Energy Saving LEDs While high quality LED lighting costs a little more, the total cost of operating and maintaining an LED lighting system is considerably less than comparable incandescent or fluorescent solutions. This is due to their long life expectancy (several times that of incandescent, and almost twice as long as fluorescent), and because LEDs consume far less energy. Annual power costs can be reduced by up to 80%. Returns on LED lighting investments are often realized in fewer than three years.

# CUSHY TUSHY™

P I L L O W C R A F T E D C A R P E T

- Increases impact absorption by 50% resulting in less stress on little bottoms, the lower back, legs and feet of teachers and children.
- Creates a liquid barrier that protects against moisture to keep spills, accidents and stains from reaching the sub-floor.
- Acts as a shock absorber, taking the pounding of everyday foot traffic. This helps your cushy wushy carpet feel better, look better and last longer.
- Provides thermal and sound insulation between floors.
