HARDWARE / SUPPLY PRICE LIST 2017

Curtain
Track

3WAY TRACK

Triple E's award winning track systems are available FOB USA.

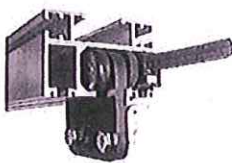

A robust, medium weight system using the highest quality materials. 3WAY is quiet, easy to install and simple to operate. This low profile, compact system uses the same components for straight or curved applications. 3WAY reduces the number of components required by incorporating rope guides within the track. One master carrier rope clamp travels in the extrusion itself.

TRACK CHANNEL

The beauty of the 3WAY track is in the design of the extrusion. 3WAY track incorporates a central t-slot on the top to accommodate channel nuts that drop in, rotate 90° and lock. At both ends of the track there are t-slots that accept the joint connectors and the head and return pulleys. The track channel is 1 1/8" high x 2 1/8" wide. Custom curved track channel also available. Call for pricing.

Price per ft.
10.62

MASTER CARRIER

The four wheel master carrier comes with a molded shuttle and all the necessary parts to easily secure the rope clamp that travels inside the track extrusion. A 2mm allen key is included with every rope clamp.

	Price
Master Carrier for Corded Tracks	104.89
Master Carrier for Walkalong Tracks	56.70

SINGLE CARRIER

The 3WAY single carriers are available with either ball bearing wheels or plain nylon wheels depending on the application.

	Price
Nylon Carrier	6.65
Ball Bearing Carriers	10.90

OVERLAP ARMS

Attach to master carriers to create overlapping traveler curtains on a single track.

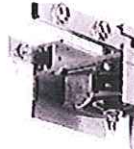

Price
22.68

HEAD PULLEY

The head pulley housing is formed from the extrusion itself and incorporates endstop, buffer and joint bars. Used for both straight and curved layouts.

Price
133.24

RETURN PULLEY

The return pulley housing is formed from the extrusion itself and incorporates endstop, buffer and joint bars. Used for both straight and curved layouts.

Price
96.39

SIDE BY SIDE HEAD PULLEYS

A unique feature of the 3WAY design is the ability to mount head pulleys side by side on the track, allowing the operator to be at the side of the curtain instead of at the end. Use in conjunction with 2 Return Pulleys.

Price
170.10

JOINT SET

For joining together sections of track channel.

Price
26.21

ENDSTOP

Purchase separately for use with walkalong applications.

Price
9.20

HOOK CLAMP

For suspending the track on 1.5" pipe. The recommended maximum distance between suspension points is 10'. Additional clamps are required in the stacking area.

Price
27.22

WEIGHTED PULLEY

Simple handline pulley with ball bearing sheave.

Price
70.87

ROPE

3WAY 3/16" black polyester operating rope.

Price
1.10/ft.

DRAPERY LININGS

Drapery Linings may be ordered as cut yardage, by the piece and by the case. The prices shown are the retail price for cut yardage orders. Promotional discounts do not apply to lining purchases. You may also order linings for manufactured products such as separate liners for use behind draperies. Refer to the PRICE GROUP number for the lining, and then use our Custom Products program to price the finished product.
