Chair Feature Selector Guide

CHAIR FEATURE INFORMATION for Chairs on pages 119-181

The diagrams below identify those features that best suit your needs. The number key matches the examples found throughout the seating section.

Height & Depth Controls

1. Pneumatic Seat-Height Adjustment
Regulates height of chair relative to floor.

2. Back-Height Adjustment
Positions lumbar support within a fixed range.

3. Seat-Depth Adjustment
Positions chair back relative to seat.

4. Seat Glide Mechanism
Seat cushion travels forward and back, then locks into position.

Seating Controls

5. 360 Degree Swivel
Standard on every executive and task chair.

6. Tilt
Pivot point located directly above center of chair base.

7. Mid-Range Knee Tilt
Pivot point located slightly ahead of center of chair base. Allows user to recline at a slightly more relaxed angle than conventional tilt.

8. Knee Tilt
Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

9. Dual-Action Synchro Tilt
Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor.

10. Tilt Tension
Controls rate and ease of recline.

11. Tilt Lock
Locks out tilt function when chair is in upright position.

12. Posture Mechanism/Lock
Back angle adjusts independently of seat, and can be locked in an infinite number of positions.

13. Multi-Task Control
Adjusts seat and back angles with a single lever (infinite locking within a fixed range).

14. Asynchronous Control
Three levers modify:
• Angle of back relative to seat
• Tilt (free float or infinite locking within a fixed range)
• Forward tilt

15. Synchronized Knee Tilt
Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair.

16. Dual-Clutch Posture Control
Adjusts seat and back angles independently with two levers (infinite locking within a fixed range).

17. Variable Synchro Tilt
Back reclines at a 2-to-1 ratio to the seat. Chair can tilt freely, or lock in position. "Forward angle" control provides an extra 5 degrees in the range of motion.

18. Inverse Synchro Tilt
With automatic tension control opens torso for better circulation. "Zero lift" seat front helps keep feet on the floor when reclining. Tilt limiter controls range of motion.

19. Independent Seat and Back
Seat and back flex independently for automatic comfort

20. Integral Lumbar Support
Easily adjusts to enhance comfort

Arm Options

Fixed Position T-Arms

Loop Arms

Adjustable-Height Arms

Provide improved upper-torso support. Can be adjusted periodically to relieve strain and provide variety.

Adjustable-Width Arms

Quick-adjust design places arms close to body for keyboarding, or out to sides for ease of entry.

Each arm rotates 30 degrees and adjusts 2 1/2" in height. Position inboard for keyboarding, outboard for entry and exit.

HON.

Nucleus Series Seating

- Comfort from the inside out
- Slender, contemporary look coordinates well with most office environments
- Unique materials and innovative construction deliver surprising comfort without bulky padding
- Back features multidirectional stretch mesh that puts lumbar support right where you need it
- Supports up to 300 lbs.
- Meets or exceeds ANSI/BIFMA and ISTA performance standards
- Backed by the HON Full Lifetime Warranty

Nucleus Features

Seat Suspension

Inside the Nucleus seat, we pull ilira-stretch NRAM material over a frame, then mold it over with foam. Once upholstered, this ultra-slim, flexible seat provides suspended, supportive comfort.

Pressure Mapping

When you sit in a Nucleus chair, the seat distributes your weight evenly, minimizing pressure points (red zones) for improved circulation and reduced muscle fatigue.

ilira-stretch Mesh Back

A unique mesh material that moves in four directions to provide responsive, multidirectional support for your lumbar. The soft nature of the ilira-stretch envelops you in hammock-like comfort, while providing the right level of support throughout the day.

Solve Features

Solve answers the need for a higher level of personalization with three back options.

ReActiv Back

Features a perforated pattern that flexes and moves with the user to provide enhanced support, while keeping the body cool with continuous airflow.

ilira-stretch Mesh Back

Provides responsive support that leverages the user's weight to create a softer fit.

Upholstered Back

Upholstered front over the ReActiv back (Charcoal) increases support, thermal comfort and customization.

Assembly needed. Please call for details.
