Industry Favorites (viewed online)

Visit www.greatopenings.com to find a comprehensive list of colors that are available for you to order just as though they were among our 60 Standard Colors.

- No added cost
- Standard lead-time
- No minimum order size
- Not necessary to exchange paint chip samples or to get your signed approval, as we already know we have a good match with the original manufacturer's color
- Simply send us your purchase order with the paint color name and number identified in this online list

- Great Openings will process your order, then send you an order acknowledgement
- Depending on paint cost and availability that is beyond our control, colors may be added or removed from this list of Industry Favorites

Please understand that color match is not a perfect science. While Great Openings uses the most sophisticated powder formula color match technology available, our greatest challenge remains the fact that the major manufacturers' colors tend to "drift" over time. Bright whites and silver metallics, in particular, are a challenge to match. For all practical purposes, in common artificial light as well as natural light, Great Openings' Industry Favorites will be an excellent match for our competitors' colors.

Custom Colors

When you need a color that's not included in our 60 Standard Colors or Industry Favorites, simply send us a paint chip and we'll get it matched. A special lead time or cost will likely be included, but we can almost certainly supply exactly the color you need.

- No minimum order size on Custom Colors
- Custom Color up-charge is applied on a per unit basis
- Minimum lead-time is 15 working days after we receive your written color approval
- We must receive a purchase order before exchanging custom color samples.

Check our website for Custom Designer Colors, a sampling of trending new custom colors!

Here's how it works for custom colors:

1. Along with your purchase order, send us a 2" X 2" sample of your desired Custom Color (a metal chip is best, but often a laminate or paper sample will work).
2. We'll work with our paint suppliers to find a match, a process that typically takes 10 to 15 business days. Then we'll send a metal sample of our recommended paint color back to you, along with a sign-off sheet, total net up-charge, and lead-time requirements.
3. You'll return the sign-off sheet, we'll send you an order acknowledgement, and away we go!

Two-tone cabinets, with fronts painted a different color than the cabinet are available. Contact Sales for a quote.

Please note: Our objective is to order exactly the correct amount of paint for each order so that we can offer you the lowest possible price. For this reason, if you happen to order the same custom color again weeks, months, or years later, paint inventory will likely not exist and any additional costs will once again be charged per unit, no matter the order size.

Please note that custom laminates or edges will require additional charges, lead-time, and minimum order quantities.

When it's time to place your custom laminate order, include the following information on your PO:

Standard Work Surface Specifications:

Specifications for (HPL) high pressure laminate work surfaces, cabinet tops, and drawer fronts:

- Industrial grade particleboard, single-sided decorative laminate overlay
- High performance, high pressure laminate backer
- California Air Regulation Board Compliant to Phase 2. FSC Controlled Wood Status
- Water based, formaldehyde free, GREENGARD (registered sign) certified adhesive
- Finished thickness of horizontal application work surfaces is 1.25"
- Finished thickness of vertical application drawer fronts and doors is .75"
- Edge bands are 2mm or 3mm

Specifications for (HPL) high pressure doors:

- Identical to the specification shown above, except doors feature two-sided decorative high pressure laminate, so the appearance is identical inside and out.

Specifications for (TFL) thermal fused laminates for drawer fronts and doors:

- TFL is a cost effective, durable product used on vertical services such as drawer fronts and doors. The laminate paper itself is identical to three of the laminates shown above and so can be matched with work surfaces.
- TFL offers the same abrasion resistance as High Pressure Laminate and slightly less impact resistance, therefore it's appropriate for use on drawer fronts and doors. Thermal Fused Laminates do not meet NEMA specification requirements, scratch resistance, or ball drop tests.
- Two-sided decorative high pressure laminate, so the appearance is identical inside and out.
- California Air Regulation Board Compliant to Phase 2. FSC Controlled Wood Status
- Finished thickness of TFL drawer fronts and doors is .75"
- Edge bands are 2mm or 3mm (identical to those used on HPL fronts)

TRACE Lateral File Ganging Kit

- Rather than install a counterweight, an alternate method of ensuring lateral file stability is to gang two or more laterals together side-by-side or back-to-back
- Trace box/file laterals require a counterweight unless they are ganged back-to-back with another lateral file or otherwise tethered to a permanent structure. Without counterweights, ganging box/file laterals side-by-side will not ensure stability
- Ganging kit includes a drill template, screws, and instructions

- Includes one 6" drawer and one 12" drawer
- Cushion top is mechanically fastened to the lateral prior to shipment; cushions are 1-1/2" tall and include an enclosed wooden base
- Trace box/file laterals require a counterweight unless they are ganged back-to-back with another lateral file or otherwise tethered to a permanent structure. Without counterweights, ganging box/file laterals side-by-side will not ensure stability
- Inside clear drawer bin heights for 6" lateral drawers positioned immediately below a lock strip: 4.707, all 12" drawers have a 10.75" clearance from the bottom inside of that drawer bin to the bottom of the 6" drawer above it.
- Unless otherwise specified, the fabric grain on all cushions will be applied "front-to-back"

Lock Options

All Great Openings lockers may be specified with either keyed locks or electronic locks.

Keyed Locks

Lockers come standard with randomly-assigned UM Series lockers (#226-425). UM locks are black-faced, master-keyed and core-removable. You may arrange with Customer Service to have these locks keyed-alike in the field. Other key series options are available, including bright nickel LL, Haworth SL, and the Knoll K.

Hasp Locks

Hasp locks, which are available on A: Full Pull fronts only, can be ordered for a \$50.00 list up-charge per door.

Electronic Locks

All Great Openings lockers may be specified to include electronic locks rather than keyed locks. You'll find details starting on page 9.

Interior Power Outlet

Specify a power outlet inside any locker. A multi-circuit power feed can accommodate up to 32 lockers, with plug-in power inside each locker and wires routed outside and behind the cabinets. Single door lockers, the power outlets are horizontal and Cubby door lockers, the outlets are vertical (see illustration to the right). Contact Sales for specification assistance and pricing.

Three Locker Door Options

Order your lockers with one of three door options: metal fronts (painted either the same color as the cabinet or a contrasting color), high-pressure laminate (HPL) fronts, or thermal-fused laminate (TFL).

You'll find a form on our website to help you specify and price multiple colored locker fronts. Look for the "Multiple Locker Color Fronts" form in the Locker product section.

- Metal doors may be painted different colors than the cabinet. See “Locker Multiple Color Fronts” on our website for instructions on how to specify
- 18” deep lockers include (2) two-pronged coat hooks, one per side
- 24” deep lockers include (1) side-to-side coat rod, located just beneath the shelf. There’s one exception to this: 39 7/8” high single door lockers that are 24” deep include (2) coat hooks rather than a coat rod. This is because the relatively short height of the locker makes a coat rod impractical.
- Additional adjustable shelves are available for order
- Door may hinge left or right
- Interior power outlets may be installed inside locker compartments. Call Sales for specification and pricing.
- Lockers available with three lock options: keyed (UM is standard, and also available with LL, SL, or K series lockers), electronic locks, and hasp lock
- Conventional keyed lockers are keyed randomly at the factory. Key alike service is available.
- Accessories include (see page 16)
 - Locker ganging kit, to hold two or more lockers snug together when installed side-to-side
 - Common laminate tops
 - Door number plates, to permanently identify individual locker doors

Basic Construction

- All Great Openings products meet or exceed applicable ANSI-BIFMA standards for durability and safety

Orders received at Great Openings after 4:00pm EST will be processed the following day.

Order Acknowledgement

We diligently issue order acknowledgements via e-mail within 24 hours of purchase order receipt. If you do not receive an acknowledgement within 24 hours, please call our Customer Service department to determine the reason; we may not have received your order, or we may have questions that are delaying order entry.

**PLEASE CHECK
ACKNOWLEDGEMENTS
FOR ERRORS
IMMEDIATELY UPON RECEIPT.**

The order acknowledgement process is designed to ensure protection for both the buyer and the seller. We strongly urge the buyer to make sure the acknowledgement accurately reflects the intended purchase.

Order Discrepancies

Great Openings will not be held responsible for extra costs due to errors resulting from purchase order inaccuracies. If and when a discrepancy is detected on the purchase order or acknowledgement, all corrections must be received in writing before further order processing can occur.

Changes, Cancellations

Orders may not be changed, corrected or cancelled, in whole or in part, after Great Openings has issued its order acknowledgement without the written consent of an authorized Great Openings representative. Special order items (special or custom cabinets, Customer's Own Materials (COM) fabric and laminates) already in production are not subject to change or cancellation under any circumstances.

Canadian Orders

Canadian orders may be processed using this price book. The pricing and payment terms included in this book are in U.S. funds. Custom brokerage fees and GST/HST taxes will be charged as separate line items on the invoice. All prices are freight included; FOB: Destination. A Regional Small Order Freight Charge applies to all orders less than \$5,000 list (does not apply to accessory orders). See regional map for applicable fee.

Lead-Time

Lead-times are measured in working days, and begin after receipt of clean order.

Lead-times may change without notice. Stated lead-times will not commence until purchase order is actually entered into our system. We are not responsible for delays caused by order discrepancies or late receipt of COM items.

Special Shipping Instructions

Great Openings will accommodate special shipping/delivery requests whenever possible. Purchaser will be responsible for any and all extra costs incurred by reason of Great Openings' complying with a special shipping request. Examples of special requests that may cause extra charges (dollar amounts shown are approximate, actual amounts may vary):

- special carrier/lift gate: starting at \$85.00
- inside delivery: starting at \$50.00
- expediting, re-consignment, delays causing carrier storage: starting at \$50.00
- truck load delivery times after 3:00 pm
- delivery times outside normal business hours including weekends and holidays: starting at \$450.00 per truck
- exact, narrow scheduling window (elevator time): starting at \$150.00

Any additional charges that result from the purchaser failing to accept a shipment as agreed upon will be the responsibility of the purchaser.

Special Delivery Charges

Once a delivery truck arrives at a destination, if the recipient is not ready to accept delivery as scheduled and the truck must wait, deliver "after hours", or make a second drop at a later time, the carrier charges a penalty for that delay which Great Openings must pass on to the customer.

These charges are as follows (dollar amounts shown are approximate, actual amounts may vary):

Night Delivery:
3:30-4:30 p.m.: \$400 additional charge
4:30-5:30 p.m.: \$450 additional charge

Weekend and holiday deliveries will be quoted per load depending on location and delivery time.

Please use caution when planning and communicating delivery requirements so that these exorbitant fees will not be necessary.

Key-Alike Services

Key-alike service is offered free of charge provided the key-alike request is associated with an order for a matching quantity of

cabinets. Additional key/core sets, master and core keys are available for a nominal charge. All Great Openings products are keyed randomly prior to shipment. Special cores and keys are shipped separately to be changed-out in the field. See the Specification Guide in the front of this book.

COM & Fabric Grades

If COM materials are difficult to apply or inadequate, Great Openings reserves the right to apply extra charges or to cancel the order. Great Openings has no control over COM material quality or performance and will not be held responsible for material defects or damage caused by improper use or application.

Accepting shipment will give us more opportunities to remedy the situation through parts (fronts, tops) replacement and within the guidelines of the stated terms.

- Product is shipped via a Great Openings designated carrier
- Accept the shipment
- Retain packaging
- Inspect the shipment and document damage on the bill of lading
- Contact Great Openings immediately upon discovery and documentation of damage

Failure of purchaser to meet these conditions will prevent Great Openings from obtaining carrier reimbursement and thereby require us to charge full price for product replacement.
