Chairmat Selector Guide

CHAIRMATS PREVENT WEAR & TEAR

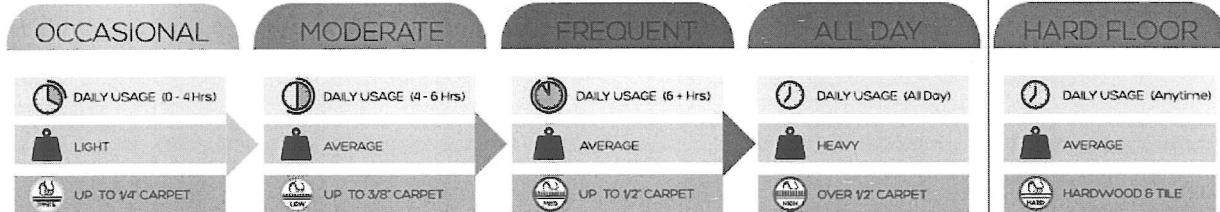

Don't let this happen to your flooring!

1. Determine surface:

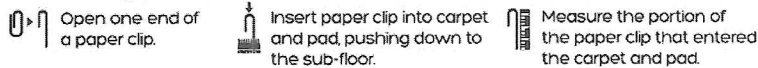

FOR CARPET

FOR HARD FLOORING

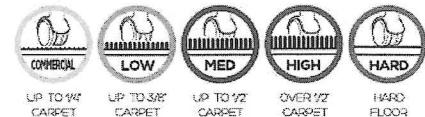

2. Determine use. For greater use, weight or carpet thickness, move right.

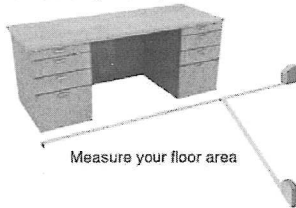

3. Measuring your carpet thickness:

Carpet thickness:

4. Measure your space:

Workspace shape:

Extend the life of your carpet, or hard floor with a chairmat.

The rolling casters of a chair can tear and pull at carpets or create marks in hard floors – but a chairmat acts as a line of defense against any damage. They also help your chair roll smoothly, helping to prevent any unnecessary strain.

Studded/ Gripper Back
Notched studs grip carpet, but won't pierce or damage carpet backing.

Smooth Edge
Smooth edge for easy-on/easy-off chair movement.

Crystal Clear
Transparent mats let the beauty of your flooring shine through.

Anti-Static
Designed for use with sensitive electronic equipment. Chemically formulated to dissipate static electricity before it has a chance to damage sensitive equipment.

Checked Back
Premium mat features innovative checked grid on bottom for optimum carpet grip.

Polycarbonate Floor Mats
The Ultimate in quality, clarity and durability

- Will not crack, curl, dimple or discolor under correct application
- High impact material provides extreme durability
- High clarity with embossed upper surface
- Provides ultimate in ergonomic benefits
- PVC free, safe, odorless, fire resistant
- Made from up to 30% renewable energy; 100% recyclable
- Polycarbonate will never adversely affect hardwood floors that have polyurethane, varnish or lacquered surface treatments
- Limited Lifetime Warranty

Tips For Caring For Your Mat

When used properly, polycarbonate mats are designed for superior serviceability and durability over traditional mats, making them a wise investment choice for floor covering protection.

Upon Delivery

- Polycarbonate mats can be used immediately. Unlike PVC, there is no need to wait for the mat to go flat

Moisture

- Do not use your mat in wet areas
- Clean only with cloth or sponge soaked in mild, soapy water

Extreme Temperatures

- Placing in temperatures below 50°F can damage and reduce life of polycarbonate mats

Flooring Style Make sure you choose the polycarbonate mat specially designed for your type of floor covering. A mat intended for another texture or depth can cause damage and may crack due to lack of support. Some flooring types are not suitable for chairmats and could cause damage including: deep or wide tile grooves; rough, textured floor tiles; pitted or uneven concrete

Re-Sizing

- Floor mats are precision cut to size, so do not cut or alter mats as this can impair performance

Harmful Products

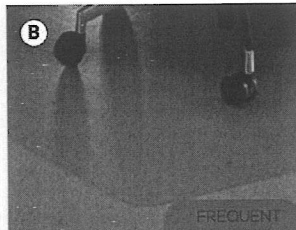

- Avoid contact with solvent-based paints, inks, varnishes, alkaline cleaners, bleaches and oils

Avoid Heavy Loads

- For example, chairs with metal caster wheels can cause damage to mats, especially when placed on rough textured floor tiles

B. Cleartex Ultimat Polycarbonate Chairmats For Low To Medium Pile Carpets

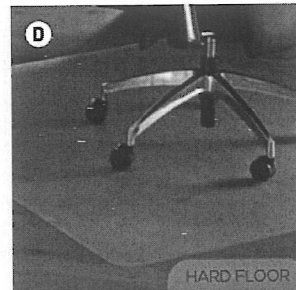

- Suitable for carpets up to ½" thick (including pad and carpet)
- High clarity and impact resistant, virtually unbreakable

PRODUCT NO.	DESCRIPTION	SIZE	LIST PRICE
FLR 118923ER	Rectangular	35" x 47"	94.99- EA

D. Cleartex Unomat Antislip Chairmats For Hard Floors

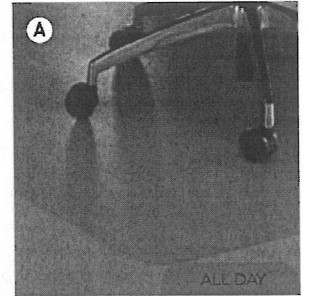

- Low tack backing prevents mat from moving and does not mark floor
- Polycarbonate antislip mats do not stick to floor, yet prevent sliding
- Will not adversely affect varnished or lacquered hard floor surfaces
- Also highly effective on very low pile carpets where other carpet grippers cannot penetrate the pile

Choosing the Right Safe or File for Your Business

It's crucial to make sure your important business records, documents, data and other valuables are protected from fire, flood and theft. Choosing the right safe or file can make all the difference. Look for these helpful icons to help identify what items each safe protects, as well as what types of protection each provides.

What Types Of Protection Are Available

- What Am I Protecting?**
- Digital Media**
Look for ETL verification for proven protection of USB & flash drives, memory sticks, CDs and DVDs
 - Documents**
Some products hold hanging file folders or various sized paper laid flat to keep paper documents organized and undamaged

- Water Protection**
Products that are ETL verified for water protection are tested in two categories:
 - Waterproof products can be completely submerged in water
 - Water-Resistant products protect against sprinkler and water spray exposure
- Fire & Explosion Protection**
ETL verified and UL classified. Proven to protect the contents from the perils of fire, explosion and impact
- Security Protection**
Choose a solid steel constructed safe with pry-resistant doors and bolt-down kits to help prevent unauthorized access to your valuables

A. Storage Cabinet

Accommodates oversized files. Adjustable shelves each hold 160 lbs. High-security keylock for added security. Powder coat finish for a lifetime of protection. UL Class 350 for one-hour fire rating. Limited Lifetime Warranty.

Drawer Types

R **Receding Door**
Holds binders, standing files, hanging files or supplies. Side-to-side standard. Front to back optional.

S **Standard Drawers**
Holds letter, legal, A4 and hanging files. Side-to-side standard. Front to back optional.

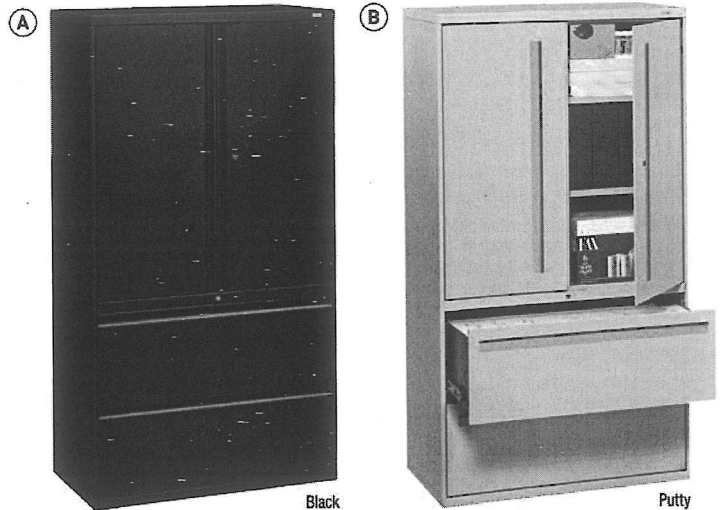

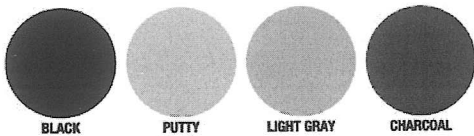

B **Binder Doors**
Perfect for equipment, supplies and other large filing.

— Posting Shelf
Available on five-drawer files.

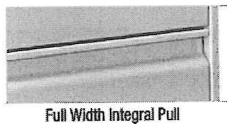

HON.

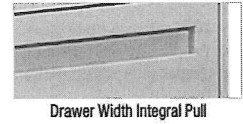

Brigade Series Lateral Files With Storage These two-drawer models feature a sturdy double-walled base to resist tampering and strengthen the case. It also has two locking doors that enclose three shelves for supplies and equipment and has full radius handles.

A. 800 Series Cabinets feature hinged doors with radius pulls and two adjustable shelves. Bottom of cabinet has two lateral file drawers with full-width radius pulls, steel ball-bearing suspension, adjustable hangrails for side-to-side letter/legal size filing. "One Key" core removable locks on door and on file lock independently. Meets or exceeds ANSI/BIFMA and ISTA performance standards. Contains 30% recycled content, 24% post-consumer materials. Backed by the HON Full Lifetime Warranty.

B. 700 Series 67" high case – matches height of 700 Series 5-Drawer laterals. Bottom two openings are lateral files; remainder of case is storage shelves. Inside dimension of storage case is 36 1/4" high. Includes two adjustable shelves, adjustable in 2" increments. Bottom shelves can accept one row of binders per shelf. Top opening measures 10 1/4". Door pulls match lateral file drawer pulls. Meets or exceeds ANSI/BIFMA and ISTA performance standards. Contains 30% recycled content, 24% post-consumer materials. Backed by the HON Full Lifetime Warranty.

S Standard Drawer

HON.

A. 500 Series

Recessed drawer pulls complement Metro Classic Series desks. Precision suspensions with heavy-duty ball-bearings. Equipped with HON "One Key" interchangeable core removable locks. Mechanical interlock allows only one drawer to open at a time. Meets or exceeds ANSI/BIFMA and ISTA performance standards. 30% recycled content, 24% post-consumer materials. Backed by the HON Full Lifetime Warranty. ©
