

solara & integra

Irwin Seating Company

solara

Solara is a rail mounted chair that ships assembled, ready for quick installation. The patented extruded aluminum rail system allows for variable, site-specific chair spacing and the rail can be formed to a radius making it ideal for sites needing to bridge concrete breaks and sections.

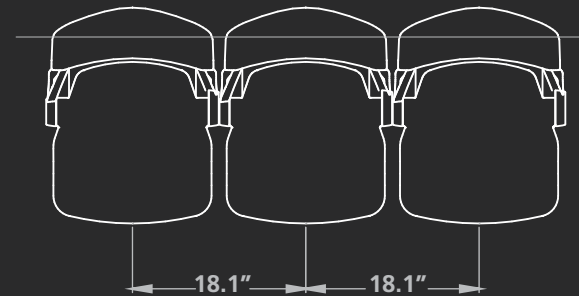

The unique design and full complement of available options allow chair spacing to be set to maximize capacity or patron comfort or a mix of the two. In fact, a facility could set chair spacing for maximum comfort and easily reconfigure the seating to increase capacity for a big event or game.

Despite its relatively light weight, Solara is no light-weight when it comes to strength! Back and seat components are formed from injection molded high-impact polymers. The side supports, return mechanisms and integrated armrests are made from glass-filled polyamide to withstand the rigors of high use facilities like arenas and stadiums. The corrosion resistant polymer and aluminum components make Solara an excellent choice for harsh environments like outdoor stadiums.

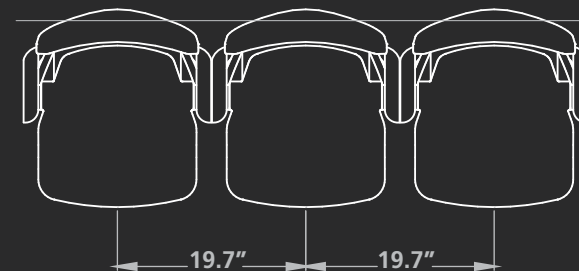

Contact your authorized Irwin Seating Company representative to learn how Solara may be the right choice for your project.

minimum spacing:

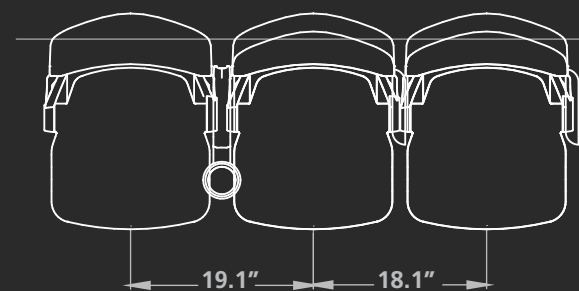

armless

double integrated arms

**fixed rail mount arm / cupholder arm
single integrated arm**

dimensions shown are nominal

Model: 135.135.70.40

- No. 135 back with an upholstered pad
- No. 135 self-rising seat with an upholstered pad
- No. 70 rail mounted end panel
- No. 40 rail mounted center cupholder armrest

Model: 115.115.25.25

- No. 115 polymer back
- No. 115 self-rising polymer seat
- No. 25 integrated end armrest
- No. 25 single integrated center armrest

Model: 115.115.5.15

- No. 115 polymer back
- No. 115 self-rising polymer seat
- No. 5 armless end
- No. 15 armless center

Model: 115.115.25.25

- No. 115 polymer back
- No. 115 self-rising polymer seat
- No. 25 integrated end armrest
- No. 25 single integrated center armrest

integra

Like Solara, Integra is a rail mounted chair that ships assembled, ready for quick installation. The durable construction and tight envelope make Integra a perfect solution for indoor arenas and stadiums.

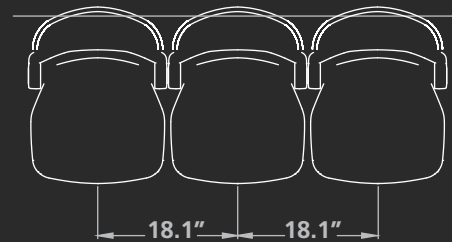

Integra is a versatile chair that can be outfitted with all the accessories and options you would expect including some very comfortable upholstery options. The Integra chair is also available for use on all of our telescopic platform options.

The unique, modular design of both Integra and Solara eliminates the need for multiple chair sizes. The generous sitting surfaces provides ample support while the flexible installation process creates space for each individual. The chair side supports are formed from die-cast aluminum and finished with an attractive black polyester powder coat. The back and seat are an injection molded rigid polymer – and the entire assembly weighs less than 10 lbs.
