Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

The Jasper Group family of brands, including JSI, is an international manufacturer that has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to “recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer”. In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a “Sustainable Partnership”, supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION

Our manufacturing facilities are located in Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 125 tons of corrugated material annually.

REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water, and hazardous waste disposal.

MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable and contain various percentages of recycled content. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind’s history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun’s energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood’s dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary “sustainable” renewable resource.

WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, soy-based resin bio-composites, etc.

INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering, awarding us the UL2818 - GreenGuard Indoor Air Quality standard.

Warranty (Seating)

JSI warrants, to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use for a period of fifteen (15) years of single shift service. Pneumatic lifts and casters are warranted to be free from defects in material and workmanship for a period of five (5) years. Fabric manufacturer's warranty will apply. Electrical items not manufactured by JSI are covered for a period of one (1) year. JSI will, at its option, repair or replace any defective merchandise with the terms of this warranty.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability of fitness for any particular purpose.

This warranty does not cover:

- + Natural variations in color, texture of wood, and covering materials over which JSI has no control.
- + Normal wear, color fastness, shrinkage, wrinkling, stretching of leather, and textiles.
- + Damage caused by transportation or installation companies.
- + Damage created by any accident, user modification, misuse of product, or neglect of product care.
- + Damage resulting from extreme climate conditions.

Unique Characteristic of Natural Woods and Veneers

JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configurations, and texture. These characteristics will be more noticeable if the product has a clear or lighter finish.

Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

flat cut

quarter cut

rift cut

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Please reference the featured highlights of each product line to identify the species and grain patterns available for that product.

Finish - Top Coat

To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. Our finish significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

Finish - Color/Stains

A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

Finish - Matching

Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber parts to coordinate with the requested finish. This internal selection process is subject to availability of solid lumber parts.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **\$289 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Samples

Samples of standard wood finishes, paint colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

Pricing

Prices found in this document or on our website are list prices in U.S. dollars for standard product delivery to one destination. Prices do not include storage, installation, or taxes. Possession of this price list does not constitute an offer to sell. Orders can only be received from approved authorized JSI dealers.

Prices and product information in this document, as well as our website, are subject to change without notice. Reference website for most up to date product offering and pricing.

Orders

Detailed specification pages are available in the price list at the beginning of each series.

To assist in submitting a complete order, an order check list can be referenced for each series.

Additional information may be obtained by consulting the Customer Service Department or our website.

Indicate shipping address if different from billing address.

Send Orders To:

US Mail – JSI
 225 Clay Street
 Jasper, IN 47546
 Fax – 812-482-1548
 Email – orders@jaspergroup.us.com

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

Product Modifications

While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

Order Acknowledgments

All orders will be acknowledged promptly, showing how the order was entered, shipping time, and other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Published ship dates are contingent upon adverse conditions; however, every effort is made to ship as acknowledged.

Order Cancellations

All cancellations must be made in writing. Administration and/or labor charges may be incurred by the purchaser depending upon the stage of the order. Orders cannot be canceled after the finish process has begun without incurring substantial re-stocking charges.

Once production has begun on product modifications or special finishes the orders cannot be canceled. Items purchased specifically from our vendors for the order, such as textiles or laminates, are subject to our vendor's cancellation terms and re-stocking fees.

Order Changes

All changes to an order must be in writing and dated. Order changes are subject to our ability to conform. Administration and/or labor charges may be incurred by dealer depending upon the stage of the order. No change can occur once production is started.

Quickship

Items indicated with a Quickship symbol  ship within 10 business days of receipt of a clean, credit approved purchase order. You may select up to 20 seats from the following series: Cabaret swivel or guest, Connect lounge, Corbin lounge, Encore lounge, Gatsby guest, Hedron lounge, Kendall guest, Laurel guest, Madison swivel and guest, Newton swivel, Olympian lounge, Profile guest, Protocol swivel and Tyler swivel. See individual product pages for those models available. Quickship fabrics are listed on pages 8 to 11. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified. Changes and cancellations to Quickship orders are not allowed under any circumstances.

Delivery

Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes. Standard deliveries require docks that can accommodate 75 foot trucks. Pricing in this book is for standard delivery. Standard delivery does not include non-dock delivery, inside delivery, residential delivery, or installation of product. Special requests for delivery should be done at the time of ordering. See below for charges for special delivery.

Orders of less than \$1000 net will be assessed a handling charge of \$75 net per order.

Any charges arising from failure to meet shipment, re-routing while in transit, or carrier storage charges are the responsibility of the customer.

Contact Customer Service to inquire about skidding of products, special crating of products, blanket wrap services, and product installation. These requests must be made at the time of order.

Freight Damage

JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim. Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

Repairs

JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

Returns ▲

No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. Any authorized return not due to damage or defect will be accessed a 45% restocking fee and all return freight charges must be prepaid. Additional restocking fees may apply for any modification, special or custom built product.

Liability for defective merchandise shall be limited to replacement or repair.

Under no circumstance can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

Replacement Parts

Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

Care and Maintenance

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Care of Metal Finishes

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textiles metals with a soft, dry brush to remove dirt.

Fire Retardancy

At a minimum standard, all JSI upholstered products are manufactured to comply with Bureau of Electronics, Appliance Repair, Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. With a January 1, 2015 effective date, this standard was passed and requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

California Technical Bulletin 133 (CAL 133)

JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is \$58 list per yard of textile.

JSI has performed a series of full scale fire tests on samples - representing a variety of product styles and worst case scenarios of upholstery covers - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance will be labeled that they have been manufactured to meet the CAL 133 standard. Only products with internal test data can be labeled.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

Textile Carded Programs

JSI is proud to partner with Maharam, Momentum, Ultraleather and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs

For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas
DesignTex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

For samples, contact Customer Service.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

COM Policy

Refer to the COM price column for list prices.

All yardage requirements listed in the price list are based upon 54" plain non-directional material. The textile on most products is cut "up the roll"; refer to the check list pages for each individual series for further information.

Additional yardage may be required. Contact Customer Service for any of the following conditions to assure proper yardage:

- + horizontal repeats or vertical repeats greater than 3"
- + textile less than 54" wide off the roll
- + patterned textile to be applied a special way

To assure quick turn around and accurate calculation of yardage, please supply the following information:

- + supplier's name
- + pattern name and color name
- + the JSI model numbers and the order quantity
- + any special direction and/or special instructions

We cannot assume responsibility for defective COM delivery to us or for the tailoring quality issues some textiles may create. Bulky textiles, thin weight textiles or fiber content may not tailor well on some models.

COM Fabric Repeat Guide[▲]

Roll Width	Plain Fabric	1" - 5" Repeat	6" - 10" Repeat	11" - 15" Repeat	16" - 20" Repeat	21" - 30" Repeat	31" - 40" Repeat	41" - 50" Repeat
54"	0%	10%	15%	20%	25%	30%	40%	50%
53" to 51"	15%	20%	25%	30%	35%	40%	50%	60%
50" to 48"	30%	35%	40%	45%	50%	55%	70%	90%
47" to 36"	60%	65%	70%	75%	80%	85%	100%	120%

The percentage represents the additional fabric yardage that needs to be added to the COM yardage. Contact Customer Service for repeats greater than 50".

Example:

Connect Lounge - CTI32125 - COM 9 yds
Momentum Avenue Java with a repeat of 7 ¾" L, 7 ¾" W, (54" wide roll)
9 COM yds + 15% additional = 10 ⅜" total yds

Large Repeats and Striped Fabrics

JSI does not recommend large fabric repeats or striped fabrics on large curved lounge sections. The geometry prevents matching the patterns at the seams.

Connect example shown

Contact Customer Service with questions or for suggestions on how to achieve the aesthetics you desire.

*Tips: use contrasting fabric
request fabric pattern not be matched
run fabric railroad*

COL Policy

Refer to the COL price column for list prices.

Customer's own leather requirements are based on an average hide of 50 square feet.

Contact Customer Service for requirements on any other sizes.

All square footage requirements are based upon usable footage. The shape of the hide and the usable footage may make it necessary for us to request additional leather.

Placing Orders with COM or COL

COM & COL orders must include the following:

- + model number where the COM or COL will be applied
- + textile/leather supplier's name
- + sample of the textile/leather attached to order
- + special application instructions

Ship COM/COL prepaid to the following:

JSI

Attn: COM Dept
932 Mill Street
Jasper, IN 47546

Make sure the supplier tags the shipment with the customer purchase order number and sales order numbers if available.

All COM/COL orders will ship at standard lead time from the delivery of the COM/COL, except for orders requiring special custom matched finishes or special application of the COM/COL.

Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and 20-20 CAP Studio software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

ProjectMatrix, Inc. offers a full software solution for the contract furniture industry. Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

GSAdvantage is a Federal Government electronic catalog site offered to assist GSA customers in specifying and pricing JSI product. Listed at this site are all contract items and prices under GSA Contract # GS-28F-0030U.

Our JSI website jsifurniture.com provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

Notification Regarding Registration in SAMS Database

Name: Jasper Seating Company, Inc.
Cage code: 31881

Acceptance, Modification, Assignment

By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

Payment

Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S.funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

Attorneys' Fees

Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less than 25% of the amount due, unless a lower amount is specified by applicable law).

Remedies

The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

Insolvency

Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

Limitation of Liability

The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience cause by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered here under must be commenced within one year after the cause of action has occurred.

Returns and Allowances

Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances may be authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

GSA Terms and Conditions

Security Agreement

The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

Governing Law

All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

Mitigation

If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

Integration

This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

Dimensions/Specifications/Finishes

All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact match to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

Company's Performance of Its Obligation

The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

Swivel Seating Specifications (Unique features for a model will be cited on the price pages for that model).

Rights and Lefts

The handedness of the chair is determined by seated position.

Exterior Wood Materials

All solid lumber materials used in our swivel seating are kiln dried from suppliers practicing forest sustainability. Any defects in the wood that are removed during our process are utilized in other areas of production.

Wood Arms and Base Caps are profiled or carved to shape out of solid lumber which complement our casegood product lines.

Interior Frame Materials

A combination of materials are used to create interior frame components, including solid lumber, plywood, metal plates, and high grade upholstery board.

Some of our swivel seating is made of plywood shell construction. These shells are layers of hardwood veneers molded and cured to shape. Shells can contain one or two pieces.

Construction

Tenon style joinery is used in most frame construction for our seating products; however, dowel pin joinery may also be used. Engineering will determine, based on design which joinery is best for the frame of each particular design. Critical joints are reinforced with mechanical fastening.

Upholstery Details

On frame seating, the webbing is applied to the frame, along with high resilience upholstery foam to create the seat foundation. The swivels with molded plywood, have a highly fabricated or molded foam which is applied directly to the plywood shell. This foam is contoured to the shell to create comfort and support, such as the back lumbar area. Arm and other frame members are covered with a high grade upholstery foam.

Finish

Each of the wood components that goes into a chair will have unique characteristic; the process of shaping and machining these parts may expose additional natural characteristics. To accentuate the beauty of the wood, special care is taken in selecting the frame component and base caps or each finish color.

Finish colors may vary slightly when comparing solid wood product finish to our casegoods veneer product finish. Exceptional care is taken to assure a uniform color on solid wood products.

Former finish names are listed in parentheses for reference.

Protective Top Coat

We are proud that our finish is GreenGuard certified. To reduce hazardous formaldehyde emission we use our proprietary specially designed top coat, DuraTex™. Our DuraTex™ top coat offers exceptional hardness along with abrasion and impact resistance, but has been formulated to eliminate the hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish provides a safe solution and still preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Swivel Seating Specifications (Unique features for a model will be cited on the price pages for that model)

Chair Mechanisms

Swivel Tilt

This mechanism provides for a balanced ride and for standard tilt travel. Tilt tension can be adjusted by the center knob.

Mid-Pivot Tilt

This mechanism provides a synchronized ride that cradles the occupant as they recline along with the ergonomic benefit of a reduced front seat rise. The tilt travel is greater than a standard swivel tilt and allows users to achieve a wide variety of positions. Center tension knob is a way of regulating spring force.

Full Synchronized Tilt

This unique mechanism configuration takes full advantage of seat to back synchronized ratio geometry and successfully combines the benefits gained from a forward-based pivot location. Two-piece, swivel tilt seating allows separate seat and back adjustment capability with a tension adjustable spring that offers reduced front edge rise. The tension spring gives the ability to maintain even support throughout the entire travel range, satisfying a variety of user sizes and weights.

Seat Slider

Some models have an option to provide additional seat depth with a seat slider mechanism working in conjunction with the tilt mechanism.

Height Adjustable Back

A mechanism installed in the back to allow lumbar region to be adjusted to the user needs.

Jury Base

A substitution for 5 star base, providing a platform that can be bolted to the building floor.

Some models offer the pneumatic lift jury base for height adjustment, this option is not self centering. The mechanical height adjustment option is self-centering.

Conference Height Mechanism

Replacing the pneumatic gas cylinder, this mechanism provides for a fixed seat height.

Upholstery Cover Application

Unless a customer specifies the fabric to be run "railroad", the fabric will be "cut up the roll". Additional seaming may be needed, pending fabric width and textile repeat match. Contact Customer Service with questions.

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces, with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. Avoid exposure of furniture to extremes of heat, cold, and wide variance of humidity. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration.

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft, dry brush to remove dirt.

Guest Seating Specifications (Unique features for a model will be cited on the price pages for that model).

Rights and Lefts

The handedness of the chair is determined by seated position.

Exterior Wood Materials

All materials used in our guest seating are kiln dried lumber from suppliers practicing forest sustainability. Any defects in the wood that are removed during our process are utilized in other areas of production.

Some of our guest seating may contain steam bent lumber from our proprietary process. Steam bending allows us to provide additional strength, increase our lumber yield, and provide seamless beauty in the chair.

Interior Frame Materials

A combination of materials are used to create interior frame components, including solid lumber, plywood, metal plates, and high grade upholstery board.

Construction

Tenon style joinery is used in most frame construction for our seating products; however, dowel pin joinery may also be used. Engineering will determine, based on design which joinery is best for the frame design of each particular design. Critical joints are reinforced with mechanical fastening.

Tenon

Dowels

Upholstery Details

Seat webbing is either applied to a seat pan or frame depending upon the style. High resilience foam rides on the sheet webbing suspension. Several of our guest seating models utilize solid plywood for the seat platform and this is done to meet a needed criteria.

High density foam is used on back, arms and deck. Dual density foam is also used to provide for additional comfort.

Finish

Each of the wood components that goes into a chair will have unique characteristic; the process of shaping and machining these parts may expose additional natural characteristics. To accentuate the beauty of the wood, special care is taken in selecting the frame component for each finish color.

Finish colors may vary slightly when comparing solid wood product finish to our casegoods veneer product finish. Exceptional care is taken to assure a uniform color on solid wood products.

Former finish names are listed in parentheses for reference.

Protective Top Coat

We are proud that our finish is GreenGuard certified. To reduce hazardous formaldehyde emission we use our proprietary specially designed top coat, DuraTex™. Our DuraTex™ top coat offers exceptional hardness along with abrasion and impact resistance, but has been formulated to eliminate the hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish provides a safe solution and still preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Upholstery Cover Application

Unless a customer specifies the fabric to be run “railroad”, the fabric will be “cut up the roll”. Additional seaming may be needed, pending fabric width and textile repeat match. Contact Customer Service with questions.

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces, with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. Avoid exposure of furniture to extremes of heat, cold, and wide variance of humidity. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration.

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft, dry brush to remove dirt will cause finish deterioration.

Seating

Wood Materials

Exterior surfaces are laminated veneers either in plain sliced walnut or rift cut white oak.

Seating exterior components are made up of layers of hardwood veneer molded to shape and RF cured. Outer veneers are matched for a uniform grain pattern. Exterior plywood is 5/8" thick.

Interior seating frame and support components are made from 3/4" interior grade plywood.

Metal Materials

Exterior feet and leg frames are fabricated from 14 gauge steel tubing and welded to pre-set standards.

Construction

Seating interior frames are constructed with upholstery grade plywood with precisely cut interlocking joints. All joints are glued and reinforced with staples. Critical joints are fastened with screws to reinforce the joint. Frame components are assembled using t-nuts for metal to metal connection.

Upholstery Details

Seating suspension for modular units has a 3-1/2" high-resilience seat foam placed onto sheet webbing for comfort and durability. Back and arm foam is a high density foam for comfort and durability.

Freestanding upholstered units have 6" thick high-resilience seat foam for durability. The bottom of the seat plywood is ventilated to allow the seat foam to breathe. Back and arm foam is a high density foam for comfort and durability.

Single needle top stitch is used on all BeSPACE models.

Exterior Metal Components

Leg frame is welded to pre-set standards and then the outer surfaces are prepared for powder coating. Leg frame and glide will be same color.

Three powder coat finishes are available:

Matte Black	MBK
Soft Nickel	SNK
Stardust Silver	STS

Legs with adjustable glides are mounted with internal connections which are embedded into the plywood exterior. The angular cut matches up with the plywood exterior for a floating appearance.

Special Features

Model BS-1 Lounge Chair with the swivel mechanism and four prong base with non-adjustable push-in glides features a 360° swivel. The standard 3.5° rearward tilt is welded in to the spindle of the mechanism plate, the spindle sits into a passive hub of the prong base.

Finish

To accentuate the beauty of the walnut or white oak veneers a clear finish coat is applied to the exposed plywood shells and platforms.

Exterior Seating Plywood Shell and Platforms are available in two finishes:

Clear Coat on Walnut	CLW
Clear Coat on Rift Cut White Oak	CLK

To reduce hazardous formaldehyde emission we use our proprietary specially design top coat, DuraTex™. We are proud that our finish is GreenGuard certified.

DuraTex™, offers exceptional hardness along with abrasion and impact resistance, but has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish provides a safe solution and still preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Care and Maintenance

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at www.jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions however lubricant can be used if needed.

Metal Components

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft, dry brush to remove dirt.

Casegoods

Wood Materials

Exterior surfaces are laminated veneers either in plain sliced walnut or rift cut white oak.

Casegood tops are made up of layers of hardwood veneers molded to shape and RF cured. Outer veneers are matched for uniform grain patterns. All casegood tops are 3/4" thick plywood.

Casegood chassis, doors and drawer fronts consist of veneer over composite wood core; all wood core components are 3/4" thick.

Metal Materials

Exterior feet are fabricated using 14 gauge steel tubing and 14 gauge flat stock.

Construction

Casegoods are constructed with a series of glued wood dowels and metal-to-wood fastening hardware to reinforce critical joints.

Feet are field installed to prevent shipping damage, pre-bored holes make installation easy. Instructions, feet, and other hardware will be packed inside the carton.

Drawer boxes are constructed from plywood components with dovetail joinery, providing superior tensile strength to the box. Under-mount drawer suspensions are "full extension" which allows the drawers to open fully. The "soft-close" mechanism allows the drawers to close with a slight push. Drawer and door fronts feature a finger pull and are non-locking. Drawers in the BeSPACE product line are not intended for filing.

5-sided drawer box

Casegood Feet

Feet are fabricated with a flat plate which is screwed to the bottom of the casegoods. The feet have an adjustable glide for ease of leveling.

Three powder coat finishes are available.

Matte Black	MBK
Soft Nickel	SNK
Stardust Silver	STS

Glide matches powder coat finish selected on feet.

Credenza units have wire pass through incorporated into the interior dividers and bottom panels to allow for wiring to pass easily through the unit. A metal stress-bar runs the full length on the bottom side of the credenzas providing additional support.

back view

Optional matte black grommets are available in the back panel but must be specified. Grommets are located as shown, center on single height units and two locations on transition height units.

Optional Data/Electrical Components

EC22 Power Center- Flush Mount

EC22 unit provides electric for two 110 devices and one USB 2-Port Simplex for charging. This factory installed unit is mounted in the front or back panel(s) of modular closed tables. When ordering specify color and location, see below. Power is connected to the building supply with 10' standard three prong cord. Access and storage of excess power cord is provided in the cavity of the tables.

Note: Power Center color, Black (B) or White (W) must be specified.

EC21 Power Center - Under Mount

This accessory item features one 110 device and one USB 2-Port Simplex for charging. The EC21 unit is ordered separately and can be mounted on the bottom platform of casegoods and lounge seating, see "Power Center Under Mount" on page 176.

Credenza with Optional Cushions

Bench Height and Transitional Height credenza units can be ordered with an optional factory installed cushion. (Select appropriate fabric grade when pricing the unit). Cushion should not be removed due to permanent attachment.

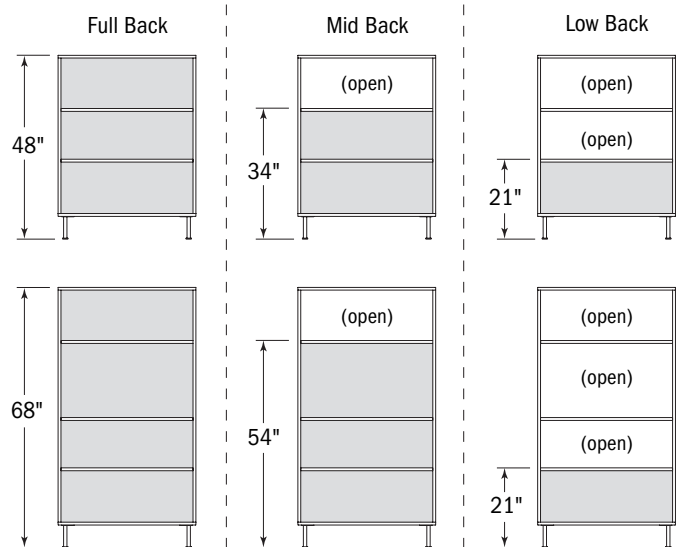

How to determine Left and Right

Left and right is determined by facing the unit; the transitional height unit determines the left or right orientation.

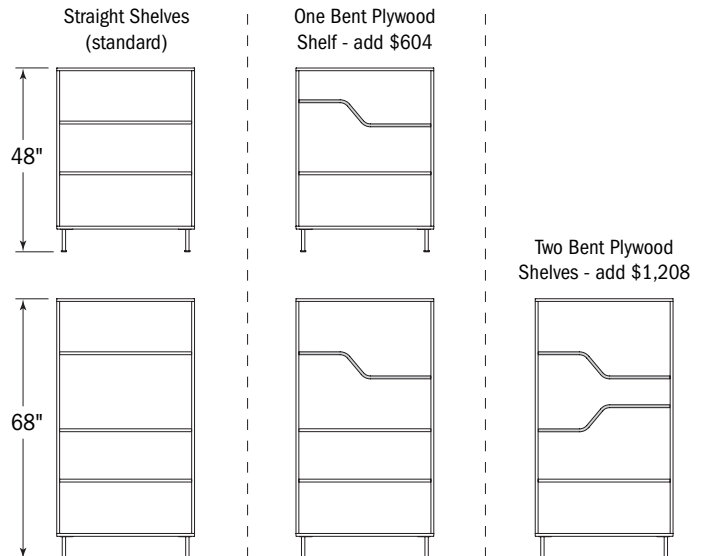

▲ Bookcase Back Heights

Bookcases are available in two heights, 48 and 68 inches tall. When ordering, please specify one of the three back height options; Full Back, Mid Back or Low Back.

▲ Bookcase Shelving

All bookcase shelves are offered straight as standard. The lowest shelf is always fixed and straight. Upper shelves are adjustable and available with optional bent plywood. The bent plywood shelves are reversible, they can slope in either direction. When ordering bookcases with bent plywood shelves, please specify and add \$604 per shelf to list price.

Modular Tables and Modular Lounge - Connecting

1. To create turns with in a product run, connect 120° units with other 120° units or 90° (square end) units with other 90° (square end) units to create turns.

2. For a flat tailored surface corner units will have a seam on the linking side.

Note: 120° and 90° (square end) units cannot be connected to one another

- When using textiles with a pattern or large repeats we recommend specifying the corner units with "C" at the end of the model number. Note there will be a diagonal seam allowing for a textile match. If the upholstery cover is non-directional the diagonal seam will be eliminate

- Modular tables are shipped with connecting hardware to secure units together. The draw catch style hardware makes connection easy. Pre-bore holes are standard.

- Modular lounge units are shipped with two sets of connecting hardware to secure them together. The draw catch style hardware makes connection easy. Pre-bore holes are standard.

Upholstery Application

Unless the customer specifies the fabric to be "railroaded", the fabric will be "cut up the roll". Additional seaming may be needed pending fabric width and textile repeat match, contact Customer Service with questions.

"Nap" or "Up the Roll" (standard)

Railroaded (upon request)

Contrasting Upholstery

Units can be specified with a contrasting upholstery feature. When this feature is desired the unit **will be priced based on the highest grade fabric**. At the time of ordering identify the location of each textile according to the following code.

- A = Seat
- B = Front Back/Extreme Back
- C = Deck or Deck and Arm (s)

How to Determine Left and Rights

Left and right is determined as you are seated in the chair.

BS2424DCT Table

This corner table is designed to create a 90° (square end) turn with two modular components as shown in the example below. The "A" or "B" back panels are identified to help specify the location of the EC22 power data unit. When ordering an EC22 specify "A" and/or "B" location. The two back panels are slightly recessed. The grain runs diagonal on the table top.

BS2424SCT Table

This table is designed to create a straight run of modular components as shown in the example below. The EC22 can be installed in the front or back panel. The front and back panel are slight recessed. The grain on this top runs side to side.

7. Wood Back Rail

For added elegance Connect Low Back units with two arms may be specified with the Wood Back Rail option. The 6" tall wood back rail enhances the back detail as you approach the units from the rear making this a nice feature for "freestanding" applications. This option reduces the back depth by 1 1/8". The back rail will be in the same finish color as the rest of the unit. Specify Wood Back Rail and add \$136 list per unit.

8. Power Center - Flush Mount:

Units with arms, end table, console, linking table or stand up surface can be specified with the Power Center Flush Mount option featuring two waterproof 110 outlets and one dual USB port. Power is connected to the building supply with a 10' long standard three prong cord. Access and storage of excess power cords is provided in the base of the arm or console. Power Center is not available on Corner Seats or Corner Tables.

Power Center (EC22):

- Left or right arm with one Power Center per arm mounted vertically in the front; add \$504 list each, indicate left or right arm (as seated)
- End, console, straight or wedge linking table with one Power Center mounted front to back in top; add \$504 list each
- Single seat unit with a stand up surface and one Power Center located 7 1/4" under the surface and centered in the back; add \$504 list
- Two seat units with a stand up surface and two Power Centers located 7 1/4" under the surface and centered in each back; add \$1,008 list
- Three seat units with a stand up surface and two Power Centers located 7 1/4" under the surface and centered in the back of the left and right backs; add \$1,008 list

NOTE: Power Center color, Black (B) or White (W) must be specified.

Power Center (EC21) - Under Mount:

This accessory item featuring one 110 volt power receptacle and one dual USB port mounts to the underside of units. See page 274 for additional information.

9. Drink Holder

Units with an arm, end table, console or linking table can be specified with the drink holder option. The drink holder features a plastic base with rubber coaster and a metal trim cap.

Drink Holder (DH):

- Left or right arm with one drink holder per arm; add \$84 list each and indicate left or right arm as seated)
- End table, console or linking table with two drink holders; add \$168 list

NOTE: Metal trim cap color will match the Metal Leg Color. Drink holder cannot be ordered on an arm with a tablet arm.

Table Power Center and Drink Holder Standard Locations:

10. Tablet Arm:

- rotating
- 10" x 18" veneer surface
- Specify Tablet Arm option left (TBL) or right (TBR) and add \$476 list for each tablet arm specified

11. Product Options: ▲

Optional Coordinating Wood Grain Laminate Surfaces:

No additional upcharge. Finishes with an asterisk (*) have a coordinating laminate available.

(For wood cap arm, tables or tablet arm)

Optional Nylon Glides: No additional upcharge

Special Finish: \$289 list upcharge

Connect Modular Lounge Order Check List (cont.):

Features:

- 20" and 30" seat widths
- four back heights available on units with a 30" seat width
- arm models with a 20" seat width have an arm width of 5"
- arm models with a 30" seat width have an arm width of 10"
- all units have a 1 1/4" wood base platform
- end table, console and linking tables are made of plywood construction with maple veneer surface
- metal legs are 1 3/4" x 1 3/4" x 8 1/4" 16 guage steel tube with metal leveling glides

Linking Brackets:

Each unit ships with two sets of link brackets; two latches and two hooks providing quick connection to form limitless configurations.

Contrasting Upholstery:

Units can be specified with a contrasting upholstery feature. When this feature is desired the unit **will be priced based on the highest grade fabric** selected for the seat, back, arm(s) or headrest. Specify the seat (A), back (B), arm (C) and headrest (D) fabric on your order.

Planning Section:

Modularity:

Modularity and versatility allows you to fit Connect into any footprint using large and small scale components or a mix of both. The use of wider and fewer units will diminish the number of legs in a configuration. More units shorter in width will increase the number of legs in a configuration.

Curved Units:

Curved units in varying radius degrees are available to help aid in creating configurations with different twists and turns. Typicals showing each of these units in a semi-circular configuration are shown on pages 212–217.

Back Heights:

Units with a 20" seat width are available with low back height or bench style.

Units with a 30" seat width are available in bench style or four different back heights; low, mid, high and privacy. 7" and 14" headrest are included on the High and Privacy back respectively.

Complementary Components

Units with a 30" seat width and a high or privacy back are available with a 10" deep stand up laminate surface with a coordinating 3mm PVC edge. These surfaces may be used as touch down spaces or to provide tiered type seating.

Laminate Color Selection for Stand Up Surface:

ALB	Alabaster	SHD	Shadow
BBL	Bridal Blanco	SLG	Slate Grey
DWH	Designer White	TAU	Taupe
DOV	Dove Grey		

Media Cabinets

20" deep x 60" wide straight and curved Media Cabinets with and without acrylic screens can be used for presentation and training sessions. 20" deep straight and curved media benches are available to compliment the configuration.

Media Activity Center

For meetings and presentations with an overall footprint of 60" x 72" or 60" x 84", the Media Activity Center is available with either a bullet or rectangular shaped top. These units may also be ordered with or without a back panel. The back panel feature includes a TV mount. For all of your media collaboration needs the DropShare unit can be ordered. DropShare is sold separately, see page 274.

Four Caster Set
Non-locking

Adjustable Foot - Leveling

The standard foot has integrated leveling, which is beneficial when connecting units together in long runs on uneven floors. As the glide is turned to adjust leveling an attached shroud drops to hide the threads of the bolt.

The maximum recommended adjustment is no more than 1 3/4".

Upholstery Application

The fabric will be applied "up the roll" unless railroad is specified.

The Concave Corner unit will have a diagonal seam on all fabric applications. Shown below is an example of a directional textile on the Corner Club unit.

Additional seaming may be needed pending fabric width and fabric repeat match, contact Customer Service with questions. JSI will strive to match fabric patterns but cannot guarantee a match on repeats greater than 15" on the Moto product line.

Modular Lounge and Linking Drum Tables

An Alligator Clip assembly is installed to connect lounge and linking drum tables. The clip is installed on the left bottom side rail and the hook is installed on the right bottom side rail. The bottom chair rails are bored to accept either the clip or hook for field re-configurations.

Note: Linking Table Tops are permanent bolt thru attachment and do not use the above clip.

Lounge Seating - Seam Detail

Seats have a seam detail in the center of the seat. This seam detail is standard and will help keep the tailored look of Moto. Please note that fabrics and leathers are all different (fiber content, yarn elasticity and yarn weight) which can affect the tailoring of the Moto Lounge. The aesthetic seam helps with variations in the upholstery cover. Contact Customer Service with fabric and leather information if a concern exists with a certain upholstery cover.

LOUNGE

Linking Drum Tables - Power Location

The EC24 or EC23 are available on linking drum tables. Wire management moves through the bottom cavity. The location shown below is for all table shapes.

EC24

Work Tables - Power and Wire Management

The optional EC23 or EC24 is recommended for the work tables. When electrical units are used on the work tables with a conical base, the base allows wires to run through to a floor outlet. The unrestricted opening at the bottom of the base allows the base to be placed over the floor electrical monument.

EC23

Both the EC23 and EC24 are centered on the top under the base.

Conical Table Base - Material and Grain Direction

The conical base on the pull-up and work tables is polystyrene material with a wood grain texture. This base is available in wood finishes and paint colors. Color Coordinate Finishes are intended to coordinate with select laminates. Adjustable leveling glides are included.

Media Tables and Media Credenzas - Wire Management and Power/Data

Easy access to wiring is provided in the Moto Media products. Well placed grommets, doors, and allowance inside the cabinets makes it easy to outfit these units quickly. The recommended EC25 brings power and data access to the top.

4. Fabric Selection - Please supply the following:

- Fabric vendor
- Pattern name
- Pattern color

When specifying contrasting upholstery, indicate clearly which upholstery is to be applied to the seat, back and arms. Use higher grade pricing.

- Indicate direction of fabric - Railroaded or Up the Roll
- Please provide illustration, if available

All COM orders must include the following:

- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number

Ship prepaid COM material to:
 JSI
 Attn: COM Dept
 932 Mill Street
 Jasper, IN 47546

Application of fabric:
 Railroaded Up the Roll

All COM orders will ship at standard lead time from receipt of COM except for orders requiring special custom matched finishes.

5. Button/Reverse Diamond Detail - add \$139 list for single seat unit, \$180 list for two seat unit and \$300 list for three seat unit. Fabric direction on top and bottom sections run with the nap. Side sections run railroad. Ex: stripes run vertical on top and bottom sections and horizontal on side sections.

Overview

Ziva is a comprehensive collection of freestanding and configurable seating with an offering of occasional and work tables.

Freestanding

Freestanding Surround

Modular

Table

Features

Functional details are integrated into the high design of Ziva. The linear stitch pattern in the lumbar area creates interest, while adding comfort. End and middle arm options allow for optional tablet. The custom foot allows for leveling and supports the caster option, if mobility is needed.

Lumbar Support

End Arm

Middle Arm

Foot with Leveler

Stand Alone Options

The freestanding units come with a variety of options. The front casters and back handle on the single seat provides for mobility. An upper privacy surround on the single or two seater has acoustical capabilities, creating visual and audible privacy for the seated user.

Front Casters

Pull on Outside Back

Privacy Surround

Ziva's stand alone lounge may be specified with a Black (B) or White (W) power outlet on the side, in the arm, or the privacy surround. The unit has two 120 volt outlets and two USB power outlets capable of powering two small devices. The fourth section is open and can be field fitted with a custom selected port.

Power Outlet

2- 120 volt
2- USB Power

Configurable

Ziva's modular lounge is comprised of wedge and quarter round units in addition to three sizes of in-line units. The backs on the round units are offered on the inside or outside to allow for concave or convex configurations. Modular bench, available in round or in-line, enhance the layout possibilities while creating an open plan solution.

Recommended Combinations

Ziva is designed to fit the user's preference. To uphold the design statement of Ziva, it is recommended that adjacent layouts have backs on the same side (*example 1 & 2*) or attached to a bench (*example 3*). Opposite facing configurations may be achieved by placing a bench or benches in between the two directions (*example 4*).

LOUNGE

Ottomans and Tables

Ottomans and tables can complete a layout and provide functionality. The ottomans are available in three diameters.

The light scale tables have an Arctic Silver powder coat frame with wood or optional Glacier White solid surface top. The versatile work height tables serve as an end table and arm rest. They can be positioned over benches or the seated user to be used as a work surface. Tables are available in square, rectangle, or half round. They are designed to be used individually or paired up with a matching table.

Both the ottoman or the half round coffee table fit perfectly inside round configurations.

End Arm

Units which are armless on one or both sides may be specified with an optional end arm. Information for the optional arm is listed on page 418. When available, it is best to specify a model number that includes arms instead of adding the arms as an option. **Arms cannot be field installed.**

End arms are factory installed when ordered with a unit. Once an arm is attached, removal is not recommended due to boring holes in the upholstery.

Below are recommendations for the end arm.

Note: Arm can only be mounted on the side of a unit with a back.

Middle Arms

Modular In-Line and Quarter Round units may be specified with a middle arm. Locations for the middle arm require two adjoining backs. Middle arms are not available between two separate units.

The middle arm is ordered as a separate line item option and pricing is listed on page 418. Optional middle arms must be factory installed.

In-Line

Quarter Round

Tablet Table Option

All arms on freestanding and modular units are available with an optional 14" diameter tablet. It is offered in 3/4" thick wood or 1/2" thick Glacier White solid surface. The wood tablet is available in Cherry, Maple and Walnut.

The tablet is on a swivel mechanism allowing it to be placed closer to the user. The recommended weight limit for the tablet is 75lbs. JSI does not warrant any damage as a result of excessive weight.

Important Upholstery Information

To reduce the number of seams and to achieve a clean look, **Railroaded** off the roll application is standard for Ziva. Line art and pricing for Ziva reflects railroaded fabric. **Due to the size of Ziva and minimal seams, patterned fabrics with the nap (side to side), and leather are not recommended.**

JSI strives to achieve customer satisfaction, therefore requests for patterned fabrics, with a nap application, and leather will be reviewed on a case by case basis. Fill out the sample form on the next page and contact Customer Service. Additional fabric yardage may be required and will be the customer's responsibility. The customer may also be asked to approve additional seaming. Other additional charges may apply. If a patterned fabric is specified, JSI does not guarantee matching at seams.

Standard Seaming

The back and seat are upholstered separately and therefore will have no joining seams, only tailoring seams as per the product design. Shown below are examples of seams required to join the fabric on the seat and surround. (marked with a ●)

The seat seam is hidden on freestanding and modular units with full backs. Partial back modular units have seaming on the bench section on the same side as the back.

Benches (freestanding and modular) and ottomans have tailoring seams to align with the feet on the seat platform.
