Ordering Information

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a “high-scoring” LEED material. TMC’s extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC’s Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

BIFMA

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order, a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a “Do not ship before date” in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC’s wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however; expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however; chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC’s water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however; all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color; you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer."

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater, plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

Terms, Conditions and Shipping Information

WARRANTY

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Additional Information

PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

SIZE AND AGE CHART

Recommended table and chair seat height and table height combinations for each stage of a child's development. Chair and table options recommended for 14 + Years Old are part of the adult collection.

Speciality Tables

How to Build a Product Code

PRODUCT CODE BUILDER

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify our products, we suggest you use the Ordering Instructions and Product Code Builder at the bottom of each price list page to create your corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

ANATOMY AND TERMINOLOGY OF FURNITURE

TMC's ordering system uses a product code that requires knowledge of furniture anatomy terminology you may not be familiar with. Use the following diagram as you complete your Product Code Builder, which is at the bottom of each price list page. Should you have any questions regarding unfamiliar terminology, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

Leaf table

Construction

Worksurfaces: 1" Baltic Birch with laminate or wood veneer surface. A phenolic backer on the underside is standard.

Plover Legs: Constructed of 1" thick plywood of select North American rotary-cut maple veneer with an adjustable level feature. A wide variety of wood finish colors are available.

Lorca Legs: Constructed of 2" diameter steel tube welded to a 4" x 4" steel top plate. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available. Glide is constructed of hard maple turned to match the Lorca/Wyoming chair glide with an adjustable level feature. Available in red, yellow, blue, grey and black.

Kestrel Legs: Constructed of Select North American solid maple legs squared and tapered. A metal top plate is fastened to the wood leg using (4) pan head wood screws counter sunk into the plate. The plate is attached to the underside of the table surface using machine screws into metal inserts. A hidden, adjustable glide is inserted into the leg bottom.
