Sales of in2design products are in accordance with the terms and conditions outlined in this Price List. These terms and conditions may be changed or supplemented only by a separately written document signed by authorized in2design personnel.

P r i c e s

The prices published in this Price List, as well as those quoted by in2design shall be suggested List Prices. List Prices are subject to change without prior notice. List Prices are those that are in effect at time of order receipt. If shipping date requested is more than 90 days from date of order, in2design shall have the right to use the published list prices effective at the time of shipment.

T a x e s

All prices shown in this Price List are exclusive of sales, excise, GST and other applicable taxes. The Purchaser is responsible to remit directly to in2design all such taxes as per the invoice. A Tax Exemption Certificate (if applicable) must be on file with in2design prior to the product shipment; otherwise, sales tax will be due and payable.

P a y m e n t T e r m s

All orders are invoiced at time of shipment. Terms of payment are NET Thirty (30) days from date of invoice. In2design shall exercise the right to enforce a charge amounting to 2% per month, or 24% annually on any past due invoice or outstanding balance. Any products sold by in2design shall remain the personal property of in2design until fully paid. The purchaser agrees to perform all acts which may be necessary to assure retention of title to such products to in2design until such time as the products have been paid for in full.

C r e d i t

Should the Purchaser fail to fulfill the terms of payment, in2design may defer further shipments until all such payments are made or may, at its option cancel the unshipped balance without prejudice to any other rights which in2design may have against the Purchaser. Shipments and deliveries shall at all times be subject to approval of the Purchaser's Credit.

O f f e r o f S a l e

Possession of this Price List or any other literature shall not imply in2design's willingness to sell to the holder and shall not be construed as a direct offer of sale.

Order Placement

In2design requires that all orders be submitted in writing as represented by a valid Purchase Order and accompanied by a layout/drawing to avoid errors and or duplication. In2design will not accept orders by telephone without written confirmation.

The Purchaser is responsible for providing complete and accurate information when placing an order. Orders with incorrect information will result in processing and shipment delays. Product Lead Times will be based upon receipt of a complete and accurate Purchase Order.

Order Acknowledgement

All orders submitted to in2design will be acknowledged. The acknowledgement will describe the product to be shipped, the quantity required and the net pricing, as well as the scheduled ship date.

It is the Purchaser's responsibility to review the acknowledgment for accuracy. In the event of an error, the Purchaser must notify in2design immediately (within 48 hours) by fax or telephone, followed by written confirmation.

Delivery Dates

In2design shall exercise its best efforts to deliver within the date specified on the Acknowledgement. In2design shall not incur any obligation or liability to the Purchaser for delay or failure to delivery goods due to causes beyond our control.

Order Changes & Cancellations

Any changes to the original Purchase Order must be received in writing within 48 hours of the order acknowledgement by in2design. Any change to the original Purchase Order after 48 hours will result in production rescheduling and subject to a restocking charge commensurate with the incurred production costs.

All orders are considered firm and not subject to cancellation by the Purchaser without the written consent of in2design. Special order items and C.O.M. items are not subject to changes or cancellation under any circumstances.

C.O.M. Orders

A request for Non-standard material (fabric or laminate) must be approved prior to acceptance of an order. Material must be shipped prepaid to in2design Order Department and properly identified.

For C.O.M., orders will be calculated at the Grade 1 Price. C.O.L., orders will be calculated at the Grade 3 Price. Performance of C.O.M. is the sole responsibility of the Purchaser.

Errors and Omissions

All quotations, acknowledgements and invoices are subject to corrections for any errors and omissions.

Shipping and Delivery

All products sold are F.O.B. In2design's Manufacturing Facility; Vaughan, Ontario, Canada, unless otherwise stated and agreed.

The Purchaser will determine the method of transportation and the routing of shipment. All deliveries will be dock-to-dock, unless otherwise specified.

Product Returns

No return of product will be accepted without the written consent of in2design. Any shipment returned without prior written approval will be refused and returned to sender freight collect.

Returns must be shipped prepaid in original packaging with the Return Authorization number referenced on all authorized returns.

If approved, a minimum restocking and handling charge of 35% of the original net price shall be charged on returns for credit or refund provided the goods are received by in2design in original factory condition.

Special items and C.O.M. items are not subject for return.

Claims

In2design carefully prepares and inspects all products for safe shipment. The carrier upon acceptance of the shipment assumes responsibility for safe delivery.

It is the responsibility of the Purchaser to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product sustained during transit. Product shortages must be noted on delivery receipts at the time of delivery and immediately reported to the carrier for correction.

Claims against in2design for apparent defects, errors or shortages must be filed within ten (10) days of receipt of products. Failure to claim within the ten days shall constitute acceptance of products and waiver any claim.

Storage

In the event the Purchaser requests postponement of the shipment beyond the scheduled delivery date, in2design may transfer product to storage at the Purchaser's risk and expense. Upon such transfer to storage, the Purchaser assumes risk of loss or damage.

Product Warranty

In2design warrants its products to be free from defects in material and workmanship for a period of ten (10) years from the date of delivery.

This warranty extends only to Purchasers acquiring the product directly from Authorized in2design Dealers and shall apply only to product(s) installed by Authorized in2design installers.

This warranty does not extend to C.O.M. or C.O.L. applied to in2design products, or products which have been modified or installed contrary to recommended application and installation guidelines.

In2design will not authorize any warranty, parts or labour without the appropriate warranty numbers. All claims with

respect to any products alleged to be defective must be made within ten (10) days and submitted in writing.

This warranty excludes normal wear and tear, damages caused during shipment or storage; damage due to accident; improper use, negligence or willful abuse; unauthorized alternations or improper installation.

Except as stated above, in2design makes no express or implied warranties as to any product and in particular makes no warranty or fitness for a particular purpose, other than the warranties set forth. In2design shall not be liable for any consequential, economic, or incidental damages arising from any product defect.

Customer Satisfaction

It is the primary goal of in2design and our support team to ensure the complete satisfaction of our customers with our products and performance. We will exercise our best efforts to achieve the satisfaction of our customers.

Quality Standards

All in2design products are ANSI/BIFMA tested and manufactured to ISO 9001 Quality Standards.

General Information

This Price List is designed to provide helpful information to assist with the ordering, specifying and planning of in2design products. General product information is outlined at the introduction of the Price List.

Important Ordering & Product Details are summarized on each page to support complete and accurate product specification.

Products are listed by category, with the corresponding code, description, dimension, shipping weight and price. The nominal size is provided for all products.

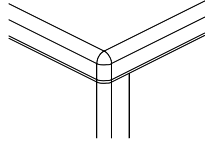

All illustrations, specifications within the Price List are based on the latest product information available at the time of publication. In2design reserves the right to make any changes without prior notice, to prices, materials, specifications and finishes offered.

Product Codes

Product codes contained herein identify the product category, product size and product attributes. Laminate finish selections are required to complete the product code,

Worksurfaces

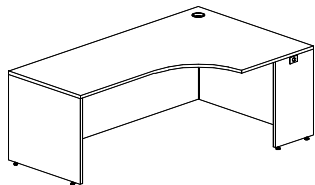

All worksurfaces are available in thermally fused Melamine or High Pressure Laminate, in a selection of finishes. Melamine Laminate worksurfaces measure 1" thick. High Pressure Laminate worksurfaces measure 1-1/16" thick.

All edges of the worksurface are seamlessly finished with 3mm thick PVC edgebanding for added durability and user safety.

Cable grommets on worksurfaces must be specified separately, with the exception of the corner tables. Corner tables include a single cable grommet.

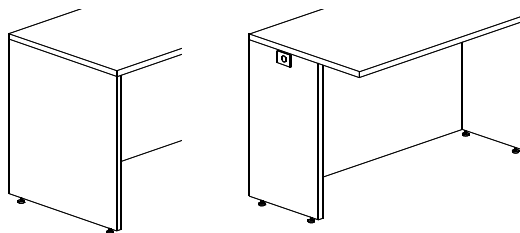

Worksurfaces are offered in a variety of sizes ranging from 30"w to 72" w in rectilinear and curvilinear shapes. Worksurfaces are available in 24", 30" and 36" depths.

Worksurface Gables

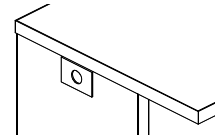

Full and recessed gables constructed of 1" thick thermally fused melamine laminate.

Full gable is inset 1/8" (thickness of 3mm) from the worksurface edge.

Recessed gable measures 12"d to permit uninhibited movement between the primary worksurface and return.

All recessed gables include a rectangular cable grommet with snap on cover to provide efficient wire management for routing cables. The grommet measures 3-1/4"w x 1-3/4" h.

Vertical edges of the gable are finished with 3mm thick PVC edgebanding for added durability and user safety.

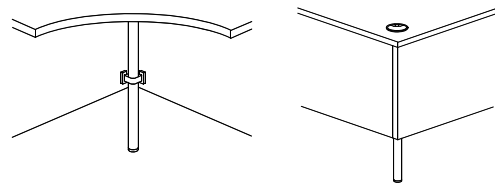

All gables are non-handed for ease of reconfiguration.

Gables include 1-1/2" leveling glide.

Modesty Panels

Modesty panel is inset 1/2" from the worksurface edge and positioned directly beneath the worksurface for increased structural integrity. Partial Modesty Panel is 18-1/2" high and provides 9" floor clearance.

Corner Table modesty panel includes 2-3/8" diameter post leg. Post leg is positioned on the inside of the modesty panel for improved aesthetics and structural integrity.

All edges of the modesty panel are finished with .5mm thick PVC edgebanding.

Connection

Metal-to-Metal mini-fix connection. All mounting hardware is included.

Pedestal Storage

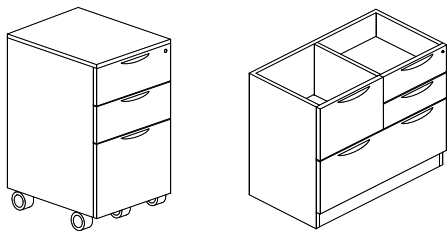

All pedestal frames and drawer fronts are constructed of 3/4" thick thermally fused melamine laminate.

Drawer fronts are available in thermally fused Melamine or High Pressure Laminate, in a selection of finishes. Drawer fronts are edged with 3mm PVC edgebanding.

Drawer interior constructed of 1/2" vinyl wrapped particle board, finished in ebony.

Styles & Drawer Configurations

Pedestal storage offered in suspended, floor supporting and mobile styles in a variety of drawer configurations.

Suspended Pedestals are attached to the underside of the worksurface via machine bolts into metal inserts.

Floor Supporting Pedestals attach to the underside of the worksurface and include four leveling glides.

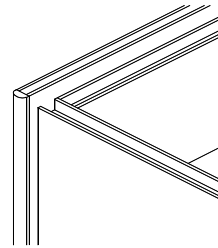

Mobile Pedestals offer five dual casters and top.

Box Drawers

Top box drawer includes pencil tray. Pencil tray is finished in ebony. Load capacity is approximately 20 pounds.

File Drawers

File drawers equipped with integrated file suspension rails.

Load capacity for a 20" deep file drawer is a minimum of 40 lbs. Load capacity for a 24" deep file drawer is a minimum of 48 lbs.

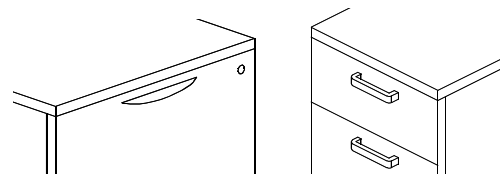

All drawers equipped with Accuride slides with over travel to permit full access to files.

Locks

Lock is standard. Lock is located on the face of the top drawer in the right corner. The lock mechanism secures all the drawers in the pedestal with a single action.

Locks are randomly keyed unless otherwise specified. Lock cylinder and core can be installed or removed using a Change Key. This allows the lock assembly to be field installed during product installation.

Handles

Curved drawer pull, in ebony and satin chrome finish is standard. Rectilinear Handle in silver finish is an upgrade.

Overhead Storage

All overhead frames are constructed of $\frac{3}{4}$ " thick thermally fused melamine laminate with 3mm PVC edgebanding.

Door fronts are available in thermally fused Melamine or High Pressure Laminate, in a selection of finishes.

Door fronts are edged with 3mm PVC edgebanding.

Flipper doors retract outside and over the cabinet top to maximize access to stored materials. Hinged Door Cabinets are equipped with European style hinges.

Overhead storage cabinets offered with flipper doors and hinged doors. Open Overhead and Corner Overhead Storage Cabinets are also available.

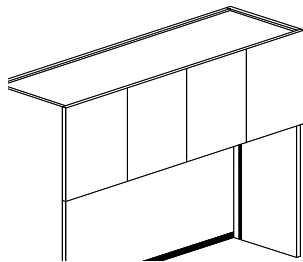

Sizes

Overhead storage cabinet is offered at 37"h. This provides 20" clearance from the worksurface to the underside of the overhead cabinet.

Overhead Storage cabinets must be securely fixed to the worksurface with double sided tape.

Wire Management

Overhead Storage cabinets features integral wire management to conceal and route tasklight cords.

Vertical wire manager is integrated in both gables of the cabinet.

In addition, the back panel offers 1" wire access, concealed with a flexible vinyl sweep at worksurface height to route cables.

Tasklights and tackboards are factory installed before shipment. Tasklights are mounted beneath the cabinet and hidden from view by the valance.

Locks

Lock is standard on Flipper Door Overhead Storage Cabinets. Lock is located in the center on the bottom of the flipper door surface. Double door Flipper cabinets feature two locks.

Hinged Door overhead storage cabinets are not available with a lock.

Locks are randomly keyed unless otherwise specified. Lock cylinder and core can be installed or removed using a Change Key. This allows the lock assembly to be field installed during product installation.

Storage Towers and Cabinets

All storage tower and cabinet frames are constructed of $\frac{3}{4}$ " thick thermally fused melamine laminate with .5mm edging.

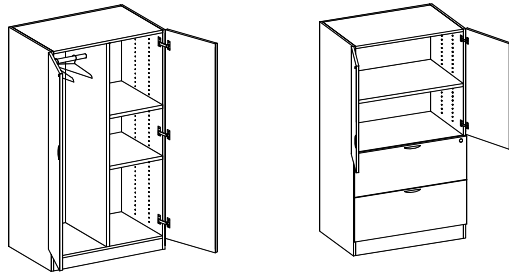

Door fronts are available in thermally fused Melamine or High Pressure Laminate, in a selection of finishes. Door fronts are edged with 3mm PVC edgebanding.

Styles

Tower Storage measure 24"w x 24"d x 66"h. Storage Cabinets measure 36"w x 24"d x 66"h. The overall height provides a continuous statement of line when combined with overhead storage cabinets.

Tower Storage measure 24"w x 24"d x 66"h. Storage Cabinets measure 36"w x 24"d x 66"h. The overall height provides a continuous statement of line when combined with overhead storage cabinets.

A variety of storage combinations and drawer configurations are available to optimize storage and space requirements.

All doors are hinged to open at 110 degrees. Doors are available with left or right door swing for easy access to interiors.

Cabinets include 1-1/2" leveling glide.

L o c k s

Lock is standard. Locks are randomly keyed unless otherwise specified. Lock cylinder and core can be installed or removed using a Change Key. This allows the lock assembly to be field installed during product installation.

H a n d l e s

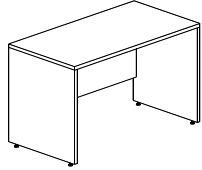

Curved drawer pull, in ebony and satin chrome finish is standard. Rectilinear Handle in silver finish is an upgrade.
