

Smart Series

haskell

ON TIME. COMPLETE. CORRECT.

Smart Series™ desks are just as their name implies. Smart in quality, design, construction, and value. Whether in a corporate setting or in the classroom Smart Series™ desks have the features that you are looking for. Smart Series™ desks have over 40 standard paint finishes and an almost limitless selection of surface materials to select. Add in the many design features and options along with Haskell's approach to sustainable design and you can see why Haskell desks are the Smart choice.

smart design

Smart Series™ offers you components that make designing your perfect workspace easier than ever. Work surfaces, storage units, pedestals, and a host of other options. Smart Series™ means performance and outstanding flexibility that meets your needs by providing exceptional durability and quality.

smart construction

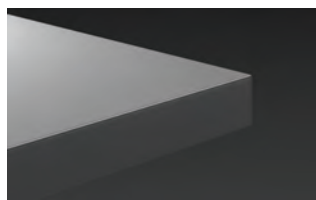

Smart Series™ is hard working, never obsolete, a classic product of quality and strength. Smart Series™ builds versatility by supporting technology and the ever changing working environment. Smart Series™ works well for both private and open office concepts for individuals or teams.

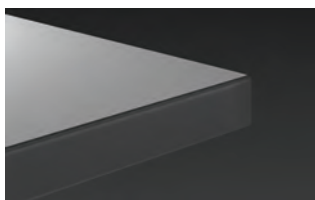

smart value

Smart Series™ components offer virtually unlimited planning capabilities, with smart product engineering to easily accommodate all technical and data requirements. Smart Series™ offers precision planning and broad flexibility with consideration for the principles of sustainable design.
