional)

Back

## Standard Lectern **LECS**

Two shelves, fixed height, 4 outlet electrical power strip base mounted (optional), 2" casters on one side for wheelbarrow-style rolling. Wilsonart front panel available in 5 standard colors (see next page). 20"d x 29"w x 44"h

Standard lectern (example: **LECS-D427**) ..... List Price \$1,710  
 Add 4 outlet electrical power strip +PD (example: **LECS-D427+PD**) .....Add \$235 to List Price

Back

Optional flip up side shelf

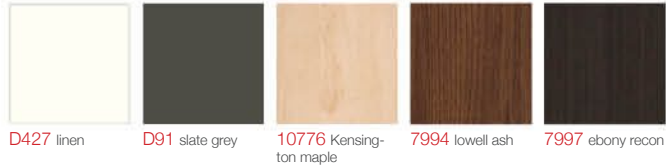

## Premium Lectern **LECP**

Storage box with locking door, pull out shelf, top mounted power/data sphere, 2" casters on one side for wheelbarrow-style rolling. Wilsonart lectern body available in 5 standard colors (see next page). 24"d x 29"w (with side shelf: 40"W) x 46"h

Premium Lectern (example: **LECP-D427**) ..... List Price \$4,605  
 Flip up side shelf +SS (example: **LECP-D427+SS**) .....Add \$192 to List Price

# Lectern Options

**Wilsonart Laminate Color Sampling** (other laminate colors and custom graphics are available; minimums will apply)

**Note:** For assistance with unique or custom lectern requirements, please contact Baltix or your Baltix representative.

---

# Terms & Conditions of Sale

## General

All prices are shown as list. Contact a local Baltix representative or dealer for approved discount. All catalogs, photographs, drawings, product price list and other printed materials are protected by copyright. All rights reserved. Product line names are trademarks. All Baltix products are sold using standard terms and conditions of sale found in the product price list and Baltix order acknowledgements. All orders are subject to acceptance by Baltix. Any modification or supplementation to the terms and conditions must be clearly identified in a separate written document signed by an authorized Baltix representative.

All illustrations, specifications, products, and prices in the product price list are based on the latest information available and Baltix reserves the right to make changes at any time without notice. Distribution of the product price list does not constitute an offer to sell.

## Payment Terms & Credit Policy

All orders are invoiced upon shipment. Payment terms are 50% down payment at time of order and balance due net 30 days from invoice date with approved credit (custom orders are balance due on receipt). New purchasers are required to complete a credit application. If a credit application is not processed, all invoice balances will be due and payable prior to shipment. An authorized Baltix corporate representative must approve any other payment arrangement. Purchaser agrees that Baltix shall have the right to enforce a finance charge of 1.5% per month on any invoice outstanding for more than 30 days. In the event a collection is necessary, the purchaser shall pay all collections costs including attorney's fees. Any product sold is the property of Baltix until invoices have been paid in full.

## Order Acknowledgement

Orders are accepted, manufactured and invoiced in accordance with Baltix acknowledgements and standard terms and conditions of sale as stated herein. It is the purchaser's responsibility to notify Baltix of any discrepancies in the acknowledgement within two (2) days of the acknowledgement date. All orders will be filled and shipped as shown on the order acknowledgement. Ship dates on the acknowledgement are estimated and actual ship dates may vary due to consolidation of orders and other events beyond control of Baltix.

## Taxes

All sales, use, excise and other applicable taxes are the purchaser's responsibility and will be invoiced to the purchaser. It is the purchaser's responsibility to provide Baltix any documentation required for establishing tax exemption.

## Storage

If the purchaser is unable to accept delivery as scheduled at the time of shipment, Baltix may transfer goods to storage. The purchaser is responsible for all costs and risks related to the delay and storage of the order. Product transferred to storage will be considered delivered for purposes including invoicing and payment.

## Changes & Cancellation

After the purchaser's acknowledgement has been received, the order may not be changed without written consent of Baltix. Baltix will make every effort to support reasonable change requests received prior to production. Baltix reserves the right to adjust pricing in accordance with any costs involved in a change order request. Custom orders in production are not subject to change or cancellation. Standard items in production will incur a 25% cancellation charge.

## Returns

All returns must have the written approval of Baltix. A restocking charge of 25% will be made on all authorized returns, provided returned goods are received in "like new" condition. No credit will be given for items that cannot be reused.

## Shipping & Freight

All orders will be shipped F.O.B. Baltix Origin, freight cost prepay and add. Unless otherwise instructed, Baltix will use "best way" LTL shipping. Direct site deliveries, lift gate deliveries, inside deliveries, and other special shipping considerations may be requested at an additional cost. Baltix is committed to on time delivery for all product shipments but is not liable for delay or failure in shipment caused by an act or omission by customer, civil or labor disturbance or dispute, acts of God, or any other event beyond the reasonable control of Baltix.

## Shipping Damage Claims

Legal title to merchandise passes to the buyer upon acceptance by the carrier. It is the buyer's responsibility to inspect goods thoroughly for apparent damage before accepting shipment. Please do not refuse shipment. Rather, if there is any apparent damage to the shipment, please clearly note the damage in specific detail on the bill of lading when accepting delivery. Failure to note apparent damage on the bill of lading may prevent the buyer and Baltix from successfully pursuing a freight damage claim. If concealed damage is discovered upon unpacking the product the carrier and Baltix must be notified immediately as carriers often impose rigid timelines for making freight damage claims. All of our product is thoroughly inspected prior to leaving the factory; therefore it is the buyer's responsibility to seek recourse against the carrier.

---

# Warranty, Limitations, & Disclaimers

## Warranty

Baltix warrants that all products it manufactures are, at the date of shipment, guaranteed free from defects in materials and workmanship for 10 years. This warranty is offered to original customers who have acquired the goods directly from a Baltix authorized dealer or direct from Baltix. Any product that fails to function as intended and is found defective in material or workmanship by Baltix will be repaired or replaced without charge to the purchaser or, at the election of Baltix, a credit will be issued up to the invoice price of the product. This warranty is not applicable where, in the judgement of Baltix, the defect is caused by normal wear and tear, misuse, misapplication, modification, or damage after shipment, including failure to properly maintain the product or similar cause. This warranty is in lieu of all other warranties, express or implied, including warranties of merchantability of fitness for ordinary or particular purpose.

## Exceptions

Outdoor tables and bases: One (1) year from date of shipment.

Electrical components: Two (2) years from date of shipment.

Finishing: our finishes are designed to be moisture resistant, but, if exposed to standing water for longer than 24 hours, discoloration and disfiguration can occur. This is typical for any finished furniture product.

There are no other warranties except as expressly set forth above, either expressed or implied, including any warranty of merchantability or of fitness for a particular purpose.

## Closed Loop Life Cycle

Baltix is committed to designing products that are engineered to have a long useful life. We are also committed to supporting the reuse, remanufacturing, and/or recycling of our environmental materials at the end of their useful life. We will work with users to determine the best method for minimizing any material going to the solid waste stream. Baltix will support the return of materials and we will then reuse, donate, or recycle the parts depending on their condition. Baltix will reclaim any materials marketed as eco-friendly and assist in donating or refurbishing functional furniture pieces or finding the best method to support recycling or other reuse.

## Design Rights

The designs shown in Baltix's catalogs and price lists are proprietary to Baltix and Baltix reserves the exclusive right to manufacture them. Any reproduction of these designs infringes Baltix's rights and that infringement will be prosecuted.
