2016 Reseller Price Guide

effective through 12/31/16

A communication solution that helps patients, families and staff

Improve patient satisfaction: We've researched the best layouts and designs to improve communication, reduce anxiety, and even decrease risk of falls through the use of appropriate custom boards.

Easy to clean and keep clean: Entire surface easily wipes off with a soft cloth, disinfectant wipe, alcohol or just plain water. No need for germ-inviting erasers or special cleaners.

Long lasting: Our quality surface, framing, backing, and accessories are meant to last, even in the harsh hospital environment. In fact, our patented coating eliminates ghosting or fading and we guarantee it for life!

Reinforce the hospital brand: Add the hospital logo to reinforce a good patient experience. Customize each department's boards to maintain the brand but meet the department's specific needs.

Every VividBoard features:

Long Lasting

We use the highest quality writable surfaces, all VividBoards carry a limited lifetime warranty against ghosting and fading.

Easy Clean

Special cleaners are not required to keep the surface looking new. We have tested and approved many industrial-strength cleaners to prevent the spread of germs and infections.

Homegrown

We're proud to be made in the USA. All VividBoard products are manufactured in Lebanon, Ohio and delivered nationwide.

Customizable

We manufacture all products to order. You have the option to choose from a templated dry erase board or start from scratch by working with our design team to develop your own art.

Vivid Graphics

Our photographic imaging process transforms dry erase boards into interactive communication tools. Using the best print and sublimation technology, the design becomes the surface of the board, making every inch usable.

Sustainable

VividBoard is focused on the environment. We use up to 70% recycled materials, our coating and printing process is VOC free and we are CARB compliant.

We offer quantity discounts. For details on quantity discounts, freight policy, and art charges, see our terms and conditions page.

Why InHarmony

The premium frameless and borderless glass showcases a modern design that complements any décor. Our ¼" thick tempered glassboard resists bowing and is non-porous, so not only will it not ghost or stain, but it is also naturally anti-microbial. Print a design directly on the glass as a border, or leave it clear for a simple look. Our rigid VividCore™ insert slides in and out easily on our specially designed track, which also doubles as a marker holder.

*Please ensure you have clearance on either side of the board to remove the insert as needed

vividboard

terms and conditions

Payment

VividBoard gladly accepts the following forms of payment: Visa, Master Card, American Express and Purchase Orders. Purchase Orders will require a credit application if credit is not already on file with GMi Companies.

Freight

All products sold are FOB Factory and ship from Lebanon, Ohio 45036. Freight will be quoted and billed accordingly.

Art Charges

Art and design fees are in addition to the prices listed. Design services are \$150 per design for Classic VividBoards and MyHarmony Glassboards. For InHarmony Changeable Glassboards art could be up to \$300. Up to 3 edits are included for all designs. Additional edits and changes will incur additional charges. Pre-printed numbering for room numbers, phone numbers, etc. is available for an additional charge of \$100.

Quantity Discounts

Prices listed are for orders 25 boards. Please contact your account manager to discuss discounts for larger opportunities.

Production Time

All products are made to order. Production begins following receipt of the purchase order and after artwork has been approved. Your account manager will include a production time once art approvals have been received.

Cancellation Policy

VividBoard excels at expediting all orders as quickly as possible. All products are made to order; therefore orders can only be cancelled within 24 hours from receipt of art approval and purchase order. After 24 hours, orders can only be cancelled with VividBoard's consent, there is no guarantee that any order after 24 hours can be cancelled.

Return Policy

Because of the custom nature of all VividBoard products, returns are not accepted.

Warranty

All VividBoard products carry a limited lifetime warranty on the surface of the product. Please review the cleaning instructions for proper care to ensure warranty remains valid.
