

Lecture Room Seating

IRWIN SEATING COMPANY

The Irwin Difference

People, Products & Services

For 100 years, Irwin Seating Company's sole focus has been on meeting our customers' needs for public seating solutions. We achieve this through innovative design, by manufacturing the industry's most durable products, and by providing unmatched service before, during, and after the installation of a project. Everyone at Irwin Seating Company is focused on quality, continuous improvement and customer satisfaction. This commitment is what the Irwin Difference is all about and why we are the world's leading supplier of fixed seating.

We start by asking the right questions and listening to our customers' needs to understand their requirements for a successful project. Our table systems are designed and seating layouts are drawn specifically for the room the tables and chairs are to be installed in.

We understand the importance of stewardship and our seating and table systems are manufactured with heavy duty support columns, tablet arm assemblies and table tops to ensure a reliable, comfortable environment for years to come. In addition, we offer a wide range of attractive laminates, fabrics and customizable accessories to help create a space that is as aesthetically pleasing as it is functional.

Our expertise is there to help take care of the physical environment so students and staff can focus on the tasks at hand. The resulting choice and style deliver distinctive appearance that satisfies even the most discerning students, to say nothing of their parents and the school's alumni. Talk with your Irwin Seating Company representative today and experience the Irwin Difference.

Painter Hall, University of Texas - Austin, Texas

Peale Science Center, Hope College - Holland, Michigan

Constant Hall, Old Dominion University - Virginia Beach, Virginia

Tablet Arm Chairs

671 Folding Tablet Arm Chair

shown with:

- no. 6 plastic seat shell

Hope College
Holland, Michigan

Uni-Lecta

2467 Uni-Lecta

shown with:

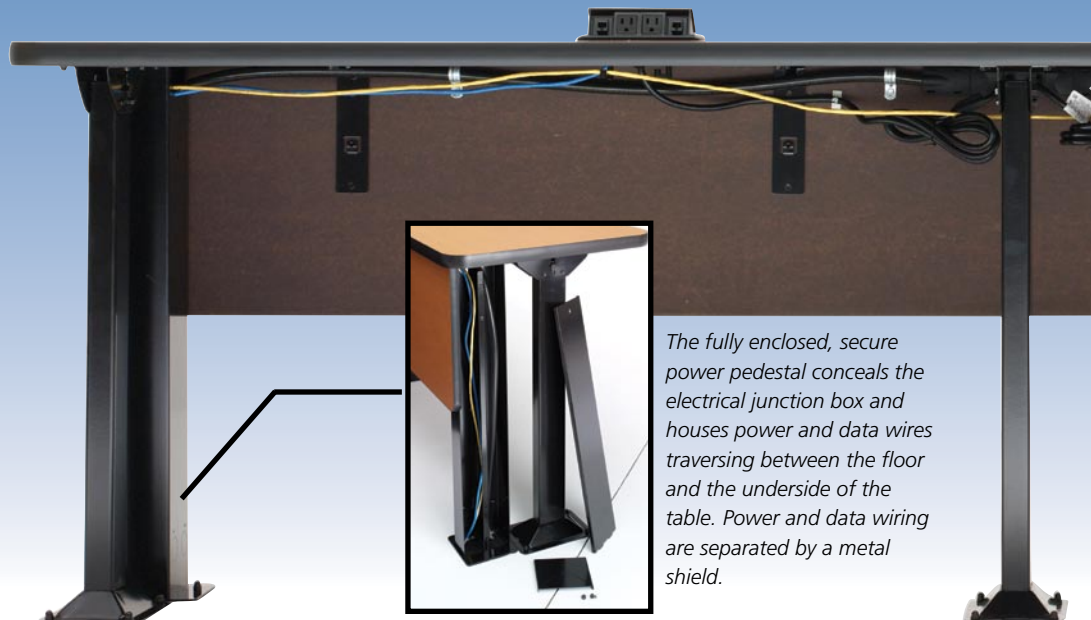

- no. 24 seat shell on swing arms
- laminate surfaced table top with vinyl table edge
- continuous modesty panel surfaced with matching laminate
- E-Link power and data system with sphere table top units

*Uni_Lecta Heavy Duty Swing Arm
with Memory Return*

E-Link System

Irwin Seating Company's E-Link System makes network connection simple. Direct connections in classrooms, lecture halls, auditoriums, and training facilities are trouble-free with this innovative power and data system. The system features table top power/data module options and a concealed, snap-together wire management system with U.L. approved components. All E-Link equipped tables come with modesty panels. Irwin Seating Company provides electrical wiring for the E-Link System; data wiring provided by owner. The E-Link features all of the components required to make the installation of power and data wiring by a licensed electrician simple.

The fully enclosed, secure power pedestal conceals the electrical junction box and houses power and data wires traversing between the floor and the underside of the table. Power and data wiring are separated by a metal shield.

767 Uni-Lecta

shown with:

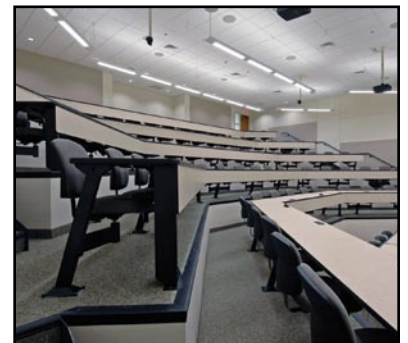

- no. 7 semi-upholstered seat on swing arms
- laminate surfaced radiused table top with vinyl table edge
- continuous modesty panel with matching radius to table top

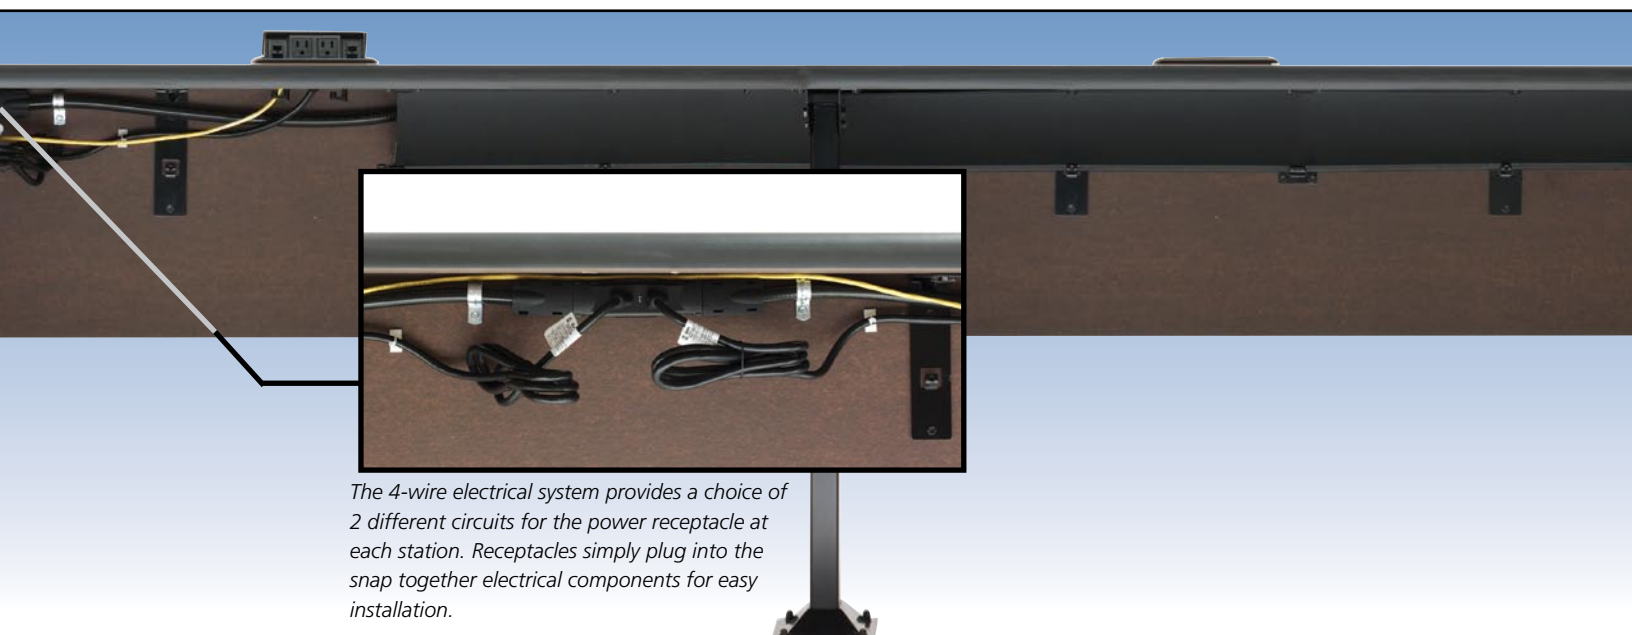

*Full Height Modesty and End Panels
for Uni-Lecta and 900 Series Tables*

*Table Top Leveling Bracket
& Decorative Wood Edging*

*Cooley Law School
Grand Rapids, Michigan*

The 4-wire electrical system provides a choice of 2 different circuits for the power receptacle at each station. Receptacles simply plug into the snap together electrical components for easy installation.

900 Series Tables

900 Series Strip Table

shown with:

- no. 2400 caster base chairs
- laminate surfaced table top with vinyl table edge
- continuous modesty panel surfaced with matching laminate
- E-Link power and data system with mini-port table top units

A plastic raceway is attached to the underside of the table and rear of the modesty panel to secure power and data wiring. It is placed so that it will not interfere with student activity.

Heavy steel brackets are attached to the underside of the table and the rear of the modesty panel to support both the modesty panel and the E-Link raceway.

900 Series Strip Table

shown with:

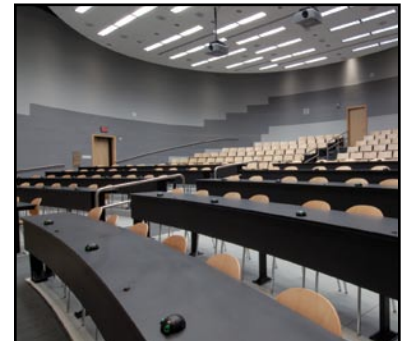

- no. 750 tilt swivel chairs
- laminate surfaced table top with vinyl table edge
- continuous modesty panel surfaced with matching laminate

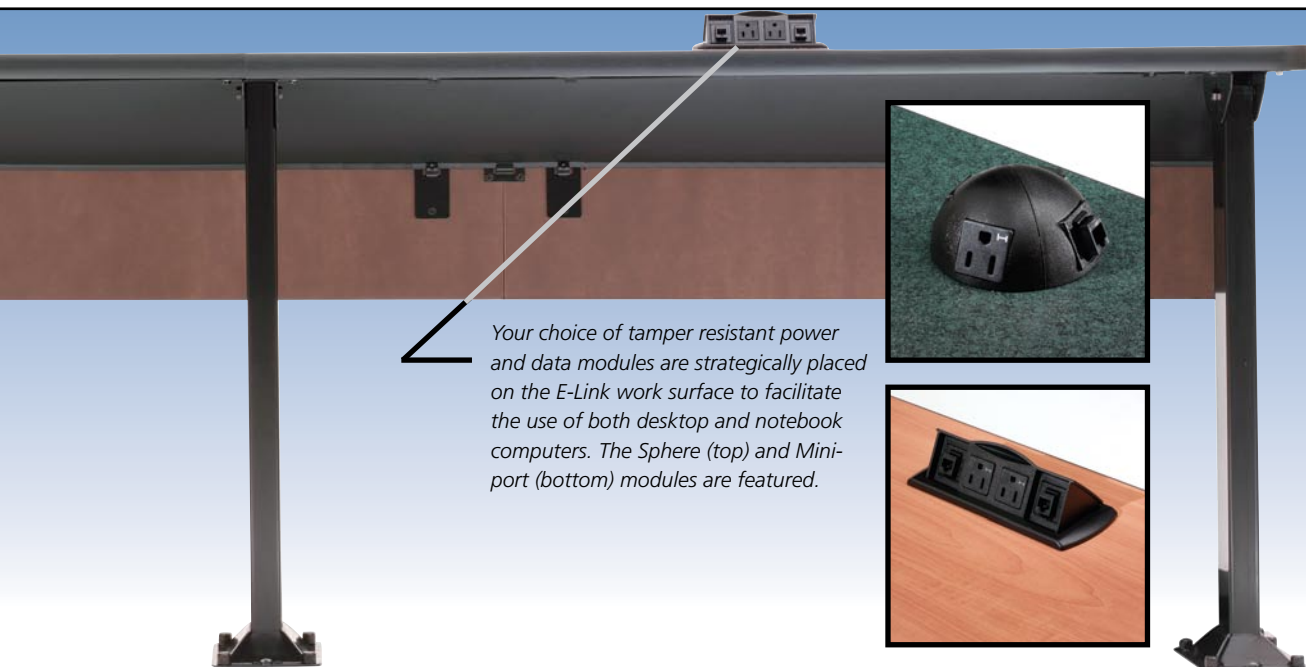

No. 50 Tilt Swivel Pedestal

No. 2400 Caster Base Chair

*Engineering Building
University of Michigan
Dearborn, Michigan*

Your choice of tamper resistant power and data modules are strategically placed on the E-Link work surface to facilitate the use of both desktop and notebook computers. The Sphere (top) and Mini-port (bottom) modules are featured.

Seat Options

No. 6 Plastic Seat
