Custom Roofscapes.....48-50

We offer a full line of over 90 standard products that are available at one-half to two-thirds the cost of the competition, and most items are value engineered and manufactured on state of the art machinery to produce product to exact specifications. We also manufacture from all materials so don't hesitate to ask!

CUSTOM FABRICATION INC. WARRANTY AND CONDITIONS

All products manufactured by Custom Fabrication, Inc. are under warranty against defect in materials and workmanship for a period of one year from date shipped. This warranty covers only products installed to our installation instructions and does not warranty against poor storage or handling, vandalism, abuse or natural disaster. All claims are subject to final review and determination by a Custom Fabrication Inc. representative.

Our Standard Item Offering

Arches

One of the most popular custom products that CFI manufactures are custom entrance archways and entrance gates. Nothing sets a park, school, or municipal area apart quite like an amazing entranceway. We fabricate our arches utilizing a variety of materials including different forms of metal and wood. Our various material options guarantee supreme strength and durability while also possessing an attractive appearance. No matter the size of your entranceway, we have the capability to design a custom entrance arch incorporating your organizations' logo, company name, and colors of choice. If you prefer to include a gate at the entrance, we will also work with you to design one!

Benches

Custom Fabrication, Inc. manufactures and fabricates a wide range of seating solutions in the form of benches. Furthermore, we also have the capability to design and produce fully customized benches if necessary. Our benches are currently furnishing various areas throughout the United States in locations including (but not limited to): parks and zoos, schools, streetscapes, college campuses, retail malls, and public transportation stops. We offer a full line of metal benches, wood benches and recycled plastic benches. Our unique design and manufacturing process allows for long term durability creating a bench that will last for years even in the most rugged public environments!

Bike Racks

Our bicycle racks are manufactured in a variety of styles! CFI bike racks are designed to not only possess the qualities of strength and durability, but are also visually attractive. Color options and materials for our bicycle racks are endless. Whatever color and material is specified for your project, we'll be sure to accommodate your needs. CFI's past bike rack projects have been installed at parks, schools, and municipal streetscapes across the United States from NY to California! (We also produce bollards so don't hesitate to ask us if your project calls for them!)

Boxing Corner

Manufactured and designed to withstand the outdoors, our Boxing Corner provides eight different workout stations for the current and future fighter. The design can be customized to suit your needs. Whether you want an extra station or you want one removed we can accommodate your requests.

The Boxing Corner isn't just for fighters. With Tricep Dips, Pull-Up Bars, Push-Up Bars and a Jump Rope Station, anyone can use the equipment to get into, or stay in shape all well enjoying the outdoors. If you would like more information please contact us via phone or on the web.

Yoga Station

Fabricated with laser-cut steel and attention to every detail, our "Life-Size" Custom Yoga Stations are perfect for your fitness park, walking path, or any other outdoor exercise facility. They also fit in well with Healing Gardens, Atriums or as an Interactive Sculpture. Is there a pose you don't see? We can custom design one of your choosing. If you are interested in more information on the Yoga Stations or any other products please contact us and we would be happy to help you. Other applications include Healing Gardens, Paths, Fitness/Exercise Areas, Atriums, Interactive Sculpture.

Tables

Custom Fabrication Inc. is a leader in the manufacturing of outdoor tables and picnic tables. We fabricate outdoor tables from a wide range of materials including metal, wood, and recycled plastic. We also have the ability to include custom features such as game boards and organizational logos right on the table top of most of our table products if necessary. Our table and seating options are popular amongst parks, public meeting areas, and schools across the East Coast. Our particular fabrication methods permit us to create incredibly durable table products while not limiting visual appearance. We also provide ADA accessible tables if needed!

Trash Receptacles

CFI offers many distinctive, high quality trash receptacles manufactured from a variety of materials. Primarily, our litter receptacles are manufactured utilizing materials like plastisol, steel & wood, and steel & plastic. Our ability to fabricate trash receptacles with a range of materials allows us to cater to any budget and our metal customization capabilities allow our designers to often exceed the expectations of our customers. Our trash and recycling receptacles can be found in parks, schools & universities, municipal streetscapes, and food courts throughout the Northeast (particularly around NYC!) and Northwest United States.

we can build it!™**

One Stop Source

We always provide all necessary design, shop drawings and submittals.

High Quality Production

We always aim to produce higher quality than our clients expect possible.

Attention to Detail

We always believe that it is the details which set us apart from our competitors.

Value Engineering and Management

We always aspire to save the client money without sacrificing value.

Ease of Installation and Assembly

We always focus on making designs that are easily assembled in the field.

A Wealth and Diversity of Experience

We always attempt to build and grow our vast repertoire of experience. Originally specializing in high-tech and tolerance process machinery and metal fabrication, we moved into architectural site amenities in the early 2000s. Since this shift we have done work at the Brooklyn Museum of Art, the new Mets Stadium at Citi Field, renovations at NJ's premier Turtleback Zoo, roofscape work around NYC, work in almost every park area of Central Park and installs at parks from Boston to Atlanta and New York City to Chicago. Now on our 20th year in business and with a view towards the future, we are always on the lookout for new challenges!
